A Turn of the Earth.

A Case of a Modera

By JEFFERSON PORT.

. ************* bones among the ragged Lower California hills, and the vultures had sailed away to other banquets. Ives wondered if they would come back to unarrel over his remains before long.

Ahead of him was a Golconda of iches—of course! Had not that half breed Mexican, Felipe Ordero, filled his ears with tales of the gold to be picked up in that canyon down in

Lower California? True it was that

He made his way through the grove of nut trees and was once more on a certain rocky trail when it occurred to him that night was drawing in and he

him that night was drawing in and he must make camp until morning. So he returned to the nut grove, ate a scanty meal and threw himself on the warm ground and went to sleep, sore at heart and bitter with the whole world.

It was just before dawn that he awoke to a strange rocking motion. Birds were twittering excitedly among the trees; the gray of coming day was in the sky, and something else—something strangely electric—was shaking the earth beneath him until he staggered to his feet sick and dizzy with the sensation. he sensation. He heard the crash of rocks in the

olings beneath him, and that which he bings beneath him, and that which he had thought was solid earth suddenly heaved upward and threw him, together with the little nut grove, slipping and tumbling and finally crashing down the sides of the rocky canvon

The rocks of the canyon had heaved nd ground themselves together into ew shapes, and when Clarence fell among them his body was cradled among the thick branches of the trees that had fallen with him, and altogether were wedged among a new for-

again at the place where the huge beetling rock had stood guard over the head of the stream. The rock with the serpent carved upon it had tumbled over, disclosing beneath it a

tumbled over, disclosing beneath it a deep indentation of the earth. Here something glittered in the rays of the sun, and Clarence scrambled over rocks and trees until be hung breathlessly over this storehouse of golden treasure. Nuggets of pure gold, rubbed smooth by the grinding process of water and rock, were pocketed here. Nature had opened her storehouse for him after all, and she was a liberal dame when she chose to give bounty. Feverishly an, and she was a noteral adme when she chose to give bounty. Feverishly he filled one of his empty canvas food sacks with the precious lumps, and when not one remained in the cavity he turned away, satisfied a fortune was big.

had secured his bag of precious metal

former bed from which he had rescued his golden store. After a few faint shiverings the earth ceased turning in

Dr. Johnson and Fruit.

The return of the strawberry season was always heartily welcomed by Dr. Johnson, for, as he once declared, of strawberries and cream he never could have too much. Fortunately he sometimes had opportunity to indulge his taste to the full, for his friend, Dr. Taylor of Lichfield, whom he contrived wher, possible to visit at strawberry time, was rather a noted fruit grower, and when at his house it was, as Johnson said, with gusto, "Strawberries and cream," A voracious eater at any time, Johnson's appetite for fruit was almost limitless. Mrs. Thrale tells us that he used often to eat half a dozen peaches before breakfast, and then frequently she had heard him complain that never in all his life had he quite as much wall fruit as he desired, save once. The exceptional occasion was during a visit to Lord Sandys' seat at Ombersley. The exact quantity he then devoured has not been recorded, but he was accused of clearing a whole wall side.—Pall Mall Gazette.

dark after exposure to sunlight or electric light, but some do to a remarkable

degree. A diamond rubbed with a woolen cloth or against a hard surface will sometimes shine brilliantly.

trie light, but some do to a remarkable degree. A diamond rubbed with a woolen cloth or against a hard surface will sometimes shine brilliantly. The emission of light is a property belonging to many if not all kinds of crystals. The emission of light is a property belonging to many if not all kinds of crystals. A variety of white marble found at Hastings-on-the-Hudson, N. Y., gives a looked about him at a strangely transformed canyon. The earthquake had riven the earth in a dozen places; had tossed huge rocks aside as if they were the merest pebbles; had diverted the little stream in a new bed.

Clarence Ives stared and stared again at the place where the huge beetling rock had stood guard over the head of the stream. The rock had stood guard over the head of the stream.

onous until its extent entitles it to the name of prairie or desert and it gains

interest through vastness.

There was an old couple in the village whom I used often to go to see. One day when I found them sitting, one on each side of the fire, the old man said to me:

"Well, t'missis and me, we've been married nigh on fifty years, and we've never had one quarrel."

The old woman looked at me with a twinkle in her eye and said:

"It war varie conscientious, but varie dool."

The Bloody Hand.
The noted English family of the Holtes has for its badge a bloody hand, and this sinister badge commemorates a wager that ended in a crime. Sir Thomas Holte one day in 1612 was hunting. He invited his comrades home with him to dinner, and as he rode along he made a heavy bet on his cook's punctuality. But the cook failed him for once. When he got home dinner was not ready. The jeers of his companions at this failure, together with his huge loss in the matter of the wager, enraged him so that he ran into the kitchen, seized a cleaver and split the cook's head open with it. Afterward his family, to keep this crime alive, adopted for its crest the bloody hand of the cook killer.

where the bit is the protection and consistent and protection and the same report of the

raitering With the Cternal Verities.
The uncle from the west took his
little Boston nephew on his knee.
"Wadsworth," he said, "once there
was a man"—
"Then he still exists, Uncle Peter,"
interrupted the little Boston boy,
"No sentient, reasoning being within

whom the vital spark has found lodgment on this mortal plane ever ceases to be, albeit his activities may nihilation is abhorrent to the aesthetic sense. Matter may vanish from the sight, but the elements of which it is composed are imperishable. In like manner the intangible essence that constitutes the real man, the ego, survives all changes and mutations. It is the indestructible, sempiternal self, that persists through the ages. A little reflection, Uncle Peter, would convince you that the time worn phrase, once there was a man, is a solecism."

Uncle Peter after a little reflection put the boy down from his knee and began to talk of something else.—Chinihilation is abhorrent to the aestheti

cago Tribune.

Love and a Ring.

The story of one woman's pride and devotion comes out of a jeweler's shop. A young man bought an engagement ring. Apparently he was an impecunious young man. At any rate, the ordered an imperfect diamond. In less than a week his fiancee called at the shop alone.

"Is this a flawless diamond?" she asked. "I want an honest answer."

She got it.
"I thought so," said she. "Poor fellow! I don't blame him. He did the best he could. I don't care for myself, but I have friends who are good judges.

but I have friends who are good judges of diamonds, and it would nearly kill me for them to find out that he gave me a cheap ring. Will you take this stone out and replace it with a first class diamond? He will never know the difference. I will pay the hill."

The cavalier was about to commence his repast when a fresh knock at the door restrained him. Again a gentleman, denethed with rain, demanded selter.

"Is that you, Henry?" said the one. class diamond? He will never know liant flashes, sometimes bright enough to illuminate the hands of the person holding them. Smoked quartz and other varieties sometimes show a similar phenomenon. — Chicago Record-Herald.

Class diamond? He will never know class diamond? He will never know the difference. I will pay the bill. The substitution was effected, and that young woman is now proudly showing an engagement ring that for whole west side.—New York Times.

nervous temperament, and only very sympathetic treatment can effect a cure. Stammering in a child should receive immediate attention, and the first thing to be done is to improve the little one's health by means of plenty of sleep, fresh air and good food. Every day he should take deep breathing exercises in the open air. These deep, steady inspirations strengthen the muscles of the throat and counteract a spasmodic habit of breathing. Notice should be taken of the sounds which the little stammerer has most trouble with, and sentences containing these sounds should be toomposed for him to repeat each dayver yellow and clearly. He should also be asked to read aloud every day. This exercise should be omitted whenever he seems overexcited or run down in health, and it goes without saying that he should never be scoild-standard the scoil the second. He such that the should never be scoild-standard the scoil the second, he funds the second, he stoud is the second, he stoud is the second, he stoud is the second, he second standard st ed or laughed at.-New York Tribune

the one dollar notes nor those of \$10.000 represent the larger item in the currency circulation. There are 22.100 notes of \$10.000 each outstanding—a total of \$22.160,000. But the most important is the ten dollar note of which 6.699.464 are in circulation, representing a total of \$603.944.640. So the ten spot is your Uncle Samuel's favorite issue.—New York Mail.

rubber articles, every process open for inspection.

The womaa's department shows every thing that a woman could wish for, in its most attractive form.

The success of the Educational department of the Exposition has exceeded even the expectations of the committee which had it in charge.

The Exposition as a whole is the broadest, most enjoyable, and educational movement that has ever been held in New England.

Chester I. Campbell, the General Manager, has supplied a fitting setting for the various exhibits, and the music supplied in Grand Hall by the American Band, and in the Exhibition Hall

tures of Woburn gave way to the more generally commercial, which introduced the modern changes which we now see. The mechanic and the manufacturer became the leading men, and the tiller of the soil less frequent as a factor of progress. The progress since 1830, in comparison with the years previous to that date, has been miraculous, We can see it all around us. The availage.

Kills A Murderer.

A merciless murderer is Appendicitis with many victims, but Dr. King's New Life Pills kill it by prevention. They gently stimulate stomach, liver and bowels, preventing that clogging that invites appendicitis, curing Constipation, Headache, Biliousness, Chills. 25c at Al Druggists.

AIR CURRENTS.

The Forces That Operate to Make the Wind Blow.

In reference to air currents and the reasons why the wind blows the astronomer royal of England explains other, and that under certain conditions they can be compelled to compelled the compelled to compelled the compelled the compelled to compelled the compelled to compelled the compelled to the compelled the contracts of the compelled the contracts. If the bottle be cooled by surrounding it with ice the air in side contracts. When this occurs more air rushes in through the bottle's neck. The quart of air now weighs more than twenty-two grains. If the bottle has the contracts of the compelled the contracts of the compelled the comp

iess than the original twenty-ty grains.

Now, consider the earth and the sunder the influence of varying degree of the sun's heat. Where the heat greatest the air is made lighter as expands. Where the heat is least to air is unexpanded and heavy. Bo the hot and the cold air have weigh that the cold before the heater. the hot and the cold air have weight, but the cold, being the heavier, is drawn more effectively down to the ground. In doing so it drives the lighter air up out of its way, just as a lump of lead dropped into a pail of water forces some of the water upward. If the earth were equally warm at every part and continued at a constant temperature wind could not exist. It "blows" because of heat and gravitation. In other words, air moves from the place where its weight or pressure is most toward the place where its weight or pressure is least.

Mother at Prayer.

Mother at Prayer.

Once, says a writer, I suddenly opened the door of my mother's room and saw her on her knees beside her chair and heard her speak my name in prayer. I quiekly and quietly withdrew with a feeling of awe and reverence in my heart. Soon I went away from home to school, then to college, then into life's sterner duties. But I never forgot that one glimpse of my mother at prayer nor the one word—my own name—which I heard her utter. Well did I know that what I had seen that day was but a glimpse of what was going on every day in that sacred closet of prayer, and the consciousness strengthened me a thousand times in duty, in danger and in struggle. When death came at last and scaled those lips the sorest sense of loss I felt was the knowledge that no more would my wother be praying for me.

Attacks School Principal.

Attacks School Principal. Attacks School Principal.

A severe attack on sehool principal,
Chas. B, Allen, of Syivania, Ga., is thus
told by him. "For more than three
years," he writes, "I suffered indescribable torture from rheumatism, liver and
stomach trouble and diseased kidneys.
All remedies failed till I used Electric
Bitters, but four bottles of this wonderful remedie qured me completely." Such
results are common. Thousands b'ess
them for curing stomach trouble, female
complaints, kidney disorders, billiousness
and for new health and vigor. Try
them. Only 50c at All Druggists.

BROUGHT HIS TOOTHBRUSH.

But Saint-Saens, the Composer, Didn't Shock Parisian Society. The Cri de Paris told the following story of Saint-Saens, the composer: A rare visitor to Paris, he is on his visits

A WHISTLER PICTURE.

The Story of Henry Irving's Portrait

The Story of Henry Irving's Portrait as Philip II.

The queer ups and downs of a picture are illustrated by the history of the portrait by Whistler of Henry Irving as Philip II. of Spain, now hanging in the Metropolitan museum, in New York. Whistler at a precarious period of his career asked his friend Irving to sit to him for a portrait in the character in which Irving was then playing, Philip II. The portrait was painted, and Irving, much pleased, requested Whistler to let him buy it and to name a price not too high for his sleader purse. Having had the pleasure of Whistler's acquaintance, the writer can imagine the following conversation:

"Not too high, Jimmy! You know—aha—that actors—now, modestly, Jimmy!"

"My dear Irving, 'tis a masterpiece, but you shall have it for a song—iet us say a thousand pounds."

"Too much, Jimmy—too much!"

Whistler kept the portrait. Soon after, in one of those unpleasant expeid. On arriving home be told his mothid. Shock Parisian Society.

The Cri de Paris told the following story of Saint-Saens, the Composer, Didn't Shock Parisian Society.

The Cri de Paris told the following story of Saint-Saens, the composer, Didn't Shock Parisian Society.

The Cri de Paris told the following story of Saint-Saens, the composer; A rare visitor to Paris, he is on his visits much sought after as a social lion. One lady succept an invitation to dinner, promising to send to fetch him and also to deposit him at his door when he left, his only stipulation being that he should be allowed to make his adieus at 10 o'clock.

The son of his hostess was dispatched in good image that he should be allowed to make his adieus at 10 o'clock.

The son of his hostess was dispatched in good image that he should be allowed to make his adieus at 10 o'clock.

The son of his hostess was dispatched in the pleasant and velvet coat seated before his plane. He rose at once, however, and sked for ten minutes to d

but you shall have it for a song—let us say a thousand pounds."
"Too much, Jimmy—too much!"
Whistler kept the portrait. Soon

"Too much, Jimmy—too much!"
Whistier kept the portrait. Soon after, in one of those unpleasant experiences which he shared with his great master, Rembrandt was sold out for debt. Rembrandt was sold out only twice. The "Butterfly" underwent three such forced sales.

Irving heard of the sale. Unknown to Whistier, he was able to buy his portrait at the auction for a song, and then in a spirit of friendly retaliation in invited the "Butterfly" to dinner. After the coffee and clgars he remarked, "Aha, my dear Jimmy, you must see my latest acquisition!" and invited him in to see his pictures, not mentionly the form of those of the dinner, watching him as he are going to do with his toothous. Every eye was fixed on him through out the dinner, watching him as he are and drank and used his finger glass. In the drawing room Saint-Saens talk and drank and used his finger glass. In the drawing room Saint-Saens talk and drank and used his finger glass. In the drawing room saint-Saens talk and drank and used his finger glass. In the drawing room saint-Saens talk and drank and used his finger glass. In the drawing room saint-Saens talk and drank and used his finger glass. In the drawing room saint-Saens talk etc. On arriving home he told his mother, who in some uneasiness informed the price of see my latest acquisition!" and invited him in to see his pictures, not mentioning the fact that he had bought the portrait. Whistier went from one picture to another, criticising, admirga, with that subtle, biting wit of his, and, coming in front of the portrait, he gayly remarked: "Aha! What have we here? My congratulations, Henry—the best picture in your collection!" He never turned a hair. This picture after Irving's death brought \$25,000 at auction in London, and we are ucky to have it here now. This was a legitimate advance in price, and the picture is worth it. The few pounds that Irving paid was one of those fortuitous hazards of the auction room.—Saturday Evening Post.

RED TAPE IN PRAGUE.

While the Officials Wrangled the Mat

ter Settide Itself.
A delightful story of circumlocution comes from Prague. One of the least imposing of the bridges in the city, the Liebner Brucke, connects two suburbs. Some time ago the toll collector discovered that some rabbits had invaded the district and concluded that their burrowings might threaten the stability of the bridge, so he called the burgomaster's attention to the matter. The burgomaster decided that it did not come within his province, but he sent the representation to the committee managing the public slaughmmittee managing the public slaughcommittee managing the public staugh-ter houses. The committee examined the rabbits and found they were wild, so they could do nothing, and as it was a close time the aid of the sportsman could not be impressed. Still, they did not relieve them of their moral respon-

What the Death Mask Shows. The value of a plaster cast as a portrait of the dead or living face cannot for a moment be questioned. It must of necessity be absolutely true to nature. It cannot faiter; it cannot caricature. It shows the subject as he was or is, not only as others saw him in the actual flesh, but as he saw himself. And in the case of the death mask particularly it shows the subject often as he permitted no one but

DEMOGRATIC REVISION

How It Would Effect One Massachusetts Industry

THE TARFF IS A LIVE ISSUE

Southern Democrats Seem Determined to Strike at Massachusetts Textiles -Work of the Tariff Board Is Nearly Completed

Massachusetts is a great manufac-turing state, and one of its greatest Industries is the manufacture of wool-ens. The annual output of woolens manufactured in Massachusetts is over \$100,000,000, or more than one-quarter of all the manufactured wool-ens produced in America. The two hundred odd woolen mills between the Merrimac and the Berkshires employ Merrimae and the Berkshies employs some 60,000 operatives whose wages support over 200,000 of our people, and the Boston wool market, which is the greatest in America, handles each year over 300,000,000 pounds of wool, or more than half of all the raw wool

or more than half of all the law wood used in the United States.

It is essential, therefore, for the citizens of Massachusetts to know exactly what the present Democratic "tariff revision" program means, and ow it would affect the thousands whose wages depend on the protec-tion it now receives under the Re-publican tariff of 1909.

Former Democratic Tariff Bills The Mills bill of 1888 and the Springer bill of 1892 gave New England wool manufacturers free raw wool and a protective duty on manu-factured woolens of from 40 to 45 per-cent, and the Gorman-Wilson law of 1894, enacted in the second Cleveland administration, gave them free wool and somewhat over 40 percent pro-tection on woolens. In those days the Massachusetts Democracy, led by John E. Russell and William E. Rus-John E. Russel and William E. Russels, spoke and fought for Massachusetts interests, but it apparently has neither the power nor the purpose to do so today. Governor Foss and Congressman Peters, instead of demanding that we have a sane revision manding that we have a sane revision of the woolen schedule after the board of tariff experts have reported on the degree of protection needed by this great industry, have put party allegi-ance above the welfare of their state, and have joined with the Democrats of the south in a raid on Massachu-setts industry.

A Vicious Blow at Massachusetts

Every eye was fixed on him throughout the dinner, watching him as he ate and drank and used his finger glass.

In the drawing room Saint-Saens talked with the ladies and played any piece that was asked of him till 10 o'clock struck, when he bade farewell politiely to the company.

The journey home was without incident, and when they reached his house M. Saint-Saens simply offered to shake hands and say good night. Curiosity was too strong, though, for the youth, who said: The Underwood woolen bill which was proposed by the Democrats in congress almed a death blow at Massachusetts woolen manufacturers, but our Democratic governor and our Democratic congressman on the imperious constitution of the control of the con portant committee on ways and means "Excuse me, maiter, but I should so much like to know why you so particularly wanted to take your toothbrush with you."
"Oh, my young friend," replied Saint-Saens, "It is very simple! My lock is very stiff, and I always hurt my fingers in turning the key. So I now pass the handle of my toothbrush in the ring of the key and turn it easily. Volla!" never raised their voice in protest It proposed to retain a 20 percent duty on raw wool for fear of the west, while reducing the tariff on finished fabrics below the Gorman-Wilson

Tommy—Well, you won't get a good she them to make a fair profit after by your she honest idea of giving Massachusetts which whis careful study will soon make public. The information of the underpaid labor of the case which the important to study your st

congress last winter.
The Disastrous Gorman-Wilson Bill
The Gorman-Wilson law, even with
free wool and more than 40 percent rotection, closed most of the woole mills of the state at one time or an-other and took their business and gave it to Europe. The Underwood bill, which was voted for by Democrats who call themselves Democrats and by Democrats who call themselves insurgent Republicans, and which taxed raw wool and gave a net protection of less than 30 percent to manufactur-ng weelens, according to the view of

woolen men, would have prostrated the entire industry, and thrown thou-sands of men out of work. President Taft has saved this great industry of the state from disaster for the time being, but there is grave danger that some similar bill may be passed and become law in the near future unless Massachusetts shows in no uncertain manner at the election this November that it will not stand behind a party whose representatives ere willing to destroy the business of 00 of our manufacturers and the live. lihood of over 200,000 of our people

Goed Money After Bad.

It is a curious fact that many men, level headed enough about other things, seem to lose their wits entirely when they become involved in lawwits. In one case recently concluded in the German courts a Berlin merchant paid out over \$500 to recover the value of a five cent postage stamp. He had written a letter asking for an address and inclosing postage for reply. Failing to get an answer, he sued for the stamp.

The famous Missouri watermelon rase was just as trifling and even more disastrous. The seed was planted on one farm, but the vine crept through a crack in the rail fence, and the melon grew on the other side. Both farmers claimed it, and instead of perceiving the humor of the situation they went to law. To add to the nursiles features of the question.

Instead of perceiving the humor of the situation they went to law. To add to the puzzling features of the question of ownership there was the further complication in that the fence stood on a county line, whereupon a question of the jurisdiction of the courts came up. The farmers bankrupted themselves without obtaining a decision as to the ownership.—Green Bag.

The Mexicans have a native brandy called aguardiente, which is a species of liquid dynamite, which is a species of liquid dynamite, as palatable as corrosive sublimate and as full of potential deviltry as an egg is of meat. When you find a Mexican gentieman adorned with a belt full of deadly weapons decorating and deluging his interior with aguardiente it is the part of prudence to retire to a bombproof. There is another tipple, a white, innocent looking fluid called mescal, which is distilled from a cactus of the same name, which has in it all the combined energy, activity and homicidal possibilities of a volcano mixed up with the gable end of a mule. In former days the Apache Indians made a crude distillation of the same stimulant, which they called tis-win, and as a preliminary to a raid among ranches and settlements it was a great success from an Indian point of view.—Boston Herald.

The Crocodiles Dived.

induction of the least the city, test two toil colleged the factor in the profile of the dath of the d

Campbell Fraser, the famous author and dramatist having been at one time one of the professor's pupils. "I see him rising in a daze from his chair," says Mr. Barrie, "and putting his hands through his hair. 'Do I exist,' he said thoughtfully, 'strictly so called? The students looked a little startled. This was a matter that had not previously disturbed them. Still, if the professor was in doubt there must be something in it. He began to argue be something in it. He began to argue it out, and an uncomfortable silence exist the chances were that they did exist the chances were that they did not exist either. It was thus a per-sonal question. It was no wonder that the students who do not go to the bottom during their first month of metaphysics begin to give themselves airs, strictly so called. In the privacy of their room at the top of the house they pinch themselves to see if they are still there."—Pearson's Weekly.

Wonders of a Book.

There is perhaps no greater wonder than a book. By the help of little figures upon spins or paper men have been able to transmit their thoughts through thousands of years. The names and shapes of things, the deeds and sorrows that have occurred as far back as Adam, have been made known to us. Even those invisible and abstract thoughts which have no shape or substance, but which inspired the are all put down in the little letters and made eternal. The songs of David, the speculations of Plato, the visions of Homer, have by these means bee handed down faithfully for many cen turies and distributed among man-kind. If there were no books our kind. If there were no books our knowledge would almost be confined to the limit of sight and hearing. All that we could not see or hear would be to us like the inhabitants of the planet Saturn—a mere matter of idie onjecture .-- Barry Cornwall.

The writer was extracting solace after the petty worries of the day from his well seasoned brier when it was suddenly revealed to him what sort of creature he really was in an which your bill is made out.

The Origin of "Booze."

The Widow.

The Turks make a liquor from barley which is called booza and which, although fermented, is not prohibited like wine, because it gives heat and strength to the body of Moslem war riors and goes for hunger. Excess in drinking it brings on gout and dropsy.

Evila Effendi, "Traveis."

Vedder Sitton's Feat That Landed a

Vedder Sitton's Feat That Landed a Championship Pennant.

In the greatest finish that ever marked a minor league race New Orleans and Nashville. Southern league contenders, had come to the wire neek and neck. On Sept. 19, 1908, they met in the final and decisive game of the year upon exactly even terms. The entire fighting of the past five months had centered in that lone contest, five months packed into two hours of play, with the result to tell the story of the year's success or failure. Manager year's success or failure. Mana, Frank of New Orleans, unwilling run any needless risk, selected t veteran Theodore Breitenstein of

run any needless risk, selected the veteran Theodore Breitenstein of St. Louis and Cincinnati fame to battle for his people in the box. Manager Bernhard of Nashville, passing by his veterans, selected young Vedder Sitton, an ex-collegian, to face the \$10,000 wonder of another day.

For six innings so perfect was the defensive play of both nines that neither tenm was able to score. In the seventh inning Nashville scored one run, and in the play involved young Sitton slid headforemost into the plate and fell over unconscious from the blow received just above the eyes. With the situation as tightly drawn as it was, disaster looked to be imminent. Bernhard immediately rushed his entire remaining staff back of the clubhouse to be ready for the call, while two physicians worked above the unconscious Sitton. He came to life again just as the Nashville team was taking the field for the eighth inning with another in his place.

Staggering to his feet, Sitton insist. Staggering to his feet, Sitton insist

Staggering to his feet, Sitton insisted upon finishing the contest, and Bernhard, against his better judgment, gave way. The heavy batting end of the New Orleans team was up in order. With bandaged head, his face still white and drawn from the shock, in no condition to stand, still less to lead a desperate charge. Sitton electrified the crowd by striking out two of the first three men that faced him. In the ninth he added two more victims to the list in bringing home the victory by the score of 1 to 0, winning the pennant by the margin of one point. And then he collapsed. It was over two weeks before he recovered over two weeks before he recover sufficiently to be up and about, an yet New Orleans batsmen relate the n those last two innings he had show more "stuff" by a wide margin that at any other stage of the battle.— American Magazine.

First American Letter Box.

A little more than a half century ago the letter box was unknown. The inventor was Joseph William Briggs, nephew of a former governor of Massachusetts, who, as head clerk in the Cleveland postoffice, studied the needs of patrons and after correspondence with Postmaster General Dennison upon the subject took a train for Washington, bearing a pasteboard model of the letter box under his arm. The postmaster general saw the mer model of the letter box under his arm. The postmaster general saw the mer its of the plan and appointed Mr. Briggs as special agent to establish the letter box and letter carrier system. The first letter box was attached by clamps to a lampost that stood in front of a Cleveland drug store, and not a year had passed before fifty-two different cities had adopted the system.—National Magazine.

Where Miners Lose Their Nerve.
Men accustomed to working in
mines cannot stand great heights. It
is almost an invariable rule that a
miner will get dizzy and uneasy if you
take him to a high place, such as a take him to a high place, such as a monument or the top of a house, and will try to get back to earth as soon as possible. And yet he can stand underground on the edge of a 500 foot shaft, look down into the black abyss and never feel a tremor. He can climb up the face of a shaft, knowing that there is a straight drop of a thousand feet under him, and feel perfective at home—Popular Magazine. ly at home.-Popular Magazin

Scanty Ammunition.
Colonel Stark's regiment just prior to the battle of Bunker Hill was quartered at Milford, some four miles distant, and was destitute of ammunition. About 10 o'clock on the morning he received orders to march, however, each man received a gill cupful of powder, fifteen balls and one flint. As the muskets were of varying callber it was necessary to reduce the size ber it was necessary to reduce the size of the balls for many of them.—Magazine of American History.

About the Size of it.
"Why is it," queried the youth. "that
so many people fail to mind their own
business?"

"There may be one of two reasons, or both." answered the home grown philosopher. "They may have no mind or no business."—Philadelphia

The Forbidden.
A sailor had just shown a lady over the ship. In thanking him she said: "I am so sorry to see by the rules that tips are forbidden on your ship."
"Bless you, ma'am." replied the

"How came she to get such a sudden craze on to visit the beauty doctors?"
"She wants to look like her photograph."—Houston Post.

The desires and longings of man are vast as eternity, and they point him to it.—Edwards.

Quaker Cemetery In Prospect Park. There is a Quaker cemetery in Prospect park west, Brooklyn. The cemetery is much older than the park, and when the park was organized it was done with the understanding that the Friends' buryground was not to be disturbed. The pact will probably always be kept. The cemetery covers several acres—say, from eight to ten—and is beautifully situated on one of the most commanding hills in the park. It is still used for burial purposes.—New York American,

Twice Convicted.

Another lawyer's story arrives. We are told that a man was charged with picking a pocket the other day and that when arraigned he pleaded guilty.

that when arraigned he pleaded guilty.
The case went to the jury, however,
and the verdict was not guilty. And
the court spoke as follows:
"You don't leave this court without
a stain on your character. By your
own confession you are a thief. By
the verdict of the jury you are a liar."

Showing That There Are More Ways
Than One of Interfering With
a Woman's intentions.

By F. A. MITCHEL.

Copyright by American Press Association Than One of Interfering With
a Woman's Intentions.

Left an orphan when I was a very little girl, I was brought up by a maiden aunt, a woman of considerable brain and will power. I had hardly been settled in her house before stellad out a course for me to pursue.

"I shall give you a good education," she said, "and an education is a foundation on which a woman may build a career as well as a man. I'm not going to decare by our box it had hardly subordinate position in some man's office; not going to make a stenographer of you to take down some man's dictation—no man ever dictated to me, shall give you a profession. But when you have been grandated I shall expect you to prefixe, I is and traj intention, and the position is now many south of practical tion—no man ever dictated to me, shall give you a profession. But when you have been grandated I shall expect you to be readed at the profession some man shall come along talk a lot of nonsense to you to street all I have spent on you abortive. If a woman is going to be a lawyer or 3 doctor she must begin by putting all notions of love and marriage out of her head."

Considering that I was to follow the path she laid down a come man shall come along talk a lot of nonsense to you to she redeed all I have spent on you abortive. If a woman is going to be a lawyer or 3 doctor she must begin by putting all notions of love and marriage out of her head."

Considering that I was to follow the path she laid down frome, I twice yours of the redeed all I have spent on you abortive. If a woman is going to be a lawyer or 3 doctor she must begin by putting all notions of love and marriage out of her head."

Considering that I was to follow the path she laid down frome, I twice your so well as a man. I will not consider it rather an impracticable expedient.

A week later she called at my office, which have you have you have you have you ha

come along, talk a lot of nonsense to you abortive. If a woman is going to be a lawyer or a doctor she must begin by putting all notions of love and marriage out of her head."

Considering that my aunt made this announcement to me when I was but twelve years old, it is not to be expected that it made any other impression on me than that I was to follow the path she laid down for me. It evidently did not occur to her that I was to follow place myself la opposition to nature's laws. Nevertheless, she accepted my promise that I would repay her kindness in educating me by making myself the old maid she was herself and spend my life listening to people tell about their aches and pains instead of hearing the prattle of my own children.

A week later she called at my office, evidently very much troubled. She is all were now as no better; indeed, if there had been any change since my visit it was for the worse. "I have thought of your plan, decorn," set said, "iof substituting another love, but I know of no one who I believe would be able to draw my son the path was promise in factuation. I named every girl of his acquaintance to him, saking if there was one he would like to have visit him, and he refused to seeing my doctor," he said, "as often she will call."

Al week later she called at my office, evidently very much troubled. She widently very much troubled. She wild ently very much troubled. She identify the said her son was no better; indeed, if there had been any change since my visit it was for the worse. "I have thought of your plan, decorn," she said, "of substituting another love, but I know of no one who I believe would be able to draw my son way from his infatuation. I named every girl of his acquaintance to him, she will refer was one he would like to be well every girl of his acquaintance to him, and he refused to seeing my doctor," he said, "of substitution. I named every girl of his acquaintance to him

Nevertheless, my aunt was a good woman despite her crankiness. She declared that instead the infatuation would be broken and her son would resolven in selected medicine. My aunt died shortly after I had received my diploma and left me a legacy sufficient to give me a start in my profession. The last thing she said to me was: "Remember your premise. You will be sorely tempted because you are very good looking. Men will try to draw you away from the path of duty, but you must not listen to them. What they will want of you is to make you a slave. Be constantly on your guard."

As to the temptation, my aunt was a good would call the sufficient of the mean to coquettish pranks upon him. I simply attempted to divert his mind by a sink and the infatuation would be broken and her son would would be broken and her son would recover his health.

There was a professional problem in formation and the mother's pleadings pre-time and the infatuation would be broken and her son would recover his health.

There was a professional problem in formation and the mother's pleadings pre-time and the mother's pleadings pre-time and the infatuation would be broken and her son would be broken and her son would be covered with a surface or his all the mother's pleadings pre-time and the mother's pleadings p

As to the temptation, my aunt was right.

My being thrown into a field of labor where I met many men, some of whom were intelligent and attractive, was probably the cause of my receiving a number of proposals. But I set myself resolutely to carry out my aunt's intentions regarding me, feeling bound in honor to do so. I refused all my suitors, devoting myself exclusively to my practice. I found it impossible to keep the fact that I was pledged to cellbacy from being known, and I believe that for this reason I was especially sought in marriage. Nothing is so desirable as that which is impossible to obtain.

I practiced two years and resisted all temptations to marry. One day an iold lady came to see me and begged that I would make a diagnosis of a trouble that was afflicting her son. She said she believed there was some thing on her son's mind that he would not confide to his medical attendant. A man, she said, would be more likely og tyre his confidence in certain matters to a woman than one of his own.

trouble that was afflicting her son. She said she believed there was something on her son's mind that he would not confide to his medical attendant. A man, she said, would be more likely to give his confidence in certain matters to a woman than one of his own sex. The invalid had been a triffer in love affairs, and she was not sure but that he had been caught in his own trap. If she could be sure of this she night possibly find a remedy. There was something winning in the old lady's solicitude lest her boy might be getting his just deserts. I was amused at the absurdity of a man having to call in a woman physician to cure him of a possible love malady. I did not attend men patients as a rule, partly because I had cured one man and he had given me his heart in addition to my fee. But since this dear old lady's invalid son was suspected to be already in love, even to the breaking down of his health. I saw no reason why I should not oblige her. So I promised to at least make one visit. So I promised to at least make

I found a fine looking young fellow up at me with a captivating smile tha he had evidently inherited from hi ympathy for him that he was suffer sympathy for him that he was suffer-ing the penalty. His mother with frew and I began to question him pro-fessionally, though I only asked him how he felt and to what cause he attributed his allment; then I said to

"You are not ill; you think you are."

"I know it."

"I can't at present determine whether your trouble is mental or nervous. If there is anything on your mind you had better tell me. I can do nothing for you till I know the cause of your malady."

"I am only too glad to make a confidant of you doctor. I am in love."

waste my time dancing attendance on a man whose only allment was his devotion to some girl who didn't happen to fancy him. But I was obliged to confess to myself that there was something as attractive as Indicrous in it. The fond mother, who had probably been listening, at this point came in and said:

"Of course the doctor will come again. She will not leave you to suffer."

ren.

Stones That Find Their Way Into the Mouths of Many People.

It is a far cry from "the lonely stretches of the wave kissed shore" to of stretches of the wave kissed shore to false teeth, but by unexpected paths we often descend abruptly from the sublime to the utilitarian. Many a man calmly chewing an indestrucible steak in America little dreams that steak in America little dreams that the picturesque coast of Normandy has been sacrificed to provide him with molars. Such is the painful fact, however. If you walk along the southern shore of the English channel between Dieppe and Havre you will see men and boys scarching for stones of a certain size and shape from a varied collection of rocks which form the beach. These are put into sacks and shipped to America, where they are converted into porcelain.

The industry—for such is the term used to designate this invigorating occupation—has grown to considerable proportions in the past few years. Its simplicity is perhaps its greatest

Riddle of Gravitation Nearly 250 years ago one of the great-est intellects connected with science turned his attention to gravitation. In that 250 years physical science has made rapid advances. A boy who has completed a year's work in elementary physics could entertain Newton in electricity were it possible for the great philosopher to return to earth. After learning of the great progress in electricity I can imagine him in his eager desire for knowledge turning to the boy and expecting some light on gravitation. Alas, not only the high school boy, but not even the most learned, can give any definite information on gravitation. The problem is about turned his attention to gravitation. HISTORY REPEATS ITSELF.

As Scipio Was to Hannibal So Was

As Scipio Was to Hannibal So Was Wellington to Napoleon.
There is probably no more remarkable historical parallel than that exhibited by the career of Scipio Africanus, the hero of the second Punic war, and the Duke of Wellington, the conqueror of Napoleon.

Each was descended from an ancient and noble family. Each was the second greatest soldier of his age, pitted in a life and death struggle against the greatest. As Scipio was to Hannibal so was Wellington to Napoleon. Hannibal threatened the very existence of Rome; Napoleon was on a fair way to become the master of Europe.

Again, Spain was the center of the most splendid achievements of both commanders. The victories of Scipio in Spain are too well known to need recapitulation, and Wellington's triumble in the peningles of scipio in the peningles was formed.

ecapitulation, and Wellington's tri

recapitulation, and Wellington's tri-umphs in the peninsular war form one of the commonplaces of history. Neither of these great generals met his archadversary until the final and decisive battles—Zama and Waterloo respectively. And the result of both battles was exile to the defeated chiefs. Hannibal retired to Ephesus; Napoleon was deported to St. Helena. But the parallel does not end here. Both Sciplo and Wellington exchanged a military for a political career. And here the same fate pursued them. ere the same fate pursued them. scipio incurred the enmity of the doman senate; Wellington gained the ostility of the London populace. And nere follows the most remarkable feature of the parallel drawn between these two great men.

ture of the parallel drawn between these two great men.

Seventeen years elapsed from the battle of Zama—seventeen years to the very day—when the great Selpio was tried on a question of bribery. He was not slow in his defense to remind his judges that on that day he had saved the republic. Seventeen years elapsed from the battle of Water-loo—seventeen years to the very day—when the great Wellington had to take refuge from the attack of a London mob, angered on account of his opposition to the parliament reform bill.

The only point in which the parallel fails is this: Sciplo died outside his beloved city of Rome; Wellington has his monument in St. Paul's cathedral, London. But the parallel between the careers of these two extraordinary men remains as one of the curiosities of history.—Youth's Companion.

Greenland Is Green.

When you were a boy you used to sing "On Greenland's Iey Mountain"—well, the country is simply a vast nest of green mountains, covered with snow, ice and glaciers. These are known as live and dead glaciers. The dead glaciers are a mass of snow and ice which have accumulated between gorges for a million years or more and have become so condensed that you have become so condensed that you could not penetrate the mass excep by a steel drill. The live glaciers ar those that break off and fall into th waters and become floating masses waters and become noting masses of ice, often inflicting damage to ships. Where the sun can strike a spot the trees, which are of a dense growth but small, wear the most beautiful green. -Atlanta Constitution

"I think," said Mrs. Oldcastle, "that our minister is going too far. Did you hear his sermon last Sunday?" "Yes," replied her hostess as she finished sealing a letter to her daughter, the Duchess of Ramshead. "Both me and Josiah put in fifty dollar bills when the contribution was tak. ills when the contribution was tak

SUNDAY SCHOOL

Lesson II .- Fourth Quarter, For Oct. 8, 1911.

THE INTERNATIONAL SERIES.

Text of the Lesson, Ezek, xivii, 1-12, memory Verse, 9—Golden Text, Rev. exii, 17—Commentary Prepared by Rev. D. M. Stearns.

The prophets foretell a kingdom of peace and righteousness on this early to follow or in connection with the restoration of Israel and their reception of Jesus Christ as their Messiah when He shall come again in power and glory. No one does this more plainly than Ezekiel in chapter xxxvii. 21-28. The last eight chapters of this book describe the temple that is yet to be builded and the glory that shall fill the house when He will dwell in the midst of the children of Israel for ever (xilii, 1-7; xliv, 4-15). The name of the city from that day shall be. "The Lord is there," Jehovah sham the shall contain the containing the contai plainly than Ezekiel in chapter xxxvii, 21-28. The last eight chapters of this book describe the temple that is yet to be builded and the glory that shall fill the house when He will dwell in the midst of the children of Israel for ever (xiiii, 1-7; xiiv, 4-15). The name of the city from that day shall be, "The Lora is there," Jehovah shamman (chapter xiviii, 35, margin).

This story of the river of life, with its trees for meat and fruit and health, takes us back to the garden of Eden.

Its trees for ment and fruit and health, takes us back to the garden of Eden and on to the kingdom. Compare Joel III, 17, 18; Zech. xiv, 8, 9; Rev, xxii, 1, 2; Ps. xivi, 4, 5. The second book of Psalms, which may be a response to the second book of the law (Exodus, begins with mention of living water and the rock from which it flowed (Ps. xiii, 1, 2, 9), and in 1 Cor. x, 4, we read, "They drank of that spiritual rock that followed them, and that rock was Chete."

Zech. xiv, 8, but if any cannot receive that let all receive the spiritual les sons and so eat the word, as in las week's lesson, that all may be wells and rivers of living water, bringing life to many wherever we go. The temple or the tabernacle always tell us of His dwelling place on earth in the midst of His people and of His special presence above the mercy seat between the cherublin (Ex. xxv, 8-22). The altar by which the waters flow reminds us that there can't be life or blessing apar from the great sacrifice of Himself for us and His present ministry of intercession as our great high priest. The increasing volume of water to the

Intercession as our great high priest. The increasing volume of water to the ankles, the knees, the loins, a river to swim in, suggests the varied experience of believers. He said: "I am come that they might have life and that they might have it more abundantly. I am the life" (John x, 10; xiv, 6). It is written, "He that hath the Son hath life" (I John v, 12).

Many seem to know an ankle deep enjoyment of Him, while others live in the ocean of His love, and there are varied experiences between these two. May Phil. iii, 10; Ex. xxxiii, 13, be our whole hearted desire, "That I may know Him," "That I may know Thee," abiding in a love that passeth knowledge. The waters give life and healing, and the trees give meat and fruit. In Eden herbs and trees were for meat and fruit (Gen. 1, 29, 30). In Eden restored the tree of life will bear fruit every month, and the leaves of the tree will be for the healing of the nations (Rev. xxii, 2). Compare verse 12 of our lesson.

It will be a new day for the Dead sea when it shall have become a place for fishermen, but the waters shall be

, but the waters shall On the Farm.

"One could easily guess those city thildren had a financier for a father."

"Why?"

"Because they are either in the barryard speculating about the stock or gamboling in the wheat and corn."—
Baltimere American. oe no more curse; not in the millennia arth, for there shall still be unheale earth, for there shall still be unhealed places and death, but in the perfect age or ages after the thousand years (verse 11; 1sa. lxv. 20; Rev. xxii, 3, 4). As far as we are individually concerned there can be nothing perfect about us in these mortal bodies, but in the glorified body we shall see as never before the meaning of such words as these; "Who forgiveth all thine infquities, who healeth all thy diseases, who redeemeth thy life from destrucho redeemeth thy life from destru tion" (Ps. cill, 3, 4). We may ever here have large foretastes of kingdon blessedness in order that we may show to others the power of the res urrection life which is already ours.

Faces are made beautiful by kindress. It is a divine sculptor.

The Cedars of Lebanon.

Very carefully inclosed and guarded are the 200 remaining cedars of Lebnon, those famous trees that once nountains. So tall and beautiful were they in comparison with the trees of Palestine that the Hebrew writers celebrated them with extraordinary praise, and from the earliest times their soft white wood was the glory of Jewish architecture. They were used in Solomon's temple and in its successor and also in the church that Constantine built at Jerusalem.

The surviving trees are called by the Arabs the "trees of God," and under their widespreading branches the clergy of the Greek church occasionally celebrate mass. they in comparison with the trees of

THE OLD TIME DOCTOR.

The strongest impression gained in reading of the experiences of old time physicians is of their boldness and darphysicians is of their boldness and daring. Most of them were by necessity surgeons as well as doctors of medicine. Isolated often from other members of their profession and obliged to bear the entire responsibility of the welfare of their patients, they learned to rely upon themselves and to take chances that would make the general practitioner shudder in these days of many specialists and wide division of labor. Perhaps none ever undertook surgical operations who had no training in that line, but with no hospitals within reach, with few instruments and with the modern antiseptics and nursing systems undreamed of, they The prophets foretell a kingdom of

territory, and they were necessarily out in all sorts of weather and encoun-tered hardships of various kinds. Nor

When he was a young man he had a comrade who, having assisted in the organizing of the Japanese navy, was subsequently raised to the rank of admiral in that force. He took the part apart. They are very leafy, but seldom seed twenty feet in height. The branches put out horizontally and begin a yard above the ground. Sheep, cattle and camels feed on the leaves, and goats will stand on their hind legs to reach them, but horses and mules refuse to touch them. The wood is very hard and extremely useful to the natives, who make charcoal from it. The fruit, resembling a large olive, is used to feed cattle and to manufacture a valuable oil. It also furnishes the principal sustenance of many of the poorer natives.—Scientific American.

by the French Admiral Gourdon a comrade who, having assisted in the organizing of the Japanese navy, was subsequently raised to the rank of admiral in that force. He took the parties of the tycoon against the mikado in the revolutionary war and, having been captured, was tried by court martial and sentenced to death, which in those days implied harakiri. When, however, the fatal sword was presented to him he flatly refused to kill himself and declared that if he was to die somebody else must kill him. Threats and entreaties allike proved is very hard and extremely useful to the natives, who make charcoal from it. The fruit, resembling a large olive, is used to feed cattle and to manufacture a valuable oil. It also furnishes the principal sustenance of many of the poorer natives.—Scientific American.

First Veterinary School.

As nearly as the facts can be got at the first veterinary school was founded in the city of Lyons, France, about the middle of May of the year 1761. Since 1761 veterinary schools have spread all over the civilized world, especially in Germany, France, England and the United States of America, in which advanced countries the horse has the benefit of as fine a science as that which exists for his mater, man.—New York American.

Her Answer.

He—I am going to make you present of a bracelet for your birth day. Which do you prefer—silver or gold?

She is silent.

He—Well, which do you want?

She is the test that the got and returned to France.

The Martinet.

"The martinet never succeeds. A typical martinet was the well known one who, having ordered his men to change their shirts and then, having elearned that they had no shirts to change, said in that event they must elearned that they had no shirts to change shirts with each other. I heard yesterday of still another type of martinet.

The speaker was an old West Pointer, says the Washington Star. He one of his men and said, with a fear-ful frown:

"Who's the idiot that ordered you to leave that mess of empty meat cans right here in front of headquarters?"

"It was the colonel, sir,' the man replied.

"Yery well then,' said the capitain."

She is silent still.

He—Why don't you speak? I ask you which do you prefer—silver or for calling your colonel an idlot." Then he suddenly remembered that

Creating an Impression.
"Is he really a great scientist?"
"I have my doubts," replied Miss
Cayenne. "I suspect he is one of the
scientists who get their reputations by
sitting down to a dinner table and sitting down to a dinner table and saying chloride of sodium instead of salt."—Washington Star.

There is a difference between being busy and being industrious.

RUSH OF THE CRESTED SEA. Mount St. Michel's Tidal Wave One of

the Sights of the World.

At 5 o'clock in the afternoon people gather on the causeway that connects the islet of Mount St. Michel with the French coast to watch the coming of the tide, one of the sights of the world. As far as the eye can reach stretches

the gray sand, silent, empty. Seven miles and a half lie between the ocean and the rock murmur pervades the air. It seems to come from nowhere and yet to be

to come from nowhere and yet to be everywhere.

And then far on the horizon lifts a line of white. Every moment it draws nearer, and the sound in the air swells louder, and then with astonishing speed up the line of crested sea, and in a moment, where it reaches the sands, there is but a space of swirling water. And on the waves ride in the water. And on the waves ride in the fishing boats that have gone out to sea on the tide at dawn. Many a tragedy has been caused by the swift inrush of this true tidal wave.

gy of the Greek church occasionally celebrate mass.

Several of the trees in the grove are over 1,500 years old and have a height of 100 feet and a circumference of 50. In appearance they more resemble the aged larch or the majestic oak than the cedar that is known in America.

The Seet By and By."

'Very well then,' said the captain

without even a pretense at roads

The secret, of course, lies in the facthat for five or six months in the year that for five or six months in the year nature herself provides roads over the grenter part of the expanse of all the Russias, admirably smooth, glassy roadways over hard worn snow. The traffic is further cheapened over these roads by the substitution of a sledge runner for the wheel and axle. This brings the cost of land carriage as near the cheapness of water borne freight as possible, and it is the principal reason why Russia in the twentieth century is still a roadless land.—London Standard.

Presently a strange es the air. It seems he was a sergeant, with troops statowhere and yet to be of the strange of the strange of the was a sergeant, with troops statowhere and yet to be of the stand of Porto Rico.

"The senorita," said the official, "had become infatuated with a certain sol-dier named Harry, and she had learn-ed his name. One morning she approached me and asked;
"'Where Harry?'
"He was asleep, and I laid my head on my hand and closed my eyes to tell the girl. She misunderstood the signs and, with a cry, pointed to heaven. I shook my head and pointed down. The senorita raised her hands in silent supplication. Later Harry was seen on guard, and the girl looked at me reproachfully,"—Indianapolis News.

"Can I see you apart for a moment?"
"You mean alone, don't you?"
"Exactly. I want the loan of a fiver."—London Bystander.

Fair Play

Ann Elizabeth Turns Things About.

The journey down in the train had in contemplating how nice she would look in the new suit which Artemus had promised her; there was positive suffering in the mental sug-gestion that she might have to ask him for the money with which to pay

They had left Springbrook on the 6:02 train after an early breakfast, and all the way to the station in the rocking, careening old stage Ann Eliza beth had hoped that her husbane th had hoped that her husband uid reach down into his hip pocket d bring forth the fat brown wal-in which he kept his money. It uid be such a little thing for him do—to count out the necessary ey from the roll of bills and give to her that she might feel the sat

news a uttered during the stage ride; n the train he became absorbed in its newspaper, and so Ann Eilza-neth sat, growing more miserable that Artemus had forgotten to ne money for her purchases ust as him after all. And meant to be the kindest of Ann Elizabeth firmly be-

There was a particular store that the larks always traded at when in New ork, and as they approached it now in the surface car Artemus talked of its and that and the other thing in he most careless manner, but not not did he mention the money for the surface and Any Elizabeth, remembered.

Her, hesitating, "Did you want northin countries and the contribution of the surface of the contribution of the contribution of the surface of the contribution of the surface of the contribution of the surface of the contribution of the contribut

me for money as you did in the beginning. Don't mind my teasing. Will you meet me at Triangle's at noon?"
"Yes," said Ann coldly, turning away and entering the shop. She was too much overcome by the little scene to take much pleasure in the selection of her new suit, but dominating any possible satisfaction in the purchase there was a growing feeling of resentment toward her husband. To such proportions did her displeasure arise that she leliberately purchased a most becom-ng coat and skirt of rich dark blue

ing coat and skirt of rich dark blue, with a veivet hat to match, although dark blue was Artemus Clark's especial abhorrence.

For several days after this trip to the city Ann Elizabeth Clark was very thoughtful. She moved about her pretty little home with grave gray eyes, and occasionally she smiled demurely, or again the tears came unbidden to her lashes. Artemus, busy about the farm and attending to the manifold duties connected with his dairy, did not observe the change in his wife.

his wire.

One night he came in to supper tired and hungry. The kitchen was immaculately clean, a bright coal fire glowed in the stove, and the kettle sang softin the stove, and the kettle sang softly. There was no sign of supper, although it was fitteen minutes past the usual hour. The dining room table was not even laid for the evening meal, while Ann Elizabeth sat in the sitting room embroidering a centerplece with daintily placed stitches. "What's the matter?" demanded Artemus, in surprise. "Had company?" "No. Why?" Ann looked up pleasantly.

antly

"No. Why?" Ann looked up pleasantly.

"Nothing, only I thought it was funny supper wasn't ready," said Artemus rather grumblingly.

"Why, you can have it now if you want it." Ann spoke in a surprised tone, just as if Artemus' request was what she had been waiting for. She bustled about the rooms, while her husband lounged near the lamp reading the paper.

"What you got?" he asked hungrily as he came in response to her call.
"Ham and eggs, pears and cake. I was hoping you'd fry some parsnips. You know I can never get enough of them." he said in a disappointed tone.
"Would you like some parsnips? Why didn't you ask me?" returned Ann briskly. "I'll fry some at once." She flitted into the kitchen, and soon the sputtering brown silces were placed before her husband.

Artemus ate his supper in silence. There was something peculiar about his wife's demeanor that he could not understand.

He watched Ann furtively as she

painfully in evidence. At last he spoke rather crossly:
"Seems as if you might find time to mend my clothes."
"Why, I do mend them, Art. What is it now?" Ann looked at him with lifted brows.
"That!" complained Artemus, wriggling the peeping toe. "It's confounded uncomfortable, I tell you."
"It must be," said Arm sympathetically. "Want me to mend it?"
"If you please," said Artemus meekly. When he reached his bedroom doot that night Mr. Clark stared uncom

that night Mr. Clark stared uncomprehendingly at the disorder that met his gaze. The bed was just as he had

She held the roll of bills above the ground and looked down. "Speak, Fido! That's what you mean, don't you, Artenus?"

Artemus reddened uncomfortably. "Oh, now, Ann, you take it too seriously: I didn't mean to be unkind. We've been married ten years, and yet

A GLIMPSE OF YOURSELF.

Get It by Reading a Gossipy Letter
You Wrote Years Age.
There is nothing more interesting letter that one vrote oneself ten or fifteen years ago In reading such a letter one is looking at oneself from the outside. The procat oneself from the outside. The process is a good deal like looking out of the window and seeing oneself go past in the crowd. The strange part of the matter is that in reading such a document one is generally filled with a sort of pity for the fellow who wrote it. He seems to have been rather uncertain of himself. He groped for his facts and his ideas. Evidently he did not know much. He was merely an imperfect adumbration of the admirable person who is now overlooking his correspondence, eh? That is the first impression. But presently one feels differently about it. Those half baked opinions may now have hardened into opinions may now have hardened into dogmas. We may now be cocksure of what once we only surmised. But who is so hopelessly wrong as the cocksure man? If the person one was fifteen years ago could contemplate objectively the person one is now perhaps he would pity the purblind dogmatist more than we pity the groping experimentalist.— New York Mail.

Bright Things That Are Rarely Credited to the Humorist.

There has been complaint that every good story gets accredited to Mark I wait without his having really deserved it, but Professor Archibald Henderson in his book "Mark Twain" points out that actually many of the best known common sayings first created by Mark Twain are very rarely credited to him. His sayings in "Pudd'inhead Wilson's Calendar," such as "the cauliflower is nothing but cabbage with a college education" are generally known as written by Mark generally known as written by Mark Twain, but there are others of which

this is not true.

Some of his best sayings are apropoof the cheerful custom of lying-for instance: "Truth is our most valuable Instance: "Truth is our most valuable possession. Let us economize it." "Never tell a lie-except for practice" is not so well known as the more popular "When in doubt tell the truth." Professor Henderson comments that of the latter maxim Mark Twain declared that he never expected it to be applied to himself. It was for other people. When he was in doubt himself he used sagacity. Perhaps his best summary is: "Never waste a lie!

understand.

He watched Ann furtively as she flew about doing up the evening's work. At last she came and sat down near him and took out her embroidery once more. Artemus looked at it resentfully, almost jealously. She had told him it was to be a wedding present for Jennie Beake, and Miss Beake was to marry one of Ann Elizabeth's old admirers.

From these facts Artemus deducted that, while his wife stitched at a centerplece to adorn the parjor table of one of her old lovers, he (Artemus, her husband) sat before her with a large hole in the toe of his sock.

But Ann Elizabeth was absorbed in her needlework and did not notice that Artemus had worked off his stipper and that the hole in his sock was painfully in evidence. At last he spoke rather crossly:

"Why I do mend them Art. What was absorbed to mend my clothes."

MAKING SHOT

The Tower Process Used Only For the Smaller Sizes.

The tower process of making shot was invented by William Watts, a plumber of Bristol, England, in 1760. His tower was "built" by sawing a square hole in the center of the various floors of his house and locating a well in the cellar, into which the globules of moiten lead dropped and were instantly cooled and hardened. Watts secured a patent in 1782 and soid his

one did he mention the money for her sult. Ann Elizabeth remembered a horrible experience she had one had, when her husband had gone away and forgotten to give her any money and left her standing penniless in one of the snops surrounded by a heap of unpaid for purchases. Several hours afterward he had found her there waiting doggedly for his return. "Here we are" announced Ariemus, shouldering his way to tof the car and helping his little wife to alight. "Now Ann Elizabeth, I don't see why you can't pick out a suit—get just what you want, and it will please me. The going to take the next car down to Triangle's to see about a new harmess. Suppose you meet me there at noon and well go somewhere for dimer." He was moving away carelessly when Ann Elizabeth clutched desperatory a his coat sleeve.

"Oh. Artemus, haven't you forgotten something?" she faitered. Surely he would recollect now!"

Her husband looked down from his six feet of handsome good naturedees and smiled. "I don't recollect, Ann. what is sty?"

Ann Elizabeth's sensitive face flushed planed for the care of the planed in the control of the care of the planed in the control of the care of the planed in the control of the care of the planed in the care of the plan A larger size than BBB cannot be made by this process. The larger sizes, including shrapnel, are made by two different processes. In the medium size a wire of the proper material is fed into a machine which mashes it into a ribbon shape and punches irregular formed shot. The largest are made by pouring the metal into long bullet molds, which, in cooling, form irregular shot. The various sizes are then placed, each by itself, in gins, which are revolved for six hours, when the shot come out perfectly smooth spheres.—Boston Globe.

An Old Family.

He—Miss Bellacour claims to belong to a very old family. She—Well, she's and the youngest of them must be at least thirty-dive.—Exchange.

The Blushing Octopus.

The Blushing Octopus.

The Blushing Octopus.

The cotopus frequently changes in the fine octors and the process. The larger size was adorned with three as set of those who were provoked at their satisfied by the first state, a cock's comb and collar, carried a secpter, and his cost time and

she inherited a fortune?"

Yes. She is greatly changed."

"How?"

"Well. she used to be frightfully skinny."

"And now she's divinely slender."—

Toledo Blade.

Almost any one who speaks English might be put down successively in half a down places where English is supposed to be the mother tongue and hear as many dialects spoken, not one of which he would understand until it was interpreted. An old Lancashire worthy and a London lady were one day occupants of a railway carriage.

worthy and a London lady were one day occupants of a railway carriage. The train had been waiting long at a certain station, and there was no ap-pearance of it starting when the worthy remarked:

"They're a gly, tanglesome lot here."
"I beg your pardon," said the lady.
"I'm sayin' they're a gey daidlin' lot

here."
"I really beg your pardon, sir."
"I'm observin' they are a vera dreich lot here the nicht."
"Really I must again beg your pardon. I don't comprehend you."
"I was just tryin' to say that the train was late."
"Indeed, sir, it is—very late," agreed the lady and then collapsed.—London Tit-Bits.

Orderliness Is Big Asset,

To teach children habits of neatness, system and order is to insure some degree, at least, of success. Yet they are often brought up amid disorder and confusion, allowed to throw things dropping things wherever one may happen to be temporarily, saves time. On the contrary, this is a great time

On the contrary, this is a great time waster and a great demoralizer of character. A bad habit not only tends to repeat itself, but to increase the tendency in that direction.

If you were not taught the beautiful lesson of orderliness in your youth, tench it to yourself now.—Success Mag azine.

Needed a Sea Turn.

Captain Lane had retired from active pursuit of his beloved calling and had turned his attention to town affairs. Having succeeded in rousing the citizens to the need of a drinking fountain and also to the need of two coats of paint on the town hall, Captain Lane feit himself a valued and important person.

the present administration.

"It's pretty fair," said the captain slowly. "Of course there's things that could be different and would be better so, but on the whole 'tis pretty fair. But now I'll tell ye—I'm speaking from experience, you understand—things at the seat o' gover ment won't be run as they could be run till the people o' this country make up their minds to stop confining their votes to landlub-bers"—Vauth's Companion bers!"--Youth's Companion

Walnuts as Food.

The ancients held the walnut in high esteem. Mortais could and did exist on acorns, but walnuts were so delicious in taste and flavor, so palatable and nutritious, that they were revered as food only for the gods to dine upon. Modern investigation and modern custions are so the linear than the substitution of the fact.

One of the three officers listened to the pleadings of his fiancee that she be allowed to make a trip in the substitution of the fact. as food only for the gods to dine upon. Modern investigation and modern customs have popularized the uses of the walnut to such an extent that it is more regarded not only as a luxury, but as a food of great nutritive value. A chemical analysis of the nut shows that it is six times as nutritious as meat. No vegetable or fruit, with the possible exception of the olive, can be compared with the walnut as a strength giving and fat producing food. All nuts are possessed of elements of nutrition, but the highest in rank is the walnut—Manebester Guardian.

is, to be sure!"
"Yes, but she comes by it honestly. moter."-Detroit Free Press.

Mathurine, a woman.

English jesters made use of calfskin conts, which buttoned down the back and protected them from the anger of those who were provoked at their satisfied thrusts.

Indicator as it told how the Pruviose was sinking deeper and deeper into the sea.

Divers who went down after the provided thrusts.

WHIM OF A WOMAN

It Cost Her Her Life In the Wreck of a Submarine.

DROWNED WITH HER FIANCE.

Story of a Pathetic Episode That Was With All on Board of the French Torpedo Boat Pluviose.

Underlying the tragedy of the of the French submarine torpedo boat Pluviose with twenty-seven lives when she was sunk in the bottom of the English channel by a collision with a surface steamship on May 25. 1910, was a piteous episode, involving the death of a beautiful and brilliant

young Frenchwoman. The French government suppressed the story so thoroughly that to this day the name of the young woman is not known save to those in paramount authority in the navy, but American naval officers say the fact of the hap-penture has become known to other

Calais about 1 o'clock in the afternoon for a series of maneuvers. She was about two miles from shore and was about two miles from shore and was disporting in a series of dives and ris-ings to the surface. The feat known as "porpoising" was being accom-plished with great skill, the submarine being entirely responsive to every turn of a directing wheel in her machinery. The act of "porpoising" is an imitation of the action of the porpoise in its leaps above water and remort disoppear. submarine the maneuver is made for the purpose of scouting, the boat be-

face the Pluviose came up directly un-der the channel steamship Pas de Ca-iais. The keel of the Calais struck the

ber. But, whatever the conditions that did escort her secretly aboard the Plu-

brought.

It was their business in medieval times to entertain kings and nobles with amusing sallies.

One of the early French jesters was Mathurine, a woman.

English insters made use of collection.

This church is one of the most ancient buildings in the town. Long ago a partition wall was run through the center, and services are held simultaneously according to the Roman Catholic and the Protestant rituals.

In the year 1791 the Elector, Charles Philip, attempted to stop the dual services, but this so offended the Heldebergers that he was compelled not only to desist in this effort, but to remove the electoral court to Mannheim—Harder's.

With a single exception the platform adopted by the Republican State convention on Oct. 4, instant, was as near perfect, as an embodyment and expression of the Republican Party, creed as platform architects are capable of.

That was to be expected, for it was built by Hon. Samuel J. Elder, the foremost Lawyer in lone Protective Tariff Republican to the core.

The Tariff plank was just exactly right, too. It had the ring of the genuine metal. New England owes its wealth and power to the Protective Tariff and the exactly right, too. It had the ring of the genuine metal. New England owes its wealth and power to the Protective Tariff and the exactly right, too. It had the ring of the genuine metal. New England owes its wealth and power to the Protective Tariff and the exactly right, too. It had the ring of the genuine metal. New England owes its wealth and power to the Protective Tariff; and the exactled position that the United States holds among Nations is due to the wealth and power of New England.

The only out discovered in the platform was the failure to condemn that feature of the Luce Caucues Law which comples the voter to publicly give the name of the political party he belongs to before the platform was the failure to condemn that feature of the Luce Caucues Law which comples to before being permitted to cact his voter to publicly give the name of the political party he belongs to before the platform was the failure to condemn that feature of the Luce Caucues Law which comples the voter to publicly give the name of the political party he belongs to before the political party he belongs to before the political party he belongs to before being permitted to cact his content and the political party he belongs to before the platform was the failure to condemn that feature of the Luce Caucues Law which comples the voter to publicly give the name of the platform was the failure to condemn that feature of the Luce Caucues Law which comples to before being permitted to cact his conditions and the platform was the

voter to publicly give the name of the political party he belongs to before being permitted to cast his ballot.

A GREAT LOSS.

By the desertion of Hon. Henry M. Whitney from the Democratic ranks Governor Foss has lost his strongest supporter in his present campaign for reclection. Last Sunday Mr. Whitney came out flatfooted in favor of the score of a Protective Tariff, which he has come to the conclusion is essential to the conclusion is essential to the conclusion is essential to the continuance of the political party he belongs to before being permitted to cast his ballot.

— Last Wednesday evening Div. 3 celebrated the 41st anniversary of their organization. The entertainment consisted of addresses, vocal and instrumental music.

— Yesterday was a legal holiday and was so treated in this city. A Woburn holiday, especially if it to be a legal one, is almost always the dullest dear the flat of the score of a Protective Tariff, which he has come to the conclusion is essential to the continuance of the present proposity of the voter of the publicant icket mainly on the score of a Protective Tariff, which he has come to the conclusion is essential to the continuance of the present proposity of the voter of the present proposity of the voter of the present proposity of the voter of the publicant icket mainly on the score of a Protective Tariff, which he has come to the conclusion is essential to the conclusion is essential to the conclusion is essential to the conclusion is the present proposity of the present proposity of the present proposity of the present proposity of the pro

PYRAMID OF CHEOPS.

Mineral Microbes.

Some interesting experiments have been made with ancient medals, vases and so forth of lead that are gradually disintegrating in the museum of Cluny. After a certain number of years they fall into dust. The cause, it is thought, lies in the presence of minute quantities of saline matter with which the objects have become impropulated. It Would Take a Hundred Millions to
Duplicate It Today.
One of the most familiar questions
asked by "personally conducted" tourists visiting Egypt and the great pyramid built by Cheops is, "I wonder how much it cost to build it?" A building contractor with a head for figures and thought, lies in the presence of minute quantities of saline matter with which the objects have become impregnated during their iong burial in the soil or under water. These microscopic impurities play the part of bacteria and microbes in living bodies. In other words, the lead is "sick" and unless the noxious matter can be removed will inevitably perish. Curiously enough, it is found that if traces or sait are imparted to a fresh mass of lead it is attacked and eventually falls to pleces like the objects in the museum at Cluny.

Sea Springs.

In the very hottest district in the world—the shores of the Persian gulf—there is no rain whatever, nor rivers, the objects where is no rain whatever, nor rivers, the material alone represents and is 746 feet high and contains 143. 315.000 cubic yards of stone and granter there is no rain whatever, nor rivers, would increase this about by \$72,000.

Sea Springs.
In the very hottest district in the world—the shores of the Persian gulf— Item of \$36,000,000, while the labor would increase this about by \$72,000,000. To this must be added \$3,000,000 for tools, transportation and similar items. The pyramid is built on a solid rock 150 feet deep, and to build a foundation of this character would add to the cost to the extent of making the total of \$100,000,000,—New York World. there is no rain whatever, nor rivers, there is no rain whatever, nor rivers, nor oases. Yet water is got-from the bottom of the sea. Six miles off the shallow coast there is a long line of bubbling springs of ice cold fresh water. Divers capture it in goatskin bags and retail it inland at very moderate prices. Even in an annual drought, which lasts from January to December, and in a temperature that hardly ever sinks below 90 degrees and often rises to over 110 the natives have no worry about their water supply.

Vicarious Candy.

A group of children were playing in a gutter. A passerby walked slowly, watching the active preparations of a "little mother," aged about seven, who

"little mother," aged about seven, who was marshaling her charges into order, apparently in preparation for some urban excursion. Something had gone wrong, and one small kid was howling.

"Shut your noise, Tommy Higgins, and be good this minute;" admonished the motherlet, with a promissory smack. "If you don't stop like I tell you I'll leave you right here in the mud gutter. You can't go wid us till yez closes yer noise and be's a good boy. Do you know where we're goin'? on the floor.
"Yes, mother, but don't take off your yez closes yer noise and be's a good boy. Do you know where we're goin'? Well, we're goin' in the next block to the candy factory to smell the candles cookin'. And do you yer know what they're makin' today? Well, it's chocolate creams and pep'mint."—New York Press. Not Too Good.
Uncle inquired of little Bobby if he had been a good boy. Bobby—No. 1 haven't. Uncle — Why, 1 hope you haven't been very bad. Bobby—Oh, no; just comfortable.

Monkeys Are Fighters.

"Most persons will guess lions or tigers are the most dangerous animals to train," said an animal trainer, "but they're wrong. Give a lion one good licking and he'il remember it. He hits back only when his man is down or has his back turned, but a monkey will fight lagainst any odds, and you never can tell when he'll hit back. Even a medium small monkey can strike a blow that will reach through a coat, vest and two shirts, and he leaves a nasty wound. The most daring thing I ever did was to go into a monkey cage and take a granted on the slightest pretext. Many separated merely from love of change, disdaining to give any reason, like Aemilius Paulus, who told his friends that 'he knew best where his shoes pinched him.'

"Rich wives were not much sought after by wise men. Their complete manaepation made them difficult to manage. Accordingly, since both rich and poor wives were objectionable, tho mange into a monkey cage and take a granted on the slightest pretext. Many separated merely from love of knew perature, but any separated merely from love of the Amany separated merely from love of the substantial of the she was granted on the slightest pretext. Many separated merely from love of the substantial of the she was granted on the slightest pretext. Many separated merely from love of the substantial subst

"My goodness!" she says, with a pretty scowl. "I think a girl would feel dreadfully foolish if she proposed

to a man.' "I should think so, too," replies the tion to be held November 7, 1911, diffident youth. "But then I suppose there are som "But then I suppose there are some girls who are just simply compelled to do the proposing," she sighs, After an hour's consideration of that remark he realizes what she really means.—Woman's World.

Diplomacy.

Mrs. A.—That cook was awful, and
I am glad she's gone. Mrs. B.—Did
you discharge her? Mrs. A.—Oh, no;
I wished to avoid a scene. What I
did was flatter her so about her cooking that she thought she was under
paid and left.—Boston Transcript.

paid and left.-Boston Transcript. He Saw Them.

"Did you see any sharks when you crossed the ocean, Mr. Spirkins?" asked Miss Purling.

"Yes," replied Spirkins sadly; "I played cards with a couple."

The sting of a reproach is the truth

Saved His Mother's Life.

"Four doctors had given me up," writes Mrs. Laura Gains, of Avoca, La, "and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good. I will always praise them." Electric Bitters is a priceless blessing to women troubled with fainting and dizzy spells, backache, keadache, weakness, debility, constipation or kidney disorders. Use them and gain new heath, strength and vigor. They're guaranteed to satisfy or money refunded. Only 50c at All Druggists.

WASHING THE DISHES.

Pain and Fear Seem to Have No Place
In the Ordeal.

It is difficult to imagine a more horrible accident than falling with an airship, yet in the opinion of a German psychologist. Fritz Kahn, death resulting from such a fall is not expendingly palaful, says the New York Evening Post. He argues that it is likely to be met in a state of indifference or even an agreeable half

DEATH BY FALLING.

where the state of interest that it is likely to be met in a state of indifference or even an agreeable half conscious condition of mind. He witnessed the fall of Heim—a fall which lasted a number of seconds, as the ariship fluttered to and fro like a piece of paper before the final descent. The distance was about eighty yards. On recovering consciousness after several days Heim remembered only the ascent. Everything between that and his awakening in the hospital was a blank.

Montain climbers have had similar experiences. A French geologist who fell over a precipice attests that he swooned and never knew what happened. Whymper, on the other hand, remained fully conscious when he fell on the Matterborn. Bounding from rock to rock, he calculated the intervals between the shocks, wondered how long he could stand it, felt no pain and came to the conclusion that death through a fall must be one of the least disagreeable ways of ending one's life. A boy of eight who fell twenty-two yards declared that his only thought was that he might lose his new pockettniffe.

only a fire. A boy of eight who fend in the control of the control which is brought on by soft music.

RADIUM RAYS.

RADIUM RAYS.

Their Velocity the Highest Know Speed of Matter in Motion.

The earth fravels in its orbit round the sun inself, like all the other stars, has its own proper motion through space. Some authorities have calculated its speed at twelve miles a second. A few stars move more slowly than this, others much more rapidly. Arcturus maintains a speed of not less than 100 miles a second, and the star called "Groombridge 1830" travels 150 miles in the same brief time,

But the speeds of the heavenly bodies are slow compared with the motions of the thiest known particles of matter. The sun would seem to stand still could we compare its velocity with that of the radium "rays." These radiations are produced by successive explosions of tiny groups of the tiny atoms of radium. The "alpha rays." being themselves infinitesimal fragments of matter, are thrown out with a velocity of perhaps 12,000 miles a second. The "beta rays" travel still faster.

In the emanations of this wonderful the base of the rock is about a bluested for hother work.

In the emanations of this wonderful In the emanations of this wonderful radium we find the highest known speed of matter in motion. At 12,000 miles a second it would take little more than two seconds for a particle of matter to travel all the way round the earth. Look at your watch and note the duration of two seconds; then imagine that in a chariot drawn by "alpha rays" you have been round the world. There is hardly time in two orld. There is hardly time in two econds for you to think the journey. seconds for you to think the journey.

The highest measured speed, however, is not the speed of matter, but the speed of that etheric vibration which we call light. And light travels at the rate of 186,000 miles a second.—Youth's Companion.

DIVORCE IN ANCIENT ROME.

One Woman Had Eight Husbands In Five Years.
"We are assured by Seneca," says the historial Inge, "that there were women in ancient Rome who counted their ages not by their years, but by the husbands they had had. Juvenal tells of one woman who had married

and he leaves a nasty would. The constraint thing I ever did was to go into a monkey cage and take a baby from its mother. The ordinary house cat is the most stubborn animal under training, but the monk is the most dangerous if you work the larger kinds."—New York Sun.

Midly Censuring Him.

"My goodness:" she says, with a most cases a Roman bride groom knew practically nothing of his wife's character until after marriage. "Marriage for the Roman woman meant a transition from rigid sectusion to almost unbounded liberty. She appeared as a matter of course at her bushand's table whether he had company or not. She could go where she liked, either to the temples of isis and Seranis or to the circus and amderials or to the circus and the circus a and Serapis or to the circus and amphitheater. She had her own troops of slaves, over whom she ruled without interference."

THEY ATE LEATHER.

The Way Morgan's Pirates Prepared
Their Tough Food.
The infamous Captain Morgan and
his piratical crew were sometimes in tight places at Panama and on or

were reduced to eating their

leather bags.

"Some persons," says one of the company (Exquemelin, whose narrative is reproduced in "The Buccaneers In the West Indies"), "who never were out o their mothers' kitchens may ask how their mothers kitchens may ask now these pirates could eat, swallow and digest these pieces of leather, so hard and dry, unto whom I only answer that could they once experience what hunger—or, rather, famine—is they would certainly find the manner by their own necessity, as the pirates did

their own necessity, as the pirates did.
"For these first took the leather and sliced it in pieces. Then they beat it between two stones and rubbed it often between two stones and rubbed it, often dipping it in the water of the river to render it by these means supple and tender. Lastly they scraped off the hair and roasted or broiled it upon the fire. And, being thus cooked, they ut it into small morsels and ate it elping it down with frequent gulp of water, which by good fortune they had right at hand."

Linen Breeches.
Linen breeches were worn by men in 1491 B. C. They also at that period wore embroidered conts, besides bonnets "for glory and for beauty."

ware.—Newark News. ware.-Newark News.

DEEPEST SLEEP.

It Always Occurs During the First Hour of Slumber.

"Yes," said the doctor, "sleep is a very puzzling mystery. Nobody knows what the cause of it is, but we do know that it is always accompanied by anaemla of the brain. In other words, when you sleep the blood drains away from the head to the limbs. If you fell asleep on a balanced bed, the moment you dropped off the foot of the bed would begin to sink, and the deeper the sleep the greater the slant.

"That is why a hot bath tends to sleepiness. It brings the blood to the skin and so lessens the supply in the brain. Curiously enough, great cold has the same effect and for the same reason. You know how cold swells and seep the bands.

Lincoln county called the "Maul rock" because of its similarity to a maul. The base of the rock is about a thousand feet above sea level and is made up of large bowlders, says an exchange. The stem of the rock is twenty feet high and will average about seven feet in diameter. The cap, or maul part, is about six feet thick and is thirty-eight feet in circumference. The stem is of a soft formation and is fast crumbling away, since the timber has died that was a

formation and is fast crumbling away, since the timber has died that was a great protection from the force of strong winds. By mounting the rock by means of a ladder that is kept there a magnificent view of the West Virginia hills can be obtained.—Christian Science Monitor.

Love Letters of a Husband.

"Dear Jane—Arrived bere with morning O.K. It's a poor looking town, but business is good. I'll write more next time.—Your loving husband, John."
"Dear Jane—Got here last night. Train was three hours late. No news, but business is good. Longer letter next time.—Yours as ever, John." "Dear Jane—Sorry to hear you weren't feeling well. Hope you are better by now. Getting a good many orders here. No news, but more next time.—Lovingly, John." "Dear Jane—Just to let you know I'm all right, though the rheu-John." "Dear Jane—Just to let you know I'm all right, though the rheu matism has been bothering me again Got here this morning and have done a lot of business already. Nothing to write, but I'll do better next time.—With love John."—London Mail.

An Artist's Trials.

Brownly-Dauber certainly has his

own troubles.

Pinder-Why, I thought he was doing splendidly.

Brownly-He was until he painted that last landscape. He painted the sun in too natural.

Pinder-How could that be?

Brownly-Well, it dries up the water in the pond so fast that he has to paint in new water every two or three days.—New York Times.

In Plain Words.
Father (to his daughter, whom he es whispering to her mother)—Elsie ow often have I told you not to do that? Speak out if you want anything Elsie-Well, father, I wanted to know why the woman near me has such red nose.—Fliegende Blatter.

Small in a Double Sense.

"After all," remarked Smithers, yawning, "it is a small world."

"It has to be," snapped Smuthers, "to match some of the people in it."—Cincinnati Commercial Tribune.

"Oh, Had I the Wings of a Dove."
The daily papers reported the othe day a visit of the primute to a convice prison. The prison has been built be convict labor. Convict hands have convict labor. Convict hands have the carving. A convict played the organ, and it looks as if a convict played the organ, and it looks as if a convict selected the hymns. One of them 'Oh, Had I the Wings of a Dove," the convicts are said to have sung with great heartiness. It is easy to believe.—London Truth.

Importance Recognized.
"Do you think that man fully appre ciates the importance of the office to which we have elected him?" said one "I guess be does," replied the other. "The first thing be did was to say it ought to command a larger salary."—Washington Star.

Greeks and Romans of the ancient world invariably used white and black beans for voting at trials, the white bean signifying acquittal and the black one conviction.

JAPANESE DENTISTS.

They Use Natural Weapons In Assaulting Their Victims.

Japanese native dentists conduct their business in a manner which would undoubtedly cause any Euro pean practitioner to open his eyes in amazement. The victim is seated or the ground. The dentist bends over hir and forces his left hand between the and forces his left hand between the patient's jaws in such a manner that the mouth cannot possibly be closed. Then he grasps the doomed tooth be tween the thumb and forefinger of the right hand and with one deft wrench removes it and throws it upon the ground.

So great is the skill of these native

So great is the skill of these native dentists that many of them are able to remove six or seven teeth per mir ute. Indeed, their skill is hardly to b

ute. Indeed, their skill is hardly to be wondered at when one considers the course of preparatory training they are obliged to undergo.

A number of holes are bored in a stout plank, and this is fixed firmly to the ground. In the holes are driven wooden pegs, and the would be dentist has to extract them with his fingers without dislodging the board. This process is repeated with a board of process is repeated with a board of pine wood and finally with one of oak, and it is only when he has succeeded in extracting the pegs from the plank that the Japanese considers h self qualified to practice upon his fellow men.-Pearson's Weekly.

MAKING A LAWYER.

It Took Patrick Henry Six Weeks to Prepare For the Bar.
Patrick Henry when he was a young married man of twenty-three was a complete failure. He had tried clerking, farming and keeping a country store, all with equally negative or disastrous results.
"Best of all," he said cheerfully to himself, "I will become a lawyer."
Six weeks he allowed himself as a matter of formality to prepare for the bar. During this time he read one book, "Coke Upon Littleton," supplemented by an equally strenuous pemented by an equally strenuous pemented by an equally strenuous perusal of the "Digest of the Virginia

His examiners, Wythe, Pendleton Peyton Randolph and John Randolph hardly knew whether to be more amazed at his ignorance of law or his o little deliberation he received his

license.
"Mr. Henry." John Randolph ex-claimed enthusiastically after his ex-amination of the young neophyte. "If your industry be only half equal to your genius I augur that you will do well and become an ornament and an honor to your profession."—Green Bag.

Queen Bess' Wardrobe. Royal annals have never recorded more varied and extensive wardrob than that which belonged to the "vir gin queen." Even at the age of sixty eight, when she might be supposed to eight, when she might be supposed to have outlived her youthful vanity, she possessed 99 complete official costumes, 102 French gowns, 100 robes with trains and 67 without, 126 antique dresses, 136 bodices, 125 tunics, not to mention such trifles as 96 mantles, 85 dressing gowns and 27 fans. It is possible that she had an ugly foot, for she possessed only nine pairs of shoes, which, considering her extravagnuces in other articles of aptravagunces in other articles of apparel, must have some meaning. At her death 3,000 articles were founduly catalogued in her wardrob which had adorned her proud person.

Winter and Summer Sun.
The sun is nearer to the earth in winter than it is in summer. It is not distance that determines the amount of heat that we got from the sun, but the length of time the sun is above the horizon and the direction in which his rays strike us. In summer, although much farther from us, the sun is daily above the horizon much longer than when he is nearest, at the winter solstice, and this continued action produces the summer heat. In addition to this is to be reckoned the fact that in summer the force of the sun's rays n summer the force of the sun's ray s more perpendicular to the earth' oblique. In the case of the perpendicular ray the heat stays, while in that of the oblique ray it "glances off." see

Blunders by Novelists.
Novelists, even of eminence, ar
prone to make blunders. Sir Walte
Besant in "For Faith and Freedom
wrote after the Eykins had settled to Providence, "Barnaby soon grew tire of this quiet life and went on board steamer bound for England, promisir steamer bound for England, promising that we should hear from him." This was in 1686 or 1687, and the first steamer from America to this country did not reach Liverpool till July, 1819. Wilkie Collins also made numerous amazing blunders. In "The Duel In Herne Wood" he makes the story open Herne Wood he makes the story open with the receipt of a telegram, and the period is 1817, when twenty years had to elapse before the first telegraphic wire was laid. Three of the characters also talk of "taking the express train to London" in defiance of the fact that the first railway to London was no

Two Seats 'n the Aisle.
On a visit of John W. Gates to New
York shortly before his last trip
abroad he was discussing Wall street speculation and how dull it was wit friend who sometimes takes a flie in the market himself.

opened till 1838.

In the market himself.

"Let me see," said the friend; "it was five years ago that a Stock Exchange seat brought \$97,000. Now one can be got for \$75,000."

"Seventy-five thousand dollars;" shouted Gates. "If a man went down to the exchange with \$75,000 real money be could get two seats on the midey he could get two seats on the mi dle aisle."-New York Sun.

The Ohio river claims among its treasures the Jenny Lind rock. The singer was a passenger on a steamer which struck on a sand bar near the rock, and while waiting for the boat to be floated Miss Lind had boatmen row her out to the rock, where she stood alone and sang a song.

Of Course. Of Course.

In the bankruptcy court 1 once heard a witness asked the amount of his gross income. "Me gross income is it? Sure an' I'd have ye know that 1 have no gross income. I'm a fisherman, an' me income is all net," was the astonishing reply.—Green Bag.

"Mandy," said the village tailor to his wife. "I'm going to give Sam Bil-ilings a suit of clothes for a pig." "My goodness, papa!" exclaimed his little daukiter. "What does a pig want with a suit of clothes?"—New York Times. York Times.

"Railways" and "Railroads."

We are all speaking of "railways" now instead of "railroads," as they do in America. Both words seem to be of about equal age in this country. Cobbett in 1832 wrote of "rail-ways" with the hyphen, Scott in 1830 of "rail-roads." But already in 1838 an engineering journal declared that "rail-roads." by this time seemed to be generally adopted as the popular form, though nearly twenty years later Ruskin still talked of "railroads." It is curious that America has preserved Part of the Game.
"How'd you like to sign with me for iffe's game?" inquired the young man.
"I'm agreeable." replied the girl.
"Where's your diamond?"—Louisville
Courier-Journal.

curious that America has preserved the word which remembers the deword while Americans speak of "engineers" and "conductors" where we say "diviers" and "guards." perpetuating the old coaching words.—London Spectator. curious that America has preserved

SCHOOLS IN CHINA

They Have Curious and Strenuous Methods of Teaching.

AMAZING FEATS OF MEMORY.

They Have Pupils Are Kept "Getting by Heart" Books of Which They Have No Understanding, After Which Comes the Explanation.

A Chinese schoolboy sets off one fine morning when seven or eight years old to enter on his instructional course. He makes the most profound obelsance to his teacher. His parents provide the table at which and the stool on which he sits. They also supply the "four precious articles," the ink slab, the ink cake, the pen or brush for writing and the paper.

He will have no need at first of the seven on edent first of the will have no need at first of the seven of the paper.

He will have no need at first of the seven on the paper.

Wost Going That Way.

"Miss Adkins, there is something I desire very much to ask you."

"Oh. Mr. Williston—I mean Fred—I'm sure I should be delighted to hear from a pred—I'm sure I should be delighted to hear from a pred—I'm sure I should be delighted to hear from the is there that you can possibly wish to ask me?"

"Would you be willing to go on a long journey. "Yes, I will go with you. Of course I—I suppose it is the journey that a known to botanists as Anastatica, commonly called the Resurrection plant is an annual inhabiting the Egyptian desert. It is so highly hygrometric that when fully developed it contracts its rigid branches so as to constitute a ball. Exposed then to the action of the wind it is blown hither and thither toward the sea, when it is gathered and exported to Europe. If then, when apparently dead and dried up, its root is plunged into ware.

"Oh! Well, you just tell your home your precious articles," the ink slab, the ink cake, the pen or brush for writing and the paper.

He will have no need at first of the stream of the paper.

He will have no need at first of the stream of the paper.

heard may be registered if willing. Vessels suggest people, for we are spoken of as earthen vessels, and vessels meet for the Master's use (II Cor. 14, 7; 11 Tim. ii, 21), and we must be as content to be earthen as to be silver or gold, to be second sort as well as first (chapter i, 10, 11). Then in verse 9 we read of nine and twenty knives, and cutting things abound on all sides, all for our good, and to manifest in these mortal bodies the life of Jesus Christ (Rom. viii, 28, 29).

"The Thunderer." It was the mud flinging of an earlie

It was the mud flinging of an earlier mode of travel than the motorbus that gave the London Times its nickname of "The Thunderer." Two ladies at Kew had been splashed by an unmannerly horseman passing them too closely, and the Times came out with a strong leader alleging the offender to have been the Duke of Cumberland. In due course it was found that the horseman was not the duke, and in a erseman was not the duke, and in further article by way of apology the Times used the words "We thundered out," an expression that so tickled the public that the name of "Thunderer" as bestowed on the paper forthwith

A Notable Statue.

In the beautifu! city of Buenos Aires is perhaps the only statue in the world erected by white men to a negro. This is the statue of Falucho, a negro soldier who refused to haul down the Argentine flag at the bidding of the Spanish soldiery during the first Argentine revolution and was shot according to the Spanish. Argentine revolution down by the Spanish.

EXPERT TESTIMONY.

Case Where Two Infallibles Held

THE INTERNATIONAL SERIES. Text of the Lesson, Ezra i, 1-11; ii, 64 70—Memory Verses, i, 3, 4—Golden Text, Mic. vii, 18—Commentary Pre-pared by Rev. D. M. Stearns.

A Case Where Two Infallibles Held Conflicting Opinions.

The fallibility of expert testimony, which under stress of clever cross examination tends to the too decided statement, is amusingly revealed in "Science and the Criminal," a book by C. Ainsworth Mitchell, the head of the inspection bureau of Scotland Yard.

Nethercliffe, who was the chief handwriting expert in the days when the witty Lord Brampton was at the bar, had such faith in his methods that finally he came to believe that he could not make a mistake.

In a case in which he was under cross examination by Lord Brampton, then Mr. Hawkins, Nethercliffe had claimed that his system gave infallible laimed that his system gave infallible esults and had further stated that his

How I Made a Match on Halloween

By Mrs. SARAH B. ROBERTS

The several summers during my o

The several summers during my oc-cupancy of my cottage a girl about seventeen years old-Myra Crofts was her name-brought me milk. She drove about among her customers in a little buckboard wagon drawn by a small horse, so used to his mistress' stops that he would stand quietly wherever he was placed. Myra was a study for an artist. Her clothes were of the poorest, but her face was comely and her figure fit for a model for a statue. I did my own house-MAILS WILL BE DISTRIBUTED AT THE

I had my eye on a young fisherman, to whom I had taken as much fancy as I had for Myra. During the months of July and August he gave his attention to the summer visitors, taking them out in his motorboat, but after they had gone he would return to his fishing. I went out with him frequently and had every confidence in his ability as a skipper. There

bit of shore, a point, which confirms me in my opinion as to where I am." This was all unintelligable to me, for I had during the whole period seen nothing but that driving fog so com-

It occurred to me that Ned Ballard It occurred to me that Ned Ballard and Myra Crofts would make a good match. Ned brawny and strong. Myra a fine specimen of a country girl. So interested was I in bringing the two together by a plan I conceived that when the season ended and the other summer residents and visitors departed I stayed on. For a few days after the hegira from country to city I felt lonely at the changed appearance the onely at the changed appearance the came accustomed to the new regime came accustomed to the new regime I felt more pleasure in my surroundings than ever. There was above me the great blue dome of the heavens, about me the waters of the bay, and I breathed in as pure air as it is possible to find on the globe.

To carry out my scheme for bringing my two favorites together I was obliged to stay till after Halloween, for on that day it was to be put in practice. My sailing days were not so

practice. My sailing days were not so frequent now since Ned Bailard was engaged with his fishing. His work was in the night, and he slept by day. He fished principally for mackerel, spreading his nets at set of sun and taking them up at its rising, and when lucky would find them well filled with fish, which he sold at a handsome price. He told me that in one hau he once took in 1,300 pounds.

Moonlight nights were his favorite time to fish. There was sufficient practice. My sailing days were not so

Room 11, Mechanics Bldg, WOBURN

OFFICE HOURS:

9 to 12 A. M. 2 to 5 and 7 to 9 P. M.

time to fish. There was sufficient eight by which to work, but not enough for the fish down in the water to see the nets in which their fine were caught. I have myself seen him were caught. I have myself seen him out between my cottage and Ragged island—so called from its ragged shore —and when his boat would lie in the moon's shimmer I could almost recog-nize the silhouette of his figure. That year Halloween came at the full of the moon. I had thought of inviting Ned and Myra to my cottage unknown to each other and contriv-

ing to have them see each other's reflection in mirrors, but Ned was having such luck with his fishing and the

light of the moon was so valuable to him that I could not prevail upon him to give me even one night. So I was obliged to invent another plan.

Ned knew very little about Halloween. He had heard of it, but did

ook but little interest in the matter

for should it storm or the sea be bols terous all would be spoiled.

As I expected, when Myra came to me on Halloween she was as be-comingly dressed as her scanty ward-robe would admit. I had procured a flower during the day, which I put in her hair, and replaced her tawdry wrap-with a white sweater. The nights with a white sweater. The night Myra had the warm blood of youth in her veins, and 1 knew a sweater would keep her perfectly comfortable. Fortunately there was no wind, and the sky was covered only by broken clouds that rendered the heavens more

clouds that rendered the heavens more beautiful, lighted, as they were, by the moon.

I took my charge down to a stony beach, where, there being only a long, low ocean swell, I had moored it. She got in, and as I pressed her hand as tarting I noticed that she was thrilled with emotion. I pushed off the boat, telling her to steer for the north point of Ragged island. I could myself see Ned's boat between me and the point, but Myra was so excited that she was oblivious to it. As I saw her sail out into the moonlight I sent a prayer after that she was the world find a bushed and into the moonlight I sent a prayer after her that she would find a husband and

the that she would find a husband and happiness.

Of her appearance to the fisherman I learned afterward from himself.

"I confess," he said, "that until I got to work setting my nets I thought of what you had told me, though I did not dream of its coming to pass, but as soon as I was busy I forgot all about it. Then I heard the explosions of a motorboat. Boats are rare out there except in summer, and I wondered who was coming. When the boat came near me I looked up, and there, her face lighted by the moon, standing with one hand on the tiller, was Myra Crofts. I was taken flat aback.

"'Why, Myra,' I exclaimed, 'what brings you out here in the night all alone?"

"She answered never a word, just looking at me strangely out of her eyes, as though moved by some deen

"She answered never a word, just looking at me strangely out of her eyes, as though moved by some deep feeling. Her boat passed mine and, turning, moved in the moon's shimmer

turning, moved in the moon's shimmer toward the narrow waterway between Orr's and Bailey's islands. I could see it go through and turn northward doubtless to the anchorage cove a little farther up."

It was Myra's faith that she had seen the man she was to marry that brought success to my scheme. Ned could not resist her innocent belief. The next spring the pair were married, and I was a much interested spectator sible while those about us are unand I was a much interested spectator at the ceremony. My wedding gift was happy.

The Destruction of Portland, Me., In Colonial Days.

ACT OF AN ENGLISH OFFICER. Was no superstition about him, and I knew it would be impossible for me to Librarce him to ask Myra to be his wife through a childlike faith in an apparition. But we women are made af diff. Annihilation of the City and Saved Portsmouth, N. H., For Which Port-land's Fate Had Been Planned.

One of the causes of the Revolution ferent stuff from men, and I could rely on Myra to believe in anything that had the appearance of being supernatural, especially if it pointed to a student as the stamp act. was the wanton denate. A few days before Hallowen, when she came to deliver milk to me, I said to her:
"Myra, are you going to try to get a glimpse of your future husband on Hailoween?"

"I haven't thought of doing so," she Halloween?"
"I haven't thought of doing so," she replied consciously, "You don't believe in that, do you?"
"Why not? There are lots of queer things in the world. Is it any more wonderful that a girl should see the man she will marry than that messages may be sent through the air without even a wire to conduct them?"
"I never thought of that."

was added to the meager forces of the Continental army.

Not so generally known, however, is the tradition that it was due to the fascinations of a beautiful woman that Portland was destroyed and another town preserved.

When the British commander, Captain Mowatt on beard his flagship, the

tain Mowatt, on board his flagship, the Canceau, anchored with his fleet in began a bombardment that lasted un In have a small motorboont, which I will lend you. You can run it, can't you?"
"Yes, ma'am."
"Well, come here just before 11 o'clock. The moon will be nearly full. I will start you out on the water. You will pass but one person—a man in a boat. He will be your husband."

The innocent creature's face beamed with pleasure. She regarded what 1 told her as probable, as I had myself many years before considered it possible that with a bit of wedding cake interruptedly until 6 o'clock at night.

vaded the town, setting fire to such buildings as had escaped damage from buildings as had escaped damage from hot shot and exploding bombs. Before Captain Mowatt had completed the sac-rifice be desired to lay before love's strine three-quarters of the town was totally destroyed, including the mu-nicipal buildings, churches, public li-brary, fire engine houses, warehouses, wharfs and shipping.

All that he left was a handful of the poorer hovels, every residence of im-portance being bombarded or set on fire and 5,000 inhabitants left she

ter he destroyed all but one wharf and took with him on his departure all the vessels anchored in the harbor that had been spared from the torch. Truly he had a glorious bonfire and in explanation he exhibited instruc-tions which read: "Come opposite the town with all possible expedition, and there burn, sink and destroy," but the cossips of the time said that these orthat they were not carried out as writ-

took but little interest in the matter of Halloween, but would not be averse to seeing a sweetheart.
"Itell you your future wife will sail past you tomorrow night."
"Mermaid on a seashell?" he called after me.
I gave him no reply? All was working well for my plan. I only hoped that the weather would be propitious, for should it storm or the sea be bolsterous all would be spoiled.

As I expected, when Myra came to women are concerned, and his fleet had anchored off Portsmouth harbor some previously to his assault upon Portland, and while there he had gone previously to his obsore and secretly visited the family of the royalist or Tory, as the colonists called them). Nathaniel had a daughter, a girl of eighteen, famed the country found for her beauty as her father was famed for his obnoxious loyalty to King George, and when the sailor captain saw her he proved an easy conquest (like most sailors where pretty women are concerned), and he found Ings with attractive Mary Sparhawk.

Her wit, beauty and brilliancy of conversation fascinated him and through her influence, it is said, the intention of bombarding Portsmouth was abandoned, and Portland suffered in the stead of the town which held the observable like the suffered from the stead of the constitution of the c

undefended and peaceful city" came about through a woman's smile, and

WILD SILKWORMS.

Inside Their Huge Nests.

The world is indebted to the Chinese for the discovery of the virtues of the slikworm. Its product was unknown in Rome until the time of Julius Caesar, and so costly was the material that even the Emperor Aurelian refused a dress of this lustrous fabric to his empress. Now it is nurtured in almost every country, and its products are within the reach of all. icts are within the reach of all.

ucts are within the reach of all.

Besides the several domesticated species, there is a wild silkworm found in Central America which weaves a bagilke structure two feet in depth that hangs from the trees. At a distance the nest resembles a huge matted cobweb. The insect makes no eccoon but weaves the silk makes no cocoon, but weaves the silk in layers and skeins around the inside of the nest. From Tegucigalpa

along with a load of fine silk on its icate filaments.—Harper's Weekly.

THE LOST ATLANTIS.

city rearing its domes and minarets up through the green of the sea. Atlantis was a continental island be-

tween Europe and America. Solon as long ago as 600 B. C. learned the sto-

kings finally became so puffed with kings finally became so puffed with power that they united forces and planned a descent on Europe, the pur-pose of which was to destroy and en-slave. The Athenians met the in-vaders and after a fearful battle gain-ed a decisive victory. Two days later mighty earthquakes shook the earth, and tremendous inun-

shook the earth, and tremendous inun-dations came. When peace succeeded elemental turmoil the sea stretched where once had been Atlantis.

A Quicker Process.

A story is told of a certain famous inventor who is fortunate enough to be able to employ a large staff of engineers and mathematicians to aid him in the solution of knotty problems. Some time ago the inventor desired to find the cubic capacity of a certain yes. find the cubic capacity of a certain ves sel of unsymmetrical proportions and asked his mathematicians to solve the asked his mathematicians to solve the problem. As the story goes, the mathematicians spent weeks of time, filled whole books with their calculations and finally presented what they said was a close approximation to the true result. Thereupon the famous inventor placed the vessel on a platform scale, filled it to the brim with water, obtained its weight when full and when empty, and in a few minutes he had a result as good as the mathematicians—for that particular vessel.— Engineering News.

He Liked Turtle.

Charles Kean in forcing a tavern companion to take mustard with his beef showed a more generous disposition than a city magnate who figures in the "Memoirs of Grantley Berkeley." Although a hearty feeder, Berkeley did not like fat and when served with turtle soun always left the green ley did not like fat and when served with turtle soup always left the green fat on the side of his plate. This is considered by many to be the best part of the dish, and at a city dinner Berkeley attended his neighbor observed him with horror deliberately rejecting the unctuous green fragments. "At length his feelings got the better of the alderman, and after demolishing his third helping of turtle he swept all the fat from my plate on to his, grunting contemptuously, 'I see they're wasted on you." — London Chronicle.

a large store and asked to see some unset diamonds. The proprietor of

long ago as 600 B. C. learned the sto-ry in Egypt, and it is from him and later from Plato that the tale has been handed down to modern peoples.

Atlantis was reigned over by three kings of marvelous power, and the in-habitants were a warlike people far advanced in civilization. The three kings finally became as purified with hendquarters and searched. The gems were not found on her, and in her indignation she threatened to bring suit against the proprietor. He had been sure she had taken the stones, but in his profusion of apology offered to give her the one she had been looking at and at the same time refund her \$10. This was better than a suit and the loss of all the supposed friends of the woman, thought the dealer. She accompanied him back to the store and while there, watched by detectives. while there, watched by detectives, made her way up to the case where she had stood before and, slipping her

swindled nearly every dealer in New

swindled nearly every dealer in New York with her gum trick.
"One of the most ingenious thefts was made in Berlin, where a fellow walked into a general jewelry store, knowing the owner had a fine diamond. The thief wore an expensive diamond himself and went into the store apparently to have an old German watch repaired. He started to talk of diamonds and exhibited his own as a choice stone. He was shown the other stone by the dealer. They discussed diamonds in every phase until the watch was repaired, when the stranger started to pay for the

away, secure in the thought that he was safe.
"He was taken to the store and

Ample explanation of the many attempts to construct a universal language lies enfolded in the reply of a small boy, given by Mrs. Hugh Fraser in "A Diplomatist's Wife In Many Lands."

HIGHLEY FOR MAYOR.

ity we are unable to state, that Mr Samuel Highley, ex-Alderman and President of the Woburn

their choice.

Mr. Highley is a wideawake,

successful man of affairs who for years past has been an earnest worker for and promoter of the best interests of Woburn, and, if elected, will make a good Mayor.

The Arlington Sunday trains have been permanently discontinued in obedience to an order from President Mellen to reduce expenses on all the lines. He comands that every Suburban train that fails to pay running expenses shall be immediatly cut off. Until President Mellen's order was issued Woburn had 23 or 24 Boston trains daily each way-46 or 48 in all; but how many we are to have when the work of elimina-The registration of voters for the State Completed nobody outside of the North Station knows. If the Bay State Company would take advantage of their opportunities, Woburn patrons wouldn't care very much whether the steam trains were few or many. If the Bay State would doubletrack their line between Woburn and Boston and thus reduce the running time to 30 or 40 minutes, the B. & M. would be compelled to shave down their Suburban running expense account even closer than they will under President Mellen's last order.

The registration of voters for the State selection on Nov. 7 closed at 10 of clock Wednesday evening. Several whom called on him and left hearty whom called on him and left hearty whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been whom called on him and left hearty had been chosen whom called on him and left hearty had been chosen whom called on him and left hearty had been cheen. WINCHESTER

This town has a full supply of Christian Scientists. And the leaders of that sect believe in publicity, too.

Miss Elder was chiefly instruments in securing the large and fashionable audience at Miss Richards' splendid lecture here last Saturday evening.

Last week Rev. John W. Suter, Rector of Epiphany Episcopal church of this town, resigned from that sacred office to take effect on Jan. 1, 1912. His object is to engage in literary and educational work. He is one of the ablest Episcopal ministers in Massachusetts.

A large gathering of ladies and gentlemen were delighted with the able gentlemen were delighted with the able and highly entertaining lecture de livered by Miss Janet E. Richards of Washington, D. C., last Saturday evening. Hon. John D. Long presided at the meeting. Miss Richards is a fine speaker, and always attractal large audiences. She is exceedingly popular in this town.

popular in this town.

Ex Governor and former Secretary of the U. S. Navy, John D. Long of Hingham was the guest of Samuel J. Elder, Esq., U. S. Counsel in the American-British New Foundland Fisheries controversy at The Hague several months ago, last Saturday night. Governor Long had presided at the Miss Richards Suffrage meeting, at which he also expressed his views on the subject and on which Esquire Elder is earnestly meditating.

To cut down expenses the Boston & Samuel Country of the Boston & Samuel Country of the Sam

Elder is earnestly meditating.

To cut down expenses the Boston & Maine Railroad Co. are reducing the number of suburban trains, to which our people seriously and earnestly object. A terrible fit of economy at tacked the Company a few weeks ago and last Saturday several hundred men from all Departments, were discharged without notice. It falls mighty hard on the employees, especially on men with families to support. Winter is close at hand with its extra cost of living and to deprive the breadwinners pists at this time of employment comes pretty near being wicked.

I am forced to the conclusion that I remember more about "The Boys of "Maine" than "Montague" does. Secondly I and my newspaper worked hard to reelect Owen Lovejoy to Congress from the 5th Illinois District in 1862, and that he died at Princeton, public of the primariles. The distribution of the speakers at the Democratic convention made a mistake in language of 1863. I know "upon the primary content of the primary of the content of the primary of th

ress from the 5th Illinois District in 1862, and that he died at Princeton, Illinois, in the spring of 1863. I know that sobersided Abolitionists disapproved of Elijah Lovejoy's scheme to convert the ignorant proslavery people of "Egypt," or Southern Illinois, to Abolitionism by publishing a newspaper at Alton. They considered it extremely unwise and foolhardy. And I know many other things about the Prays of Maina".

Saved His Mother's Life.

"Four doctors had given me up," writes Mrs. Laura Gains, of Avoca, La, "and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good. I will always praise them." Electric Bitters is a priceless blessing to women troubled with fainting and dizzy spells, backache, headache, weakness, debility, constipation or kidney disorders. Use them and gain new health, strength and vigor. They're quaranteed to satisfy or money refunded. Only 80c at All Druggists.

Curious Way of Catching Fish.
Indians of Bolivia have a peculiar method of going fishing. A writer in the Geographical Journal says: "They use the milk of the 'manuma' or 'soliman' tree, the scientific name of which is, I think, Hura crepitans, of the euphorbia genus, for catching fish. I went with some of the Indians to a lagoon in the forest. Here, floating on the surface of the water, perfectly talve and yet absolutely unable to get away, were fish of all kinds, big and small, from which they selected the most palatable for food. The milk is merely poured into the water, and as it spreads every fish which comes in contact with it becomes paralyzed and yet is not affected as food. Moreover, the effect appears to last for several days without killing the fish. The milk is also used as a cure for toothache, as a caustic and for the purpose of suicide, for which a teaspoonful is employed. As a poison they say the results are painful."

Rulers of England.

Rulers of England.

The first to rule over all England was Egbert, king of Wessex, who amited.

Curious Way of Catching fish. In the cessers to be as popular as a peculiar method of going fishing. Fasting For Health.

Thousands of years before it was practiced as a religious rite fasting practiced as a religious rite fasting to Cleero was Asciepiades, a Greek physician, who strongly advocated this idea, and 1,000 years after his day Ihn Sina, philosopher and that it came easier than constant mod-sariton.

REPUBLICANS CONFIDENT

Big Victory

DEMOGRATS MAKE HOT FIGHT

in His Previous Campaigns-Labor Men Not Satisfied With His Attitude - Liquor Interests Opposed to Robert Luce

Republicans are very much please t the outlook for a successful cam-aign in Massachusetts this fall. It is paign in Massachusetts this fair. To sunquestionably true that there has been a remarkable change in public sentiment toward the Republican candidates in the last two orthree weeks. didates in the last two or three weeks. It has become intensified greatly since the two conventions were held, and the Republican and Democratic parties placed the mominees in the field. Men who were predicting three months ago that Republicans had no chance in the election this fall, are today declaring that Frothingham is surely going to be elected.

It seems evident that the people have taken the candidacy of Lieuter-

boyishness, that people like; that h is not a tool and has a rather inde-pendent turn of mind, and that his public record is honest, at any rate.

ing to buy his election, it appears from records at the state house that

from records at the state house that last year Mr. Foss himself spent \$37,-000 for his own election while Frothingham spent only \$1050.

This is the usual kind of a Foss campaign. He fooled voters last year, but there is plenty of evidence to warrant the conclusion that he will have some difficulty in fooling them a second time. He is evidently trying to make a campaign which will attract to himself the labor vote of the state.

SPAIN'S NATIONAL ANTHEM. 'La Marcha Realle" Was Composed by

"La Marcha Realle" Was Composed by Frederick the Great.

Frederick the Great was the composer of the Spanish national anthem. Frederick's ambitions were varied. He performed on the flute. He desired to be thought a poet. He quoted Latin, but his quotations would have made Cicero stare and gasp. During that remarkable friendship which existed between him and Voltaire the author of the "Henrinde" exclaimed with deof the "Henriade" exclaimed with de of the "Henriade" exclaimed with de-rision, "See the dirty linen I have to wash." holding up Frederick's manu-script, which had been sent him to re-vise. In the field the great warrior carried about his own poems in his pocket and a bottle of poison, so that he should not be taken alive. Menzel's picture depicts the king with his flute, and Bach dedicated to him one of his compositions.

Spanish national anthem is full of in-terest. A little while after the conclu-sion of the Seven Years' war Frederick sion of the Seven Years' war Frederick at a court reception to the surprise of every one produced a march which he had composed. The Spanish ambassador, both a musician and courtier, asked for a copy to send to his royal master, Charles III. That monarch admired the piece, and it was often heard at the Escurial. After a time it was laid aside and almost forgotten. In 1809, after the deposition of Isabella, Marshal Serrano instituted a cometition among composers for a nation this piring as Frederick's march, which had been exhumed from the archives. This was chosen and is today known as "La Marcha Realle."—London Globe.

SCHOLARS IN CHINA.

They Rule the Country Where Al Foreigners Are Called Boors.

Foreigners Are Called Boors.
The scholars rule China today. Dress is of more moment there than in any other country, yet the scholar, although poor and meanly dressed, it received with honor by the highest in the land.
"The superior man" of the classics is the equivalent of the "good man"

is the equivalent of the "good man" with us. This man, his character and his conduct are the constant theme of approbation. His virtue, his honor. his social relations, his manners in public and private, are carefully de-fined. His dignity is among his high-est qualities and must be maintained

oys, like old men, stand sedately by nd look on. This he does as a methd of instruction and to show the hildren how the superior man can re

children how the superior man can relax when his high purpose is to entertain and educate the young.

To the Chinese the foreigner is a
hop and a barbarian. It seems a
hopeless task to teach him politeness.

The Chinese wonders why the foreigner leaves his own country at all.

Is it too small for him to make his living, or has he come to observe the superior people? If so he is to be commended. But, alas, what a boor he is!

—National Geographic Magazine. National Geographic Magazine.

Sir Herbert Beerbohm Tree, the fa-mous theatrical manager, was present at a supper in London a short time ago where Signor Grasso was an hon ored and much feted guest. ored and much feted guest. When the banquet was over and every one was departing, Grasso was so confused and carried away by the attentions and embraces which had been showered upon him that he thought-lessly directed his taxl driver to drive him to the stage does of the theater aim to the stage door of the theater at which he was playing.

at which he was playing.
"What on earth does he want to go
back to the theater for at this time of
the night?" asked one of those who
were waving him adleu.
"Ah," said Sir Herbert Tree, "I expect he has forgotten to kiss the fire"ren"."

Fireproof Wood.

Though there are a number of different kinds of wood, ebony, ironwood,
etc., of such close, hard fiber that even the fiercest fire has difficulty in "getting hold" of it, there is only one sort, so far as now known, that is practically fireproof. This is a small scraggy tree, a native of South America, called the shopala, with thick, tough, stringy bark full of a sort of fire resisting sap. This curious shrub grows largely on the great, grassy savannas, which are sweet by fire almost every

Whale Extract.

It is said that the flesh of both the shark and the whale (which latter, however, cannot, of course, be properly classified as a fish) are largely utily classified as a fish) are largely utilized in northern Europe for the preparation of a fish extract that resembles in some respects the popular extracts of beef, being at the same time far cheaper. All fishy flavor is eliminated by chemical processes, and the extract is valuable for the foundation extract is valuable for the foundation of soups and in general cookery. Whale meat is very nutritious, but its excessive amount of fat renders it unpalatable to most persons. So this fat is removed before the extract is boiled down to a sirupy consistence and sealed in jars. In many of the fish factories of Norway a "fish meal" is made that is eaten extensively by the nations of northern Europe. In these that is eaten extensively by the na-tions of northern Europe. In these several ways fish which were former-ly rejected as being unfit for food are being utilized to the advantage of many.—Scientific American.

Hoaxed the Naturalist,
One of the most remarkable books
ever published is the "Lithographia
Wirceburgensis," written by a Wurzburg naturalist named Behringer in 1726. Probably very few copies are in existence, as the author destroyed all that he could get possession of soon after the book appeared. He had been victimized by some practical jokers, who had made a great variety of artificial "fossils" and hidden them in a quarry, to which they then enticed the professor. Behringer was overjoyed by so rich a find and had no suspicion of the trick, although many of the fossils were of a very grotesque character. He took his treasures home, made elaborate drawings of them and wrote ourg naturalist named Behringer in laborate drawings of them and wrote some difficulty in fooling them a seccond time. He is evidently trying to
make a campaign which will attract
to himself the labor vote of the state.

He who is firm and resolute in will
moids the world to himself.—Goethe.

DRESDEN CHINA.

Its Three Periods and the Marks the

Its Three Periods and the Marks the Pieces Bear.

Dresden china began its reign at the fair of Leipzig, 1721, where it was offered for public sale for the first time. It has had three periods—King's, Mar soline and modern.

The factory marks traced on the bottom of each piece vary according to the period—the oldest (King's) being the monogram A. R. and the wand of Acculapius. The familiar crossed swords, with the dot or circle between the handles, were first used in 1721, and the star took the place of the dot in the Marcoline period. The modern mark is the simple crossed swords, sometimes accompanied by letters and numbers. numbers.

numbers.
Although the methods of work are still jealously guarded in all factories, the essentials are an open secret, and the following rough outline may satisfy the lazily curious: The ingredients of porcelain are kaolin feldspar, sand and selenite. These are ground fine and mixed in limewater. The paste is then molded into forms and fired in an oven of moderate heat. When taken out it is in an owner state and is an oven of moderate neat. When taken out it is in an opaque state and is then dipped in the glaze, which is feld-spar ground fine, with a little alkali. It is now subjected to a firing of great heat, which results in the beautiful polished surface so familiar the world

polished surface so familiar the works over.

This second firing is attended with risk, for if the piece is allowed to re-main beyond the exact proper moment the whole melts together and is ruined.

SEASICKNESS.

It Is Not Beneficial, and In Rare Case

it is Not Beneficial, and in Rare Cases
it Causes Death.

In the light of modern intelligence
the once popular idea that seasickness
was of real benefit to the sufferer and
that it never terminated fatally has
been exploded. Not only is this malady to be guarded against by every
means possible, but it is even to be means possible, but it is even to b dreaded by those who are not over robust as leading to possible fatal re

The old fashioned notion that a goo The old rasmoned notion that a good dose of seasickness was beneficial was due wholly to the fact that upon recovery the victim of mail de mer is usually so delighted that he is apt to imagine that he never felt better in his life, while feeling normal again is provided to great a contrast to the exmerely so great a contrast to the ex ceedingly wretched condition which this disorder brings about that ex-aggeration of one's feelings is the most natural thing in the world. Sea-

most natural thing in the world. Sea-sickness is far from pleasant. It is not beneficial, and in rare cases it terminates fatally.

There is one consolation, however, that with the growth of the size of ships and the increase of speed travel-ers are to a certain extent insured against it or if attacked are certain that their sufferings will be short.— Marine Journal.

The Art of Poisoning.
Professional poisoners arose early in our era. It is recorded that Agrippina (A. D. 26) refused to eat apples at the table of her father-in-law. Thertus, through fear of poison. The notorious Locusta flourished in that epoch. It is charged that she supplied with appropriate directions the poison by which Agrippina rid herself of Claudius. She also furnished the poison that was administered to Britannicus by order of Nero. This crime was committed in quite a conventional manner. The Romans were accustomed to drink hot water at table, but the same temperature did not appeal to same temperature did not appeal to all. A slave offered hot water to Britannicus. "Too hot," he remarked. The slave added cold water. Britannicus drank, gasped once or twice and died. The cold water was poisoned either with a cyanide or with prussic acid.

Queer Newspaper Names.

The Italians are naturally an imaginative race, and the titles which they give to their newspapers, especially in the provinces, fully confirm the fact

Here are some instances of the curios At Aqui, in Piedmont, there is I

At Aqui, in Pledmont, there is II Bollente (the bolling one); at Gerace, the Circus of Nero; at Messina, the Lightning; at Lucca, the Second Lightning; at Monbercelli, the Inflexible; at Catania, the New Marionettes.

Humorous publications rejoice in even stranger titles. We have the Contropelo (shave against the grain) at Naples, the Two of Spades at Turin, the Slap in the Face at Bologna, the Plf Paf at Palermo, the Brush at Cattanissetta and the Mosquito at Savigliano.

A Mighty Drinker.

William Lewis, Esq., of Llandisruan,
who died on Dec., 30, 1763, in the act of
strinking a "tumbler maur"—that is, a
cup of Welsh ale containing about a
wine quart—had made it a rule in his
life to read a certain number of chapters in the Bible every morning and by
way of assisting in the digestion of so
much spiritual food to drink no less
than eight gallons of ale every morning. It was calculated by some mathematical genius of the time that in the
course of his life Mr. Lewis must have
drink enough ale to float a seventyfour gun ship. His size was extraortileman's Magazine he weighed 560
pounds, and the diameter of his body
was no less than six feet. Fortunately, says the writer of his obituary noettice, he died in his parlor, for it would
have been impossible to bring him
downstairs in a coffin. Even as it
was, the undertakers had to use a
crane to lift the coffin on to a carriage and to have the same machine in
the churchyard to let it down into his
reave.—Therebase Januara.

VANISHED GRANDEUR.

Glories of the Thames When London Roads Were Markets.

Roads Were Markets.

In Tudor times royal residences were situated along the Middlesex bank of the Thames, and splendid barges manned by oarsmen in livery were constantly coming and going between them.

"The city companies," says the Longer Thus, "Mi lead that says the Longer and the same a

"I have the pen yet," concluded the

"I have the pen yet," concluded the laborer, "and no dirt was ever shoveled with it."—New York Globe.

Apropos of the custom of some hos tesses to invite professional artistes to their house in the expectation that the will amuse their guests free of charge a story is told of Mme. Berthe Bady the famous Parisian artiste, who was invited to a social gathering and asked invited to a social gathering and askee by the hostess to recite. She consent ad, and then, in order that there might be no mistake about the matter, the hostess said:

"How kind it is of you to work for us in this friendly manner!"

The emphasis on the word "friendly" was so marked as to show clearly was so marked as to show clearly

was so marked as to show clearly enough that the service was to be gra tuitous. After the recitation was over Mme. Bady took a silver card tray fro Mme. Bady took a sliver card tray from a footman, and, initating the musicians in the cafes chantants, she made a tour of the drawing room and collected whatever contributions were offered, and they were substantial ones. Then she handed them to her hostess and left the house.

As every one knows, it is dangerous to stand near a tree during a thunderstorm, but if any one is so foolish as to do it he will do well to lean against the tree. If he does this the charge goes in at his shoulder, burning it, and then passes down the skin along the middle of the back. Arrived at the legs, it may run along one or both. It will seriously burn the knees and other prominent parts, get out through the stockings or bore a hole through the merable stars that give forth very little light or heat. Either they were never at any period of their history bright and glowing like the myriad stars that make the midnight sky so beautiful or in the course of countless ages the heat they once possessed has radiated away from them into the depth of space, and now they are, as their name describes them, "dark stars."

Robert Louis Ste They tell me Simpkins' wife is a perfect tyrant. The poor fellow actually goes around, they say, without a nickel in his pockets."

"Worse than that—she's cut off his aupply of pockets."—Cleveland Plain Dealer.

WOBURN NATIONAL BANK

Savings Department.

The beginning of successful operation of UNITED STATES POSTAL SAVINGS BANKS, and the possibility of legislation, by Congress, looking to the establishment of NATIONAL SAVINGS BANKS, as outlined by Senator Aldrich, in his tentative plan for a new banking law, seems to indicate a popular demand for places of savings under the control and supervision of the UNITED STATES GOVERNMENT.

GOVERNMENT. To meet this legitimate demand and to extend increased banking facilities to the people of Woburn and vicinity, the WOBURN NATIONAL BANK has opened a new department to be known as its SAVINGS DEPARTMENT, and will receive deposits of money to bear interest FROM DATE OFDEPOSIT at the rate of three per centum per annum on sums not less than \$100. These deposits however will not be subject to check.

All deposits in this bank are GUARANTEED by its capital stock of \$100,000, its surplus and undivided profits December 31, 1910, of \$68,860.34, and by the personal liability of its responsible stockholders to the extent of an additional \$100,000.

These directors give its affairs their personal attention:

Daniel R. Beggs of Beggs & Cobb, leather manufacturers. William E. Blodgett, Treasurer of R.Guastavino Co John C. Buck, Cashier. Robert Chalmers, Physician.

Everett P. Fox of W. P. Fox & Sons, leather manufacturers. John W. Johnson, President. Edward F. Johnson, Judge of District Court. John G. Maguire, Lawyer.

FOR KIDNEY, LIVER AND STOMACH TROUBLE it is the best medicine ever sold over a druggist's counter.

He Blunders Into His Happiness By CLARISSA MACKIE

Copyright by American Press Asso-ciation, 1911.

perched on a pine covered knoll on the shore of the lake.

There were several bungalows about the beautiful little lake, and here and there jutted forth a parrow pier around which clustered gayly painted canoes or which clustered gayly painted canoes of brass fitted motorboats and from June until September the little summer colony fished and boated and bathed and then, suddenly, when the first week in September came the cottages would be closed and there would be no sign of life except the little wild animals that came to drink at the water's edge and the birds flitting among the pines.

water's edge and the birds flitting among the pines.

Lewis Warren had built the bungalow for a retreat wherein to spend solitary days that would restore the energy he had lost during busy weeks down in the heart of the big city.

He went up there in June for a brief visit and hastily turned the key in his door and departed—to return again late in September when his neighbors had flitted cityward. On this brilliant morning, when the sky seemed newly washed in blue and the little lake gayly reflected azure heaven and green earth, reflected azure neaven and green earth.
Lewis took from his Japanese servant
a basket of lunch and went down to
his own pier. The lunch, together with
sishing rod and basket, was tossed into

a basket of lunch and went down to his own pier. The lunch, together with shing rod and basket, was tossed into the bottom of a cance, and Lewis stepped in and paddled slowly over to the island.

To have a whole month to himself in the most glorious season of the year, when every day is golden and the nights are cool and made for sweet, sound sleep, seemed too good to be true, and at last, haunted by the fear that there might be some cottager lurking near by who might suddenly start his phonograph blaring into the delicious silence. Lewis started on a tour of the island skirting the beach in his walk.

Then all at once he stopped short and fastened his gaze on the damp sand at the water's edge.

I am rescued, and I wouldn't be a bit disappointed to see that man Friday! Wish I hadn't scared him off—serves me right."

Shortly afterward a stone rolling down into the water startled him to a sitting posture just a see a lash of bare feet disapposing among the spruces far down the beach. He followed his impulse and went after the trespasser. When he reached the spot he could plainly distinguish the spot he could plainly distinguish the plainly distinguish the plainly distinguish the spot he could plainly distinguish the side with an experience he does not soon forget. Concentrated essence of stinging nettle seems all at once of stinging nettle seems all to once of stinging nettle seems all at once of stinging nettle seems all to once

There was no reply. Not a sound

"I saw you that time, my boy. Don't try any game on me. I won't hurt

you."
"H'm!" A voice startled him from
the gloom of the thicket not three yards

"Ah. skeptical, are you, son? Well, "An. skeptical, are you, son? Well, listen to this—my canoe's gove adrift and I can't recover it on account of being old and rheumatic. I've discovered your footprints on the sand of my island, and therefore you're my man Friday. Today's Friday, you know. Don't you want to swim over and get my canoe for me, and then come back

and nave tuncheon on the shore?"
Lewis' voice was alluring.
"Poor old Robinson Crusoe!" chuckled the voice from the thicket, but ils owner made no attempt to come forth.
"Will you get the canoe?" persisted Lewis. "I think there's chicken ple in the basket."
"Till get it for you if you will go back and stay on the beach," parleyed the voice after awhile.
"Very well, Friday; I'll go burrow my head in the sand if you insist. I'm quite at your mercy. Exit Robinson Crusoe." Lewis grinned to himself as he went back to his pipe and book. Studiously turning his back to the lake and the strip of beach to his left, he enveloped himself in clouds of smoke and presently quite forgot his man Friday and the errand upon which he had been sent.

A pebble struck him squarely between the shoulder blades and brought him to his feet. The canoe was beached nearby, and sitting in it, a tarpaulin thrown over her knees, was a girl. Lewis stared at her with slowly

TYPEWRITERS IN CHINA.

hay Are Used There, but Not For the Native Language.

Typewriters are now made for use in early a hundred different languages.

In they are sold all over the world,

id they are sold all over the world, if there is still one great nation likel, for a very simple reason, has a typewriters that write its tongue, not notion is China.

They again alphabet has twenty-six, the Russian thirty-six. The pewriter produced for the Russian arket is the largest made, but no everying could be used that would be a superviser could be used that would be a superviser could be used that a superviser could be used that would be used that a superviser could be used that would be used.

pewriter could be made that would cpewriper could be made that would gin to be big enough for the Chinese iniguage, which has no alphabet, but a represented by sign characters, of hich there are about 50,000. Of the reat number of words found in the ringlish language only a small proportion are used for the ordinary purposes a speech, and the same would be true is to the characters used in the Chiese language, but the number of Chiese language, but the number of Chiese characters commonly employed is noise characters commonly employed is still far greater than could be put on any typewriter. So this nation of 400, 100,000 people has no typewriter in its

wn tongue.
But that doesn't mean that no type-rriters are sold in China. More and nore Chinese are learning other lan-uages besides their own, and Chinese erchants and resident foreign mer merchants and resident foreign mer-chants use typewriters, and they are used in legations and in consular of-fices and in banks and shipping offices and colleges and by missionaries, by various people. Altogether there are sold in China a good many typewrit-ers.—Washington Post.

Creation of the Cocoanut, the Wakwal

and the Palm Tree.

According to the opinion of the old historians and the commentators of the Koran, God created from the remainder of the clay of which Adam was made the kullseer, or cocoa tree, the found in a shapedness in the According to the opinion of the old historians and the commentators of the Koran, God created from the remainder of the clay of which Adam was made the kullseer, or cocoa tree, which is found in abundance in the Indian islands. It produces a nut which is brought to Anatolia and Roomill. The interior and oily part is nourishing and fortifying food. The shell is worked into spoons and cups of the size of a man's head. It is a round black nut on which all the parts of a man's head that the motion of the was giving out a tremendous roar and making the machine vibrate. Other mechanics were holding on to the tail mouth, nose, eyebrows, eyes, hair and

Nature's Protection For the Ear.

The membrane lining the canai of the ear contains a great number of little glands which secrete a waxy substance having an intensely bitter taste. The purpose of this is to prevent the entrance of insects and to keep the ear clean, as the layer of wax dries in scales, which rapidly fall away, thus removing with them any particle of dust or other foreign matters which may have found entrance to the ear.

Softer.
"I have no doubt you have heard "I have no doubt you have heard some stories to my discredit," he said.
"I don't like to put it in that way," she quietly replied.
"How then?" he hopefully asked.
"I have never heard any stories to your credit," said she.—Cleveland Plain Dealer.

How It Feels to Soar Aloft In a Balloon or Aeroplane.

ALL SENSE OF HEIGHT LOST

Consequently There Is No Feeling of Dizziness or Giddiness, and After Rising a Few Hundred Feet There Is

Comparatively few persons ca ook down fram a great height withou unpleasant symptoms would be in-tensified if one were to rise several hundreds of feet in the air in a flying

tenshed if one were to rise several hundreds of feet in the air in a flying machine. But that idea is a mistake, according to Mr. Charles C. Turner in an article in the Pall Mall Magazine, in which he tells how beginners are taught the use of the aeroplane and describes the sensations of flight. He says:

"The manner in which a course of flight lessons begins depends chiefly on the weather. If it is fine and caim a pupil is at once taken out for passes enger flights, sitting behind the teacher or heside him, according to the type of machine, and having nothing to think about except the novelty of his experiences and the new aspect in which he sees familiar things.

"His first flight is a great event in the career of the pupil, and when it is over he is anxious for the next. His estimate of the difficulties that lie before him is more modest, and he is ready to beslege his instructor with

ready to besiege his instructor with questions. He climbed into the pas-

when every day is golden and the mights are cool and made for sweet, sound steep, seemed too good to be true, and at last, hauted by the fear that there might be some cottager lurking near by who might suddenly start his phonograph blaring into the delicious silence. Lewis started on a tour of the island skirting the beach in his walk.

Then all at once he stopped short and fastened his gaze on the damp sand at the water's edge.

"Well, I'll be hanged!" he ejaculated in an injured tone. I'l had a feeling that somebody was around. Can't lose me on that premonition business."

There under his very nose was impressed a footprint, the mark of a small bare foot, evidently that of a boy, and close beside it was another and another and still another of the same feet. Some of the footprints any one of the same feet. Some of the footprints on "Your father knows me?" he asked solope and were lost among the brown needles that streed the ground.

"Somebody left those footprints on "Somebody le

with a green cance, untenanted and becomes the parts it of as sarely poar it is said to be so stand fully floating toward the mainland. It was several moments before it occurred to him that his own craft might have gone adrift, and when he went to look his fears were verified. The ancient stake had snapped saunder at the water line, and now he could see it floating along in the wake of the cance.

"No use yelling to Taku. He'd only get excited and tumble in the sound rescued, and I wouldn't be a bit disappointed to see that man Friday; Wish i hadn't scared him off-serves me right."

Shortly afterward a stone roiling of the process of the same as the strength of the same and the same and the same and the same and the same as the

Douglas Jerrold in School.
Douglas Jerrold wrote "Black Eyed
Susan" when he was twenty-one and
contributed to Punch the immensely pular "Caudle Lectures" not long afterward. But at nine years of age young Jerrold had been scarcely able young Jerrold had been scarcely able to read, and it was not until he was apprenticed to a printer, after serving for some time as a midshipman at sea, that he showed either desire or capac-ity for intellectual improvement.

Salf Deception. Salf Deception.
Of all solitaire games the soonest learned is self deception. The dullest mind can grasp it. The wisest have ever enjoyed it. We all find solace in its blandishments. No sweeter substitute for courage, conscience and self denial is yet discovered.—Pandora's

The Limit.

SAILING THE AIR. SUNDAY SCHOOL. THE SECOND GRAVEDIGGER.

> Lesson IV .- Fourth Quarter, For Oct. 22, 1911.

THE INTERNATIONAL SERIES.

Text of the Lesson, Ez. iii, 8 to iv. 5. Memory Verses, iii, 11—Golden Text, Ps. c, 4—Commontary Prepared by Rev. D. M. Stearns.

The topic of the lesson today is the rebuilding of the temple, which was begun in the second year of their re-turn (iii, S), but in the seventh month of the first year they repaired the altar and offered sacrifices.

According to Lev. xxiii, 23-36, the

According to Lev. xxiii, 23-36, the program for the seventh month was, for the first day blowing of trumpets, on the tenth day the atonement, on the fifteenth day the feast of tabernacles, and these they seem to have carefully observed. Note the one accord, for they gathered together as one man to Jerusalem (iii, 1). This multy of heart must be very pleasing to

carefully observed. Note the one accord, for they gathered together as one man to Jerusalem (iii, 1). This unity of heart must be very pleasing to the Lord. Compare the seven "one accords" of Acts 1, 14; 11, 1, 40; 1v, 24; v, 5, 12; viii. 6; x v. 25, all for God, and the four "one accords" of the devil, Acts vii, 57; xii, 20; xviii, 12; xix, 28.

Their first essential to the worship of the Lord was an altar for sacrifice (iii. 2). See the altars of Noah and Abram (Gen. viii, 20; xii, 7, 8; xiii, 4), but observe that he had no altar in Egypt. Mark the threefold phrase "Unto the Lord" (iii. 3, 5, 6), and if you can find time to mark this and "Before the Lord" in the book of Leviticus, where they are found many times, you will be greatly profited, as these two sayings cover all real Christian life. There is a saying in iii, 4, worthy of close attention, "As the duty of every day required," or as in the margin, "The matter of the day in his day," it is found just seven times pertaining to the things of God, the other six being in Ex. xvi, 4; 1 Kings for the conditions and the other six being in Ex. xvi, 4; 1 Kings for the condition of the latest the other six being in Ex. xvi, 4; 1 Kings for the condition of the latest the other six being in Ex. xvi, 4; 1 Kings for the condition of the latest the other six being in Ex. xvi, 4; 1 Kings for the condition of the latest the other six being in Ex. xvi, 4; 1 Kings for the latest the other six being in Ex. xvi, 4; 1 Kings for the latest the other six being in Ex. xvi, 4; 1 Kings for the latest the other six being in Ex. xvi, 4; 1 Kings for the latest the other six being in Ex. xvi, 4; 1 Kings for the latest and the substitute of the additional the duty of every day required," or as in the margin, "The matter of the day in his day." It is found just seven times pertaining to the things of God, the other six being in Ex. xvi, 4; 1 Kings for the latest and the provided sevents and the substitute of the addition of the latest as the substitute of the additional three first gr levil's tyranny in Ex. v, 13. We are reminded of "As thy days so shall thy strength be" and "Give us this day our daily bread."

daily bread."

The expression "the house or temple of the Lord" (iii, 8, 9, 10, 11, 12) reminds us of the great business in which we now are or should be engaged, the building of the church, which is His body (Eph. 1, 22, 23; ii, 19-22), "His own house, whose house are we" (Hab. iii, 6).

The house of our basses was a literal.

are we' (Hab. iii, 6).

The house of our lesson was a literal building of wood and stone at Jerusalem. The building on which we are engaged is one of which the living stones are men and women and boys and girls, according to I Pet. ii, 5, 6, and every soul saved in any part of the world is another stone for the building. There were much praise and thanksgiving at the laying of the foundation of this temple (iii, 10, 11). We should be always full of praise because of our foundation, which has been laid strong and sure forever

MOUNT 8E TAMED.

WOUNT 1E TAMED.

WOUNT cannot please God (II Cor. vi., 14-18; Rom. viii, 7, 8). There is much that is called church work in which it is possible that the Lord has no part at all, as He never gave the pattern. The only real work of 'true believers is to manifest the life of Jesus and who there is thim. Building up one's own congregation or advancing the interests of a denomination may not be of the Lord at all, but may come under the heading of Hag. 1, 4, 9, "Mine house is waste, and ye run every man to his is waste, and ye run every man to his

the heading of Hag. 1, 4, 9, "Mine house is waste, and we run every man to his 6wn house." I am sure that the Lord is calling to His people now, as He did by Haggai and Zechariah.

As the work on the temple was resumed and the building finished through the prophesying of Haggai and Zechariah (Ez. vi. 14, 15), so surely shall the church, the body of Christ, be completed and taken up to meet the Lord in the air before the end of this evil age, and then shall come an age of peace and righteousness with Ismel as a center.

Sheared In Installments. Sheep are put to double use in the corthern part of India, in the Hima-ayas. They are driven from market o market with the wool still growing, and in each village the owner shears as much wool as he can sell there and as much wood as he can sell there and loads the sheared sheep with the grain he receives in exchange. After his flock has been sheared he turns it homeward, each animal carrying a bag of grain.

Got His Reward.

Old Maid-But why should a great strong man like you be found begging? Wayfarer-Dear lady, it is the only profession I know in which a gentleman can address a beautiful woman without an introduction. — London Sketch.

Transferred Wealth.
"How are you getting along is
that business, old man?"
"I have one client."
"Is he rich?"
"He was."—Boston Transcript.

He Saw His Chance and Made a Big Hit In "Hamlet."

A company playing "Hamlet" was forced to find an actor to play the second gravedigger on account of the illness of the second comedian of the company. The only actor available was a variety performer who had no reverence for Shakespeare and no respect for the traditions of the classic drama. The second gravedigger was a comedy part, and be knew that he could "get away with it."

When the first gravedigger threw off the waistcoat, revealing another un-

When the first gravedlgger threw off the waistcoat, revealing another underneath, the audience tittered. The removal of the second waistcoat brought a loud laugh, and the third produced a roar. The first gravedlgger was delighted. He had never played to such an appreciative audience, and visions of good notices in the papers and a possible increase in salary began to loom up before his eyes. As he threw off the fourth waistcoat he turned partially around, and the cause of the unusual hit was disclosed to him.

The second gravedigger, being accus

Why They Retain Their Sheen In Spite of Their Great Age.
If you have ever seen a Persian rug fifty years old or older which had been used only in its native country you have doubtless observed that though made of wool, it had the sh though made of wool, it had the sheen of velvet. This was due partly to the excellence of the dyes and the work-manshif, but partly also to the fact that it had never known the touch of a shoe, but had been walked over in stockinged feet. If a man should enstockinged feet. If a man should en-ter your drawing room and stand on the sofa and upholstered chairs it would appear no more outrageous you than it does to a Persian to walk

with shoes upon his rug.

It seems impossible that such It seems impossible that such a beautiful thing as a Persian rug should be produced on the rudest of looms, consisting, as they do, merely of crooked, irregular beams of wood roughly fastened together. The rude construction of the loom explains why it is that every genuine Persian rug of any length is more or less crooked. This is because after part of it is worse.

Big Hearted Goldsmith.
Mills, a fellow collegian of Goldsmith's, called one morning to offer
Diver a breakfast, when he was adured in answer to his knock and in a nothered voice to force open the doo and enter. When Mills and others and at last forced the bolted door had at last forced the bolted door they found Goldsmith so entangled in the ticking of his bed that he could not extricate himself without help. He explained that as the night before had been plereing cold he had given a poor perishing woman with five children all his bedclothes. What could he do? He had nothing else, not a penny, to give her. "It was a cold night, too," he added, "for I couldn't at first sleep till I thought of ripping open the mattress to lie in the ticking."—"Oliver Gold-smith," by R. Ashe King.

A Surprise For Swagger.

"Yes," said Swagger, "this is a turkeze ring."

"Excuse me," said Bangs; "the correct pronunciation of that word is

'turkwise."

"I say turkwoise."
"Well, let's go to the jeweler and

it proved.

One Helped the Other.

A lady was continually accusing her servant of extravagance without any real cause. The servant always bore this accusation patiently.

One day the servant informed her mistress that the coal had all been consumed. This was followed, by the sumed. This was followed by th usual remarks on the part of the mis-tress, who finished up by saying: "You evidently eat them." The next day the candles were all

The next day the candles were all gone.
"Candles gone!" said the mistress.
"Why, I bought half a pound only a fortnight ago."
"Oh, well," rejoined the servant, who could stand this sort of thing no longer, "I can tell you where the candles have gone. I ate them to grease my throat so that I could swallow the coal more conveniently!"—Pearson's Weekly.

The Royal Fish.

Sturgeon are abundant in Russia, where the fisheries are of great value. The flesh is eaten when fresh, but is chiefly smoked or salted. More than 10,000 fish are sometimes caught at a single fishing station. The eggs are removed in quantity from the ovaries and separately prepared as caviar. The annual value of the Russian sturgeon fisheries, including the production of isinglass, or fish gelatin, is estimated at \$5,000,000. timated at \$5,000,000.

"Right."

"In order to settle a wager," said Swagger to the jeweler, "would you mind telling me if the correct pronunciation of the stone in this ring is turkeze or turkwoise?"

The jeweler took the ring and examined it carefully. "The correct pronunciation," he said, "is glass."—London Tit-Bits.

A Personal View of Seward. It talked also with Seward, who tooked dirty, rusty, vulgar and low; used such words as hell and damn and spoke very loud. I think better of Mrs. Lincoln for her excessive dislike of him.—"Life and Letters of George Bautroft."

Two Rings

The One Led to the

By F. A. MITCHEL

She was not one of the delicate, with a remarkably handsome , and a balmy breeze came nged to an adjoining house, and two almost directly beneath the win

nen of the world and were chat-"The northern city I most fancy in America," he said, "is New York. At east it is to me less objectionable, purinically considered, than other north-n cities. But my delight is our own loved New Orleans. In the Crescent ty the men are brave to recklessness

ccupied. They were both

"Who was the most beautiful woman New Orleans society last winter?" ked the speaker's companion, Ed-

iking, was a widow—a Mrs. Le-ne. Though nearly forty, she retain-

eyes lit with a sudden fire.

saw something that astonished him. The sunlight striking it was sent back in a bright flash. Evidently Mr. Renard wore a jeweled ring.

Men seldom wear rings unless they are seals, which are not likely to spar-

are seas, which are not likely to spar-kle. Therefore Charles Thibadeaux was not long in divining that his correspondent was a woman. All thoughts of a bloody encounter van-ished, and in their place came a de-sire to know more of his fair chal-lenger. He sauntered into the garden,

Only one devoid of a sense of honor will speak lightly of a woman's good name. I am determined to show those engaged in spreading this calumny that it cannot be done with impunity. I therefore insist on satisfaction.

dear lady, if I find you as attractive

dear lady, if I find you as attractive as my imagination paints you, is an-other ring to be worn on the third finger of your left hand."
The young man mused on, consider-ing every possible method of pro-cedure. At first he was inclined to meet his challenger on the field and there make it known that he knew her sex. But he feared that she her sex. But he feared that she might be further irritated. Before the

course. He wrote her as follows:

It is not by receiving your fire, my deal
sir, that I can atone for my fault, but by
hunting down the perpetrator of this scandal. I received it from a woman and an
confident it originated in a woman. It
within three months I do not bring you a
retraction from its originator I will not
deny you the satisfaction you demand. I
shall look for your reply at the same hout
tomorrow.

The next afternoon Thibadeaux watched Miss Lemoine's window through a pair of glasses and saw the hand much more clearly than before. This time the note was thrown by the left hand.

"Not married and not engaged," the watcher remarked to himself with a reliefaction. "Um pleased to reliefaction."

satisfaction. "I'm pleased to notice that the third finger is unoccupied."

The note had evidently been written in an exuberance of delight and was consequently a dead give away. Your proposition is accepted. You have shown yourself to be a noble man. If I were a woman I'm sure I should fall in love with you.

"Thank you," remarked Thibadeaux.
"That's exactly what I wish you to

do."

After writing one more note, stating that he was leaving for New Orleans and hoped within the specified time to bring the vindication, he made ready for his departure.

But two of the three months had elapsed when Miss Lemoine received the following note from the man who was to quash the slander or fight

Having dispatched this self accusing epistle, the writer waited impatiently for a reply. It was this:

I assure you, sir, that by your of you have not only relieved me a subject of the confession of a burd you have shown yourself, notwithst your own opinion of your act, too subject of the confession of a burden, but you have shown yourself, notwithstanding your own opinion of your act, too honor-able, too lovely, for anything. Your de-ception was perfectly excusable. I shall always respect and admire you for it. It is needless for me to add that my chal-lenge is withdrawn.

Thibadeaux chuckled over this letter with its manilke beginning and its

feminine ending. He was anxious to get a glimpse of this lady who had sent bim a challenge to mortal combat and the stars and stripes." Awashington crossed the stars time" she said, "that this woman's shanderers received a check. But how? Oh, that she were a man and I were a man! Women are defenseless against each other. Men can at least die in defense of their good name. If Tom had lived he could have made this man who has treated mother's good name so lightly eat his words. Why was I not born masculine?"

Thibadeaux had resided in Charleston but a few days before receiving the countries of this lady who had sent belawage in December, 1776, and the stars and stripes. "Awashington crossed the get a glimpse of this lady who had sent bim a challenge to mortal combat and thus declared that she respected and admired him for an act upon which his sensitive conscience was not quite lear. So he wrote another note, begging that he might meet Mr. Renard and apologize in person for the wrong had done in reporting a shander.

Thibadeaux had resided in Charleston but a few days before receiving divers, as in the British flag. The first

was I not born masculine?"
Yielding to an impulse, she seated herself before a writing desk and dashed off the following:
Lhave overheard your appressions on the good name of one I love and respect. I demand whatever of satisfaction you may be able to afford me. Since I prefer to remain incomint of shall conduct my one proposing to this consumption of this consumption of the consumption of

"I don't like the situation."

"Nor I. In listening to your remarks I am as culpable as you who on the appointed afternoon he called "Nor I. In listening to your remarks I am as culpable as you who ake made them."

"You have nothing to do with the matter. The responsibility rests on me."

"You have nothing to do with the surprise on seeling a woman instead of a matter. The responsibility rests on me."

After a conference it was decided that Thibadeaux should write a note to this Mark Renard, whoever he might be, and it should be left at the door of the house from which the note had been thrown. It said that the writer acknowledged himself to be bamable in repeating a scandal for which he had no proof and apologized therefor. If after this apology Mr. Renard still lasisted on a meeting his department."

Addison street, Arilington, Mass. on he called

sea himself he would put there. HARD METALS.

They Come From Titanium and Are as

They Come From Titanium and Are as Firm as the Diamond.

The diamond has ever been regarded as possessing one quality that placed it beyond rivalry—namely, that of hardness. There are several gems that compete with it in beauty, and at least one—the ruby—when of rare size outranks it in costliness, but none in the whole list equals it in hardness. The hardest steel cannot equal the diamond in that respect.

proved, according to French chemists to be as hard as diamonds. These are produced from the rare metal titanius produced from the rare metal titanium. One experimenter, it is claimed, succeeded in preparing titanium in the electric furnace. In the pure form it is much harder than steel or quartz, and when combined with silicon or carbon so as to form a silicide or borde of titanium it matches the diamond itself in hardness.

Titanium resembles tin in its chemical properties, and it is the characteristic element in the beautiful red and

stic element in the beautiful red and brown crystals of rutile. These, in the shape of needles, are sometimes found penetrating large white quartz crys-tals, forming gems that the French call "love's arrows."—New York Press.

KEPT ABOVE GROUND.

Ingenious Way Major Hook Evaded the Terms of a Will.

Among ingenious ways of evading a will the plan followed by Major Hook and recorded in "Ancient, Curious and Famous Wills" may be commended:

A county newspaper some years ago recorded the death of a Major Hook and spoke of him as "a singular character." "He died," says the report, "on Monday sennight at his house. Ham street, Ham common. He was an officer in the East India company's service and reached the age of seventy-five. His house was remarkable for its dingy and dilapidated condition."

same shall be paid to her as long as she is above ground." When, therefore, the good lady died her husband very naturally objected to forfeit his income by putting her below ground and ingeniously devised a mode of teepling her in a room which he allot ted "to her sole and separate use," placing a glass case over her remains. For thirty years he thus prolonged his enjoyment, if not of his wife's society, at least of her income.

Italy. His heirs proved unworthy, and the precious writings were grad-ually dispersed. Loose pages were often detached and were either given way as relics or stolen. No attempt was made to publish any of his treatises, except that on painting, for more than 300 years after his death. This was partly owing to the great difficulty of deciphering his handwriting. Da Vinci was left handed and always wrote in oriental fashion, from right to left. Besides this, his orthography is peculiar to-himself. He abbreviates some words and joins others together and employs neither stops nor together and employs neither stops nor accents.-London Chronicle.

Ways of the Oyster.
Oysters after they have been brought away from the sea know by instinct the exact hour when the tide is rising and approaching their beds and so of their own accord open their shells to receive the food from the sea as if they were still at home.— London Telegraph.

"I have seen in my journeys several tribes." said the traveler, "who voluntarily undergo all sorts of self inflicted lacerations."
"That's nothing," answered Mr. Tutt.
"I know a lot of people who insist on shaving themselves."

STRIPPED THE LOUVRE.

Restitution of Works of Art After No

poleon's Downfall.

The Louvre has known a still blacker
day than that on which "La Giocondo" was abstracted. This was Sept. 23. 1815, when formal restitution had to be made of the pictures looted during the conquests of Napoleon. Commis-

retained, among these being the finest example of Paolo Veronese extant, "The Marriage at Cana." The gallery, however, was left with only 270 pic-tures and remained closed until the

TRESPASSING IN ENGLAND.

If No Damage is Done Intruders Need Have No Fear.

Many timid pedestrians in rural England are frightened away from inviting fields by the notice "Trespassers Will Be Prosecuted." They need have no fear says an Englisher nave no fear, says an English ex-

As the law stands any trespasser who does the smallest damage-in-Jures a fence, breaks a small branch, etc.—can be summoned before a magistrate and fined. But if he does no damage the landlord must bring an action at law and get an injunction. This costs a lot of money, and unless the trespasser is a man of means the landlord won't bring his action at law. All he can do otherwise is to ask you to get out. If you go peaceably you can return an hour later and repeat the visit as often as you wish. Nothing can be done beyond asking you to leave again. But if you resist then sufficient force can be used, and if you show fight you may be legally knocked down, your legs tied and yourjures a fence, breaks a small branch,

you show fight you may be legally knocked down, your legs tied and your-self bundled on to the road.

The landlord may, however, play some tricks on you. He can saw a bridge crossing a stream, so that you will get a ducking; he can dig a pit for you to fail into, and he can so fix the stile you are likely to cross that you will break it, and then he can have you up before the magistrate. If you don't commit any damage, however, you can trespass to your heart's content.

An Architect's Ruse.
A story is told of Sir Christopher Wren, the great English architect who built the town hall of Windsor, England. It appears that a fidgety member of the corporation insisted that the roof required further support and wished more pillars to be added. Vain-

res some words and joins others are and employs neither stops nor s.—London Chronicle.

The Flag at Trenton.

The Flag at Trenton.

The Washington had with the he crossed the Delaware to Trenton' was not the "stars tipes." Washington crossed the the distripes did not have an eximple the June of 1777, when it ted into being by the congress.

The alarm became infectious, and the great architect was finally worried into adding the desired columns. Years rolled on, and in later times, when architect and patrons had passed away, cleaning operations on the roof to a couple of inches, though this until the June of 1777, when it ted into being by the congress.

The alarm became infectious, and the great architect was finally worried into adding the desired columns. Years rolled on, and in later times, when architect and patrons had prevailed into adding the desired columns. Years rolled on, and in later times, when architect and patrons had possed away, cleaning operations on the roof by a couple of inches, though this was imperceptible to the gazers below. By this curious expedient did vindicating his own architectural skill to future generations.

STATE LOTTERIES.

Rise and Fall of a Tremendous Gamble In England.

s made o.

he conquests of ...

he conquests of ...

sioners attended from four.

ent states. The lion's share was ...

tained, curiously enough, by the representative of Cassel, who recovered

for the lion of fewer than 421 pictures. Austria recovered 323. Spain 284. Holland 210 and Prussia 119. Altogether with a number of statues, bas-reliefs, are with a number of statues, bas-reliefs. It is seen that the countries as far back as the middle of the fifteenth century, it seems that this particular idea was unknown in England until more than unknown in England until more than 100 years later. The lottery, in fact, appears to have been included among those many other important things, both good and bad, that were introduced to public notice during the reign of Queen Elizabeth, it being her maj express command that the for "raising the win of queen Enzabeth, it being her maj-esty's express command that this ready means for "raising the wind" on behalf of the state finances was adopted.

The first English lottery must have

The first English lottery must have taken a good deal of arranging, owing, no doubt, to the fact that the people of that day required a certain amount of education in this form of gambling, for although the idea was first brought forward in the year 1556 (in Mary's reign), the actual drawing did not take place until three years later.

One of the original bills of Queen Elizabeth's lottery has fortunately been preserved, printed in black letter and measuring five feet in length and one and one-half feet wide. It begins by announcing "A very rich Lotterie Generall, without any blancks, contayning a number of good prices (sic), as wel of redy money as of plate and certaine sorts of marchaundizes, having ben valued and priced by the coming ben valued and priced by the com-maundement of the Queen's most ex-cellent majestie, by men expert and skilful," and goes on to say that "the same lotterie is erected by her majes-ties order to the intent that such com-moditie as may chaunce to arise there-of, after the charges borne, may be converted towardes the reparation of the havens and strength of the Realme and towards such star publicage.

it was "plainely carried and honestly performed," for owing to the want of 'filling uppe the number of lots there abating any one prize," certainly

"a Taylor of London," who won the first prize of "four thousand Crownes in fayre plate, which was sent to his house in a very stately manner." Though to some extent poorly patronized, this lottery appears to have evoked a good deal of interest among the important personages of the day, for we are told that "during the whole tyme of the drawing there were alwales present divers worshipfull Knights and Esquires, accompanied with sundry graue discreet Citizens."

As time went on lotteries for every conceivable purpose were held in London and other important towns, with the inevitable result that trouble constantly arose between the promoters and those of the ticket holders who happened to be unlucky or thought they had been unfairly treated, as no doubt many of them were. We find,

Lottery offices for the sale of tickets were established all over the country as time went on, but none was more famous than the agency of one Bish, who flourished at the beginning of the nineteenth century. This enterprising individual, whose chief offices were in Cornhill and at Charing Cross, must have made a considerable fortune out of the much safer business of selling tickets than taking them. But his prosperous career, as also that of his Things He Knew.

His Wife—Why don't you go to the doctor and find out just what you ought to ard and what you ought to avoid? Dyspeptic—Oh, I know all that now. I ought to eat everything I do—Exchange.

His Wife—Why don't you go to the follows, came to an abrupt end when you ought to avoid? Dyspeptic—Oh, I know all that now. I ought to eat everything I do—Exchange.

Hickets than taking them. But his prosperous career, as also that of his prosp

cient and comfortable ways of living. The Edison Electric Illuminating Co. of Boston.

MBITION is the mainspring of every life that counts. The individual who lacks this characteristic lacks force, fails to attract attention and has no compelling or inspiring influence in the world's work. Here again is a characteristic usually attributed to individuals and not to corporations. When ambition is directed toward individial advancement along the best lines it results, not only in the improvement and development of the individual, but also helps all who come in contact with that influence. The co-operation, character and personality of all the officers and employees of the Boston Edison Company are combined in an ever present and unfaltering ambition to benefit the more than a million and a half of people in the territory it serves. The benefit to these people comes in the increasing ease with which they can secure and use electric service at steadily diminishing cost. Thus are afforded increasing opportunities for safer, more cleanly, effi-

"Flaing" the Call Crounde.
Hugh S. Fullerton, the baseball expert, fells in the American Magdzine of the queer ethics of the national game. He writes:
"Flying' the grounds so as to give the home team the advantage and haddeap the visiting players is the commonst form of trickery, yet in professional ball it is not considered wrong, any more than a commander of a defensive army would consider it wrong to prepare breastworks to meet an enemy. The extent to which the fixing of grounds is carried is amazing. There probably is not a major or minor league grounds in the country on which the home players have not the advantage, and visiting teams are forced to be on the alert from the moment they enter a field to discover, if possible, what they are up against."

The gent is Dr. J. H. Rollin, a man of de-long experience with horses lince then traveling agents have been ppointed in many states with the lower of arrest where prosecution in

Much cruelty has been prevented by agents in Massachusetts, especial agents in Massachusetts, especial in the country districts, at slaughter houses and amongst the pedlers. is the aim of the Society, however, push preventative work. It is alway disagreeable to prosecute people, however much it may be necessary, and it is felt by the officers that much of this prosecution can be avoided by educating owners up to a better standard of treatment of their animals. Reard of treatment of their animals. Results in the past have been encouraging, although it is surprising to the uninitiated to discover how much ill-treatment of poor dumb beasts is practised throughout the state. From May, 1911, to Sept. 1, 1911, there were 93 prosecutions and 82 convictions of cruelty made by agents of the Society. There were 15,475 animals examined and 563 horses taken from work. There were 296 humanely killed to end their suffering. Over 53,000 animals were examined during the year 1910 and there were over 12,000 complaints received. Prosecutions numbered 323 and convictions 297. Over 1100 animals were killed,

WOBURN NATIONAL BANK

Savings Department.

The beginning of successful operation of UNITED STATES POSTAL SAVINGS BANKS, and the possibility of legislation, by Congress, looking to the establishment of NATIONAL SAVINGS BANKS, as outlined by Senator Aldrich, in his tentative plan for a new banking law, seems to indicate a popular demand for places of savings under the control and supervision of the UNITED STATES GOVERNMENT.

GOVERNMENT. To meet this legitimate demand and to extend increased banking To meet this legitimate demand and to extend increased banking facilities to the people of Woburn and vicinity, the WOBURN NATIONAL BANK has opened a new department to be known as its SAVINGS DEPARTMENT, and will receive deposits of money to bear interest FROM DATE OFDEPOSIT at the rate of three per centum per annum on sums not less than \$100. These deposits however will not be subject to check.

All deposits in this bank are GUARANTEED by its capital stock of \$100,000, its surplus and undivided profits December 31, 1910, of \$68,860.34, and by the personal liability of its responsible stockholders to the extent of an additional \$100,000.

These directors give its affairs their personal attention :

Daniel R. Beggs of Beggs & Cobb, leather manufacturers. William E. Blodgett, Treasurer of R.Guastavino Co. John C. Buck, Cashier.
Robert Chalmers, Physician.

Everett P. Fox of W. P. Fox & Sons, leather manufacturers John W. Johnson, President. Edward F. Johnson, Judge of District Court.

John G. Maguire, Lawyer. L. Waldo Thompson, Woburn Hardware Co. Woburn, January 30, 1911.

A Mysterious Message

It Came Over a Wire, but Was Doubtless Wireless

By WILLARD B. CHURCH

ter storm, and, what was more unusual still, it was the most severe of the season. Farmer Hardwick, sitting Landscapes, Interiors, Machinery. Picture'
spied and Ralarged.
Developing, Frinting, Finishing, and all kinds of beside the stove in his living room, listanged to the haveling wind thread Woburn Vestee the stove in his living room, listened to the howling wind thrashing the leafless branches of the trees and hurling the snow like a sand blast against his window panes. A telegraph pole stood on the roadside in front of and very near to his house, and it seemed to him that the sounds made by the rushing currents of air were the wails of lost spirits.

were the wails of lost spirits.

Hardwick, the most farmers of the present day, was connected by telephone with his neighbors. The instrument was placed in an addition to his house used for everything pertaining to a farm, from matches to firewood, from a ginlet to a grindstone, from a jug of vinegar to a cask of cider. There were openings through to this universal "catchall," and, the doors between standing open, Hardloors between standing open, Hard-wick heard some one calling up a number of a telephone subscriber. The

At the time Farmer Hardwick heard At the time Farmer Hardwick heard the voice at his telephone Cicily Boardman, who was upstairs in her own home sewing in preparation for her coming wedding with Harvey Brown, heard above the storm a ring on the floor below. Going down, she took up the receiver and, having spoken the usual "Well?" heard her lover's voice says to her:

But since she could both work and think at the same time she pondered on what her lover had tried to communicate. There was nothing intelligible to her in the message she had received, and had not the voice been unmistakably her lover's she would have assumed that, using a party wire, she had heard that which had been intended for some one else. But Harvey's deep tones were too familiar to her to be mistaken for those of any other man. The message was so in explicable that she began to feel ad, though of what she did not the voice bear and the work and there are the work and the message was so in the property of the could be ascertable.

The next morning Cicily took work and think at the same time she pondered on what he lover had tried to communicate and the burded box if no necessity arose for doing so.

And here came up the mystery of the telephone message. Had not Harvey when caught in the storm been aware of his danger, gone into a house where there was a telephone and sent parely like the work in the morning cicility took and then pour of the water and finish up in the regular way.—New York Press.

Didn't Hit Him.

John Wesley had a reputation for cheerfulness, in his journal he writes:

The next morning Cicily took and the pour of chancery and was real to me the was known to have intended to speak for doing so. And here came up the mystery of tablespoonfuls in a seamless agate the was too soft hearted to ask his poverty stricken landlady to sak his poverty str

and SURVEYOR
H. S. ADAMS: Room 541 Exchange Bul
Hardwick's. Whether he had sunk down confused and benumbed by that therminable whirling of snow or whether his efforts to get on had brought on some sort of a stroke was context. The night had been very cold, and it was thought that, bewildered and exhausted, he had stopped to rest and had been frozen.

Cicily and her mother were in strait-ened circumstances. Harvey Brown

been looked forward to by her as a great relief. Harvey had suggested hastening the wedding that she might be his legal heir. The next of kin to him was the son of his father's brother, a ne'er-do-well, whom Harvey believed would stoop to any chicanery to get possession of the property at Harvey's death, to which, without a will or a wedding, he would be the lawful heir. This man, Peter Brown, might secure and destroy a will, but he could not annul a marriage. For this reason not annul a marriage. For this reason Harvey was anxious to have the cere

Providence having taken the intend-

Providence baving taken the intended bridegroom, no wife interfered with Peter's legal possession. A will alone could do that. A search among Harvey's papers revealed no document bearing upon the disposition of his property. Peter was recognized as the sole helr by the court of chancery, but was astonished to find none of those securities that his cousin was reputed to have possessed, not even a deed to the homestead, appeared among the deceased's papers. However, this was a valuable piece of property, and Peter Brown moved into it.

Cicily Boardman was overwhelmed by her loss. At first her mind dwelt solely on the blighting of her life. It was not till later that her loss of fortune occurred to her. Even a competency would have made a great difference to her and her mother, who was in feeble health. But gradually she rose above both these misfortunes so far as to take hold of the world again and perform the work Providence had allotted her. She had but just resign. After her flance's death she resumed it.

Cicily knew little about the Brown

resumed it.
Cicily knew little about the Brown estate, except that Harvey had told her that it was of considerable value. When she had resumed a condition to enable her to think about worldly affairs and heard that the estate had turned out to be of much less value than had been expected she was surpised. Could her lover have misrepresented the matter to her? The supposition was not to be entertained for a moment. She had dwelt almost to brooding on the words she had heard in his voice, or a voice very like his, as in some way connected with his death, but no interpretation to them had occurred to her. When she was told that Harvey had left no fortune except the Brown homestead an explanation of the message telephoned to her on the day of his death flashed into her brain.

"It's in the northeast corner of the sweetchere"

She and her mother occupied a few acres of ground that had formerly contained the buildings of a farm. A smokehouse was, besides the dwelling, the only building left. Had Harvey while waiting for his wedding been selzed with a presentiment that he might die unmarried and, remembering that in this case his cousin would get all his property, buried something for her in the smokehouse? Taking up a pick and shovel, she went into the smokehouse and began to dig.

smokehouse and began to dig

She had but to remove a few inches of earth when she came to one of those tin boxes commonly used for wax. It was addressed to Cicily, Tearing it open, she took out a folded paper indorsed in printed letters, "Last will and testament of," and in writing "John Harvey Brown." Unfolding the document, Cicily read a few words bequeathing all the testator's possessions of every kind to her. But why had her lover not told her that he had left the box in the smokehouse? Gradually a probable explanation came to her. Harvey feared that in the event of his death before his marriage his cousin, even if Harvey

AN ECCENTRIC BUTCHER.

of that town named Wilson. Mr. Wilon, it appears, was notable for his inson, it appears, was notable for his in-tegrity in business and for the gen-tleness of his manners—two qualities which, perhaps, would scarcely have entitled him to the notice of posterity had he not also exhibited a remarkable addiction to psalmody, extraordinary proficiency in penmanship and a high-ly peculiar manner of eating his din-ner.

ner.
Such butcher's bills as he sent to his customers had never been seen before and have never been seen since. They perhaps, in German text, the second in Roman letters, simulating the finest print: beef would be in one style of writing, mutton in another, lamb in a third, while each of these kinds of meat would be still further distinguish-

minister came into the desk. And on every fast day, while all the rest of the congregation went home to their

of fingers, and each finger drops in its trically connected with a certain letter or series of letters, or, in the case of the snake or rat chasers, with certain bulbs. The flasher is driven rapidly, and in this way the snake can be speeded around its course very swift-ly. Where the only effect desired is a sign in which one letter is illuminated at a time the flasher becomes a much simpler device, but in all cases the un-derlying principle is the same.—New York Tribune.

sin the event of his death before his marriage his coustn. even if Harvey made a will in her favor, might get possession of the document and destroy it. Harvey was a secretive man and might not have intended to speak of the burled box if no necessity arose for dury so.

without kicking off the snow, the front door open and a heavy step. Then followed muffled voices below. Cicily ilstened, her heart sinking like lead within her. A little later when her mother came into the room with dread on her face Cicily moaned:

"You don't need to tell me, mother: Harvey is dead."

The mother put her arms about her daughter, saying not a word.

Harvey Brown had started during the storn to walk from his home to that of his fiancee, a distance of two miles. The road led past Farmer Hardwick's house, and Brown's body was found buried in a drift under one of the telegraph poles not far from Hardwick's. Whether he had sunk down confused and benumbed by that interminable whirling of snow or whether his efforts to get on had brought on some sort of a stroke was not evident. The night had been very cold, and it was thought that, bewildered and exhausted, he had stoped to rest and had been frozen.

Cicily and her mother were in straitened circumstances. Harvey Brown not only owned the house in which he lived, but had inherited a fertune in vested in stocks and bonds. Cicily's approaching marriage with him had

BASEBALL ETHICS.

In "The Right and Wrong of Base-ball," in the American Magazine, Hugh Misery of the Millions That Are S. Fullerton gives an interesting count of what is considered sportsm ship and what cheating in the nations

ship and what cheating in the national game. He writes:

"The best batters are those who 'crowd the plate"—that is, who stand as near the plate as the rules or the unpire will permit and lean over the corner of the rubber to make it difficult for the pitcher to pitch across that corner without taking a chance of hitting the batter.

"The players recognize the fact that the lines of the batter's position are obliterated within a few minutes after a game starts and that the umpires practically are helpless to enforce the

a game starts and that the unpires practically are helpless to enforce the rules or to tell while watching the course of a pitched ball whether or not the batter steps over the line. So it strained for edible plunder. Seaweed has become part of the unwritten law and kelp have a place in the larder.

minister came into the desk. And on every fast day, while all the rest of the congregation went home to their refreshment and rest, between morning and evening service, he never quitted the church, but went about from pew to pew repeating the Lord's Prayer and singing appropriate psalms until he had performed these favortic determined that all Romford should know it; for, instead of sitting down quietly to dinner in his back parior, he would usually saily forth into the street with a leg or shoulder of lamb far and a handful of sail; in the bend of the arm which carried the joint; and a handful of sail; in the bend of the arm which carried the joint; and a handful of sail; in the bend of the arm which carried the joint; and a handful of sail; in the bend of the arm which carried the joint; and the moving type. Walk down most and no a wager offered to all bend to wook the would perambulate the town, earting as he went, until he had commend the whole of this very substantial meal.—Chambers' Journal.

WRIGGLING SIGNS.

How the Movable Effect is Obtained in example of the moving type. Walk down most and any city street after dark and you and pashed.

Morgan as a Mathematician.

FOR PRESIDENT OF THE SENATE

George E. Walker of Wakefield, Republican the Scenes

TINKHAM SEEMS TO LEAD

Inside History of Certain Wire-Pull ing-The Treadway-Greenwood Em broglio and Its Far-Reaching Consequences

Wires are being pulled, behind the scenes, in most interesting fashion n the contest for the presidency of the senate. Recently, Senator Danlel E. Denny of Worcester approached a little group at Republican state headquarters, and said to Senator George L. Barnes of Weymouth: "George, I've got a little contest up in my district, and I'd like to have in my district, and I'd like to have you come up and speak for me." Somebody else said: "Why Sena-tor, I thought you were pledged to Senator Greenwood of Gardner; why don't you ask him to come up and speak for you?"

"I hadn't thought of it," replied

Senator Denny.

The three leading candidates today or the senate presidency are Senaors George H. Tinkham of Boston, George L. Barnes of Weymouth an Levi H. Greenwood of Gardner There are also receptive candidates like Senator Frank P. Bennett o Saugus, but they are not active.

Saugus, but they are not active.

Some weeks ago Senator Green.

wood was looked on as having the
pole, but the aspect has changed.

The significance of the request te
Senator Barnes made by such a veteran as Senator Denny, who had beer regarded as pledged to Senator Green wood, is not lost on those conversan with the change.

Senator Tinkham is the only one o

he presidential candidates who ha not got to make a fight to get bac of the senate. No Democrat was nominated against him, for the rea-on that, although some of the Fos-nen worked hard to find a candidate men worked hard to find a candidate, the effort was finally given up on ac-count of his excellent record as a liberal Republican. Of course some of the standpatters, and ultra con-servatives, in the Republican ranks are down on Tinkham, but this is the day when the liberals seem to be gain-

lay when the liberals seem to be gainng control.

Senator Greenwood of Gardner has
a real contest on his hands this year
or the first time. John H. Coburn
of Leominster, whom the Democrats
have nominated against him, is popuar throughout the district, and has a
high standing. Senator Greenwood
hoved his family down to Boston this
form universally early taking a fine
form universally early taking a fine
form universally early taking a fine ear unusually early, taking a fine esidence on Chestnut street, Beacon residence on Chestnut street, Beacon Hill, for the winter, but his early departure was a mistake, for Republicans in his district began to complain that he was not doing enough work in the district, and that he was neglecting not only the state ticket but even forgetting that he had not himself been elected yet.

Altogether Greenwood found he had cause to bestir himself been elected yet. altogether Greenwood found he had cause to bestir himself. It is undoubtedly true that Worcester county Republicans were never so badly split as this year. There is factional feling and soreness everywhere.

The statement has been published that President Allan T. Treadway of Stockbridge is doing absolutely noth-

Stockbridge is doing absolutely nothing for Greenwood now, although Greenwood had been groomed by the present president of the senate as his successor. Indeed, some of the friends of other candidates claim that Treadway is actively against Green-wood now. If this is true it means a great deal, because Senator Treadway is credited with being close to United States Senator W. Murray Crane and

other party leaders.

Treadway and Greenwood were formerly the best of friends, but not long before the adjournment of the legislature an event occurred which put a wide gap between them Not a few of the Republican nomi-nees for the senate this year are disnees for the senate this year are dis-creetly refusing to pledge themselves to any candidate for the presidency because they feel that the present sit

The Republican state committee and the city committee are very san county seats from the Democrats this Sear, and if their expectations are fulfilled Senator Tinkham is likely to start, on the day after election, with the solid strength of the Republican delegation from Suffolk, of four votes which is quite a nucleus, if, as expected, only about thirteen votes will be needed to carry the Republican

Besides these and other pledges Senator Tinkham has already received

that commands confidence. His sterling record in both the city and state governments, and his endorsements by the Good Government association, when a reform alderman, have long ago established his reputation in the eastern part of the state. the eastern part of the state. able lawyer, and persuasive leader he has won hosts of friends.

A party of gunners were painting the guns and wagons of a field battery when a sergeant came up to them. "There will be an inspection tomorrow," he said. "Be sure you paint all those parts which no one can see, for that's just where the colone is sure to that's just where the color look!"-London Telegraph.

Family secrets will out. It has the ambition of an Overbrook m to marry her daughter to a young liant success. But the young much in love with the daughter as

WOBURN NATIONAL BANK

Savings Department.

The beginning of successful operation of UNITED STATES POSTAL SAVINGS BANKS, and the possibility of legislation, by Congress, looking to the establishment of NATIONAL SAVINGS BANKS, as outlined by Senator Aldrich, in his tentative plan for a new banking law, seems to indicate a popular demand for places of savings under the control and supervision of the UNITED STATES GOVERNMENT.

To meet this legitimate demand and to extend increased banking To meet this legitimate demand and to extend increased ordering facilities to the people of Woburn and vicinity, the WOBURN NATIONAL BANK has opened a new department to be known as its SAVINGS DEPARTMENT, and will receive deposits of money to bear interest FROM DATE OFDEPOSIT at the rate of three per centum per annum on sums not less than \$100. These deposits however will not be subject to check.

All deposits in this bank are GUARANTEED by its capital

stock of \$100,000, its surplus and undivided profits December 31, 1910, of \$68,860.34, and by the personal liability of its responsible stockholders to the extent of an additional \$100,000.

These directors give its affairs their personal attention

Electric Bitters

On the third evening after the tour-On the third evening after the tour-ist steamer Neptune left Constantino-ple the little group of people whom congenial interests had drawn togeth-er out of the hundreds of passengers aboard the big ship gathered their seven chairs in friendly proximity. Professor Trayle laid his hand on the seft white wrist of his daughter.

ested in the raish industry, and this gentleman has a villa on a vine clad slope beyond the tip of the Golden Horn, and it literally overhangs the Bosporus sea. We drove out there and spent a day, and on our return to Constantinople we met an itinerant peddler, who offered me this bracelet. "Of course we did not bargain long for it. It did not need his clever tale of its having once belonged to the sultan's favorite, who tired of the bauble and gave it to a slave woman, who in turn sold it to our peddler. He asked a ridiculous price, and father paid it without a murmur. "We had not proceeded more than a hundred yards before the peddler was at off horse's heels, begging for another word with my father. Of course father had spoken to the man in his own language, and now he understood the babel of sounds that poured from his lips. As the sounds were accompanied by an outstretched palm I knew the man wanted money for something, and I saw father toss the peddler a twenty plaster piece and listen with interest to a long recital, accompanied by much gesticulation. Yes, indeed, father, you did appear much interested in the story the man told.

"It spite of the fact that your brace-let was 'made in Germany,' and pour friend's bracelet man any brids we have in the leave the late of the sounds that pour father and a listen mich limit and strolled away until at last the genuine filigree bracelet,' decided a supplication. The hero of father and Alexander Felton. Professor Trayle got up to go and, passing, leaned over and kissed his daughter's legend holds good, for in marrying Alex, here, you are marrying the richest man in the world."

Madeline was startled. "Why, father world was a not not be a bridge and professor the peddler is legend to the world."

Madeline was startled. "Why, father world was a not not one with the reason for his content of the angle of the world."

Madeline was startled. "Why, father what do you mean the professor farally as a bracelet of the house of the professor farally as a bracelet's lead that

way toward the city father related the story the man had sold to him for 20 plasters. It was a good story, well worth 30 plasters, father, dear. I do believe you secured a bargain in that story!" Madeline smiled mischlevously up into her father's rueful countenance. "You will tell me?" she pleaded as his arm closed about her. "What did father mean?" "He meant that because you are marrying me I am the richest man in The Gasoline Grammar. To what extent the automobile has in the world."

Madeline was startled. "Why, father, what do you mean?" she asked. "Alex will tell you," said the propulace. The story has been found and pointed out in an Arabic work by a certain El Makkari.—Westminster Gazette.

"Please do," chimed in the others.
"The story went that the sultan ought it from a fortune tefler, who redicted that whatever woman wore Mr. Newed (the week before his bredieted that whatever woman wore it on her arm might marry the richest man in the world. One can well imagine the supercilious incredulty of the sultan and the disdain with which he waved the story teller aside. Well, never mind whether father and I believed the story or not. The bracelet seemed to possess an added attraction for both of us, and I will confess that as soon as we reached the Neptune that afternoon I hastened to my stateroom and scrubbed it vigorously with soap and water until it became quite clean and bright.

"It's incredible how filthy some of that native jewelry is," remarked Miss

that native jewelry is," remarked Miss Gray, with a shudder of disgust. "Apparently they believe that a cer-tain amount of soil laid on the article

increases its interest and naturally its value," laughed her nephew, Ar-thur Clayton. "I'll confess to one fad of mine when I'm traveling around "Yankee! These parts!" scoffed his

Clayton emphatically. "I'm the most dyed in the wool Yankee that ever-

"Manufactured a wooden nutmeg," finished Mr. Hanford quietly. "Go on with the story, Miss Trayle," urged Miss Gray impatiently. "We've interrupted you times enough. Arthur keep, still".

"Go on with the story, Miss Trayle, urged Miss Gray impatiently. "We've taterrupted you times enough. Arthur keep still!"
"Well, I scrubbed the bracelet clear outside and inside and wore it the next day when I went ashore. We had been spending the morning in the Suleiman mosque and were standing on the steps waiting for our carriage to convey us to the hotel for luncheon when father suddenly saw Mr. Jussermen, the raisin exporter, and dashed down the steps to intercept him, leaving me alone.

"Then from the shadow of the tall columns beside which I was standing there energed the tail, lean form of a man clad in spotless white, with a fex on the back of his dark head. He

there emerged the dar, the work with a fez on the back of his dark head. He was a man of middle age, I should not every one of us be a hero.—Carlyle. Who is able to help is not yet poor:

BUYING A MULE.

Noise and Abuse a Part of the Trans-Noise and Abuse a Part of the Transaction in Algiers.

Americans who travel in eastern lands are amused as well as aggravated by the business methods which prevail there. A recent traveler in Algiers concluded to buy a mule and finally found one for sale.

He went to the owner with an interpreter, and a dialogue then ensued as follows:

The interpreter, with a yell: "I will give you \$10 for that mule."

The Arab: "Ten dollars! Murder! Thief! Brigand!"

The interpreter: "I will make it \$11. Do you hear, you scoundrel? I offer

The interpreter: "I will make it \$11.
Do you hear, you scoundrel? I offer you \$11 for your old mule, which will die in about a week. You are a robber and a thief to take that much, but I am a generous man, and I serve a great man, so I offer you \$11, you scum of Africa!"

Then they both yelled and shook their fists at each other, and to the American it looked as if they were going for each other hammer and tongs.

The row they made was terrible, but

like Emily Drake's in all Constantinople unless it was worn by some fair denizen of the city. Thus spoke the shopkeepers in the bazan.

"Father has a friend who is interested in the raisin industry, and this gentleman has a villa on a vine clad slope beyond the tip of the Golden Horn, and it literally overhangs the

RUBBER CANNON BALLS.

A World's Fair Exhibit That Puzzled Louis Napoleon.

An instance of the obsession of the mind by one idea is seen in a ludicrous mistake made by Louis Napoleon in 1855 at a world's fair held in Paris while he was emperor. He had been trained to war, and he could not see a strange object without regarding it in relation to war. The head of the United States commission at the exhibition was Maunsell B. Field, who tells in his "Memoirs of Many Men" how greatly disturbed the emperor was by an American invention. The commissioner was present at a peror was by an American invention.
The commissioner was present at a
reception held at the palace.
"The emperor approached me and
remarked that he had that afternoon

The emperor approached me and remarked that he had that afternoon walked through our department of the exposition—this was just before it was open to the public—that he had seen many things there which interested him, but that nothing had so much pleased him as the exhibition of vulcanized india rubber. Among the articles he had noticed something which had puzzled him ever since. He very much regretted that I was not present at the time of his visit. "Here I interrupted him to say that I very much regretted it myself and that if he had sent me an intimation of his purpose I should have been certain to attend.

"Well," he answered, 'in one corner I saw, stacked as one sees them in an artillery yard, a pile of vulcanized india rubber cannon balls. There was nobody there to answer the inquiries which I desired to make. Perhaps you can explain the matter to me."

an explain the matter to me.

"I had not even seen the balls in puestion and had to say so. question and had to say so.

"I cannot imagine," resumed his
majesty, 'how any preparation of india rubber can be used for projectiles.
It has often occurred to me that, in
combination with other materials, it
might be made useful for defensive
purposes."

"I was compelled to admit that i vas equally mysterious to me how the nventor could have thought seriously inventor could have thought seriously of making cannon balls of it. After so unsatisfactory an interview the emperor probably did not think that it would be civil to leave me immediately, so he asked me if I took much interest in military matters. I answered that I did not any more than civilians usually do.

near the Palace of Industry. The next morning I went over before breakfast for the purpose of getting information upon the subject which had so puzzled the emperor. I went directly to the india rubber exhibit, and, sure enough. I found the balls there just as they had been described to me. It was too early for me to expect to see the man in charge, but there was a person in bis place. I asked what in the world he expected to do with india rubber he expected to do with india rubbe

"'They are not cannon balls,' he an swered; 'they are footballs!'"

The Literary Lady.
In the course of duty and society obligations a senator one evening was a guest at the house of a man noted a guest at the house of a man noted for the number of literary people he gathered about him. The senator had been told that the guests would be either authors or people competent to discuss literature from Confucius down to the present day.

Finding himself beside a middle aged but handsome woman, the senator observed that he supposed she was

tor observed that he supposed she was a literary person. She pleaded guilty and added: "I think the world of Iridee, and I

like Haythorne's 'Red Letter,' and I'm simply mad about Dickenson's works." The senator has never been able to figure out who Iridee is, but he believes the literary lady meant Ouida.—St. Louis Republic.

What He Wanted to See. begins, a walk through acres of gar-ments which are none of his business depresses him still further. Saleswo-men are pitifully tolerant, even kind, but his sense of inferiority grows. One unfortunate who tried to buy a sweater for a wife who was out of

town did at last rebel. His first mistown did at last rebel. His first mis-take was in language. "Thirty-six chest," he said. "Thirty-six bust," corrected the young woman. At last in a helpless tangle he bought meekly what he was told to buy. Then she asked. "Is there anything more I can show you?" show you?"
"Yes," he said solemnly, "the quickest way out."—New York Sun.

A New Way to Religion.
A clergyman recently said, "If I were to start a new religion, do you know what I would do?"

plied the young hopeful.

The same people who can deny others everything are famous for refusing themselves nothing.—Leigh Hunt.

Might is Right.

"Effle." said the timid highland lover, "I wad kiss ye, but I'm feart ye wadna let me."

She blushed as red as the sunset, but did not answer.

"Effle." he repeated timidly, a little later, "I said I wad kiss ye, but I'm feart ye wadna let me."

At the third repetition she asked:

"Dae ye min', David, yesterday I couldna lift a bag of potatoes intae the eairt and ye lifted them for me?"

"Oh, aye!" he replied.

"West to start a new religion, do you know what I would go?

"You'd go out and preach, wouldn't you?" I asked.

"I'd do something else first," he replied. "I would go to the popular som writers of music, and I would get them to write songs expressing the can only make people feel religion, if we can make them realize that it is already there in their hearts, make them love it, we can move the world."—San Francisco Bulletin.

Her Suspicions Aroused.

"My father persuaded me to take a course in domestic science."

"And how do you like the course?"

"And how do you like the replication what I would go?

"You'd go out and preach, wouldn't you?" I asked.

"I' do something else first," he replied. "I would go to the popular som writers of music, and I would get them to write songs expressing the to writer so f music, and I would get them to write songs expressing the to writer so f music, and I would get them to write songs expressing the pled.

"I' do something else first," he replied. "I would go to the popular som yet witers of music, and I would get them to write songs expressing the replied.

"I' do something else first," he replied.

"You'd bo vit would go to the popular som your plead.

"And how do you like the course?"

"Well, it looks like ordinary kitchen work to me. If my suspicions are confirmed I shall drop the course and make father buy me a fifty dollar hat."

—Louisville Courier-Journal.

SUNDAY SCHOOL.

Lesson VI .- Fourth Quarter, For Nov. 5, 1911.

THE INTERNATIONAL SERIES.

Text of the Lesson, Est. iv, 10 to v, 3. Memory Verses, iv, 13, 14—Golden Text, Ps. cxlv. 20—Commentary Prepared by Rev. D. M. Stearns.

As we have but one lesson in thi

onderful portion of the Bible, we

must try to get some idea of the who over and providentially caring for Hi people, and, though He is not mentioned by name, He is seen working a brough. The book ends most beaut fully and suggestively with these words: "Mordecai the Jew was nex-unto King Ahasuerus and great among he Jews and accepted of the multude of his brethren, seeking the wealth of his people and speaking peace to all his seed" (x, 3). We can not but think of the kingdom of which this book is a historical and prophetic Amos vi, 10, and Deut, xxxi, 17, 18
may possibly throw some light on the
absence of any name of God in the
book, and yet the name of Jehovah is
really there four times in the form of
an acrostic in the initial or final letters
of four words in chapters 1, 20; v, 4
13; vii, 7. See Dr. Bullinger's booklet
This any one with a Hebrew Bible car This any one with a Hebrew Bible can easily verify. It is said that Dr. Ginsburg has discovered three ancient MSS in which these acrostic letters are written in larger characters and in more prominent form. The absence of the name in any ordinary form suggests the lines: "Oh, blest is he to whom is given the instinct that can tell that God is on the field when He is most invisible" (Faber). "Most hidden, yet most manifest" (Augustine. Some one has said that it is the story of the people of God delivered from death by a mediator of the highest rank, who undertakes the greatest danger and is mysteriously one of them. The time of the story is supposed to be between Ez. vi and vii. The principal truth seems to be that there is a God in history working out His good pleasure through human lives and ordinary means. As one has said, "All history is His story." God and the devil are seen in conflict from Gen. if to Rev. xx. Here it is Haman as the devil's man and Mordecai and Esther to the Lord's side.

Thus far in the story, up to our lesson today, we see the greatness of an earthly king and the magnificence of his kingdom; his ill treatment of a noble woman, put away, but remembered; the choice of another who required nothing but what was appoint. This any one with a Hebrew Bible ca easily verify. It is said that Dr. Gins

noble woman, put away, but remembered; the choice of another who required nothing but what was appointed for her (i, 19; ii, 1, 15); the faithful and unwavering interest of her guardian. Mordecal; the promotion of Haman and his plot to kill all the Jews. This brings us to the interession of Esther in tile lesson of today, in which she took the place of death to save the lives of her people (iv, 11). Our mediator actually died in our stead to deliver us from the curse of the law (Gal. iii, 13; iv, 4, 5). The words in iv, 14, "Who knoweth whether thou art come to the kingdom for such a time as this?" make us think of the words of the Lord Jesus, "For this cause came I unto this hour," "For this cause came I unto the world" (John xii, 27; xviii, 37). If we are redeemed by the precious blood of Christ we may be certain that all our life is planned for us according to Eph. ii, 10, and concerning every occasion or opportunity we may be sure that it has been prepared for every occasion or opportunity we may be sure that it has been prepared for us; that in it, by dying to self, we may

be sure that it has been prepared for us; that in it, by dying to self, we may make manifest the life of Jesus (II Cor. iv, 10, 11; I Sam. x, 7).

If we are unwilling He will choose some willing vassal to accomplish his purpose, and the loss will be ours.

Esther sent word to Mordecai that he and all the Jews in Shushan should join her and her maidens in a three days' fast and then she would go into the presence of the king on behalf of her people, even if it should mean death to her (iv, 15-17). On the third day she went to the king and obtained favor in his sight and the assurance that he would do for her whatever she asked, even to the half of his kingdom. Our Mediator, who is now in the presence of God for us, has given us all that is His and made us joint heirs with Himself. He takes every truly pentitent sinner into full partnership. St. Louis Republic.

One of Nature's Mysteries.
The zodiacal light, still one of the unsolved mysteries, has shown very regular pulsations in intensity and form. In a communication to the French Academy of Sciences M. Birkeland has pointed out that these variations agree closely with the periods of regular magnetic waves of polar regions, and this would seem to indicate that the zodiacal light is an electrical phenomenon. A number of experiments suggest that it may be part of a ring sixed, even to the half of his kingdom. phenomenon. A number of experiments suggest that it may be part of a ring of luminous matter surrounding the sun in the plane of its magnetic equator.

So we went to the king and obtained favor in his sight and the assurance successful to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sight and the assurance skeet to the king and obtained favor in his sigh with Himself, blotting out all that was against us and putting all His right-cousness to our account, because He died for our sins and rose again the third day. If any are perplexed by the three days and nights of the bediever. three days and nights of the body of Jesus Christ in the tomb and cannot

s lesus Christ in the tomb and cannot work it in between Friday and the first day of the week let them find the key to the real meaning of the time in this story. They were to fast three days, and yet on the third day (not the fourth) she went to the king (tv. 16; v. 1).

The rest of the Esther story is thrilling as we read of Haman's gallows to was the man whom the king would defight to honor, the king's sleepless night, the record found in the book of the Chronicles concerning Mordecal. ingui, the record found in the book of the Chronicles concerning Mordecal, Haman's being compelled to do to Mordecal what he had longed to have done to himself, then his being hanged on the gallows he had prepared for Mordecal.

Mordecal.

How grand the statements of chapters viii. 16; ix. 3, margin, "The Jews had light, gladness and joy and honor," "Those who did the business that belonged to the king helped the Jews."

'Twas Ever Thus say that prices fluctuate? any that prices fluctuate?"
"It means, my son, that they go up
and down. When it's something
you've got to buy the price goes up,
and when it's something you've got to
sell the price goes down."—Judge,

Her Dearest Friend. Maude—I'm a little uneasy in my mind. Ned asked me to marry him, and I told him I might some day. Now, would you call that a promise? Marie—No; I should call it a threat.

An indiscreet man is an unsealed letter. Every one can read it.—Cham Buying Precious Stones.
In buying gems always beg, buy or borrow a microscope and examine the stone carefully through the telltale lens. Flaws invisible to the naked eye which depreciate or entirely destroy the value of the gem will be easily recognized.

The Silent Moon.

Dead silence reigns on the moon. A thousand cannons might be inved at housand drums beaten upon that airless world, but no sound could come from them. Lips might quiver and tongues essay to speak, but no action of the lungra scene.

of the lunar scene.

HANDEL'S TEMPER.

Sorely Tried by a Joker Who Knew the Composer's Weakness. The celebrated composer Handel had such a remarkable irritation of nerves that he could not bear to hear the tun

ing of instruments, and therefore this was always done before he arrived at ms of instruments, and therefore this was always done before he arrived at the theater.

A musical wag who knew how to extract some mirth from Handel's irascibility of temper stole into the orchestra on a night when the Prince of Wales was to be present and untuned all the instruments. As soon as the prince arrived Handel gave the signal of beginning, con spirito, but such was the horrible discord that the enraged musician started up from his seat, and, having overturned a double bass, which stood in his way, he seized a kettledrum, which he threw with such violence at the leader of the band that he lost his full bottomed wig in the effort.

the effort.

Without waiting to replace it he advanced bareheaded to the front of the orchestra, breathing vengeance, but so much choked with passion that utterance was denied him. In this ridiculous attitude he stood staring and stamping for some moments amid a convulsion of laughter, nor could be be prevailed upon to resume his seat until the prince went in person and appeased his wrath.

THE PLANET MARS.

Its Orbit and Its Distance From the Sun and Earth. While the astronomers are still de-bating and weighing the problem of Mars and its inhabitants a few words dating and weighing the problem of Mars and its inhabitants a few words about the distance of the planet from the sun and earth may be of interest. The average distance of Mars from the sun is 141,500,000 miles. The distance from earth to sun is 93,000,000 miles. When sun, earth and Mars are in line, with the sun and Mars on opposite sides of the earth, Mars is said to be in "opposition," and it is then closest to the earth. If earth and Mars both moved in circles about the sun the distance from earth to Mars at opposition would be forty-eight and a half (414½—93) million miles. But neither of the orbits is circular, that of Mars being much more elliptical than that of the earth, with the result that at opposition Mars may be as far away as 61,000,000 miles from the earth when there is an unfavorable opposition, or Mars may come as close as 35,000,000 miles away, when it is as near as it can possibly come to the earth, and its opposition is then the most favorable possible. At such times Mars is brightest in the cky and appears of greatest size.—New York World.

Biggest of Cannibal Banquets. Probably the biggest cannibal orgy on record is one of which Miss Bea-trice Grimshaw tells in her book "The

The Name of London.

The old name for the city of London was Lynden or Llynden, meaning "the city by the lake." An old tradition gives us to understand that London was founded by Brute, a descendant of Aeneas, and that it was first called New Troy or Troynovant. In the time of Lud it was surrounded by a wall and was then known as Lud's Town, or Caer-Lud. This latter is probably the correct version of the origin of the name of London if for no other reason because it is such an easy matter to detect a similarity between the expressions London and Lud's Town. It is claimed by some writers that there was a city on the present site of London in the year 1107 B. C., and it is known that the Romans founded a city there and called it Londinium in the year 61 A. D.

The Benevolent Butler.

ruly horrible incident" which befell n English lady. Her butler was in the habit of calling loudly beneath her window every evening about 7. His cry suggested that he was calling el-ther the cattle or the chickens home; but, though she had neither, the lady for some time took no notice until one evening, having the curiosity to look, she was horrified to see the but-ler, like a dusky pied piper, surround-ed by a troop of rats.

There were quite fifty of them, from was speedily ended.—Times of India.

The Plain Young Man

A Case of a Very Sudden Honeymoon

By JEFFERSON PORT

clad in an automobile dust cont and cap while a pair of goggles protruded from his coat pocket. The other wore leather puttees and a checked woolen cap placed hindside before with the visor pulled down over the back of his sleek dark hair. Both were handsome. The young man was plain of face, with squarer, blunter features suggesting frankness and a certain tenacity of purpose that might win by its very straightforwardness where clever finesse would fail entirely. Unlike his companions in the waiting room, the companions in the waiting room, the clothing of the plain young man did not denote any especial fad or calling. He sat with folded arms and underjaw prominent, so that one might imagine that his teeth were tightly clinched.

Suddenly the closed mahogany inner door swung open and a large, massive-ly framed, middle aged man appeared on the threshold. He bowed with the same degree of warmth to each of the

"You wished to see me, Mr. Avery Come right in, please." Frank Avery followed Silas Pedding

ton into the private office and, stuff-ing his cap in his pocket, sat down on the edge of one of the leather cush-loned chairs. He was obviously nervous, for he mopped his brow constant ly and gripped the floor with his toes as though he was afraid of falling in an ignominious heap at the well shod feet of the rich mill owner.

an anxious instant on the perilous edu of the chair, "I received your letter this morning and I telephoned you to come down here. I hate to write let-ters, so I prefer to discuss matters of personal interest verbally rather than otherwise."

'Now, about Arline. Have you see

"Yes, I did see her."

gular, extraordinary, unique!" rapped out Mr. Peddington sharply. He tapped an open letter on his desk with a blunt forefinger. "Here's a letter from blunt foreinger. "Here's a letter from another lovelorn youth. Frank. He has seen my daughter very recently—in fact, at the Nautilus dance on Saturday. You asked her, then, too? Ah, I thought so! She must have looked uncommonly well. I'll know how much it cost when the bill comes in. Well, young Hicks—he's outside there too. He says that Arline has told him that she doesn't love him; but, like a dutiful daughter, she refers him to me. Now I've got you both here I don't know what to do."
"I didn't know Joe Hicks was inter-

seems to me I of have more confidence in you if you wanted to work in spite of your millions. As for Joe Hicks, he isn't blessed with too much money, but he's brainly and bound to make his mark in the field of scientific aviation. Think of the clever flying machine has just perfected. He's won no end of prize money, and with royalites from his patients he'll be rich and a worker too."

"If he had all the money he wanted of the properties of the properties of the wanted of the properties of the properties of the standard worker too."

"If he had all the money he wanted of your millions. As for Joe Hicks, he isn't blessing? Wait till I write a check to go with it." He flapped out a check book and in his big, square handwriting drew a check of four figures. "You will want a honeymoon, of course?"

"We're going up to New Brunswick," "we're going up to New Brunswick," splained the bridegroom in the same quiet, self contained manner that had already won Mr. Peddington's admiration.

worker too."
"If he had all the money he wanted he wouldn't be working so hard for it now." retorted the young man bitterly. "I happen to have inherited a lot, so what's the use of working?"
"It's an achievement to invent an air machine that can travel as fast as an express train," remarked Mr. Peddington.

ton.
"It's a consolation to be able to pur-chase a motorcar that can outdistance the fastest express train. That's what I have just done," flashed Frank Avery

in reply.

"Got your machine here?" demanded

Mr. Peddington suddenly.

Frank smiled bitterly. "I wouldn't be surprised. He's got his cap on wrong side before."
"I have an idea. I'll have him in." Mr. Peddington jumped up and opened the door into the outer office and called to the waiting aviator. When Joe Hicks entered the inner office Mr. Peddington did not quite close the mahogany door. He left it ajar, and the plain young man who was patiently awaiting his turn for an interview

turned away and stared out of the win-

turned away and stared out of the window into the mill yard.
"Now, boys," began Mr. Peddington as he towered above the young men, "I find you're both in the same fix concerning my daughter. Don't blush. Might as well have the matter out fair and square and no favors to either one. Arline has told each of you trankly that she does not love you, but that if her fond papa, meaning myself, commands her to marry elmyself, commands her to marry el-ther one of you she will show herself o be an obedient daughter. Now

to be an obedient daughter. Now, which shall it be?"

The two rivals glared at each other and then looked hopefully at Silas Peddington.

"I like you both equally well," went on Arline's parent judicially, "so there is not much choice. Your personal characters balance even, and Avery's wealth is set off against Hicks' brains and ingenuity, so there you are. There's only one thing to do, in my opinion, and that is to let fate or luck, or whatever you call it, have a hand in the matter. If Arline had a mother I would leave it to her, but as things are as they are it shall be as I say." He sat down in his big chair and once more pressed his finger tips together.

"Arline is down at our place at Belle Point. It's a straightaway road down there along the shore. You can keep each other in sight part of the way at least until one outdistances the other. Hicks, you jump into your monoplane, and Avery will get into his automobile, and away you go, and the first one that reaches Belle Point and sees my daughter may wed her, provided she hasn't changed her mind since referring you to me."

"Done!" 'cried Hicks, rising and care-

vided she hasn't changed her mind since referring you to me."
"Done" cried Hicks, rising and carefully adjusting his woolen cap. "My machine's out at Fern park, and I can be away in a half hour."
"My car is downstairs, and I'll take you out to Fern park and start from there." And Frank Avery arose and there." And Frank Avery arose and held out his hand to Arline's father.

held out his hand to Arline's father. "Will you not come down and see us off, sir?"
"Sorry, boys, but I can't," returned the mill owner hastily. "Got another interview on my hands now. Good luck to both of you!"
"Thanks! Goodby, father-in-law!" said Joe Hicks boldly as he gripped Peddington's hand.
"Goodby, Father Peddington," was Avery's significant farewell.

"Goodby, Father Peddington," was Avery's significant farewell.
"You are good sports," said the elder man kindly. "Take good care of yourselves. You ought to make the twenty-five miles in pretty short order. Wire me the result." He waved them away, and after they had slammed the the outer door behind them he picked up his desk telephone and then hastily set it down again. "I'd like to warn her; but, no. It

"I'd like to warn her; but, no. wouldn't be playing fair, and the witch deserves the embarrassment after playing them off on me like that. But why in thunder should those two idlots want to marry a girl who openly tells them she doesn't love them, but will marry them if commanded to? Where is their good American blood?" "If you please, Mr. Peddington," said a crisp voice from the doorway, "Trye been waiting some time. Perwouldn't be playing fair, and the witch

said a crisp voice from the doorway.
"I've been waiting some time. Perhaps you can see me now."

The open doorway framed the well-knit, compact figure and plain face of the plain young man. He carried his panama hat under his arm, and when you looked at him and saw his eyes you would dealers, that they would

Peddington, sitting up very straight in

his chair. "Because Arline and I were married

"Because Arline and I were married an hour ago. She is waiting down-the says that Arline has told him that she doesn't love him; but, like a dutiful daughter, she refers him to me. Now I've got you both here I don't know what to do."

"I didn't know Joe Hicks was interested." muttered Avery sullenly.

"You both seem to be units among throngs." returned Arline's father blandly. "You've got plenty of money, Frank, and I know you can take care of a wife, although I'd like it better if you didn't live a liffe of lelsure. Seems to me I'd have more confidence in you if you wanted to work in spite of your millions. As for Joe Hicks, he isn't blessed with too much money, but here the properties of the properties

As they reached the outer door Silas As they reached the outer door Silas Peddington uttered a sharp exclamation. "By Jove, what about those two chaps who are racing out to Belle Point for Arline's hand? Gee. I can't face them when they come back and find she's married to you, Russell!" "Better come with us on our honeymoon," urged his son-in-law.
"I will!" ejaculated Silas Peddington. And, thrusting his head within another

In Fastest express train. That's what I have just done," flashed Frank Avery in reply.

"Got your machine here?" demanded Mr. Peddington suddenly.

"Down at the door."

"I will!" ejaculated Silas Peddington. And, thrusting his head within another office, he said briskly, to the utter mystification of his clerical force:

"I'll wire any instructions I may have concerning the business. I'm suddenly called away on a honeymoon."

An Easy Task.

Lover (mournfully)—Have you learned to love another? Filir (who had just broken off her engagement with him)—Oh, no, George. I didn't have to learn. The man is very, yery wealthy, and the love came spontane moon."

RAINED ICY BULLETS.

A Hailstorm In the Pyrences Is a Serious Matter.

In a letter to the London Times a traveler tells of a hailstorm that came upon his party in the Pyrences, "It was as if night was devouring day before our very eyes—a night, too, of tempest and torn and trailing clouds, tempest and torn and trailing clouds, of storm, smoke and thunder." Mildway in the darkness was "the clear but straight line of cloud which invariably tells of hail." Except for the shelter of a small tree the travelers were exposed to the storm's fury, and when they examined the hailstones they found they were of the Everage size of marbles, with a scattering here and there of much larger stones, "as large as golf bails." stones, "as large as golf balls."

This, however, was merely the pre-lude. The real storm came after they

lude. The real storm came after they had reached their tents. "Suddenly the whole land was bombarded by great hailstones as large as lawn tenis balls." These fell with deafening roar on the canvas of the tent, and "it seemed only a matter of a few seends for us be bettered into the earth, tent and all." An india rubber bath in front of their shelter, "with its sides beaten down in places, was half full of things like white cricket

balls."

When the storm had finally passed the mountains around were white with the halistones. The hall was weighed. "Six stones went to the kilo." The size was that of "a tennis ball and almost uniform." Seventy sheep were killed on the heights above the travelers' shelter, and in a neigh boring valley g valley thirty-five cows and mules and the body of a child that had been wandering in the mot tains "were brought down by

THACKERAY AS A TALKER.

Later, as he rose, he looked at his friend as much as to say, "I'll show you what speaking is." He began fluently, was excellent for two minutes and then in the midst of a most earnest sentence stopped suddenly, gave a look of comic despair and sat down. "My boy," he said when the meeting was over—"my boy, you have accidentally missed hearing one of the finest speeches ever prepared by a great British orator."—"Some Aspects of Thackeray," by Lewis Medvilla

THE REAL SANS-GENE.

Story of Her Adventurous Career In the French Army. Every one knows the washerwoman who was so familiar with Napoleon in Victorien Sardon's play "Mme. Sans Gene," but the real Sans-Gene who lived at that time was a dragoon in the plain young man. He carried his panama hat under his arm, and when you looked at him and saw his eyes you would declare that they would beautify any face, so bright and blue and true were they.

"Come in," said Mr. Peddington courteously. And when the visitor had seated himself the mill owner said, "You are Russell Osgood, the architect who planned my Belle Point place, aren't you?"

Russell Osgood smiled at Silas Ped.

Russell Osgood smiled at Silas Ped.

Russell Osgood smiled at Silas Peddington's tone. He had met the mill owner a hundred times since then, and they were on friendly terms, yet now his tone was distinctly anxious.

"I am all that and more now." be said clearly. "I'm your son-in-law, Mr. Peddington!"

"Why-what-when?" gasped Mr. Peddington sitting up very straight in page 1. The size of the size of Toulon, was in the Italian. Spanish and Austrian campaigns and fought at Austerlitz and in Russia. GREAT NATURAL BRIDGE.

Justice Marshall Called It "God" Justice Marshall Called It "God's
Greatest Miracle In Stone."
The great Natural bridge, which is
one of the natural wonders of the
United States, overlooks the James
river valley, being on the western
slope of the Blue mountains. It is
just about the center of the state. It
approaches, Nigagas, in grandaus and

Just about the center of the state. It approaches Niagara in grandeur and exceeds it in height and awful mystery. It is a single block of limestone, with many shades of color. The walls are smooth, as if cut with chisels, and there is no sign of displacement. vitae trees in the world and, turning

down a line of steps cut into the preci-pice, suddenly finds himself by a swift stream in a dark canyon and the great stream in a dark canyon and the great bridge far above him.

Washington when a surveyor for Lord Fairfax visited the Natural bridge and carved his name, where it may still be seen. The original bridge tract was granted by King George III, to Thomas Jefferson in 1774. After he was president Jefferson visited the place surveyed it and made the man

place, surveyed it and made the map place, surveyed it and made the map with his own hands. Jefferson spoke of the place as "a famous place that will draw the attention of the world."

Chief Justice Marshall wrote of the bridge as "God's greatest miracle in stone." Henry Clay wrote of "the bridge not made with hands that spans a river, carries a highway and makes two mountains one."

Strong Claws and Flexible Pads For

Strong Claws and Flexible Pads For Rough and Smooth Surfaces.

The seeming miracle of insects walking nonchalantly on a ceiling is *ciplained by Tickner Edwardes, chairman of the British Beekeepers' association, in his book on "The Lore of the Honeybee." Insects owe such power, it appears to an incentions device or it appears to an incentions device.

FOOT OF THE BEE.

THACKERAY AS A TALKER.

A Grand Oratorical Display That Did Not Take Place.

Thackeray was terribly self conscious and usually presented a very poor appearance when he attempted to deliver a speech. "Why can't they get Dickens to take the chair?" he grumbled when he had to preside at the general theatrical fund. "He can make a speech, and a good one. I'm of no use. They little think how nervous am, and Dickens doesn't know the meaning of the word."

An amusing story is recorded of the occasion when, with Mr. Fields, the well known American publisher. Thackeray traveled to Manchester to make a speech at the founding of the Free Library institution in that town. The would be orator declared that, although Dickens and Bulwer Lytton and Sir James Stephen were to precede him, he intended to beat each of them on this occasion. He insisted that Mr. Fields should be seated diat Mr. Fields should be seated diat Mr. Fields should be seated that Mr. Fiel

to rest they took a weapon with them. If attacked in the night they were aroused by the noise made by the rashing in of their wooden defense and were able to defend themselves. When the law became strong enough to protect human life the sides of the bedstead were gradually dispensed with, but the four posts remained. The boxlike bedstead still survives in [1, 2] Lust play for Bill, Bill, Bill? with, but the four posts remained.

The boxlike bedstead still survives in the rural parts of Scotland and is alter and parts of Scotland and is alter and the survives in the rural parts of Scotland and is alter and the survives and the survives and the survives are survived by the survives and the survives are survived by the survives and the survives are survived by the survived the rural parts of Scotland and is almost necessary where the earthern floors and imperfect cellings cause much damp. Emily Bronte in "Wuthering Heights" describes one of these dedateads in the old mansions as forming a "little closet." Mr. Lockwood, who had to sleep in it, says, "I slid back the panel sides, got in with my light, pulled them together again and Selt secure."

Two Visiting Cards.

Yisiting cards differ in style accord
When Columbia returned to the field.

Bill, yelping furiously, led the way.

All through the half the team heard him barking from the side lines. Said Von Saltza, the big tackle, after the game. We heard every yelp, and it simply drove us."

"Also Bill's yelping was so good that Columbia won out, 12 to 6."

Very often. Mr. Fox declares, the ability of one man to kick has determined the outcome of the game. He writes:

onferred the Legion of Honor upon on the last time.

With the restoration she left the army to get married. She was then thirty. In the course of her marital career Sans-Gene had five horses shot under her and was wounded eight times in different engagements. She died in hospital in 1861.—London Globe.

Browning and a Cabman.

The gondollers of Venice are supposed to know their Tasso and Ariosto. The following little incident leads to the supposition that Brownings' "Ride to Ghent" may possibly be found in the poetic repertory of the London cabman: A neighbor one day saw Mr. eabman: A neighbor one day saw Mr. eabman:

Proved His Case.

Mother—The whipping you had yesterday does not seem to have improved you. Your behavior has been even worse today. Willie—That's what I was as bad as I possibly could be yesterday. I knew you were wrong.

Worldly Wisdom.
Father—In choosing a wife one should never judge by appearances. Son—That's right. Often the prettiest girls have the least money.—Exchange.

Prejudice squints when it looks and

GRIDIRON STORIES

Football Games That Were Won by a Tongue Lashing.

A TALK THAT BEAT HARVARD.

peal to Penn, and the Red and Blue Rose to the Occasion and to Victory.

Writing on football in the American Magazine, Edward Lyell Fox tells or football defeats that were turned into

the public. These are crises that have the public. These are crises that have been faced in the dressing room be-tween the halves, with the team stretched out dirty and bruised. Lash-ed by coaches' tongues or stirred by the appeal personal, an apparently dis-organized and defeated rabble often becomes a steady but furious fighting unit.

"In 1905 Pennsylvania went to their and talked three minutes to the team Murphy, like Antony, was no orator

Murphy, like Antony, was no orator.

"Do you want a lot of bean eaters up there in Boston to crow over the hash their team made of you? cried he. "They'll turn that city inside out and on good l'enn money at that! Your friends "li be courtin' free lunch counters for weeks if you let those dubs get away with this! Myself—it almost made me to the chief." almost made me cry to see those big stiffs walk all over you." noticeably.) 'Because I know

longer, and I want you to win this game.

"He finished speaking and stole away without a word. There was no cheering: the men were thinking too hard. The next half Harvard found a different Pennsylvania team, a team whose emotions were keyed up to such a pitch that their fierce football has never since been seen on Franklin field. Harvard was dazed, swept away and beatvard was dazed, swept away and beat

game between the halves occurred at Ithaca in 1905. Cornell led Columbia by 6 to 0 when the teams returned to the dressing rooms. Columbia had not recovered from a wearing game with of it all when the players lay down riends.

"That man," said the American, in dicating an actor with a wave of his hand, "is taking off his makeup to make up for another take off."

"The Courage description of the laws to the make up for another take off." make up for another take off."

The German departed sputtering.—
Success Magazine.

Origia of the Four Poster.
In medieval times, when life wan very insecure, it was usual for people to sleep on a bed which was surrounded by sides of boards with strong gosts at the four corners. These sides contained sliding doors, which could be fastened igside. When men retired to rest they took a weapon with them. If attacked in the night they were

a kick twisting from the forty-five yard line. It cleared the bar, and the score was tied. Wisconsin had the better team; Minnesota had Capron."

A Delightful Change.

An artist met one of his fellows a few days ago whom he had not seen in several years. Both are very well known men. Their greeting was delightful.

"Well, well, old man, what are you doing now?" said No. 1.

"Clipping coupons." was the easy reply, "with the same pair of selssors with which I used to cut the fringe off my cuffs."—New York Sun.

their lives in the result of last Tuesday's annual election. To employ a somewhat hackneyed expression it was like a lightning bolt from a clear sky. Hardly a sane man in either party entertained a shadow of doubt but that

WOBURN CO-OPERATIVE BANK.

HAVE YOUR

A MBITION is the mainspring of every life that counts The individual who lacks this characteristic lacks force, fails to attract attention and has no compelling or inspiring influence in the world's work. Here again is a characteristic usually attributed to individuals and not to corporations. When ambition is directed toward individual advancement along the best lines it results, not only in the improvement and development of the individual, but also helps all who come in contact with that influence.

The co-operation, character and personality of all the officers and employees of the Boston Edison Company are combined in an ever present and unfaltering ambition to benefit the more than a million and a half of people in the territory it serves. The benefit to these people comes in the increasing ease with which they can secure and use electric service at steadily diminishing cost. Thus are afforded increasing opportunities for safer, more cleanly, efficient and comfortable ways of living.

Phases of Woburn History. The Period Between 1857 and 1861.

BY WILLIAM R. CUTTER III.

BY WILLIAM R. CUTTER

Still further excitement on the case of Rev. A. S. Nickerson, who, after much trouble, was ordained an evan-galist over the Congregational Church at North Woburn, is proclaimed in an article in the Wourns Journal, of the fe of April 10, 1858. The paper of Lat issue said he had removed from the seen of his labors, the time bewing expired for which he was not driven, into another religious demonitation. The paper would lake no responsibility in the matter, it has was not driven, into another religious demonitation. The paper would lake no responsibility in the matter, and admints that it was not acquainted with all the circumstances, and concludes by quoting an article from Boston nawapaper, entitled, "Driven into Unitarisms."

A word as to the biography of Mr. Nickerson, whose experience at North Woburn oreated so much force at this following the process of the continued of the paper stand that had been continued in the second of the dealers of the continued of the paper stand that had seen the process of the continued of the paper stand that had seen that the paper of the continued in the was not driven. Into Onitarisms."

A word as to the biography of Mr. Nickerson, whose experience at North Woburn oreated so much force at the fight of the paper stand that had been continued in the paper of the dealers of the paper of the dealers

who had been giving concerts in certain parts of the country with success, gave a concert in Lyceum Hall, Woburn. on March 9, 1858. They were otherwise called the Reading "Old Folks," as many of the company belonged in that town. An audience of six hundred

and it looked as well as the "conormous ridiculous hoopery of the present time"
On Friday, Sept. 18, 1857, appeared the first number of the Woburn Weekly Budget. It was a weekly, but not a weakly paper, published by Messre. Horace N. Hastings and John L. Par ker. Its price was two cents per copy. It was full of brief news items, less dignified, perhaps, than its competitor the JOURNAL, but very complete in its gleanings of local news. It had one new feature, that of publishing the

"Births." In Vol. 1, No. 1, I note,
"Born in this town, Sept. 6th, a son
to Dr. Ephraim Cutter." This was
Benjamin (deceased May. 1910) an
eminent professor in the New England
Conservatory of Music. Other births
mentioned in this unital number serve

season tickets for travel on the railroad.

"As might be expected in a community of such steady habits, none of its business men have failed during the late Crisis, and from the resident inhabites to the could not agree until some one said a little Wind-Storm might be called a Breeze. The little one is just like here mother, and a little Gusta Wind is"—

Kerosene lamps—then a new thing—came into use in Woburn in February 1858. They were on sale at the store of J. S. Ellis. The oil is mentioned were winded from coal."

The births in Woburn during 1857 were 200; marriages, 35; and deaths

Broke Three Legs.

"Yes," said the small bay boy to the reporter, who was looking for some news to put in his paper; "mother fell downstairs and broke three legs."

"Pshaw! What are you giving me, youngster?" cried the reporter. "Don't be too funny. Your mother hasn't got three legs."

three legs."
"I didn't say she had," retorted the wicked boy. "The legs belonged to a table which mother fell against. She wasn't hurt at all.

John o'Groat's to Land's End. The distance in English miles be-tween John o'Groat's, in the extreme north of England, to Land's End. in the farthest south, is about 480 miles as the crow files, though by the ordi-nary lines of travel, of course, the distance is something more than that.

WOBURN NATIONAL BANK

Savings Department.

The beginning of successful operation of UNITED STATES POSTAL SAVINGS BANKS, and the possibility of legislation, by congress, looking to the establishment of NATIONAL SAVINGS BANKS, as outlined by Senator Aldrich, in his tentative plan for a new banking law, seems to indicate a popular demand for places of savings under the control and supervision of the UNITED STATES (GOVERNMENT.

To meet this legitimate demand and to extend increased bankin To meet this legitimate demand and to extend increased banking facilities to the people of Woburn and vicinity, the WOBURN NATIONAL BANK has opened a new department to be known as its SAVINGS DEPARTMENT, and will receive deposits of money to bear interest FROM DATE OFDEPOSIT at the rate of three per centum per annum on sums not less than \$100. These deposits however will not be subject to check.

All deposits in this bank are GUARANTEED by its capital stock of \$100,000, its surplus and undivided profits December 31, 1910, of \$68,860.34, and by the personal liability of its responsible stockholders to the extent of an additional \$100,000.

These directors give its affairs their personal attention :

Daniel R. Beggs of Beggs & Cobb, leather manufacturers. William E. Blodgett, Treasurer of R.Guastavino Co John C. Buck, Cashier.

Everett P. Fox of W. P. Fox & Sons, leather manufacturers. John W. Johnson, President.

Edward F. Johnson, Judge of District Court. John G. Maguire, Lawyer. L. Waldo Thompson, Woburn Hardware Co.

at hand. At that game manly strength has a greater advantage over woman's physique than any athletic contest. I propose that we select a team from among those of us whose advantage lies rather in our muscles than our brains, and at the finale of the season attempt to win a game."

"Nonsense! Impossible! It wouldn't be proper!" were the words that greeted the proposition.

hered to very strictly. The main trouble was to find a ground where they could practice without having the men students ogle and guy them. However, they secured a gridiron in a neighboring town, fenced in, and on practice days went there in a hay wagon.

Nevertheless it was not long before the men students learned that the co-eds had organized a football team and were practicing. Then it leaked out that they were intending to challenge the men. Innumerable were the jokes perpetrated at the glris' expense, which luckily they did not hear. Miss Horton was working with some especial purpose in view, but since she kept her own counsel no one knew what it was. She urged the team to learn the game and changed a few of the strongest, especially some who were feet runners, to prepare for some real work on the last Saturday in November.

The university team and the woman's college team were in fine practice, there being about two weeks remaining before the end of November. Then a formal challenge passed, which was

SUNDAY SCHOOL.

Lesson VII.-Fourth Quarter, For Nov. 12, 1911.

THE INTERNATIONAL SERIES.

Memory Verses, 25-28—Golden Text, Eccies. xii, 14—Commentary Pre-pared by Rev. D. M. Stearns. We are glad to have another less

fore we return to this book that it may be wise to glance at the book as a whole and outline its contents. It is the book of the times of the genles until the time of the kingdon hall come when Daniel's city and ecople shall have their transgressions people shall have their transgressions blotted out and shall enjoy the ever-lasting righteousness of chapter Ix. 24. Any one can make an outline to suit himself, but the following, by chapters, may suggest a better one. I. Daniel's purpose of heart. II. The stone kingdom to fill the earth. III. The image worship, or the furnace. IV. The proud humiliated. V. The judgment on the blasphemer. VI. The triumph of God over His enemies. VII. The everlasting kingdom (parallel with chapter ii). VIII. Kingdoms friendly to Daniel's people. IX. Daniel's prayer and Gabriel's prediction of the seventy-sevens. X. Gabriel's secthe seventy-sevens. X. Gabriel's sec-ond visit to Daniel. XI. Antichrist and his overthrow. XII. The kingdom to follow the resurrection of the just and the great tribulation. From even and the great tribulation. From even such an outline as this we see that the portion assigned for today's lesson is just the story of a sample leader of the devil's followers, whose end is surely foretold in Ps. 1x, 17; Matt. xxv, 41. It is part of the great kingdom story of the book and must be considered in that connection as well as in its personal relation to individuals. It is the record of a dranken revel with which God interfered suddenly. It was a great gathering of great people in the eyes of the world, and doubtless those invited felt as much honored as Haman did (Es.

great people in the eyes of the world, and doubtless those invited felt as much honored as Haman did (Es. v. 5) when invited to the banquet of Queen Esther. The golden and sliver vessels which had been taken from the temple of the Lord at Jerusalem were used as common drinking vessels, and they praised all gods except the living and true God.

In the midst of their drunken revelry a very strange and startling thing happens, for the fingers of a man's hand are seen writing words upon the plaster of the wall of the king's palace, and the king saw the part of the hand that wrote (verse 5). The king is filled with trembling and dismay, and all his wise men are called to interpret the words, but they could not read the writing (verse 8). This is the third time in this book that the wisdom of this world failed to understand the things of God (ii, 10; v. 27). How true it is that "the things of God knoweth no man, but the spirit of God" (I Cor. ii, 10). All the wisdom of this world is utterly at fault concerning things heavenly. The opinions and surmises of people are not worth the breath that utters them when they venture upon the things of God. There are unseen agents all about us, and while the hand of the Lord is against ancedote and fable that deals with the writing of Horace Greeley. One compositor could never get used to his appalling scrawl, and, in rage at the continual "typographical errors," Greeley sent a note to the foreman or dering him to discharge the man at once, as he was too inefficient a workman to be any longer employed on the large of the large of the large of the large of the works and seeing the king greatly troubled and his lords astongards. are unseen agents all about us, and while the hand of the Lord is against The queen hears of the unusual and startling event, and, coming into the banquet house and seeing the king greatly troubled and his lords astonished and the wise men helpless, she remembered Daniel and his marvelous skill in interpreting hard things in the days of Nebuchadnezer, and she said, "Let Daniel be called and he will show the interpretation" (verses 10-12). When Daniel came into the presence of the king he was told of the inability of all the wise men to interpret the writing and was offered

Ierbert Spencer insinuates in on his sociological works that the in

of his sociological works that the in-direction, the coquetry, the finesse-nay, all the arts which we find so adorable in women-are modified forms of hypocrisy. Before the ad-vent of civilization woman had in pure self defense to practice an elab-orate deception. In order to please her brutal lord and secure predom-lagance among dangerous rivals she nance among dangerous rivals shad to disguise her natural sentiment had to disguise her natural sentiments and return caresses for blows and amiles for discourtesy. As she could not accomplish her purpose by force, she became an expert in domestic diplomacy. The craftier, the more guileful she was the better were her chances of survival. And thus it has come to pass that, though the necessity for intricate behavior is now much lessened, women practice today. nuch lessened, women practice today much lessened, women practice today, in a roore elusive and refined way, the arts which the instinct of self preser, vation imposed upon their barbarous ancestresses.—H. H. Boyesen in "Lit-erary and Social Silhouettes."

Peru's Garden of the Gods. "In the Andes, half a thousand feet higher than Pike's peak, is to be found the Peruvian Garden of the Gods, admired by every traveler fortunate enough to visit it." writes William V. Alford, F. R. G. S., in the Century. "It is locally called the Rock forest, though in no sense of the word is it a forest. It simply resembles one when viewed at a distance of ten miles. The viewed at a distance of ten miles. The traveler may be forgiven the error of thinking it a forest as he sees it for the first time and forgets that he is no longer where trees grow, but within half an hour's ride of the highest city in the world, Cerro de Pasco, perched like a condor on the high peaks of the Andes.

"The Garden of the Gods in Colorado boasts of a few spectacular rocks, but they are few in number, and the area which they cover is not large. The Andean garden covers nearly a hundred times the ground and in

nundred times the ground and beauty and Interest northern counterpart in the same ra

To Give Him the Sack.

Two noblemen in the reign of Maximilian II.—1564-1566—one a German, the other a Spannard, who had each rendered a great service to the emperor, asked the hand of his daughter in marriage. Maximilian said that as he esteemed them both alike it was impossible to choose between them, and therefore their own prowess must decide it; but, being unwilling to the emperor's feet. This comical com-bat is said to be the origin of the phrase "Give him the sack," so com-

mon in the literature of courting. The Day of the Carver.

Carving was once a serious thing. The sixteenth century carver was a professional. He had to make the joint fit the guest. The size of his slices was the thing. Then he had to know his guests and cut accordingly. A lord, for instance, at the table, and a pike was dished up whole. Smaller fry, and the pike came on in slices. The same procedure with pig. The rank of the dihers decided whether it should appear at table in gold leaf or naked, whole or sliced. With bread, too, there was a difference. New or three days old baked was at the distance of the carries of

The American

He Entered London Society, as He Had Made a Fortune

By BEATRICE GARDINER

At that moment Lord Toppington's

As he entered, seeing Gladys, he frowned. Her mother saw his displeasure at her daughter's presence and made an excuse to send her from the room. Lord Toppington seated himself and said: "Lady Poindexter, I come in the in-

terest of a young American who has recently arrived in London with a deire to enter the social circle. He has applied to me to secure an entrance for him, and I have consented to do what I can in the matter. He gives a what I can in the matter. He gives a dinner on Wednesday evening next under my management. I have put the names of yourself, Sir John and your daughter on the list of guests. I trust you will accept."

"The Poindexters have never known any Americans," said my lady, with reserve.

so now," replied his lordship, "except"—he lowered his voice—"this fellow Springer is enormously rich." "You mean that he will buy shares in Sir John's"-

its purchase in the same way he would buy a country place. She had always heard America and Americans decried but the incident had brought out, as she had never felt it before, the prac-tical status of America in contrast with the decay of social grandeur in Europe. The result of all this was that she wrote Springer a note apolo-gizing for cutting him, confining her-self to the apology, ignoring any blame

from his pocketbook and, rising, of fered his hand to Lady Poindexter. The paper was in his palm, and when he left it was in hers. It was a check for £200.

George Springer was a very singular young man. He had a genius for famence that few men even understand. When he began his career ten years before his appearance in London he startled old financial heads by the apparent recklessness of his plunges, and they predicted a brief career for him, the end being his burial under an enormous debt. Instead he emerged with millions to his credit. Being still bachelor, he concluded to see the world, not on the outside, but on the inside. With a keen insight into human nature he knew that there are but few things in the world money will not buy. He had gone practically towork to gain an admission to British society, selecting Toppington, an impecunious nobleman of excellent lineage, whatever that means, and one of the best social engineers in London. He advised with Toppington as to what lady he should reserve for himself to take into dinner, and Toppington told him that Gladys Poindexter would be as well worth cultivating as any one. Toppington also explained

ton told him that Gladys Poindexter would be as well worth cultivating as any one. Toppington also explained that Gladys was ignorant of the fact that her presence had been purchased and if she got an inkling of it the Poindexters from that moment must be counted out from their calculations.

Seriouse was especially attantive to and if she got an inking of it the Poindexters from that moment must be counted out from their calculations. Springer was especially attentive to this information. He had a keen appreciation of values and values of different kinds. Moreover, he appreciated the difference between moral and money values. He had no permanent use for these people whom he had bought and was interested in meeting one whom he could not buy. He was a bright fellow and a good conversationalist. He devoted his exclusive attention to Gladys Poindexter, refaining from being diverted from her at any time by others. There are three stages of refinement—viz, not enough, a sufficiency and too much. Springer belonged to the middle of these three classes. He had not become effeminate. Indeed, he was a fine specimen of physical and intellectual vigor not yet undermined by possession of abnormal wealth. Such a man was likely to be agreeable to such a girl as Gladys Poindexter.

The American succeeded in making as quick an introduction into London society as he had into the coterie of society as he had into the coter

A SWORD OF HONOR.

others, and his attentions to Miss Gladys were noticed. But one day there came a terrible break in this intimacy. Gladys was relied upon by her father and mother to guide the family down the dangerous current of family finance, and many a rock she avoided by her management. One day when she was trying to make the balance in her check book and pass book agrees whe came upon an term of

balance in her check book and pass book agree she came upon an item of £200 to the family credit that she could not account for. Her mother should have provided some means of concealing Toppington's check, but had failed to do so. Gladys demanded to know what the check was for. There was a family jar, at the end of which Lady Poindexter confessed that the money had come indirectly from the American. Had Gladys been indifferent to Springer the discovery would have been extremely painful, but since she had been, to say the least, much pleased with him the incident plunged

In reaching it without his presence being known.

One day, feeling tired, he threw him self on a couch, first taking off his oriental sword, which he always wore out of affection for the emperor. Hearing volces, he sprang up and hurriedly left the room, forgetting his sword. A minute later a party of women and menentered the room, one of them being the young subaltern of the Auvergne regiment, now a colonel. He at once recognized the sword and, calling in her into the depths of mortification. her into the depths of mortification. Filial consideration prevented her venting her feelings upon her poor old parents. Toppington was beneath her contempt. Springer was the only one fit to be made to feel her indignation. The next time she met him socially—at a ball given by the Marchioness of Bladesby-she turned her back upon For the first time since his arrival For the first time since his arrival in London Springer felt that he had encountered something that his millions were powerless to smooth away. Here was a girl striving to maintain for her family—contrary to her own judgment—the social standing they had always enjoyed, maintaining for herself rather the substance than the recognized the sword and, calling in some gendarmes, proceeded to search

the premises.
Finding that he was discovered, Ney gave himself up quietly. On Dec. 7, 1815, the marshal, whose sobriquet was the Bravest of the Brave, the hero of a hundred battles, was shot. Scarcely two months after the owner of the second sword, Murat, had met his fate in the same way.

HE BORROWED MONEY.

herself rather the substance than the shadow of that position, for whose acquaintance, unbeknown to her, he had paid out money from his newly acquired millions. It was doubtful to which of the two the situation was more painful, the American or the English girl. His having purchased an entre from the others gave him no quaims of conscience or self contempt; his purchase from Gladys Poindexter he regarded a brutal use of his money.

Than He Could Use.

One morning last year I sat in the office of the head of a very large business, one of the shrewdest men I know. His cashier came in and laid on his desk a report of the cash in the bank. The amount exceeded \$400.

to enter her house and had not had any such right from the first, since had she known the terms on which the acquaintance had been made she would not have consented to them. To write an excuse would be only to add to the insuit he had offered. It seemed to him that he could do nothing but grin and bear the position he occuled toward her. "That's a pretty big balance," said my friend to his clerk. "It's much more than we need in this business. But we have borrowed no money for several months, so I wish you would send to each of our banks a note for \$100,000." When the clerk went out I expressed surprise at this action. For a man to borrow \$200,000 when he had more money than he could use seemed to me a wasteful proceeding. "I do it' he said "to keep my credit"

occupied toward her.

Toppington, who was very adroit, very tactful, felt it to his interest to smooth the matter over. The Polindexters were among those whom he considered his stock in trade, and any break between him and them would be to his injury. After giving Gladys time to cool he went to her and exongrated Springer from all blame, assur-"I do it," he said "to keep my credit alive. I want the banks accustomed to lending me money. I want them to regard a good line of credit as a regular thing with me. Some time I may need it, and when I do I want to have it ready and waiting. An established credit is a big asset, and the only way to get and keen it is to conerated Springer from all blame, assur-ing her that he had known nothing of those who were to be approached with those who were to be approached with a view to buying his way into society. She averred that no man with the instincts of a gentleman would buy his way into any society.

However, the more she thought of the matter the more she blamed every one connected with it more than she blamed the fountainhead. Indeed, she came to feel a secret admiration for this man who had so profound a contempt for the effete social distinctions of the old world that he set about

lished credit is a big asset, and the only way to get and keep it is to constantly employ it."

I have thought of that action a good many times since. I had always prided myself on not borrowing money. And I paid cash on the spot for everything that I bought. I looked upon people who bought things on credit as rather poor financiers.

rather poor financiers.

But a few months ago I wanted But a few months ago I wanted some money—a small amount and for only a month. I went to a bank where I had kept a deposit for over fifteen years, and they asked me to deposit good bonds as collateral to the full amount of the loan. My friend could borrow by simply signing a note. I had to give ample security—Matson Hale in National Months (Chicago News.)

In the government service through examination. The judge held the tailor guilty in both cases and fined him 500 marks, at the same time expressing his pleas. The interpretation is the temperate zone will not continuous struggles for possession of could borrow by simply signing a note. I had to give ample security—Chicago News. Matson Hale in National Monthly.

Twin Gods of War and Melody.
How do statesmen get themselves into the frame of mind to declare war. According to a popular German story, the method in Bismarck's case in 1866 was one that would hardly be suspected. His subordinate Kendell was an expert planist and, as Sir Mountstuart Grant Duff puts it, "used, it is said to fulfilled toward him the function which David fulfilled toward sault" on one evening Bismarck was unusually moody, and Kendell surpassed himself at the piano. "Thank you, my dear Kendell." said Bismarck finally; "you have soothed me and done me so much good. My mind is made up; we shall declare war against Austria."

Five Great Hunters.

There were five great hunters of classic enown—Acastos and Meleager, who took prominent parts in the famous Calydonian hunt of the wild boar; Actaeon, the huntsman who was a punishment for intruding on the scene when the goddess was bathing; Adonis, at any gold of Venus, who was killed by a wild boar while hunting; Orion, the great hunter, changed into the constellation so conspicuous from November through the winter.

MADE THE TAILOR PAY.

He Wouldn't Give Credit and the German Law Punished Him.

Law in Germany takes some odd turns, according to a Chicago lawyer

recently back from abroad.

One case the traveler related with amusement concerns a tanamanded the University of Berlin. A student had ordered an evening suit from a tailor. He already owed him money a trip for former orders, but promised faithfully to pay what was coming to the fully to pay what was coming to the send him a sum of money. The student was to pass an examination for a sovernment position and the suit was to be ready the same morning and he man was to call for it and pay the bill. He are the sum of the degrees by means of various cooling contrivances.

On the dark, cold side of the earth did not have time to cash the draft his did not have time to cash the force hundred miles into the mild his did not have time to cash the force hundred miles into the mild his did not have time to cash the full the more hundred miles into the mild his did not have time to cash the full the more hundred miles into the mild his did not have time to cash the full the horizon.

Though life in the turild or het will be the twill be the did his his this habitable, with the sun unending.

after the examination.

The tailor insisted on having his money and, not being paid, he refused to let the student use the suit he had ordered for the examination. The result was that the latter missed the examination. It was ascertained later that the student's father had sent him money and that he had spent the cash for a dinner given to some friends.

Suit was brought by the father against the tailor as being the cause of his son's failing to pass the examination, and the university as a corporation also sued the tailor for disre-

BRAKE THE EARTH

A SWORD OF HONOR.

It Was the Means of Betraying Marshal Ney to Death.

A saber of honor brought Marshal Ney to dishonor and death. When Napoleon entered Cairo on July 22, 1703, he was presented with three swords of honor richly iniald with prescious stones. He brought them back to Europe, and in 1802 he gave one to Ney and another to Murat, keeping the third for himself.

Ney received his at an imperial reception. The sword passed from one to another of those present, among whom was a young subaltern of the Auvergne regiment. When Napoleon escaped from Eibe Ney left the king and took sides with his former chief. After the allies entered Parls Ney made preparations to get out of the country, but his wife and a friend persuaded him that there was really no danger, and he decided to remain in France. Then came the order for his sarrest. He fled to a castle in the possession of some friends and succeeded in reaching it without his presence being known.

One day, feeling tired, he threw him self on a couch, first taking off his oriental sword, which he always wore out of of selection for the appears and the most beautiful forms distanced for the most beautiful forms distanced by withering heat, and the dost and chalk-like fragments.

YELLOWSTONE PARK.

The Changing Colored Terraces at the Mammoth hot springs.

It is with surprise that visitors to the Yellowstone National park who recurred in the appearance of a year or more find that many changes have occurred in the appearance of the colored terraces at the Mammoth hot springs. Indeed, such alterations occur sometimes in a period of a few weeks.

The terraces consist of a series of basins, each set being a few feet lower than its predecessor, and the hot water from the springs at the top of the terraces flows from basin to basin, depositing its chalky sediment at the first colored. The world is slowing down in its align rotation, and the days are getting longer, according to Professor rapidly fade, leaving the terraces milk with the profession of some friends and

flow of water, the Minerva terrace parts with its splendid colors and resembles a set of fluted basins carved lent in future, that other forces will

When the earth stops turning the side toward the sun will become over-heated, and water will dry up, and bilstering deserts will cover the sur-face. THE LUNCHROOM.

The following paragraph is ken from an Editorial printed

Take for example the sanitary conditions at the High School. The changes made last week were entirely unnecessary. In the 4 or 5 years the building has existed no ill effects from the room complained of had been experienced by teachers or pupils, and we the candid and sansible Types.

gated the statements which have been made that the original loca-tion of the High School lunch counter was a menace to the health of the pupils and having duly con sidered the letter of the local Board of Health, read to this Committee at its meeting Sept. 26th, 1911, hereby finds the charge unfounded and directs the Superintendent to restore the counter to its original location.'

The vote stood: Messrs. Maguire, Richardson, Crosby, Mendum and Dow voting "Yes," Mr. Clark, Miss Norris and Mrs. Kelleher voting "No."

The Board acted wisely in returning the lunchcounter to its original location, which, we hope,

Since writing the above the Lunchcounter is recommended by the Board of Health to be removed

CHAIRMAN GOULD.

One of the most gratifying re sults of the ballotbox contest on Nov. 7 was the reelection of Hon. Levi S. Gould of Melrose to the Middlesex Board of County Commissioners, of which he has been Chairman for years past. He has good reason to feel proud of his vote which evidenced the high esteem in which he is held by the people of Middlesex County. His majority was 10,748, while Frothingham's plurality was 1914 over Foss who carried the county in 1910 by over 3,000.

That was a splendid victory for

of the House of Representatives, and won high hours in that important position. INVISIBLE LIGHT.

Only When It Strikes the Retina of the Eye Can It Be Seen.

What is the simplest demonstration of the fact that light is invisible? The blackness of a midnight sky lemonstrates this fact most readily. demonstrates this fact most readily. We may see the planets brilliantify illuminated by the sun's rays, but the surrounding space is dark, although we know that light must be passing there. The passage of a beam of light through a darkened room is only visible on the dust in the air, and the cone of light seen when the sun shines through a small hole in a shutter is not visible, but only light redected from the motes in the beam. This can be easily and simply demonstrated by placing in the beam a glass vessel from which the dust has been carefully removed. The beam then may be from which the dust has been carefully removed. The beam then may be seen before and behind the vessel, but is invisible within. A Bunsen burner or a redhot poker held so as to destroy the motes will also render the beam invisible at that spot.

Light is only visible when it strikes on the retina of the eye, and it can only do so when it reaches it in a direct line or is turned by a reflection or

ect line or is turned by a reflection of efraction into a direct line. Just as the bullets from a gun do a man no narm unless aimed or turned in their course toward his body, so light is without effect unless it is aimed or turned toward the retina.—Pearson's

DUMAS AND HIS BARBER.

natronized a Paris barber named Por ther, and one day this worthy while having the novelist asked him why

shaving the novelist asked him why he did not sell the tickets given him by the managers of the theaters where his plays were produced.

"To whom could I sell them?" asked the author of the "Three Musketeers." "Why, to me, if you like," replied Porcher. "And what would you do with them?" asked Dumas. "That's my busines," replied the barber, continuing to lather the bronzed face of the

The Spread of Species.

The Spread of Species.

One of the problems that confront the naturalist is that of accounting for the distribution or identical forms of life through widely separated localities. Investigation frequently shows that this has been accomplished in many dways that appear quite simple when once discovered, although one would hardly have thought of them. Some interesting facts have been gleaned pearance in remote and isolated ponds, Waterfowl play an important part in this work. Ducks have been known to carry mussels attached to their feet a hundred miles or more. Bivaive mollusks not infrequently cling to the toes of wading birds and are thus transported for considerable distances. Even aquatic insects have been known to carry small fresh water mollusks attached to their lezs.—Harprer's Weekly.

tached to their legs .- Harper's Weekly

Eye Strain and its Dangers.

Never allow children to read or do any form of fine work unless there is a bright, steady light, says a medical journal. Working by firelight or in the dusk causes such a strain on young eyes that they never quite recover, and weak or defective vision is the result. Notice whether a child holds books and work very close to the eyes, and if so consult an ocullst, the eyes, and if so consult an ocullst, the child may be fitted with the child may be fitted to fit the

He Was Obtained Through a Singular Courtship

By HARRIET C. BONSALL Copyright by American Press Asso-ciation, 1911.

********** Helen Trever had the misfortune to vor, had accumulated a large fortune and Helen, being his only child, would up riches becomes a passion. Rather it is a hab!!, and we all know that a habit once fixed on an individual is

Mr. Trevor illustrated this as follows: Since his daughter was to take his place he laid out a course for her. This course involved her marriage; for that she should marry. He made will tying up the property to her and her children, excluding the husband and father entirely. Therefore it made little difference to him whether Helen married a good man or a

Suck.
But he found Helen hard to manage In this matter of matrimony. She being twenty and he sixty, the two looked at it from opposite standpoints. He thought he was giving her a great deal of leeway when he told her that he didn't care whether she married Tom, Dick or Harry so long as she chose a husband. A girl who would not be satisfied with that must be very unreasonable. Helen expressed herself as content with the conditions, but since she was either not in love but since she was either not in love or the man she wanted did not pro-pose to her she did not choose any one. The old man fretted and fumed and

The old man fretted and fumed and scolded till the poor girl was driven nearly distracted. Feeling obliged to encourage some man, she hit upon Tom Fisher, who would not only have been glad to marry her for her money, but for love. After a month's dawdling with Fisher she tired of him and took up with Archie Briggs. A fair trial with Archie convinced her that perhaps, after all, she could stand Fisher better. Fisher was recalled and disbetter. Fisher was recalled and dismissed. Briggs was reinstated and dismissed, and so the game went on.

The one least injured by it was Miss Trevor. Both her sultors were kept on tenterhooks, while her father was made positively ill by her indecision. He was ordered to his bed by his physician, who said that he must not be troubled about anything. He must be given his own way in everything. If this rule were not observed the doctor would not answer for the consequences. The one least injured by it was Miss

en Trevor gave her heart to a man who showed no disposition whatever to return it. Dick Thurston, a young lawyer, bright, attractive and in many lawyer, bright, attractive and in many respects a scapegrace, was the unconscious recipient of her preference. But unfortunately she as a woman could not plead her cause with him. It was hard that, while she might be satisfied with a husband and her father might be restored to health by this young man, he showed no disposition whatever to marry her.

Mr. Trevor grew worse, and his anxiety to see his daughter married became so serious that she began to fear it would break her down as well as

it would break her down as well as her father. He called her to his bedside and questioned her about her intentions. She told him that she was deliberating whether she should marry Tom Fisher or Archie Briggs and promised him that she would make up her mind as to which she would accept as soon as possible. The look of appeal he gave her went to her hearthat is, it would have gone to her hearthad it not gone out of her possession into that of Dick Thurston.

A week passed. She came to no conclusion, and the doctor told her that the subject of her marriage was affecting her father so seriously that ry Tom Fisher or Archie Briggs and

affecting her father so seriously that if he did not get it off his mind he Something must be done. Perplexed beyond endurance, she was driven to seek a confidant. She went to Thurston, told him of the situation, excepting that part of it which concerned himself, and asked him as a lawyer if there was no way of being married so that after her father should recover she could be unmarried. In other words, could she appear to be married without being married? Perplexed beyond endurance, she was

Thurston asked her if there was any one with whom she would enter upon such a contract, and she told him that there were two most favored individuals—viz. Thomas Fisher and Archabald Briggs. Thurston with that reserve lawyers are accustomed to put on when interviewing a client made on when interviewing a client made a note of the names, put on a look indicating that his brain was staggering under the weight of the problem and said that it would be necessary to look the matter up. He would do not give her a reply within a few days. Just before she left his office he asked one more question. "Is there any one who stands above

"Is there any one who stands above these two most favored gentlemen?" "If they are most favored how could "There is nothing beyond the

"Very true, very true. That would be impossible." And with a low bow he softly closed the door behind her. Miss Trevor did not hear anything from her attorney within the prom-ised "few days," and her father grew rse. One morning after the doctor

vise you to marry both your suitors."

you will have no trouble in getting the courts to annul the double marriage."
"But suppose these men will not consent to such a marriage."
"Try them."
Helen thought hard for awhile, her tormentor regarding her curiously.
"My advice is," he added, "for you to write each one of your sultors announcing that you will marry him at an appointed time and place."
"Will you be present?"
"Certainly. As your attorney I must see that you fall into no legal error."
It is singular how much byplay will pass between a man and a woman before unmasking their feelings, nor is it certain at just what point they come it certain at just what point they come to understand each other. At this juncture an idea shot through Helen's

juncture an idea shot through Helen's brain. She told Mr. Thurston to be at ther house at 4 o'clock the next afternoon, then took her leave.

At the appointed hour Helen, arrayed in becoming costume, awaited the coming event. At any rate, she awaited her attorney, who at the appointed hour rang the doorbell. He found her in the drawing room looking very pretity, but woebegone.

"Where are your sultors?" he asked.
"They have failed me."
"How so?"
"I sent for them and told them that I would marry both of them."

I would marry both of them."
"What did they say?"
"Nothing. They withdrew in high

ludgeon. "How is your father?"

"How is your father?"
"In a critical condition."
"What do you propose to do?"
"I have no idea what to do. I called upon you for legal advice. You proposed a plan to which I acceded. It has failed and I am at my wits' end."
"Ready to marry any one?"
"Any one." She was looking not at him but at the floor.

him, but at the floor.

him, but at the floor.
"I presume that, as your attorney, I am bound to help you out."
There was no reply to this.
"If I had not been sensible of my unworthiness to secure such a prize I would have long ago offered to settle this matter for you by offering myself that are means of solying the problem." as a means of solving the problem.'

man proceeded.

"Since your father's life depends upon your marriage and there is no more favored man than the two most 'avored men"— He paused, but she did not make any

remark and he proceeded.

"You might honor me by accepting me as a dummy to serve for the present and to be cast off when not needed."

married before he died. A clergyman was called, and as soon as he arrived Thurston and Helen went upstairs to the invalid and Helen, kneeling beside to the invalid and Helen, kneeling beside to the first shop that was open?" her father, put her arms around him and announced that she had come to a decision. She was to marry Mr.

"What! Why, Nell, I thought you vere hesitating between two others?"
"So I was, father, but that was because Mr. Thurston didn't ask me.

"So she came to my office and asked me," said Thurston.

me," said Thurston.
"I didn't."
"You did."
"I say I didn't."
"Come, come," interrupted the father, "let well enough alone."
At that moment the clergyman entered and the couple were married.
"And now", said Mr. Thurston. "And now," said Mr. Thurston, "since it is all settled, I think I'll take

He turned over, went to sleep and in a few days was in his office at-tending to business. He lived to see a grandson on whom he settled his

Remarkable Results.

Among cases of accidental poisoning those caused by carbolic acid are the most frequent. These generally arise through mistaking a solution of carbolic acid for some medicine or, as occurs very often, for some alcoholic liquor.

"Both."

"Yes, both."

"But such a marriage would in law be bigamy."

"Not at all. There is no law of the land against marrying two persons at once. There is a law against a married person marrying again during the lifetime of the first consort or without divorce, but your first marriage may be with as many husbands as you like."

Helen looked at him in astonishment.

"I stake my professional reputation on what I say being true." added the lawyer. "If you can induce both these men to marry you at once you can any men to many men to many ment to the words in his own speech and in that you have to the many inaccuracics in the use of words in his own speech and in that you have to the many inaccuracics in the use of words in his own speech and in that you have to the many inaccuracics in the you as your set many inaccuracics in the use of words in his o Some Verbal Clips.

Without being a pedant one may tote many inaccuracies in the use of words in his own speech and in that awyer. "If you can induce both these men to marry you at once you can announce to your father that you have married either one of them you choose to name to him. After his recovery you will have no trouble in getting the courts to ancul the double marriage."
"But suppose these men will not consent to such a marriage."
"Try them."
"Try them."
"Try them."
"My advice is," he added. "for you to write each one of your suitors an will be glad, before the work of your suitors an will be glad, before the work of your suitors an will be glad, before the work of your suitors an will be glad, before the work of your suitors an work of these latter wants of precision would be priggish. It is a profitable mental exercise to study at times a book of synonyms or a thesaurus. The book stores and libraries will be glad, besides, to guide the wayfarer to many books of verbal purities.—Kansas City Star.

The Little Word "Yes."
"Yes" is a simple word spelled with

three letters.

It has caused more happiness and more unhappiness than any other word In the language.

It has lost more money for easy lend-

ers than all the heles in all the pockets in the world.

in the world.

It has started more dipsomaniacs on their career than all the strong liquor on earth.

It has caused more fights than all the "You're a liars" that ever were spoken.

It has procured kisses and provoked blows

d scoundrels.

It has been used in more lies than any other expression.

It is not meant half the time it is

Will it continue to make such a rec Yes.—Philadelphia Inquirer.

Snake's Method of Attack. Snake's Method of Attack.

No snake is able to jump or spring from a coil in order to strike, as often represented in pictures. It can only strike when it resembles the letter S and is lying flat on the ground. It can then only reach the distance supplied by stretching the body out straight. The two curves in the figure S supply this distance, which is about half the

this distance, which is about half the length of the body. No snake jumps through the air to its victim or spring clear from the ground, rising upon its tail. Such stories and pictures are all am bound to help you out."

There was no reply to this.

"If I had not been sensible of my unworthiness to secure such a prize I would have long ago offered to settle this matter for you by offering myself as a means of solving the problem."

The lady sitting mute, the gentleman proceeded.

tail. Such stories and pictures are all falls. Neither do they coil like a rope and strike from that position. They may coil partially, but the part of the body that does the striking is ever and only that part which makes the figure S and lies flat on the ground; hence no serpent can strike when stretched out its full length.

Lamb and His Snuffbox "One summer's evening," writes Hone, "I was walking on Hampstead heath with Charles Lamb, and we had talked ourselves into a philosophic contempt of our slavery to the habit o snuff taking, and with the firm resolu me as a dummy to serve for the present and to be cast off when not needed."

She looked up at him, a smile broke over her sober, not to say troubled, features, he went to her and, bending down, kissed her.

An hour later word came from the sickroom that Mr. Trevor was sinking, and that he begged of his daughter to give him the satisfaction of seeing her married before he died. A clergymm was called, and as soon as he arrived Thurston and Helen went upstairs to the invalid and Helen went upstairs to the invalid and Helen went upstairs to

CARBOLIC ACID ANTIDOTE.

Tincture of lodine, It is Claimed, Gives Remarkable Results.

Among cases of accidental poisoning those caused by carbolic acid are the most frequent. These generally arise

worse. One morning after the doctor had been visiting Mr. Trevor the medical man said to Helen;

"It is a question between your father's mind being relieved of the subject that is worrying him or his succumbing. He fears he will die, you will never marry and the estate that he has been at so much pains to pulled up will become dissipated. In my opinion if you will decide upon marrying he will get well."

"I'll come to a decision at once," was the reply.

As soon as the doctor had departed Helen hurried to her attorney. She told him that she must decide between her two sultors immediately and a decision would not avail without a marriage. A vague hope was in her that Thurston would take pity on her and solve the problem by offering to marry her himself. But he did not He treated the affair professionally.

"I have looked the matter up," she said with the gravity of a judge on the supryme beach, "and I would ad" to supreme beach, "and I would ad" to supryme beach a supryme beach a supryme decident in saile to swallow some milk without any when used as city supplies, for they for diffection the patient was obtained on administering favor the growth of crenothrix to such a degree that the water pipes become a degree that the water pipes become an degree that the water pipes able to swallow some milk without any when used acity supplies, for they favor the growth of crenothrix to such a degree that the water pipes able to swallow some milk without any difficulty, speaking became easier, and a degree that the water pipes come and every soon completely recovered.

Training an Elephant.

In training the elephant to perform tricks advantage is taken of the fact that the feet of the animal are peculiarly sensitive and he dreads any injury to them. Many of his tricks are based upon this principle. Thus he is made to place one foot upon a low pedestal; then the other foot is tapped gently, and he raises this and places it beside the other—to get it out of harm's way. The hind feet are treated similarly in turn, the front feet being hit every time they are treated similarly in turn, the front feet being hit every time they are placed on the ground. In this way a four feet are finally placed upon the tub. The trick of inducing an elephant to partake of a ment is very simple. Animals will naturally eat anything placed before them, and it is only necessary to open a bottle of "pop" once or twice and present it by hand when the animal may be trusted to find out for himself how to get at its contents. In all such cases the by Rev. D. M. Stearns.

essence of the training consists in ini-nite patience, kindness and constant repetition, showing the animal over again how a thing is done in precisely the same way and then forc-ing him to do it himself.—Scientific American The Old Man's Plea He got eight years in Sing Sing, but nevertheless the plea for mercy of Jo-seph Amos Washington Bruen was one of the finest prose poems ever uttered in the general sessions of New York. The old man addressed the court as

THE INTERNATIONAL SERIES.

Text of the Lesson, Ez. viii, 21-32. Memory Verses, 21-23—Golden Text, Ez. viii, 22—Commentary Prepared

In our two previous lessons in the ook of Ezra we saw nearly 50,000 returning to Jerusalem by permission of Cyrus, the king, under the leadershi of Zerubbabel and Joshua, and we say he temple finished by the encouraging words of Hagar and Zachariah. Now its contents. In all such cases the essence of the training consists in infifrom Aaron and also a scribe of th aw of God (vii. 5, 12), returning with the permission and good will of Artak etxes, king of Persia, and with him over 1,700 of the people. The decree of the king made nothing compulsory in the matter of returning, but gave full permission to all who were minded of their own free will to go up with Ezra (vii, 13). It is thought that the story of the book of Esther fits in between Ez. vi and vii and the statement in Est. i, 7, 8, that there was royal wine in abundance (or wine of the kingdom—margin), according to the —Oriental Review. The old man addressed the court as follows:

"Deed, yo' honah, I can't say much. Mah record am sure against me. I hab served moh time than sixteen years in prison for de same offense. All I have to remark (an' I hope yo' honah will not be too stern) is dat I just simply can't keep away from a hencoop nohow when I heah dem pulses callin."

Est. i, 7. 8, that there was royal wine in abundance tor wine of the kingdom—margin, according to the king dom-margin, according to the war possible state of the king, but that every one did necording to his own pleasure in the matter of drinking gives an idea of perfect freedom. Note the abundant bestowment and freedom of action granted to Ezra by the king, "Whatsolets callin." whatsoever more shall be needed *

ever shall seem good to thee, "that Radyard Kipling expressed the very same the will of your God. And whatsover more shall be needed "the will of your God. And whatsover more shall be needed "the will of your bestow it tout of the king's treasure house, you back to Mandalay."
"Come you back, you firtish solder; come got back, you firtish solder, come got back, you firtish solder; come got back, you firtish solder, you firtish solders, you for the you firtish solders, and you for the you firtish solders, you for the you for the you firtish solders, you for the you for the you firtish solders, you for the y

when the systems of issuing and read them selves there were the all night. In the morning I was walking on the same hill. I saw Charles Lambelow, searching among the bushes. He looked up, laughing, and said: "What! You are come to look for your shuffbox too?" 'Oh, no, 'said I, taking a pinch out of a paper in my waisteoat to the first shop that was open!"

A Death Feigning Plant.

That certain insects, birds, mammals and reptiles habitually pretend to be dead when danger threatens them is a well known fact, but it is generally believed that this stratagem is resorted to only by animals. In South America, however, there is a plant—a species of mimosa—which resorts to death feigning, evidently for the purpose of preventing the notes of the Bank of the United States as there is in the appearance of the notes themselves. The English note is somewhat longer and much broader than ours, is of rough white paper, with ragged edges, and is printed on one side only, with a few words and with no pictures or seigns, white ours are completely covered on both sides with vignette and lathe work.

A Death Feigning Plant.

In South America, however, there is a plant—a species of mimosa—which resorts to death feigning, evidently for the purpose of preventing the preventing the notes of the banks of the United States as there is in the appearance of the notes themselves. Mehand of the banks of the United States as there is in the appearance of the notes themselves.

Net men the space with a papearance of the notes themselves.

The English note is somewhat longer than ours, is of rough white paper, with ragged edges, and the words and with no pictures or seigns, while ours are completely covered on both sides with vignette and lathe. With a mind stayed upon Jehovah and a whole heart for Him, there is always berfet the desolat

lesson story everything was delivered by number and by weight (verse 34), and He who said. "Those that thou gavest me I have kept, and none of them is lost" (John xvii, 12), is the same unchangeable one who cannot lose anything that is truly His. Ezra's journey occupied four months, and all the way they were kept and delivered from the hand of the enemy and of such as lay in wait by the way (vii, 9; viii, 31). When Paul was nearing the end of his sojourn in a mortal body he said. "I was delivered out of the mouth of the lion, and the Lord shall deliver me from every evil work and will preserve me unto His heavenly kingdom"

Interruptions Didn't Make Blaine Lose

His Seif Possession.

In his "Testerday With the Fathers"
Dr. William Wilberforce Newton tells an incident which, fortunately escaping tragedy, serves nevertheless to illustrate the imperturbable self possession of a famous statesman.

Upon one occasion the Hon. James G. Blaine addressed a large concourse for people. There was a great wooden in a row of building is moverable as business men they recognized a smart piece of enterprise.—Business.

"When the late Amos Cummings was doing newspaper work in New York," said a representative from that city, the owned a home in a row of building is moverable as business men they recognized a smart piece of enterprise.—Business.

Cocated His Home.

JAPAN'S WOMEN DIVERS.

most From Babyhood.
The pearl divers of Japan are women. Along the coast of the bay of Ago and the bay of Kowasho the thir-Ago and the bay of Kowasho the thir-teen and fourteen-year-old girls after they have finished their primary school work go to sea and learn to dive. They are in the water and learn to swim almost from babyhood and spend most of their time in the water except in the coldest season, from the end of December to the beginning of Febru-

ary. Even during the most incle seasons they sometimes dive fo nearls.

They wear a special dress, white unterwear and the hair twisted up into
hard knot. The eyes are protected
by glasses to prevent the entrance of
vater. Tubs are suspended from the
valst. A boat in command of a man
assisted to core. The or ten young.

is assigned to every five or ten women livers to carry them to and from the divers to carry them to and from the fishing grounds. When the divers arrive on the grounds they leap into the water at once and begin to gather oysters at the bottom. The oysters are dropped into tubs suspended from their walts. When these vessels are filled the divers are raised to the surface and jump into the boats. They dive to a depth of from five to thirty fathoms without any special apparatus and retain their any special apparatus and retain their breath from one to three minutes.

DO NOT BE A LEANER.

Learn to Be Self Reliant and Strong Learn to Be Self Reliant and Strong and Original,
Power is the goal of every worthy ambition, and only weakness comes from imitation or dependence on others, says Orison Swett Marden in Success Magazine, Power is self developed, self generated. We cannot increase the strength of our muscles we string in a symmasium and letting

not himself physically. The dread discase of which six years later he died was at work upon him, and the physical decay, while it in no way affected his mind, told heavily upon his will. It was, for instance, observed that during his last campaign he was often found to be in a sleepy mood, that he talked instead of acting, that he frequently asked for the opinions of others, a thing that he had rarely been known to do before, and that he seem known to do before, and that he seem ed quite often to waver in his resoluted.

tion, whereas he had always been noted for the rapidity of his decisions.
Mentally it was the same old Napoleon, but the great intellect was sorely
handicapped by the stomach trouble
that was so soon to kill him.—New
York American.

Raisin Bread.

Incorporated with bread raisins constitute a valuable diet and help out
the meat problem. It is stated that
the raisin contains nearly 5 per cent
protein and over 65 per cent carbobydrates and therefore is a very important energizing food. For invalids
and children raisin bread is invaluable, says Life and Health. The simplielty of the loaf makes it an ideal
substitute for the lard, butter, sugar,
egg, cream and citron laden cake. It
is therefore an important addition to
the domestic menu, and the woman
who has her children's health at heart
will see that at each baking two of
three loaves are well filled with raidate cater to him in future. will see that at each baking two or three loaves are well filled with raisins, kneading them in just before the

lion, and the Lord shall deliver me from every evil work and will preserve me unto His heavenly kingdom' (II Tim, iv, 17, 18). Ezra was ashamed to ask for an escort of soldiers because it looked to him like a lack of trust in the Lord. It would do us all good to get ashamed of our "little faith." but we also need to get ashamed, as Ezra did, of conformity to this present age and its ways (ix, 6).

IT IS NOT TOO LATE

in the season to have your old or defective heating apparatus changed You wont have to shiver while the series being done. The fire can be lighted in the new plant the same day that it is put out in the old one.

kneading them in just before the star put into the pans.

KEPT TO THE POINT.

His outlay for the free smokes amounted to over \$25, but it paid in returns a thousand per cent. Practically every smoker in the building is

ings painted white. On more than one occasion Cummings made a mistake and got in the wrong house, his mind being occupied with news of the day and wondering if any of the opposition papers would get in a 'scoop' on him. He grew tired of getting in the wrong pew and determined that he would end it. One morning there was an advertisement in his paper for sand. I had a spenling prayer. After this subspending prayer. After this subspending prayer. After this subspending sentence:

"I am opposed to the election of Samuel J. Tilden."

Just then some one in the crowd called out, "Hurrah for James G. Blaine" and then a great ovation if greeted the Republican leader. At its close Mr. Blaine began again by remarking:

"As I said a few moments ago, I am opposed to the election of Samuel J. Tilden."

Just then a terrible grinding, crushing, earthquake-like sensation was felt on by all of us who were seated on the by all of us who was part to work on Cummings' they went to work on Cummings

Strange Timekeepers.

To ascertain the time at night the Apache Indians employed a gourd on which the stars of the heavens were marked. As the constellations rose in the sky the Indian referred to his gourd and found out the hour. By the spot and found out the hour over another, speakers, officers, German band and all, and for myself I felt as Korah, Dathan and Abiram probably felt when the earth opened and distance by the number of equids of betel nuts chewed. It will be remembered how, according to Washington Irving, the Dutch colonial assembly was invariably dismissed at the last purif of the third pipe of the acco of Governor Wouter Van Twiller.

A Montagnis Indian of Canada will set up a tall stick in the snow when traveling ahead of friends who are to follow. He marks with his foot the line of shadow cast, and by the change in the angle of the shadow the oncoming party can tell on arriving at the spot about how far ahead the leader is.

Opposed to the election of Samuel J. Tilden."

Just then a terrible grinding, crushing, crushing, crushing, earthquake-like sensation was felt by all of us who were tended on the platform, and the entire staging went down with a rush. We were tumbled one over another, speakers, officers, German band and all, and for myself I felt as Korah, Dathan and Abiram probably felt when the earth opened and swallowed them up alive in the pit.

Mr. Biaine and I happened to be wound round together, legs and arms in inextricable confusion, and as we were trying to worm ourselves out of the melec he said to me:

"Mr. Newton, isn't there an article in the Apostolic Creed about the resurrection from the dead?"

"There is, Mr. Biaine," I replied.

"Mr. Newton, isn't there an article in the Apostolic Creed about the resurrection from the dead?"

"There is, Mr. Biaine," I replied.

"Mr. Newton, isn't there an article in the Apostolic Creed about the resurrection from the dead?"

"There is, Mr. Biaine," I replied.

"And there is also an article about descending."

Martha Butterworth's Thanks

She Found Cause For Them on That Thanksgiving Day

By CLARISSA MACKIE

dy else in the world is alive as well I be. I don't consider that any

"You're sacrilegious, Martha," said Mrs. Loyd solemnly.
"I s'pose I be, I s'pose I be," said Martha drearily, and she stared from the window down at the frost nipped igwn of the old ladies' home.
Martha Butterworth hated the old ladies' home with a fervor that few of its immates understood. Most of them were simple midded old women.

who had invested a little nest egg of savings in the institution to receive dividends of a lifelong home and de-

martha Butterworth came into midst. Many of them had known as the side been quite a personage e county, for her husband, Darius erworth, had been known as the st farmer within a radius of twenter miles. But Darius had fallen etim to the gold mine fever and te one morning to find himself the sager of a big tim box full of hiess mining stock while gyen his had been mortgaged to its full of the parlor, where a great fire e horde of censorious relatives himmediately gathered at the groworth farm and clamored their reworth farm and clamored their ty-five miles. But Darius had fallen a victim to the gold mine fever and anyoke one morning to find himself the

which immediately gathered at the Butterworth farm and clamored their

ed little wife to close up all the affairs

hadn't been so hasty I might have gone on working. I would soon have had money enough to set out and look for Darius, not that I expect he's alive now," she hastily added. She arose and paced her half of the square room. "I hate this old place—I hate this home!" she said between her clenched teeth.

Mrs. Loyd, who was now standing in the doorway, heard her and drew her mouth in sudden dismay. "I'd be afraid to say that, Mrs. Butterworth. It's flying in the face of Providence to say such things. I've got a sister who is crazy to come here and stay, only she hasn't got \$500 to buy her way. If she was here with me we'd be perfectly happy, and you're growl-

Recurring Fancy That a Cat Was Clawing the Slumberer's Throat. Rapidity of the Dream Process.

is investigation, says H. Addington Bruce in the Outlook. Until then I had shared the opinion prevailing among laymen—and, it would seem.

among most scientists also—that dreams are entirely fanciful and meaningless. But my experience was such I could no longer believe this.

To state it briefly, it involved the recurrence of a most bizarre dream. At least twenty times during a period of six months I had the same dreammanely, that a cat was clawing at my throat. The stage setting and the minor incidents might vary, but always nor incidents might vary, but always are setting and the minor incidents might vary. nor incidents might vary but alway the central episode was the sam

"Oh, oh," cried Mrs. Loyd delightedly, "that is good of you, Martha Butterworth. If you don't change your mind Hannah will spend the best Thanksgiving she ever had!"
"I shan't change my mind," said Martha decidedly. "You can write and tell her she can have my haif of the room on Thanksgiving day. Don't cry about it, Mrs. Loyd—and, no, I don't want you to thank me. It's not because I'm kind hearted, for I'm not. I'm dreadful bitter. I do it gladly because I want to go away from here."
Those are the words that Martha Butterworth spoke, but even as she uttered them she felt a tremor of fear for the future. In leaving the detested home she was throwing away the last defense between her frail body and—the poorhouse, for it might be that in the end now.

On Thanksgiving day there was to be a feast in the long dining room downstairs, and the housekeeper, Mrs. Green, had prepared all the good old fashioned viands that go to make up the traditional Thanksgiving dinner. In the morning there was a delicious.

der in my throat—an attempt to inter pret it, to explain it. And, indeed even in the dream, for all its fantastieven in the dream, for all its fantastic imagery and symbolism, the seat of the trouble was indicated plainly enough as I could appreciate after the surgeon had completed his labors. An experience was reported by Al-fred Maury, one of the earliest scien-tific investigators of the phanomena of sleen, who dreamed that he was

of sleep, who dreamed that he was lving in Paris during the Terror and sting down before it played one thing after another until each old lady had had her favorite piece played or her favorite song sung. At last Martha's fingers strayed into a melody that she fingers strayed into a melody that she and not dared remember for ten years. It was her husband, Darius', favorite song and one she had played for him times without number. Now her votce was somewhat broken, but it was still penetratingly sweet, and it pierced through the walls of the home, and a man passing dejectedly along the side wilk heard it, stopped short and its tened, and when the sound of the plano died away he mounted the stops of the home and rang the bell.

Mrs. Green, the matron, came into the parlor again and looked strangely, doubtfully, at Martha Butterworth, who was still at the plano.

"Somebody wants to see you, Mrs. Butterswett," she and measured was a when, in my dreams, I was awke by the noise of semebody running. the twofold action of the dream process and to its rapidity is a dream experience of my own. In this dream I was walking alone at night along a country road. It was lined on both sides by trees which, as I learned from a man who presently joined me, were laden with fruit. I picked some pears and ate them as we walked and talked. The road seemed to overlook a broad valley in which I saw a solia broad valley in which I saw a soli-tary light. My companion told me that It was in bis nome and invited me to pass the night with him. After a tir-fing walk we reached the house, a small two room cabin. He retired into the inner room and I went to bed in the outer. I had not been long asleen, when, in my dreams, I was a wakened by the noise of semehody maning, and

Stated a Fact.

A clergyman highly esteemed for his many excellent qualities, of which oratory is not one, has recently had placed in his church by his loving congregation a new pulpit. It is a fine plece of work, ornate with carving and artistic embellishment. But the text insertbed on it considering the effect of the good embellishment. But the text inscribed on it, considering the effect of the good rector's sermons, might have been more happily chozen. "He giveth his beloved sleep," it runs.

"No," responded the old man, looking the youth over carefully—"no; I'll let you live. But I'll put you to work and it rain some of that fat off you."—
Toledo Blade.

"No," responded the old man, looking the youth over carefully—"no; I'll she—'Time will heal the wound I've and it now in the wound I've an ed sleep," it runs.

NOISE OF THUNDER.

It has usually been thought that the loise of thunder is caused by the closing up of the vacuum created by the soise of thunder is caused by the clos-ing up of the vacuum created by the passage of the lightning, the air rush-ing in from all sides with a clap. But the intensity of the noise is rather dis-proportionate, and it is now supposed thunder is due to the intense heating of gases, especially the gas of water tapor along the line of electric dis-

charge and the consequent conver-

of suspended moisture into steam at conormous pressure.

In this way, the crackle with which a peal of thunder sometimes begins might be regarded as the sound of steam explosion on a small scale caused by discharges before the main finsh. The rumble would be the over-lapping steam explosions, and the final clan which sounds leader would be clap, which sounds loudest, would be the steam explosion nearest to the

auditor.

In the case of rumbling thunder the lightning is passing from cloud to cloud. When the flash passes from the earth to the clouds the clap is loudest at the beginning. Trowbridge by causing electric flashes to pass from point to point through terminals clothed in soaked cotton wool, and he succeeded in magnifying the crack of the electric spark to a terrifying ex-tent.—Exchange.

A phalanx in the military affairs of Greece was a square battailon or body of soldiers formed in ranks and files compact and deep, with their shields joined and pikes crossing each other so as to render it almost impossible to break it. At first the phalanx consisted of 4.000 men, but this number was afterward doubled by Philip of Macedon, and the double phalanx is here often. and the double phalanx is hence often called the Macedonian phalanx. Polybus describes it thus:

ins describes it thus:
"It was a square of pikemen, consisting of 16 in flank and 500 in front. The soldiers stood so close together that the pikes of the fifth rank extended three feet beyond the front. The rest, whose pikes were not serviceable owing to their distance from the front, conclud them upon the shoulders of se who stood before them and, so locking them together in file, pressed forward to support and push on the forward to support and push on the former rank, by which means the assault was rendered more violent and irresistible." The spears of those behind also stopped the missibes of the enemy. Each man's pike was twenty-three foot long. The word phalanx is also used for any combination of people distinguished for solidity and firmers. A grand phalanx consisted of A grand phalanx consisted of

that a piece of the cornice of his bed had fallen and struck him on the neck. Testifying even more impressively to the twofold action of the dream process and to its rapidity is a dream experience of my own. In this dream I was walking alone at night along a country road. It was lined on both sides by trees which as I learned from a man who presently joined me, were laden with fruit. I picked some pears and ate them as we walked and talked. The road seemed to overlook a broad valley in which I saw a soli-

Some Famous Dunces.
Literary history is crowded with instances of torpid and uninteresting boyhood. Gibbon was pronounced "dreadfully dult," and the utmost that was predicted of Hume in his youth was that "he might possibly become a steady merchant." Adam Clarke, afterward as deeply skilled in oriental language.

The Modern Way.

The prodigal had returned.

"Father," he said, "are you going to kill the fatted caif?"

"No," responded the old man, looking the youth over carefully—"no: I'll let you live. But I'll put you to work and train some of that fat off you."

NAPOLEON'S FALL.

The Modern Attila Crushed by His Streak of Insanity.

VICTIM OF MEGALOMANIA.

nvious of Alexander the Great, He Aimed to Rule the Whole World, and France Sacrificed a Million Men on the Altar of His Monomania.

Were readers of history asked today what three human characters have ably be great diversity of opinion as the third the ger has made a study of the modern At-tila, as he was called by his contem-poraries, presents in his London maga-zine an article entitled "The Insanity of Napoleon's Genius," in which he mania, that form of mental alienation

mania, that form of mental allenation in which the patient is possessed of gradiose hallucinations.

Mr. O'Connor discards the idea that Napoleon because of his gigantic power for work had a perfect physique and invulnerable health. He suffered as a child from extreme nervousness, later from facial neuralgia. He had a nervous tytiching at the mouth and nervous twitching at the mouth and the right shoulder. After Toulon he the right shoulder. After Toulon he long suffered from a painful and wasting cutaneous disease, and at times he had fits of an epileptic character. As he was about to leave Strassburg in 1805 on the way to the mighty victory over General Mack at Ulm he had one of these spasses. After dinner on the day he was leaving ways Talleyrand found him gasping for breath. "I tore off his cravat, for he seemed like tore off his cravat, for he seemed like to choke. He did not vomit, but sighed and foamed. M. de Remusat, first gentleman in waiting, who had also come into the room, handed him water, and 1 sprinkled him with eau de cologue. He was suffering from some sort of cramp, which passed off in a quarter of an hour. We laid him in

living in Paris during the Terror and had been put on the prescribed list. After many exciting adventures he was captured, tried and sentenced to execution. He saw himself dragged through the streets amid a clamoring multitude and forced to mount the scaffold and bare his neck to the fatal blow. In that instant as the guillouties, of noble lineage. Unlike the Maid of Orleans, the most illustrious blow flowed the work of the was blow. In that instant as the guillouties, of noble lineage. Unlike the Maid of Orleans, the most illustrious blow flowed the work of the was blow for the knife descended he awoke to find that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed that a piece of the corrule of his bed the substitution of the head an inner melancholy that never left him. While he talked of death, Napoleon never head any serious intention of taking his sown life. He never lost his grasp of life. While a man of dreams, he was ever heard against her moral characteristics. The never left him. While he talked of death, Napoleon never head and serious intention of taking his sown life. The Republicans of this city are to hold caucuses this evening, Nov. 24, to nominate candidates for Mayor, Aldermen, one member of the Board of Public Works etc., and the working members of the party say the prospect for a large attendance on them was never better. This is as it should be, for the coming city election is to be of more than ordinary importance.

Several prominent gentlemen have been suggested for the office of Mayor, a few of whom do not deserve serious consideration at the caucuses, not but what they are good men and would make excellent Mayors, but they would fail to command a full vote of the stone and stone of the great N. E. Feast Day.

Saved Child From Death,

"After our child had suffered with section of the besting work at once. Why not get it today? All druggists or mailed by Elv Bros., 56 Warren Street, New York on receipt of 50 cents.

A Burglar's Awful Deed may not paralyze a home so completely as a mothers long illness. But Dr. King's New Lite Pilis are a spleadid remedy for women. They gave me wonderful benefit in coastipation and female trouble. Worder word with the street of the spleaded to say that one outled the same and gracefulness of manner placed any covery, and are pleased to say that one outled its again strong and healthy." For coughs, coids, hoarseness, la grippe, and familiar footing, and he had a genial manner which resonance with the same coup, and sore lungs, its the most infallible remedy that's made the trouble, wrote Mrs. M. C. Duniap, of Leadill. Tenn. If alling, try them. 260 at Ali Druggists.

MPROVEMENTS are the order of the day. Every class of business demands the highest efficiency of service. Even in our pleasures we demand up-to-date methods and efficiency in comfort-giving ways of gaining enjoyment.

THE Horse has been our family pet; laws have been made and societies organized to protect his welfare, give him long life and develop his efficiency; but, as much as we have loved and idolized the Horse-as much as we have overworked and abused him-as much as we have worried over his ailments and incapacities—we now turn to more modern ways.

THE Electric Vehicle is this modern way. It is the best and most efficient for business; it is the neatest, quietest and pleasantest form of pleasure riding.

DEEP SEA FISH. If They Come Too Near the Surface

They Will Explode.

Ordinarily one would think that a fish in the sea could go where it wished in the water-that is, that it could Let it stray too high, however, and on the pressure lessening the fish gets larger and consequently lighter per unit volume and in consequence is pre-pelled upward at an enormously in creasing rate by the buoyancy of the water until at last it has to be ex-pelled from the surface of the sea with great force. In the meantime the fish has suffered an internal ex-plosion, as it were, and its eyes have

the fish has suffered an internal explosion as it were, and its eyes have popped out of its head, and its insides have expanded and made holes in the body. This is why there are no perfect specimens of deep sea fish in any museum. The difficulty could be partly overcome by hauling the fish up gradually, but a heavy weight would have to be attached to the line to overcome the buoyancy of the fish. On the other hand, take a shallow water fish. It dares not stray too far down, for the increasing pressure would tend to make it heavier if it was at all compressible, but as it is

head.

For all these reasons there are well defined strata of water in which certain fish are found and no others. This is one method of determining the depth of a former sea where fossils of fish are found on the land. The depth of the sea of that place can be told. within certain limits by the fossils.

WOBURN NATIONAL BANK

Savings Department.

The beginning of successful operation of UNITED STATES POSTAL SAVINGS BANKS, and the possibility of legislation, by Congress, looking to the establishment of NATIONAL SAVINGS BANKS, as outlined by Senator Aldrich, in his tentative plan for a new banking law, seems to indicate a popular demand for places of savings under the control and supervision of the UNITED STATES GOVERNMENT.

To meet this legitimate demand and to extend increased banking facilities to the people of Woburn and vicinity, the WOBURN NATIONAL BANK has opened a new department to be known as its SAVINGS DEPARTMENT, and will receive deposits of money to bear interest FROM DATE OFDEPOSIT at the rate of three per centum per annum on sums not less than \$100. These deposits however will not be subject to check.

All deposits in this bank are GUARANTEED by its capital

stock of \$100,000, its surplus and undivided profits December 31, 1910, of \$68,860.34, and by the personal liability of its responsible stockholders to the extent of an additional \$100,000.

These directors give its affairs their personal attention:

Daniel R. Beggs of Beggs & Cobb, leather manufacturers. William E. Blodgett, Treasurer of R.Guastavino Co. John C. Buck, Cashier.

Robert Chalmers, Physician. Everett P. Fox of W. P. Fox & Sons, leather manufacturers. John W. Johnson, President. Edward F. Johnson, Judge of District Court.

John G. Maguire, Lawyer. L. Waldo Thompson, Woburn Hardware Co.

A Story of Hypnotism

By ETHEL B. HAYNES

Estella Brooks looked wistfully at I hardly think you will want it after I have told you about the shadow." As she uttered the last word all the color forsook her cheeks, and she looked

I'll take it even if the shadow is a ghost," assured Mr. Baker warmly.
"It isn't an ordinary ghost," protest-ed Estella. "In fact, it isn't a ghost anyway. I tell myself I can't believe in them and be a member of the church at the same time, but it's very queer that the shadow should be there, turn the same."

queer that the shadow should be there, just the same."
"Show it to me, please," requested Mr. Brooks, and in silence Estella led the way down the front steps to the gate that opened into the highroad. Here she paused and turned, facing the long farmhouse, with its low pitched roof and many gabled windows.
"Look there," she said simply, pointing up at the roof of the house. "The sun is behind the clouds, yet what is there to cast a shadow like that on the roof?"

stained shingles with a critical eye. He glanced up at the sky, a mass of

you will accept my offer."

"I'll tell you about the shadow first," said Estella, leading the way back to the deep shaded veranda. "After that, if you want to conclude the bargain, I am quite ready. My father was a very stern man, cold by nature, but possessing a powerful magnetism that bound his family to him by cords of fear as well as love. My mother died while I was a little girl, and my sister and I were brought up under died while I was a little girl, and my sister and I were brought up under my father's strict rule. As Barbara, my sister, grew older she seemed to develop the same magnetism, and so it was that her will and my father's often clashed over little matters and at last over larger affairs.
"About ten years ago Barbara was twenty and I was twenty-five. My sister met and fell in love with a young, man who wrote poems for a

young man who wrote poems for living. He was spending the summe in Riverdale, and he wrote verses in Riverdale, and he wrote verses about Barbara's beautiful eyes and her lovely hair, and of course he was in love with her. My father discov-ered the verses and forbade him the house, arraigning him in the most stinging terms, accusing him of seek-ing to marry Barbara for the little patrimony that would one day be hers. patrimony that would one day be hers calling him a beggarly scribbler and caning min a beggariy scribber and saying other terrible things, although he really was a most manly fellow, and I liked him exceedingly. As for my sister, poor Barbara was deeply in love with him from the beginning, and when my father sent her lover away, tossing the desnisad verses after him. tossing the despised verses after him, Barbara defied father to his face and declared she would marry Allen in

spite of everything.
"That night she bade me farewell "That night she bade me farewell and went away with Allen Searle and was married by her own minister here in Riverdale. In the morning when my father discovered her flight and read the letter she had left for his perusal he led me out to the gate yonder and, pointing to the roof of the house, he said solemnly:

"Estella, there is a shadow on our house. Do you see that grim black house, he said so that had we have the said solemnly:

house. Do you see that grim, black shadow of disgrace staining its pure roof? Look long at it. Your sister's defiance of me and her elopement with a penniless stranger has broken my heart. Mark well the shadow on our roof, for it will never pass away—not in your lifetime or mine!

your lifetime or mine!'
'I looked, and, Mr. Baker, I saw the shadow, grim and black and shapeess, lying there where no shadow had rested before. The day was ever rested before. The day was cloudy and forbidding, even as it is now, and yet the shadow lay there, and it has always lain there since that day when my sister went away. Nearly every day my father would take me out to the gate and show me the shadow and repeat his denuncia-tion of Barbara. He died five years ago, and I have been left alone with the shadow on the roof, for beyond a letter now and then I have rarely heard from Barbara."

and if you change your mind about selling it I'll let you off. I shall re-turn tomorrow, and, with your per-mission. I will bring a friend with

The next day he came down from the city in a large touring car that con-tained several veiled and goggled pas-sengers in the tonneau. Mr. Baker came down the path, accompanied by a short, stout man with protuberan blue eyes behind thick lensed specta-cles. Estella met tnem at the front steps.

stained shingles with a critical eye, He glanced up at the sky, a mass of gray leaden clouds; he looked at Estella standing beside him with every muscle tensed, her wide brown eyes staring at the roof.

"I can't see anything, Miss Brooks." he said gently.

Estella turned a disappointed face to his. "I was afraid you couldn't see anything. But it's there, right between the two chimneys, a great black shadow as plain as can be on the roof. I suppose it's only for the family to see and remember!"

"Tell me about it if you care to, Miss Brooks. But I assure you that it won't make any difference in my decision. I'll take Wistaria farm if you will accept my offer."

"I'll tell you about it the shadow of the shadow because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never been there. You will never see it again. There never him to because it has never beauty and the vill never see it again. There never him to because it has never beauty and t

living by it, he simply ean't do it. I hope you won't be shocked, but he and Tom are in the most romantic sort of business imaginable."
"What is that?" inquired Estella eagerly, for she discovered a growing interest in big Tom Baker.
"Wholesale paint and varnish—there! Not much poetry in that, is there?"
At that moment Dr. Gannay was

Not much poetry in that, is there?"
At that moment Dr. Ganung was shaking his head vigorously at his two companions. "Not a doubt of it, my dear sirs. Miss Brooks' father was a hypnotist. She has seen the shadow merely through his powerful suggestion that it was there. It is a dangerous gift, especially if it is badly used."
Alien Searle nodded gravely and then smiled as Tom Baker said, with a proprietory gesture toward the un-

a proprietory gesture toward the un-conscious Estella, "I'll watch her care fully, you can depend upon me. doctor." And then he had the grace to blush, for he caught the glance of understanding in their eyes.

THE WORD PARADISE.

Its Earliest Meaning Was an Inclosed Pleasure Ground.

Pleasure Ground.

The earliest meaning of the word paradise appears to have been a walled in pleasure ground. In the Hebrew it was "perdes," in the Persian "ferdus," and from one or other of these the Greeks appear to have derived the ward "mardeleses" from which we real word "paradeisos," from which we get our own word. We also know that the ancient monarchs of Chaldea and As ancient monarchs of Chaldea and As and has syria and also of Egypt constructed vast inclosures of forest land for the preservation of wild animals kept for hunting purposes, and these were also called paradises. Thus the historical meaning of the word comes to this: A voice:

that you have honored me with you confidence, will you teil me whether you would change your mind about selling the farm if the shadow were removed?" He bent forward and canned her face with eager eyes.

"If there was no shadow there—and if Barbara could come back sometimes—if we could be reconciled—I would be the happiest woman in the world, Mr. Baker!" she cried, with the safe yes.

"Wistaria farm has always been my home—always applied to the garden of Eden is probwould be if it were not for the ably of Hebrew origin, dating from ably of Hebrew origin, dating from

tears in her eyes. "Wistaria farm has always been my home-always would be if it were not for the shadow. Besides, you see my father disinherited Barbara, and I want to give her her rightful share of his estate. If it is turned into money I can accomplish it better."

"I see—I see," muttered Mr. Baker thoughtfully, "I believe I'll take that \$2.30 back to town, but first I'll pay something down to bind the bargain, and if you change your mind about.

The Old Man Was Williag.

The Old Man Was Willing.

He—I told your father I could not like without you. She—And what did he say? He—Oh, he offered to pay my funeral expenses.—Boston Transcript.

A FOREST RANGER HERO.

Tragic Incident of the Forest Fires o

Overton W. Price, vice president of the National Conservation association, in his book "The Land We Live In" tells this story of a heroic forest

cles. Estella met them at the front steps.

"Won't the lady come in?" she inquired as she led the way into the darkened parlor and threw open the blinds.
"Not now, thank you, Miss Brooks. Allow me to present my friend Dr. Ganung. Would you object to telling the doctor the story of the shadow on your roof? He is an expert at expelling shadows of that sort."

The summer of 1910 by reason of great drought and unusually high winds was the worst for forest fires that the west has ever known. In Montana, Idaho and Oregon the danger: "On the Coeur d'Alene national forger was greatest.
"On the Coeur d'Alene national forger was greatest, and so hesitatiag!" Estella related the story of her sister's gight and how her father had shown her the shadow on the roof.
Dr. Ganung listened intently, never once removing his bright eyes from Estella's mild brown orbs. When she and concluded he stook brussuely.

Dinner Was Costly.

Hewitt—When I took her out to dinner she said that she hadn't any more appetite than a canary bird. Jewett—Didn't cost you much, then? Hewitt—You haven't any idea what a difference there is in birds.—New York Press.

The Immensity of Nature.

They were on a trip in Switzerland and had that day braved all dangers and had that day braved all dangers and ascended one of the highest points in the Alps. He was very fat, and as he stood panting and mopping his brow at the top of the mountain he turned to his wife and said, with pathos in the Alps. It would have been cheaper if you had kept the law.—London Mail.

Interesting Spots.

"I suppose," says the lady you're.

"I see." said that gentleman, with an air of sudden enlightenment. Now, before I go back to town this afternoon and before I pay the money to bind the bargain I would like to asky ou a question, Miss Brooks, Now that you have honored me with your confidence, will you ted me whether you would chance whether the latter sense meaning the place of the elect or chosen. This strikingly borne out by the fact that "See, dear, how small one is in the

tonight," said the prima donna as she dounced into the manager's office. "But my dear Miss Rivington," he protested, "we have nobody to take

Larger Coming. esult of the day)-It's a foine fish for the size av ut. Them'il run about three to the pound. Angler-Hardly that, I should say. Boatman-Well, maybe the other two'd be a bit bigger. -London Punch.

Example.

If you want your child to love the truth love it yourself; if you want your child to love justice and purity and simplicity and honesty and courage love them yourself.

"Mirth is God's medicine," said Dr.

The most savage and bloodthirsty fish in all the waters of the earth are the perai, declares Charles Livingston Bull in "Under the Roof of the Jun-

gle." They are from twelve to four powerfully built. They have been known to attack an alligator, discover a rent in the skin of the great reptile and tear and devour him until nothing but his bones and rough skin was left.

The peral are silvery green in colo

aid that He will not rest till these percilious fop. He had a Roman tragedy to sell to Wilson Barrett. That

less we take no rest and give Him no rest until He make Jerusalem a praise in the earth (Isa. Ixii, 1-7). Some one may say, "I am more interested in our own Zion," meaning his own church or denomination, not understanding the purpose of the Lord in this age to gather out from all nations an elect church, that so the marriage of the Lamb may take place and He may return with His bride to bless Israel and through her all nations in all the earth.

Reproach is brought upon the Lord today by His people who are more interested in their own affairs than in His. When Nehemiah heard of the great affliction and reproach resting upon Jerusalem he gave himself to fasting and prayer, as did Daniel (Dan. x. 2, 3).

Nehemiah might truly be said to be a man of prayer, of confidence in God and separation unto Him (chapters i.5-11; ii. 4, 5, 18-20; iv. 14, 20). He was also a man of patience, for it seems to have been many months after he began to fast and pray before the opportune time came to sheak to the King. He

days he kept the matter to himself and told no one why he had come (ii, 11-16). When he did tell them why he had come and said, "Let us build up the wall of Jerusalem that we be no more a reproach," and also told them of the hand of God upon him and of the king's favor they were ready to join him and said. "Let us rise up and build" (ii. 17. 18). Their enemies laughed and scoffed and despised, but Nehemini's grand reply was. "The God of heaven. He will prosper us" (ii. 10, 19, 20).

the Mikado's Land.

position of literary men in Jadiffers in many especial respecta
i that which is accorded writers
rouninence in the western world.
Event Faul S. Reinsch in the North
rican Review. The individuality
iterary fame and literary personin its various aspects have not
developed in the orient to nearly
same extent as in the west. The time extent as in the west. The books to which men return again

rest books to which men return again and again for guidance and inspiration have been written thousands of years, and those men who earned fame therefiter won their laurels by writing compeniaries upon the classics. No merit attached to originality. Moreover, most writings were anonymous. Especially if they were original was it advisable that the author should not make his personality too prominent. While learning was always respected, authorship never had the position in Japan and other oriental countries that it has enjoyed in the west from the Greeks down to the present. The Japanese mind will excel in the future in many directions, but the greatest development may be expected in those activities for which racial and social experience has best prepared the intellect. A strong but selective realism in literature, delicate word painting, the successful search for mastery over the forces of nature, a grasp of social and political relationships—these are among the things we again for guidance and inspiration

h son—the most important of their plays.

The little building had, of course, a gallery, and in the gallery the "gods" became so obstreperous on occasions that it was with great difficulty the play could be proceeded with. The ringleader, a well known rough of the town, was a man named Bill Hanrahan. One night a happy inspiration seized Sothern. Having learned the name of this prominent member of the rowdy element, he addressed him in the midst of the most uncarthly noises as follows: "Mr. Hanrahan, will you

be good enough to take charge of the gallery and keep order for me? I shall feel very grateful."

The result was magical. Bill be-came at once an official of the theater and as such cracked the heads of a few of his crstwhile fellow rioters with such good effect that it was only with such good effect that it was only little time before the best of orde

prevailed. A Matter of Business There is a reason for everything even a train news agent's reluctance to pass through the cars with his packet of newspapers first. A woman who had traveled fifty miles out of New York before she had a chance to buy the afternoon paper she had negeted to provide herself with said to the boy who finally appeared with papers:

pers:
"Why do you always come through first with books and then magazines and leave the newspapers until the

"Why?" exclaimed the astonished boy. "Because it's business. If I came through first with papers everybody would buy a paper and read that all through the trip and leave me with all these dollar books and twenty-five cent magazines on my hands."—New York Press.

ly dislikes to do something one ought one may conquer the disinclination by resolutely saying over words expressing the necessity of doing the thing at once and with pleasure. The person who is afraid to go upstairs in the dark may, it is said, overcome this fear by saying, "I am not afraid; darkness is friendly; nothing can burt me." The underlying idea is that the mind is the real ruler of the body and that by allowing the mind to take command demanded of his attendants what that monster was standing there on three legs. Explanations followed, but were in vain. The legs had to be taken out and the body of the instrument laid flat on the floor, and Leopold de Meyer, squatting cross legged on a mat, went through his program as best he could in that awkward attitude and without pedals. But the commander of the faithful was delighted, and when the last piece was played gave the artist over \$5,000 as backsheesh.

A Christmas Morning

On Which a Bride Gives Her

ss remains true." "And why not?" asked the young

wife, with surprise written on every

line of her face.
"Let me tell you." He took both her hands in his and drew her down on to a seat beside him. "I have something to impart that I have kept to myself for years. You know Shuster?"

"I told you before we were married that I had barely enough income from my own profession to procure for us the necessaries of life, with not a cent for pleasures. The celebration of tonished, half reproachful glance. Christmas comes under the latter which melted into a smile under the

'But,' I said, 'you only lend money "But," I said, 'you only lend money on security, and I have no security."

"I want no better security than the word of an honorable man,' he replied, 'I know when it is safe to lend money and when to refuse to lend.'

"But you will require a high rate of interest.

"Not in this case. Six per cent will do.'

I needed it and declined to take any notes for the amounts loaned. I bor-rowed a little over three hundred a

an elaborate breakfast for Unristma morning, inviting every one of her own and her husband's families to join

not only irksome, but at times unpleas-ant. Tom knew what he had asked of ant. Tom knew what he had asked of his wife in suggesting that she give up entering upon the pleasures of Christ-mas in order to puy, as he expressed it, "for a dead horse." He told her when he went to his office the day he when he went to his office the day before the holiday that he would be
obliged to spend the evening there
working over the papers of a case that
had been referred to him to put in order to be used at an approaching trial.
His purpose was to furnish an excuse
for spending Christmas eve, which
they could not afford to make a joyous
occasion, away from home. He exoccasion, away from home. He ex pected that she would demur at this pected that she would demur at this, but she made no objection whatever. Indeed, since she was intending to celebrate Christmas morning with con-siderable profusion and fearing that he would notice some indication of the coming event, she was glad to have him away from the house.

Tom came home late Christmas eve heaving a sigh as he turned his latch

Husband a Present

By Martin Stringfellow

Copyright by American Press Association, 1911.

Tam sorry, Ella, that we are not able to celebrate this our first Christmas together," said Tom Wentworth to his bride, "but the fact nevertheto his bride, "but the fact neverthe-less ramains true" put too great a strain on one another To deny a woman or a child all partic ipation in celebrating Christmas is as-signing a task without giving adequate "And why not?" asked the young wife, with surprise written on every ine of her face.

"Let me tell you." He took both her hands in his and drew her down on to a seat beside him. "I have something o impart that I have kept to myself for years. You know Shuster?"

"Yes, I know the old curmudgeon."
"Well, I am indebted to him to the amount of \$1,000."
"Why, Tom! And you never tool me!"
"I told you before we were married that I had barely enough income from my own profession to procure for us

Tom looked at Ella with a half as-

tonished, half reproachful glance. Christmas comes under the latter head. You remember that when I finished my four years at college my father failed and I had not the where withal to attain my profession. Then suddenly I told you that I had obtained the means, but was pledged to tell no one whence I received it."

"Yes; I remember that."

"One day while I was lamenting my hard fate in being obliged to go into business after expecting to become a lawyer I met old Shuster on the street. Shuster, as you know, lends money at a high rate of interest. He asked me what I proposed to do now that I had been graduated. I was full of my disappointment and told him about it. To my surprise, he offered to lend me the money required to study for my profession.

"One the variety of the variety lend money of the control of the control

erence during the meal to Ella's viola-tion of her agreement as to celebrat-ing Christmas. But Tom did not act disagreeably about it, after the first few moments entering into the spirit of Christmas with a hearty good will of Christmas with a hearty good will. Ella was unusually merry, showing no trace of fear at a scoiding after the celebration was over. When breakfast was finished it was agreed that the presents should be handed to the bride's father, who would read aloud the names of the donor and receiver written on them and hand them to the latter to be opened.

And so the process began, the minor articles being first distributed. Even though the gifts are trifling there is something delightful in the expectation attending these Christmas distributions. A name was read and the

something delightful in the expectation attending these Christmas distinction attending these Christmas distributions. A name was read and the tributions of \$500 each, one note to be paid each year. Now, you know that my salary with Busby and Busby is \$1,500 a year. Of this amount \$500 must go to Shuster, leaving us \$1,000 on which to live; consequently for two years we have absolutely nothing for pleasures."

pleasures."

While the husband was speaking the wife drew closer and closer to him and when he had finished looked up into his face and said:

"I will help you all I can in the matter of giving up pleasures till the debt is paid."

"I knew you would, sweetheart. You see, I shall not only wish to show myself worthy of Shuster's confidence"

"His confidence:"

"Yes. Did he not prove it in lending me the money on my bare promise to repay him?"

"Oh, certainly—yes. I suppose so."

sonorous voice.

Tom, seeing a little package no heavier than an ordinary letter, felt relieved, thinking that Ella had kept her word at least in this one item, giving him some trifle—a bookmark, perhaps—that she had made with her needle. The package was handed to him amid silence, all eyes turned upon him to discover what her gift would be. He broke the string and took out two bits of rectangular paper. It gradually dawned upon him that they were the two notes for \$500 each he had made to Shuster. On their face was stamped in large red letters the word

ing me the money on my bare promise to repay him?"

"Oh, certainly—yes. I suppose so,"

"Well, then, it is understood that we give no presents on Christmas. We can tell every one beforehand that we intend to make nothing of Christmas this year, and next year we'll tell them the same."

"No, we won't."

"But dear. I shall have another note"—

"Never mind next year. I will agree to all you suggest for this one except one thing. There shall be one gift between us, and only one. That will be from me to you."

"Well, then, it is understood that we give no the locked up at Ella, whose eyes were dancing with delight. For a few moments he did not seem to understand the matter or at least did not know what to do. Then he arose from his seat and, going to her, took her in his arms amid a united shout of "Merry Christmas." from the others, who by this time had gained an inkling of the meaning of the bride's gift.

Calls for an explanation coming from all sides, it was given by the bride's father:

"Well, then, it is understood that we give no presents to word "Canceled."

Tom looked up at Ella, whose eyes were dancing with delight. For a few moments he did not seem to understand the matter or at least did not know what to do. Then he arose from his arms amid a united shout of "Merry Christmas." from the others, who by this time had gained an inkling of the meaning of the bride's gift.

CHANGING THE SEASONS.

In China It Is Summer When the Emperor Says It Is,
The emperor of China has some strange duties. One of these is the them on the occasion.

Tom saw Christmas approach with something of displeasure—that is, the Christmas of his own household. Holl-days we do not celebrate ourselves are constructed. earth and not until then, but in China it is summer when the emperor says hey may not suit the individual at all. The nearest approach to the Chinese system of ordering the seasons is the practice observed in France in all pubpractice observed in France in all public buildings. There it is winter on and after Oct. 1. Fires are then lighted in all government offices, and the employees exchange their white summer waisteoats for the thicker and darker ones of winter. At that date the public libraries are closed at 4, and in the streets the sellers of toasted chestnuts make their appearance. In official France it is winter, no matter what the weather may say and no matter what two what unofficial France may matter what unofficial France may think.—New York Press.

PAPER MADE BY WASPS.

The Way the Insects Gather Material and Form the Product. Wasps are wonderful papermakers. They make real paper, too, just as truly as human papermakers.

A wasp flies to a flower and covers the front of its body with the dust of the front of its body with the dust of the blossom. This is moistened and mixed with the wax which is secreted on the surface of the wasp's body Then the insect repairs to an old fence or other piece of weather worn wood that has a loose, fuzzy, fibrous surface. The wasp rubs itself on this fibrous matter just as it did on the dust of the flower, and a layer of such matter adheres to the insect's body and bemes mingled with wax in the same

way.

Then away goes the wasp to the nest which it is building, places itself just on the spot where it wants the layer of paper to lle and then works itself into a heat by a furious motion of the wings, so that the wax is moistened next to the body, when the paper drops off in the right place, where it may be adjusted properly and fasit may be adjusted properly and fas

The paper of the wasp is as much paper as the product of the paper mill.

—Harper's Weekly.

In a recent discussion before the British Royal society of the phenomea scientist known for his researches When looking at the bright spectrum of sunlight this scientist sees only three colors—red, green and violet. For him there is no definite color in the part of the spectrum that appears to persons with normal vision pure blue. He can distinguish nothing of the nature of pure yellow in the spec-trum. Reddish green would describe the orange and yellow parts and the orange and yellow parts and greenish violet the blue parts as he

editor with a lugubrious face and his

editor with a lugubrious face and his resignation.
"Why, you are doing all right," said the editor. "What's the trouble?"
"Well, you see, sir," replied the staff humorist, "it's this way. I got married a few weeks ago, and now if I print a Joke about wives my wife thinks I mean her, and if I mention a mother-light where mother comes around thinks I menn her, and if I mention a mother-in-law her mother comes around and raises the roof. Then, too, one of my wife's brothers is a plumber, another an iceman, and the third is a coal dealer. More than that, she had a half brother who is a book agent, and they are all big, husky fellows with ugly tempers. If you don't mind I'd like to retire from the humorous department and take a position as obituary editor."—Boston Transcript.

FALSE EYEBROWS.

The Process of Stitching the Haire Into the Skin.

At a certain factory a number of young women were working at small tables, each table covered with little instruments and odd things which only those who knew the business could possibly understand. At one table two girls were threading needles with fine silky hairs and sewing them in little squares on a thin transparent gauze.

ed eyebrows you may sometimes see on the stage. They are frequently worn by both actors and actresses. These sewed on the net are the less sees seved on the net are the less expensive kind and are only used on special occasions. The real brow is very expensive and can only be made by a person of great skill.

"The patient sits here in his chair, which very much resembles a dentity of the cash less than the contraction of the cash less than the cash les

tist's operating throne. In this cushtist's operating throne. In this cushion to my left are stuck a score or so of those needles you saw being threaded. Each stitch leaving only two strands of hair, to facilitate the operation a number of needles must be at hand. As each thread of hair is drawn through the skin over the eye it is cut, so that when the first stage. is cut, so that when the first stage of the operation is over it leaves the hairs bristling out an inch or so, pre-senting a ragged, porcupine appear, ance. Now comes the artistic work. The brow must be arched and cut down with the utmost delicacy, and a number of hours is required to do it. "Small as the cycbrows are, they are very important in the makeup of the

face. You have no idea how odd one looks when utterly denuded of hair over the eyes. The process I have described is painful, but it makes good eyebrows and adds 100 per cent to the looks of the person who was without them. It is, too, much better than the blackening and cosmetics so many people use, especially people who have mere pretense of brows, comprising only a few hairs."—London Tit-Bits.

HOLLAND'S "LONG JOHN."

A Church Tower Capped With a Cli-

A Church Tower Capped With a Climax of Forty-one Bells.

The 280 foot tower of the Nieue Kerk in Middleburg, "Long John," or "Lang Jan" if the sobriquet be translated into Dutch, is practically the Washington monument of Walcheren. It is capped with a climax of forty-one bells that chime a quaint fragment of some familiar popular melody big than itself durting toward it it is capped with a climax of fortyone bells that chime a quaint fragment of some familiar popular melody every seven and one-half minutes. On the hour "Long John" literally vibrates from foundation to weather vane in a frenzied endeavor to pour forth in toto the accumulation of more less music administered in small is body and wines are covered with

From "Long John" one can see plainly the towns on the north and west coasts of Walcheren, and often even coasts of Walcheren, and often even the spires of Antwerp are visible, while directly below a mass of red roofs, punctured here and there with patches of trees, stretches Middleburs. To the left is the market place, bounded on the north by the handsome townall, begun in the sixteenth century, the embellishment of whose facade by twenty-five ancient statues of the counts and countesses of Holland, helps it to hold its place as one of the finest and most interesting late Gothic first parts of the counts and countesses of Holland, helps it to hold its place as one of the finest and most interesting late Gothic

and shopping list in one hand, the fail of his skirt in the other, his umbrella under one arm, meanwhile making an effort to keep his head clear for business problems and at the same time keeping a wary eye out for motors. He couldn't do it! There really is no doubt that man owes his superiority to women entirely to his pockets.

Misleading.

A man once ran for office, and after a very close election the returns showed that he had been elected by a few votes. A friend with whom he had been discussing the matter asked:

"What makes you think that all the ballots weren't counted?"

"You see," replied the successful candidate, "I'm judging from the number of fellows who've come around asking for a job on the ground that they voter and the verses "Who I is All sorts of devices the drinking song in "Antony" and thou to a wood them. One man made a most claborate and complicated series of traps, laying cords about the procaches to the bail traps and job procaches to the bail traps and the work of the master in the course of the ground that the voter of the delight as a baby was to pick out melodies on a rusty old plano to his father's shop and poor mechanic, whose telafo On the first till state and with the one gift become used and only one. Pockets Make the Man.

Mrs. John Lane, in a volume of essays called "Talk of the Town," takes an ingenious way to prove that mentally woman is superior to man:

Just consider: The most ordinary kind of man has at least a dozen pocket, est, while a woman of transcendent intellect generally has none, or, if she has one, it is where she can't get at it. Now, try to imagine a man doing his grrands with a purse, handkerchief and shopping list in one hand, the tail of his skirt in the other, his umbrellander one arm, meanwhile making an effort to keep his head clear for business problems and at the same time foot to keep his head clear for business problems and at the same time foot to keep his head clear for business problems and at the same time foot to keep his head clear for business problems and at the same time front to keep his head clear for business problems and at the same time front to keep his head clear for business problems and at the same time front to keep his head clear for business problems and at the same time front to keep his head clear for business problems and at the same time front to keep his head clear for business problems and at the same time front to keep his head clear for business problems and at the same time front to keep his head clear for business problems and at the same time front to keep his head clear for business problems and at the same time foot to keep his head clear for business problems and at the same time his middle the most problems and the couldn't do it! There really is no problems and at the same time foot to keep his head clear for business problems and at the same time foot to keep his head clear for business problems and at the same time front the prefers the tangency of pour time frich in head one of a way of the

B. F. KRITH'S THRATE!

Irene Franklin, known the country over as "The Queen of Vaudeville." will be the principal feature at B. F. Keith's Theatre next week. As a singer of character songs Miss Frank. In stands in a class all by herself. Since she first sprang into the limelight by singing "Redhead, Redhead, Gingerbreadhead," one night over in New York, she has steadily climbed upward until she now stands in the front rauk of vaudeville artistes. Miss Franklin writes all her own songs. This is no doubt one of the foundations. The Floral Procession in the morning was eminently successful. As minute report in the JOURNAL was Irene Franklin, known the upon which her success is based.

aupon which her success is based.

THE PLYMOUTH.

On Monday, Dec. 4, Madame Simone, the noted French actress, who has been acclaimed by the French critics as the greatest emotional actress of the day, will begin a two weeks engagement at the Plymouth Theatre, Boston. Mme. Simone will present in English a repertoir of great plays, coming direct from Daly's Theatre, New York, where she has been appearing with great success. She will present as her opening bill Henri Bernstein's powerful drama, "The Whit wind," and will include in her repertory other noted successes including Bernstein's "The Thiet" and Rostand's "The Lady of Dreams."

PICTURES AND TALES OF OLD HOUSES IN AND AROUND BOSTON.

The good old Calonial days when IN AND AROUND BOSTON.

The good old Colonial days when our Puritan fathers wore black stocks and solemn faces, when they discoursed of angels and lived much as men, are recalled in pleasing form in "Landmarks in the Old Bay State" by William Russell Comer (Wellesley, Mass., \$1.50)

Pictures of 130 Colonial houses, historic places, tablets, monuments, etc add great interest to the volume, as assone of the buildings have already been torn down. There is a history and interesting story about each picture and many of the anecdotes related are here told for the first time.

THEIR TOMBSTONE. It Proved to Be a Rich Find and Be-

It Proved to Be a Rich Find and Becams a Town's Name.

There is a sertain natural pride felt, after success has come, in wearing the epithet given in contempt by those who prephesied failure. Instances are not uncommon of triumphant seets and parties and even nations retaining the very title first given them by their enemies. A case in point is Tombstone, Ariz. How did it come to have such a name? It was not borrowed or stolen from any other place on the globe nor even suggested by any novel or romance.

The story is that two young men, brothers, when about to start from Tucson on a prospecting tour into the Dragoon mountains, Sonora, or some-promisers, leaking the property of the Dragoon mountains, Sonora, or some-promisers, leaking the property of the Command of the United States fish command of the United States fish

Dragoon mountains, Sonora, or some where else were advised to give up the undertaking, for if they perished they would find neither mine nor fortunes, but their "tombstones" Instead. The boys bravely bade goodby to their friends, though emphatically warned that they never would return alive. The prospectors set off and, following the "blind trail," came to the plain and made their camp. On examination they found a ledge of ore cropping out several feet, all marked and rich with the precious metal, "We have found our tombstone;" they exclaimed, and no other name would do to designate the camp. where else were advised to give up th

The town has kept the name, which The town has kept the name, which, if not poetical, is certainly original. A valuable tombstone, too, it must be confessed, for the Schieffelin brothers sold their half interest in the mine and mill late in the eighties for something like a million dollars.—New York Press

PORK AS FOOD.

Scandinavians Believe It Is Eaten Even In Heaven.
In the sacred books of the Scandi-

In the sacred books of the Scandinavians pork is represented as the principal food even in heaven. It was the chief food of the Irish in the twelfth century and also of the Anglo-Saxons at an earlier period.

In France it was equally common, and Charlemagne kept in his forests immense droves of pigs. Late in the sixteenth century there was a particular disease said to be caused by the quantity of pork eaten in Hungary, uantity of pork eaten in Hungary quantity of pork eaten in Hungary, and even at present the barbarous Lettes are passionately fond of it. In the middle of the sixteenth century Phillip II, when in England generally dined on bacon, of which he ate so much as frequently to make himself very ill.

By a singular contradiction the African Mohammedans now "believe that

can Mohammedans now "believe that a great enmity exists between hogs and Christians" (Mungo Park). Many and Christians" (Mungo Park). Many medical authors have supposed that pork is particularly unwholesome in hot countries, but this requires confirmation, and it is certain that it is recommended by Arabian physicians and is more generally eaten both in Asia and Africa than is usually believed.

The North American Indians are The North American Indians are said to have "a disgust for pork." Dobell believes there is more pork eaten in China than all the rost of the world put together. – Buckle's "History of Civilization."

The Word "Picnic."

Few people know the original meaning of the word "picnic." It is to be found set out in the London Times of a hundred years ago: "A picnic supper consists of a variety of dishes. The subscribers to this entertainment have a bill of fare presented to them, with a number against each dish. The lot which he draws obliges him to furnish the dish marked against it, which declaiming—that at first I was near to laughing; but, recollecting myself that I had come thus far to see a poet and he was chanting poems to me, I saw that he was right and that I was wrong, and I gladly gave myself up to hear." nish the dish marked against it, which he either takes with him in his car-riage or sends by a servant. The proper variety is preserved by the tal-ents of the maitre d'hotel, who forms the bill of fare. As the cookery is furnished by so many people of fash-ion, each strives to excel, and thus a plenic supper not only gives rise to much pleasant mirth, but generally can beast of the refinement of the apt." he either takes with him in his car-

FEASTED ON LOBSTER.

died.
The evernment accordingly sent another schement and this time saw that the pers had been removed before planting the lobsters.
Some time thereafter the Albatross steamed into Monterey bay, under the command of the United States fish commission, looking for results of the transplanting. Looking transplanting.

ansplanting. Lobster traps were set transplanting. Lobster traps were set at different points, but nary a lobster was captured. The government then posted notices offering \$2,000 for a specimen of the transplanted lobsters. Two years passed. A Santa Cruz fisherman, out in his little smack, caught one of the lobsters. Then, thinking that there was a law against catching them, he sneaked the lobster to his home, cooked it, ate it and destroyed all evidence. Later he divulged the secret to some other fishermen. "I caught a lobster sixteen inches "I caught a lobster sixteen inches

ARCHAEOLOGY.

The Ancients Were Unconscious Aids to the Modern Science. Arthur L. Frothingham, writing in the North American Review on "Where rchaeology Comes In," notes that lough it is customary to consider the cience as a modern study, dating om the middle of the eighteenth cen

rom the middle of the eighteenth cen-ing. "there has been at all times a ertain amount of unconscious archae-logy." Hustrating this, he says: "When the late Babylonian King abouldus, about 550 B. C., stated that e was restoring in the original style temple built more than 2,000 years efore him by King Naramsin he a temple built more than 2,000 years before him by King Naramsin he was, or thought he was, doing the work of an archaeological scholar. When the Roman priests, under the Antoine emperors, continued to use in their sacrifices only the primitive black earthen cups that had been in use for nearly a thousand years, since before the founding of Rome, they were practical archaeologists. were practical archaeologists.

"When the Emperor Augustus in-"When the Emperor Augustus insisted on having copies of the best works of Greek sculpture of different ages and styles made in the exact manner of the originals, including archaic works, he was obliging his sculptors to be archaeologists. The Emperor Claudius, who wrote on antiquities and used archaelsms, was lamties and used archaicisms, was lam pooned by scurrilous Romans as a pedantic archaeologist, and Hadrian he dante archaeologist, and Hadrian, the Philhellene, among his many ef-forts at resurrecting ancient Helias, can count the revival of the Perga-mene and Alexandrian styles of sculp-ture."

Old Time Kissing Customs.

The English distaste for kissing is a thing of comparatively recent growth In the seventeenth century our habits were the wonder- of the foreigner. Nicolaus de Bethlen, a Hungarian, who visited these shores in 1633, relates that "my brother and I behaved very rudely on one occasion, being unaware that it was the custom in that country to kiss the corner of the mouth of ladies instead of shaking hands, as we do in Hungary. We were invited to dine at the house of a gentleman of high rank and found his wife and three daughters, one of them married, ready to receive us. We kissed the girls, but not the married ladies, and thereby Nicolaus de Bethlen, a Hungarian, wh to receive us. We kissed the girls, but not the married ladies, and thereby greatly offended the latter. Duval apologized for our blunder and told us that when saluting we must always kiss the senior lady first and leave the girls to the last."—London Express.

Successing in Persia.

Their "Poor" Christmas

How It Came to Be an Institution In the Family

By F. A. Mitchel

Copyright by American Press Association, 1911.

Christmas in the Ripley family was coming on, but there were none of those delightful anticipations that usu-ally attend the approach of the day which marks the birth of the Christ Child. Little Frank, the youngest, a boy of seven, was lying ill, and the doctors gave slight hope of his recov-

ory.

On Christmas eve Frank lay in a stupor. His brothers and sisters were sitting in an adjoining room talking in low voices, but he could occasionally hear a word or part of a sentence. The word most used was Christmas. Frank had passed through four or five of these joyful anniversaries after he was old enough to appreciate them, and a faint interest, notwithstanding his con-

Then he heard the word death spoken almost in a whisper, and the children wondered whether the dead can enjoy Christmas. One said that the dead

"It may be that Santa Claus is one of these persons who lived, but have become spirits. This would account

become spirits. This would account for his being everywhere at once."
"In ever thought of that," said Joc "When I was a little kid I soon ceased to believe in Santa, but if I had thought of him as a spirit I might have believed in him till today."

Frank was approaching the crisis of his disease and was a very sick child. The doctor had told his parents that during the night he would either die or in the morning be much better Among other things the children talked about was this crisis, some speaking, for Frank dying others would enter the properties of the control of

listened to every word, and when be Frank from himself passing out un der the stars.

"In have died," he shall to himself, and an angel is carrying me away. Now that I am a spirit, i wonder if a shall be permitted to visit live people on Christmas ever?

Now, Prank had not died at all. He was in a very low condition, and his nurse, clad in white, had bent over him and lired him up in her arms to inclient made buys. The sements are conditioned and the state of the second And, while I don't know as ing a long that there was nothing in I which we call supernatural. The lim mortal world lies all about and very near us, and it is not limpossible that which we call supernatural. The lim mortal world lies all about and very near us, and it is not limpossible that set in the shall be set that the receiver."

Alice didn't stay quite through the half had be at very near us, and it is not limpossible that and the same the sight into things that are hidden from ene.

Be this as it may, Frank was carried in the angel's arms out into the didn't know had now the same that the same things to the McDans, who used to work for us, and they agreed that the receiver."

The Limit in Cless Bargain. The limit in the half hour, for while she was taiking to mean the half had be at very near us, and it is not limpossible that half be agreed to any that there was nothing in limit had be agreed to a spirit the possed the change. The next of the same and the spirit the possed the change. The sights and the throngs who were passing along the street going in and out of the shops, for, though it was dark, the people had not flaished their buy, ing for Christmas. The scene was busy without and buy within. Frank could look at both and at the same found to day the people had not flaished their buy, ing for Christmas. The scene was busy without and buy within Frank could look at both and at the same found to day the stores withing on eastonness and the stores waiting on eastonness and the stores waiting on eastonness and the stores waiting on east

stores waiting on customers and the children hanging up their stockings the children of well to do parents. He the children of well to do parents. He saw them all in their richly furnished rooms going to bed in embroidered nighties, many of them crawling in under silk and down comforters. In the closets were innumerable packages that had not yet been opened, while tables were heaped with candles and fruits. dies and fruits.

Take me where I can see the poor children," said Frank to the angel. "These have so much that it tires me

Then the angel passed over that part of the city where the poor chil-dren lived, and Frank was astonished at their humble, many of them squal-id, quarters. In their larders he could see nothing for a Christmas dinner, and but few of them had any toys. And Frank saw something that made him wonder. It was himself in a dinmy room with no furniture in it except a chair and a small table. He was lying in a corner on a mattress cov-ered with a thin, worn blanket. His mother had put over him so much of her own clothing to keep him warm that she was shivering with the cold. Frank knew that the child he saw-

Frank knew that the child he saw—
his other self—was sick, because he
was white and thin and he rolled his
head from side to side as if in pain.
The invalid opened his eyes and said:
"Mamma, I want some grapes."
The mother moaned that she had no
grapes to give her boy and no money
to buy them with. Frank asked the

to buy them with. Frank asked the angel why some of the grapes and other fruits be had seen in the houses of the rich could not be brought to the child, and the angel said:

"These persons cannot look through each other's walls as we can. Rich people cannot give what they have to the poor or they would be poor to the poor or they would be poor and the poor rich. And I fear that and the poor rich. And I fear that those who had been benefited would be ungrateful and, keeping what they had gained, would turn away from their benefactors. Nevertheless more than 1900 years ago on Christmas morning a child was born who when he grew up set an example to all people, telling them that the giver is really more happy in giving than the receiver. Tomorrow is the birthday of this child."

"But this troubles me," said Frank. "I don't wish to see any more of it. You showed me the homes of the chil-You showed me the homes of the children of the rich on Christmas eve, and they were so leaded with comforts, with good things to eat and with toys that it wearied me. These homes of the poor I can't bear to look upon. Take me away."

Then it seemed to Frank that the angel rose with him into an atmosphere that was like summer. Birds were singing, flowers blossoming, and he heard the strains of music,

"I am going to heaven," the boy said, "where there are neither poor nor rich. I don't like to be one of either."

At 4 o'clock is the morning Frank's nurse called his mother and told her she thought there was a change for

she thought there was a change for

the better. He was sleeping quietly

the better. He was sleeping quietly The mother went into the sickroom and, looking down at the face of her boy, delighted, said:

"The doctor told me the crists would pass tonight, and I believe it has. How sweetly he is sleeping! There is almost a smile on his face as if he were

most a smile on his face as if he were dreaming of heaven."

Then she went back and told the father to come and see. He did so and, heaving a great sigh of relief, said: "You are right. Our boy will live. When the children awaken we will tell them what has happened that they may make merry as usual on Christ. may make merry as usual on Christ-

mas morning. Before breakfast the doctor, who Before breakfast the doctor, who was anxious about his patient, believing that during the night a change would come, appeared at the house and went immediately to the sickroom, "Merry Christmas, doctor," said the patient. "I want a whole lot of things to eat. Can I have 'em?" "What do you want first?" "Granges."

"Grapes."

"Grapes."
"The very thing," said the doctor.
"What next?"
"Beefsteak and creamed potatoes."
"Good! You're all right."
Then turning to Frank's mother, he told her to bring the grapes and whispered to her to follow them with some broth.

were not common even so late as the twelfth. Horseshoeing is a very an cient art. It is represented on a coin of Tarentum of about 350 B. C. It is said that William the Conqueror brought the first iron horseshoe to England.—London Graphic.

Putting It Mildly. "That man seems to be proud of his stupidity," said the impetuous person. "I wouldn't put it that way," replied the conservative friend. "I'd merely suggest that when it comes to a thirst for wisdom he's a prohibitionist."—Ex-

They Play Queer Pranks at Times on Their Mission of Death. At the battle of Peach Orchard, when McClellan was making his change of base, a Michigan infantrychange of base, a Michigan infantryman fell to the ground as if shot dead
and was left lying in a heap as the
regiment changed position. The bullet
that had hit him first struck the barrel
of his gun, then glanced and struck off
a button of his coat, tore the watch out
of his vest pocket and struck the man
just over the heart, where it was
stopped by a song book in his shirt
pocket. He was unconscious for threequarters of an hour, and it was a full
month before the black and blue spot
disappeared.

disappeared.
At Pittsburg Landing a member of At Pittsburg Landing a member of the Twelfth Michigan infantry stooped to give a wounded man a drink from his canteen. While in this act a builet almed at his breast struck the canteen and buried itself in the leg of a horse. The canteen was split open and dropped to the ground in halves.

At the second battle of Bull Run a New York infantryman was passing thereous to a comprade when a bullet.

tobacco to a comrade when a bullet struck the plug, glauced off and buried struck the plug, glauced off and buried Itself in a knapsack. The tobacco was rolled up like a ball of shavings and carried a hundred feet away. Directly in the line of the bullet was the head of a lieutenant, and had not the bullet been deflected he would certainly have been wounded or killed thereby. As it was, he had both eyes filled with tobacco dust and had to be led to the

At Brandy Station one of Custer's troopers had his left stirrup strap cut away by a grapeshot, which passed be-tween his leg and the horse, blistering tween his leg and the horse, blistering the skin as if a red hot iron had been used. He dismounted to ascartain the extent of his injuries, and as he bent over a builet knocked his hat off and killed his horse.

In the same fight a trooper had suffered several days with a toothache. In a hand to hand conflict he received a pixel ball in the right cheek. It

In a hand to hand conflict he received a pistol ball in the right check. It knocked out his aching tooth and passed out through the left corner of his mouth, taking along a part of an upper tooth. The joy of getting rid of the toothache was so great that the trooper could not be made to go to the rear to have his wound dressed.—Exchange.

of Frank dying, others wondering. If he passed the crisis, whether he would be well enough the next day for them to celebrate Christmas. And Allee, the girl next older than the sick boy and his inseparable playmate, said that she shouldn't enjoy the day anyway unless Frank were able to enjoy it with her. It must not be supposed that Frank listened to all this as another would listen to it. He was in a high fever, and it seemed to him that he was in the midst of a turmoil. What the children said seemed to pass by him like bits of mist scudding before a driving wind. Then all was still for a while. Possibly the poor boy fell into a slumber. He saw something white bending over him, great wings extending from its shoulders. The figure took him up in its arms and rose slow by with him. The celling opened, and Frank found himself passing out under the stars.

"I have died," he said to himself, "and an angel is carrying me away, Now that I am a spirit, I wonder."

Aut I want to go out with a want to go out will and to go out will

Mothers-in-law In Dickens' Time.

Nowadays it is regarded as utterly an incorrect to speak of a stepmother as a "mother-in-law." But anybody who does can plead plenty of literary and thority. "Mother-in-law" was good English in this sense as well as the other in 1518, and both Fleiding and Thackeray have it. "Father-in-law" is used by Shakespeare both for a wife's father and for a stepfather, and in this sense it can be quoted from Dickets and George Eilot. But the general agreement in modern times to stick to "stepmother" is a wise avoidance of confusion.

Boston Record.

They have no root, stem or leaf and vary in size from that of a pecan nut to that of a duck's egg. Their surface is watery and covered with a skin. Their exact method of growth is not precisely known. They are, of course, regarded as a great luxury by the epicure.

Truffles are mentioned by Juvenal, Pliny, Plutarch and Martial. The Athenian epicures were acquainted with them, and a story is told of a bon vivant who freed a whole family of slaves who had invented a delicious method of preparing them.

France has the credit of producing

Could Not Do Without Him

CONCEIT OF BARBADOS.

CONCEIT OF BARBADOS.

A Mighty Colony is "the Little England of the Tropics."

None of the great nations of the earth is half so proud of itself as the little colony of Barbados, a mere speck in the Caribbean, which calls itself "the little England of the tropics."

Alone of all England's West Indian isles, Barbados has belonged to England ever since it was first colonized by white men. It has never been conquered by the enemy, as the others have been. This fact naturally gives the Barbadians a good conceit of themselves and indeed makes them just about the proudest people on earth.

When, just before the Crimean war, England was hesitating whether she should attack Russia, the Barbadians sent this message to the cabinet; "Go ahead. Don't be afraid. Barbados is behind you."

King George was offered an asylum by "little England" when Napoleon Bonaparte proposed to invade England, "If you were driven from England," the Barbadians wrote, "come here. You will be safe with us to protect you."

When England was suffering her were travelled was tremendous, and an encore he sang "Il Barblere di Siviglia," finishing up with a popular stream of the provider of the provider

Water is to the Body.

One must be educated no doubt to understand the more complex and difficult kinds of musical composition. Go to the concerts where you know that the music is good and that you ought to the to the concerts where you know that the music is good and that you ought to the total that it whether wand on you do to like it, whether you do or not

to like it, whether you do or not.

Take a music bath once or twice a
week for a few seasons and you will
find that it is to the soul what the water bath is to the body. I wouldn't
trouble myself about the affectations
of people who go to this or that series
of concerts chiefly because it is fashionable.

Some of these people whom we think
so stilly will perhaps find sooner or

Some of these people whom we think so silly will perhaps find sooner or later that they have a dormant faculty which is at last waking up and that they who came because others came and began by staring at the audience are listening with a newly found delight.

Every one of us has a harp under the bodice or waistcoat, and if it can only once get properly strung and

only once get properly strung and tuned it will respond to all outside harmonies.—Oliver Wendell Holmes in "Over the Teacups."

HUNTING TRUFFLES.

In France They Train Dogs to Find the In France They Train Dogs to Find the Prized Plants.

Truffles, like mushrooms, belong to the family of the fungl, but are a distinct and very peculiar genus. They are cryptogamic plants and subternanan, their position underneath the soil varying from two to three inches to two feet in depth.

Too Early.

Henry Austin was slow. His work
One raw February morning an inwas always behind that of the neighlady, whose father, a Confederate sol-Toe Early.

One raw February morning an instructor in the University of Michigan was calling the roll of an 8 o'clock class in English.

"Mr. Robbins," said he.

There was no answer.

"Mr. Robbins," in a slightly louder voice.

Still no reply.

"Ah," said the instructor, with quiet smile, "come to think of it, it is rather early for robins."

The instructor was the late Moses Coit Tyler, who later became professor of history at Cornell, and it shows him in the pleasing light of a man who could be boylishly gay at a gray and cheerless hour—no small feat, if one stops to consider an instructor's provocations to morning dullness.

Henry Austin was slow. His work was always behind that of the neighboring farmers, although he always got it done eventually. He had been taken prisoner by the Union forces, was desirous of obtaining a pass which would enable her to visit him. Francis P. Blair agreed to obtain an audience with the president, two miles from his farm. On the event was to take place his neighbors, the Fosters, drove by his house on their way to the wedding. Henry was just going to the strant with his milking pall. Mr. Fosters down the presence of Mr. Lincoln, and the object for which they had come was stated. The tall, grave man bent down to the little maiden and, looking searchingly into her face, said:

"You are loyal, of course?"

Her bright evers flashed. She hesitated a moment, and then, with a face loquent with emotion and honest as his own, she replied:

"Yes, loyal to the heart's core—to

He that never tasted pain is no judge of pleasure.

When the window.

"Look," said she—"that's the kind of gown 1 want you to get me."—Har-per's Magazine.

A CHARITY CONCERT.

You will be safe with us to protect you."

When England was suffering her worst reverses in South Africa the Barbadians were not worried. They knew that if matters really reached a crisis "Barbados would go in an dishis the business," as one of their newspapers seriously put it.

MUSIC BATHS.

MUSIC BATHS.

Holmes Says They Are to the Soul as Water is to the Body.

The applause was tremendous, and as an encore he sang "II Barbiere di Siviglia," finishing up with a popular barbiere di Siviglia," finishing up with a popular brown as an encore he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencre he sang "II Barbiere di Siviglia," finishing up with a popular brown as mencr

SUNDAY SCHOOL, IT IS NOT TOO LATE

Lesson X.-Fourth Quarter, For Dec. 3, 1911.

THE INTERNATIONAL SERIES.

Text of the Lesson Neh. iv, 6-18 Memory Verses, 16, 17—Golden Text, I Cor. xvi, 13—Commentary Prepared by Rev. D. M. Stearns.

Our lesson topic today is the build ng of a great wall by such unlikely Ing of a great wall by such unlikely instruments that their enemies had to confess that the work was wrought of God (vi, 18). They had a mind to work, they watched and prayed while they wrought, and they did the work mearest to them. As to their having a mind to work (verse 6), we cannot but think of the willing men and women and the willing offerings of Ex. xxxv, 21-20, and of David's preparing with all his might for the house of his God because he had set his affectives. Gayrare. Am contract, another to the most of the actions, and the two find and control more than the of the actions and the two finds are controlled to the second of the actions. As for me, I have made to the compact of the actions as for me, I have made to that a membra and me and the compact of the actions as for me, I have made to that a membra and an according to the actions. As for me, I have made to the action of the actio

The Popular Tailor

Announces the Spring Styles on eghibition at his TAILORING CHAMBERS Nos. 1 to 2 Mechanics Building at 415 Main St., Woburn, where he carries the largest line of samples of the latest designs in both Foreign and Domestie Woolens of any tailoring establishment in the County. "All fresh from the Loums," and is prepared to take erders for Suits, Overcoats and Ttrousers at popular prices. Repairing, Cleaning and Pressing done at short notice and best workmanship. Don't forget the name and number, as it guarantees the best results for your money.

A. GRANT, 415 Main Street, Woburn. Chambers 1 to 2.

was Thomas Jefferson, who duri three years gave his personal attenti to every application for a patent. He used to call the secretary of war and used to call the secretary of war and the attorney general to examine and scrutinize with him, and they did it so thoroughly that in one year—the first—they granted only three patents. The very first patent of all was given to Samuel Hopkins in 1700 for pearl ashes. Mr. Jefferson held that the patent system was not one for creating revenue, but for encouraging a production of that which is to be of benefit to the whole people. In the first twelve years whole people. In the first twelve years a single clerk in the state department and a few pigeonholes were all that the business of the office required. Then a Dr. Thornton took charge of it and devoted himself to it as a hobby.

The Coster Girl's Plumes outings as are the pearl buttons to her masculine companion, and the big trimmed hats with their drooping feathers are familiar in all gatherings of this class. Many of the girls cannot afford to keep their money tied up in useless plumes, and there thrives brisk industry in the hiring of thes brisk industry in the hiring of these feathers. The loan of a single plume for a day costs a quarter, or for a dol-lar a gorgeous trio may be had for an outing, to be returned promptly the next morning. Weather conditions cause the terms to fluctuate somewhat, since a wet or foggy day will take the curl out of the feathers and make re-curling necessary, for which "'Arriet" has to pay an extra quarter—London The Way of Them.

nimbus of light surrounded a tiny gas leak in the pipe here, and the air was always foul with the escaping gas.

White painted doors led from the hall into rooms at front and rear and on the west side. The stairway went down the eastern blank wall into the dimly lighted brussels carpeted gen-tility of the second floor. Up here. however, there was merely brown oil-

Honora Burr came up the stairs and Honora Burr came up the stairs and thrust a key into the lock of the third floor rear room. The door swung back against the wall and made a passage for her to squeeze in between the narrow white iron bedstead and close the door. In one corner was a battered oak bureau with a distorting mirror above it. There were a washstand and a rocking chair and Honora's shabby trunk. That was all.

When she had removed her hat and cloak and hung them in the tiny closet

When she had removed her hat and cloak and hung them in the tiny closet Honora attached a plece of gas hose to her jet and lighted a small gas stove. On this she placed a saucepan of water and then sank wearily into the chair. With the stove lighted there was a dim bluish glow in the room, and Honora sat there waiting for the water to boil and looking out of the window at the dreary prospect of tall brick structures and distant blinking lights. From the next block came the clatter and bang of elevated trains.

Suddenly all the view from the window was blotted out in a mist of tears. Honora's bright head pressed heavily against the back of her chair, and sho placed her hands against her eyes.

"I can't stay here," she sobbed. "I can't stay all alone in this big city at Christmas and know that there is no-body to care whether I have a good time or not, nobody to give any presents to, nobody to say 'Merry Christmas' as if it were really meant!" Honora Burr's position was a pecul-

ICEBERG GROUPINGS.

Storms and Ocean Currents.

Among the perils and wonders of the ocean there are few more interesting to things than leebergs, interesting not only by reason of their gigantic size, their fantastic shapes, their exceeding beauty, but also for the manner wherein they array themselves.

Icebergs exhibit a tendency to form both clusters and long lines, and these groupings may arise from the effects both of ocean currents and of storms.

Some very singular lines of bergs, extending for many hundreds of miles east of Newfoundland, have been shown on official clarits issued by the government. Two of these cross each Some very singular lines of bergs, extending for many hundreds of miles east of Newfoundland, have been shown on official charts issued by the solution of the cach keeping on its independent course after the crossing. In several instances parallel lines of bergs leave long spaces of clear water between them.

Curlously enough, while enormous fields of ice invade the so called "steamship lanes" of the Atlantic at the penning of suring during certain years.

pening of spring during certain years, n other years at that season there is comparatively little ice to be seen. comparatively little fee to be seen. The fee comes, of course, from the edges of the arctic regions, from the feebound coasts of Greenland and Labrador, where huge bergs, broken from the front of the glaclers at the point where they reach the sea, start on their long journeys toward the south, driven by the great current that flows from Baffin bay into the northern Atlantic ocean. — Harper's Wee'rly.

"She is no Japanese," he said. "She is European."

"How do you know that?" I asked him. "Her costume is correct; her hair is straight; she has no ornaments."

"Yes," he replied, "but look at her eyes. Her eyes look out on the world as though she understood it. The Japanese woman never looks like that."

and turned on the gas figur.

This was the worst Christmas eve Honora had ever spent. Last year it had been sad, but her dear mother was alive. Now she was all alone, and the horror of loneliness seemed almost mote than she could bear.

"In the story books," said Honora forlornly, "if one is unhappy on Christmas eve they go out and do some good to the poor and unfortunate, but when one hasn't got but a dollar and forty cents to last until next pay day I wonder what one ought to do?"

The question was answered at once.

der what one ought to do?"
The question was answered at once.
The door of the front room opened
again and the "happy man," as Honora had designated the good looking
lodger who ran up and down the long

"It might be cheaper if you'd put a new carpet on those stairs, Mrs. Ram-sell," said a bleached looking woman in a red silk waist.

"He oughter looked where "Has any one sent for a doctor?" asked Honora quietly.
"No. Mary, you telephone to the hos-

"Why not send for a doctor," urged Honora, bending over the unconscious man. She had noted his evident re-finement, and the quality of his cloth-ing indicated that he must have known

would prefer to be taken care of here."
"Who's going to pay a dollar for a doctor?" demanded Mrs. Ramseli shrilly. "How do I know I'll ever get it back from him."
"I'll take the risk," said Honora im-"Til take the risk," said Honora impatiently, and Mary was directed to telephone for the nearest physician. Mr. Ramsell was rooted out of some lower basement retreat, and, together with the stout armed Mary and the lesser efforts of Honora and a pale faced youth from the third floor front room, the still form of the no longer "happy man" was conveyed to his 'happy man" was conveyed to room on the floor above and laid on the

YES OR NO.

Next Tuesday Dec. 12, the

cussion is unnecessary.

All that is left for us to do is to urge the voters to attend the election next Tuesday en masse and cast their ballots for Temper-ance and Good Order.

GOOD NEWS.

Favorable reports from the Silver campaign continue to reach the Republican Headquarters. They seem to assure the election of Elmer E. Silver for Mayor be yond a peradventure.

Business men are regarding his candidacy from a business standpoint and are favorably inclined towards it. Men of affairs will give Silver a substantial vote next Tuesday.

Again, the Law and Order people of the city, and those who would maintain a high standard of municipal morals, are, it is said,

earnestly advocating his election.
The Republican managers are more than hopeful: they feel sure of success at the polls on Dec.

THE SCHOOL BOARD.

The character and standing of Woburn's public schools depend largely on the quality of the School Committee, hence the importance of exercising wisdates for dom and caution in selecting from the six candidates to be voted for ticket. next Tuesday the three who are the best fitted to fill the places of those who are to retire at the close of the present year.

On the ground of superior unlifications the Republican ticket should be elected.

READ IT.

We mean, read the advertise ment of Mr. Elmer E. Silver, the Republican candidate and probable next Mayor of Woburn, in this

It is generally conceded that Elmer E. Silver's election to the office of Mayor next Tuesday is

Already far ahead of his com-

party for him and a divided oppo-sition against him, Mr. Silver will win a splendid victory at the polls next Tuesday.

A vote for Silver will be a vote tor Woburn's prosperity.

MURRAY SEES IT.

The frequent campaign meetings held by Mayor Murray proves conclusively that he sees "the handwriting on the wall."

A landslide from the Democracy

awaits Murray at the polls that will bury him so deep that he will never be heard of again as an

Murray sees it!

Next Tuesday Dec. 12, the voters are to decide whether the present Nolicense policy shall continue or Woburn, after years of satisfactory trial, shall return to legalized rumselling. If reports can be relied on, such a disaster is not in store for this city next Tuesday. It is said that the prospect for a Nolicense victory was never more encouraging than at the present time.

It is needless then to compare and comment on the merits and demerits of the two policies of License and Antilicense, for the public are thoroughly conversant with both and wholly able to vote intelligently on them. The lesson has been learned from experience and observation and further discussion is unnecessary.

All that is left for us to do is to

session.

E. SILVER ELMER

Republican Candidate for Mayor of Woburn.

To the Voters of Woburn:

I pledge you my best efforts toward a better city! To this end, if you make me Mayor, I shall work for prudence and honesty in handling your money, diligence and effectiveness in performing your public work, watchfulness and vigor in enforcing your laws. I am no one man's representative, but everyman's. I shall serve no machine, but the people of Woburn. I am bound by no promises, but an honest man's conscience.

NOTICE

Phases of Woburn History

The Period Between 1857 and 1861. BY WILLIAM R. CUTTER

VII. 1858

On the 9th of July, 1858, died a On the 9th of July, 1858, died a citizen of great promisence in Woburn, namely, Col. John Wade, in his 79th year. He had filled a place in the history of the town in his generation, larger, probably, than that of any other man. He was born in Woburn, April 3, 1780, begun business here in 1802, with a small capital, erected Wade's Block, became wealthy, and by the strength and comprehensive charache strength and comprehensive character of his mind was eminently fitted to

the strength and comprenensive characters of his mind was seminently fitted to influence his fellow men.

He continued in the business of a country trader in Woburn until 1825, when he sold out to Hon. Bowen Buckman. At the beginning a new store in Woburn was considered a rash undertaking, and friends attempted to dissuade him from the enterprise, but his keen business foresight, which was all-ways one of his marked characteristics, prevailed, and he was successful. In his business relations his integrity was never questioned. He was a trader of the old school, and with him fair dealing was a matter of course.

Politically he was a Democrat, and enjoyed the confidence of his fellow citizens to that extent that he received more offices at their hands than any

more offices at their hands than any used it as a gristmill originally.

law Dr. John Page—saved by Nathan Wyman, and both preserved in the law Dr. John Page—saved by Nathan Wyman, and both preserved in the Woburn Public Library—show a connection with mercantile business from the period of 1775, which is very in structive; and both collections are voluminous. Col. John Wade had many letters, among others, from poli-

weeks after his death, but the follow ing extract from an article by W. (Nathan Wyman) his most approved (Nathan Wyman) his most approved biographer, owing to his intimate ac quaintance, is worth inserting here.

"Several worthy citizens, for whom I entertain the highest respect, seem to feel aggrieved at that part of my article which relates to the condition of public affairs when Col. Wade eame into office. They urge that I have done wrong to the memory of their fathers. I regret that my intention should be

wrong to the memory of their fathers. I regret that my intention should be misapprehended. I merely stated a facts as they existed at the time, and did not intend to do a wrong to the memory of the dead, or injure the feelings of the living; but the facts are well known, several of the liquor bills having appeared in previous numbers of the JOURNAL, and there is a plenty left. It would not be just to judge of left. It would not be just to judge of the men of 1802, by the prevalent opinions of 1858 Then the practice described were common, I venture to say, in all the adjoining towns; now, I

hope, they are uncommon."
(To be continued.) Wins Fight For Life.

Wins Fight For Life.

It was a long and bloody battle for life that was waged by James B. Mershon, of Newark, N. J., of which he writes: "I had lost much blood from long hemorrhages, and was very weak and rundown. For eight months I was unable to work. Death seemed close on my heels, when I began, three weeks ago to use Dr. King's New Discovery. But it has helped me greatly. It is doing all that you claim." For weak, sore lougs, obsinate coughs, stubburn colds, hoarseness, la grippe, asthma, hav-fever or any throat or lung trouble, its supreme. Soc & \$1.00. Trial bottle free. Guaranteed by All Druggists.

INSTRUCTION

Season opens October 2. 79 Prospect St., Woburn.

CURIOUS CONTRASTS.

Authors Whose Writings and Methede of Life Were Contradictory.

A man of genius when he writes a book and "all the god comes rushing into his soul" is in an abnormal state, and hence lives of men of letters have often been in glaring contrast to their writings. Montaigne tells us that he always observed supercelestial opinies to be accompanied with subterration doubts. On the other hand, the

allwdys observed supercelestial opinities in the accompanied with subterration to be accompanied with subterration and the most in the accompanied with subterration and the most in the accompanied with subterration and the most intitudinarian professors of epiculfennism have often lived like anothers or trappists. Some of the most sea songs have been written by men who never snuffed a salt water infects, stirring war songs have been written by timid men and women who would have shrieked at the sight of mouse, and hymns steeped in the very spirit of devotion have been written by men of doubtful morality, who were never less at home than in a Christian church. Charles Lamb was ready to wager that Milton's morning hymn in Paradise was penned at midnight, and we know positively that Thompson, who sang the praises of early rising in the "Seasons," used to lee abed till noon. Sir Richard Steele could discourse eloquently on temperance when he was not drunk. Wood worth in his "Old Oaken Bucket" sang the praise of cold water under the inspiration of brandy. Dr. Johnson, who wrote so well on politeness, interrupted his opponents with "You liesir". "You are a vile Whig, sir"." Burus was a compound of "dirt and deity." Rousseau, who was always filling people's eyes with tears, betrayed and slandered his benefactors in turn and sent his children to the foundlings hospital. When Moore proposed to Scott to go and ass Malesco. foundlings hospital. When Moore proposed to Scott to go and see Melrose abbey, as Eir Walter had described it, by moonlight, "Pooh, pooh," said Scott, "you don't suppose I ever saw it by moonlight!"—William Matthews, Sainte-Houve," Monday, Chair Beuve's Monday Chats.

WOBURN NATIONAL BANK

Savings Department.

The beginning of successful operation of UNITED STATES POSTAL SAVINGS BANKS, and the possibility of legislation, by Congress, looking to the establishment of NATIONAL SAVINGS BANKS, as outlined by Senator Aldrich, in his tentative plan for a new banking law, seems to indicate a popular demand for places of savings under the control and supervision of the UNITED STATES GOVERNMENT.

"And they didn't?" she murmured

smith.
"It would be just like him to go to her and expect"— Henry Slade was saying when utter consternation fell apon them, and they were dumb.
From the other side of the double store, which had a separate entrance, appeared Emily Wayland, with a small basket on her arm. She was very decomposed to the store with the state of the store with the state of t

basket on her arm. She was very straight and slim, and her black hair was mixed with gray, but she was still beautiful. Any woman with her glorious dark eyes and her rich coloring of cheek and lip could never be plain.

The straight and sim, and ner black hair was mixed with the was the was still beautiful. Any woman with her glorious dark eyes and lake sin all parts of the councillost councillost.

must have overheard their rewithout reserve, forgetting the thin board. Her head was held very high, and she glanced neither to the right nor left as she passed down the store and out of the door. That was unusual, for Emily was always gracious and sweet.

the door. That was unusual, for Emily was always gracious and sweet.

The clerk who had waited upon her came around the counter and glared at the group of men around the stove. "Why didn't you fellers come right in and say what you had to say right to her face?" he demanded ironically. "She couldn't hear," said Henry Slade uneasily. "Well, I guess she did."

The door opened slowly, and the peak of a rough gray cap came first, next a keen, blue eyed, frost reddened countenance, then a body attired in blue sweater, with corduroy trousers tucked into group around the fire at the end of the store but before he reached the stove they had vanished upon one excuse or another. Even Darrel hurried to the other room to wait upon an imaginary fustomer.

Waiter Hoops stopped short, stared after them and then shot a glance at the embarrassed clerk. "Hello, Peter," he grinned. "You "Ghanna, please go to the pawn brofer's and pawn my gold watch. The

Fire Extinguishers.

About 1840 a Mr. Thomas Philips of London invented an apparatus for putting out fire, but it was not much of a success. When put in action the steam and carbonic acid which were to extinguish the flames were not generated in sufficient quantity to do the work. A Frenchman named Carlier patented a fairly successful extinguisher in 1862, since which date they have been used more or less all over

ORIENTAL RUGS.

Their Worth Hangs on the Number of Knots to the Square Inch, For ages reaching far back into the mists of antiquity, weaving has been the work of women, though the modhe work of women, though the mod-rm factory of the west has brought bout changes in this respect, "In the unchanging east weaving is, with ew exceptions, women's work. In the interior of Asiatic Turkey and in 'ersia the patriarchal system still ex-sis and the sons bring their wives some to live. I have known as many s thirty-five persons to live in one welling," writes Mrs. Eliza Dunn in er book, "Rugs In Their Native and." "The mother-in-law is queen f the household, and every morning ssigns to each woman and girl her signs to each woman and girl he sk for the day." Methods of work

assigns to each woman and girl her task for the day." Methods of working as well as patterns are traditional, according to the same author, and some designs are peculiar to special families or tribes and become so familiar that the older workers produce them from memory.

The art of tying in the yarn has to be learned very slowly. The younger children are allowed to the in only one solid color on the plain background, but when a girl becomes fairly expert she is allowed to make a whole rug, and traces of individuality may be looked for in her weaving. The two classes of rug, Turkish and Persian, are distinguished by the kind of knot in which they are tied, the Ghiordes, or Turkish, the Senna, or Persian knot.

The number of knots to the square inch is one of the tests of value of a modern rug, and the fact that more can be tied to the square inch in a Persian than in a Turkish rug accounts for the greater fineness and consequently greater costliness of the former.

Heavy Shafe contemptously.

Lesson XI.-Fourth Quarter, For

Dec. 10, 1911.

THE INTERNATIONAL SERIES. Text of the Lesson, Neh. vi, 1-12, Memory Verse, 11—Golden Text, Ps. xxvii, 1—Commentary Prepared by Rev. D. M. Stearns.

> nong the Jews themselves, for som ere holding mortgages on the lands nd houses of their poorer brethren and lending money at a high rate hile for twelve years Nehemiah a overnor had refused to be charge ble to the people or to take any ing from them. On the contrary, he ed at his own table 150 Jews and ulers besides those who came from the nations about them, and all this a

Chapter v tells of a great wrong

s nations about them, and all this at own expense. Chapter vi is a record of his enemies in without who earnestly sought to him personal harm. First they sught to do him mischief by enticing in to meet them in one of the vilim to meet them in one of the vilges in the plain of Ono. It is ever
ue that the wicked plotteth against
ie just, watcheth the righteous and
eleight to slay him (Ps. xxxvii, 12, 22),
ut the Lord shall laugh at him, for
e seeth that his day is coming. Evy child of God must expect to be
uted by the world and to suffer
fibulation and persecution (John xv.
120; xvi, 33; II Tim, iii, 12), and it
ould be accepted as a gift from God
id a special privilege (Phil. 1, 29; I
ct. iv, 12, 13).
Nehemlah's reply to the first temp-

inh's reply to the first tempshemich's reply to the first tempon, in verse 3, is worthy of imitaby all earnest Christian workers are asked to turn aside from that thich God hus called them: "I am g a great work, so that I cannot e down. Why should the work while I leave it and come down on?" It is always a wrong kind oming down to leave any work city for God, which He has inted to us, to confer with worldlings wen to attend some kinds of comee meetings or so called ministers' meetings or so called ministers' ags which do not profit. All g down from any form of pride elf is always right and profitable, our highest place is lying low at Redeemer's feet, and the Lord e must be exalted, and with Him

e must be exalted, and with Him e must we be occupied, our times they tried in a similar to entice Him, but he was enabled resist them every time (verse 4), old lady who endeavored to find ething good in every one and evining was once asked if she ever anything good in the devil. She eightfully reniled "Well, he is very atfully replied, "Well, he is very ent." These enemies of Nehe-vere evidently in his employ. As iah, he was steadfast, unmov-unding in the work of the twing that his labor was not d, knowing that his labor was not vain in the Lord (I Cor. xv. 58), the fifth temptation was in the form an open letter by Sanballat's servin which was written a report that temiah and the Jews thought to and make Nehemlah king, and refore they had built the wall and solinted prophets to preach that he sking in Jerusalem. Because these bylon he was invited to meet riends (?) and take counsel to-about the matter, for of course er about the matter, for of course ould grieve them to see such a man as Nehemiah in any trouThe lie factory, under the superdence of the father of lies, has at work ever since the business red in Eden so long ago, and every to field bust expect to have some ed out for his special benefit, eir object at this time was to e Nehemiah and the people afraid sing reported to the king and thus caken their hands. But Nehemiah or guilt on his conscience in this

o guilt on his conscience in this r and nothing to fear. He rematter and nothing to fear. He recurred answer, "There are no such
things done as thou sayest, but thou
feignest them out of thine own heart"
(verses 8, 9). So he trusted God to
strengthen his hands. Adam was
adraid and tried to hide from God
(Gen. iii, 10). but he was guilty. God
loes not give His people a spirit of
fear (II Tips 1, 7), and our Golden Text
should be the bold utterance of every
believer. Even worse than these enemies of Nehemiah were the false
prophets in the days of Jeremiah,
who in the name of the Lord were
crophets of the deceit of their own
leant, speaking a vision of their own prophets of the decelt of their own heart, speaking a vision of their own heart, causing the people to err by their lies and by their lightness (Jer. xxiii, 16, 26, 32). What shall be said of the false teachers of today who with all the increased light of the New Testament speak lies out of their own heart in the name of the Lord? What-over is not according to Scripture is a lie.

The next step of the enemy was to tice Nehemiah to meet them in the ouse of God and shut the doors of the mple lest he should be slain (verse 0). But Nehemiah perceived that his messenger was hired by Tobiah and Sanballat to make him afraid, so hat they might have matter for an will report against him. Neheminh's eply is again brave and full of condence in God: "Should such a man as fee? And who is there that, being is I am, would go into the temple to are his life? I will not go in "verse". I will not go in the temple to are his life? I will not go in "verse". So he handed Tobiah and Sanbalit and the Prophetess Noadiah and I the rest of his enemies over to lod (verse 14). See in verses 17-19 ow many of the nobles in Judah were I league with Tobiah, hypocrites and gue with Tobiah, hypocrites and

Penarry of the reacn.
The Egyptians appear to have been equainted with what is commonly alled prussic acid, the most deadly of poisons. It is held that they dis of poisons. It is held that they dis-tilled it from certain plants and trees, notably the peach. In the Louvre there is an ancient Egyptian papyrus from which the following has been deeiphered: "Pronounce not the name of I. A. O. under the penalty of the peach." This has been supposed to be a death warning to those who might be tempted to reveal mysteries in con-nection with the religious rites of the

The Romans probably learned of prussic acid from the Egyptians. His-tory has it that in the reign of Tiberius a Roman knight accused of treason drank poison and immediately fell dead at the feet of the senators, a sig-nificant circumstance, insurance as no nificant circumstance, inasmuca as no other poison has the almost instan-taneous effect of pressic sold

Try to have kindly thoughts of peo ple and the kind words will take care of themselves. ONE WAY TO SAVE MONEY.

Contract a Good Sized Debt, Then Work Hard Till Its Paid. Perhaps you think you can't save.
You have debts. Well, the way to
cure a debt is by contracting another cure a debt is by contracting another one. You meet your debts, do you not? Well, contract a debt to the bank. Just agree with yourself that you owe the bank \$1.000 and must pay this debt in small installments—a dollar or two or five out of each week's wages. Then pay that debt. The bank, unlike your other creditors, pays you for the use of your money and will return it to you in time with interest. For you are a partner with it. It is your bank are a partner with it. It is your bank and its business is to make money for

you. When you start a bank account you become a capitalist, a banker, an investor in securities and a substantial citizen, interested in the development of your town and country. You acquire standing, respect, peace of mind. Your point of view is changed. You no longer "see red." Your fellow men appear to you as they really are—coworkers and friends—not oppressors or schemers against your welfare. You have done your pait, you have unified your interests with the right ones—caught step with the march of progress.

It is only those who resist this march that get hurt. Don't get under the car-get in it. Going in debt to the bank means going in debt to yourself, to your family, to the general good. This should be the most sacred of your obligations and should come first. It is the "preferred creditor," and you'll find that all your other creditors will be willing to stand back while you pay it. For it insures the payment of every other obligation. A man who is saving is trusted and helped. His credit is good. He can "do things." People place confidence in him.—Chi-People place confidence in him.-Chiago Tribune.

A TURKISH SINECURE.

Easy Job of the Man Who Was Ap

Easy Job of the Man Who Was Appointed Euoy Tender.

Some years ago it was resolved to buoy the shoals in the sea of Marmora, some of which extend to a mile or more from the shore. An English naval officer was lent by the English to the Turkish government in order to carry out this and other measures.

He laid down the buoys and was surprised to find that the Turks thought that thereupon the whole business was that thereupon the whole business was oncluded. He pointed out, however, that buoys require care, that it is necessary to repaint them from time to necessary to repaint them from time to time, to pump the water out of them and to see that they remain duly an-chored in their right position. To con-vince the Turks of this took a consid-erable time; but, being at length con-vinced, they appointed a man espe-cially to take charge of the buoys. Some months later, however, the Some months later, however, the English officer heard shocking reports

computation of a ship's longitude and latitude from her movements as recorded in the log and without having recourse to astronomical observations. The chief elements from which the reckoning is made are these:

The point of departure—that is, the latitude and longitude sailed from or last determined—the course or directions.

Jiggs reflected.
"What is there funny about that?" he asked. "I don't quite catch the

MALICIOUS FRUIT.

The Stings That Come With Careless
Handling of Prickly Pears.

My first sad experience of the African prickly pear was gained on a visit to the market place of Algiers. The fruit was handed to us, politely peeled by the Arab dealer, and thus as we made acquaintance with its delightful coolness no suspicion of its evil qualities entered our minds.

A few days later, adding the excitement of a little trespassing to the more legitimate pleasures of a country ramble, we came upon a well laden group of prickly pear bushes and could not resist the temptation to help ourselves to some of the fruit. The result was woeful.

Concentrated essence of stinging net-

cally to take charge of the buoys.

Some months later, however, the English officer heard shocking reports of these buoys and many complaints of these buoys and many complaints of these buoys and many complaints of these buoys waterlogged. Here upon he wrathfully found the man in charge and demanded an explanation. The man informed him that he had never been supplied with a boat and had therefore never been able to visit the buoys since he had been in charge of them!—London Family Herald.

DEAD. RECKONING.

One Way of Determining a Vessel's Course on an Ocean Voyage.
Dead reckoning simply means the computation of a ship's longitude and latitude from her movements as re-

FIRST AERIAL POST.

The point of departure—that is, the latitude and longitude sailed from or last determined—the course or direction sailed in as ascertained by the compass, the rate of sailing, measured from fime to time by the log, and the firm the course or methods followed in arriving at the reckoning are known among navigators as "plain sailing" and "middle latitude sailing." The various principles or methods followed in arriving at the reckoning are known among navigators as "plain sailing" and "middle latitude sailing." The legend tells us that a Tartar theorem of the wind and changes in the deell-mation of the compass. The results that it is not of the compass. The results arrived at by dead reckoning, therefore, must of necessity be corrected as often as possible by observation of the envenly bodies. No navigator would risk relying wholly on this method of determining his position on an ocean vage.—New York Times.

Pointing the Point.
"I think," remarked Biggs, "one of the funniest signs I ever saw was this: "Teeth Extracted While You Wait."
Higgs laughed long and loudly at this, and shortly afterward he tried it of Jiggs.
"A friend of mine," he said, "told me of a funny sign he had seen—"Teeth Extracted While You Wait."
Jiggs reflected.

Attractions of China reveal the fact that our aerial post was fore stalled some thousands of China reveal the fact that our aerial post was falled some thousands of years ago, aptly enough by Celestial, it is true that the first postal air man was an quantite fowl, and to this day the post in China is referred to as "the contain stamps."

The legend tells sus that a Tartar chief was offensive to the Chinese emperor, who sent a special envoy to warn im. But the chief took the emperor's servant prisoner and made him benefate the his flocks. In this condition of social degradation the unfortunate envoy languished for some years until one day he captured a wild goose and his mind was illumined by the bright idea of using it to carry news of his whereabouts to his friends.

With a letter sec

Attractions of a Malsy Hotel,
We are so accustomed to reading in
the guidebooks that the local hotels
are in best in the east that it is refreshing, says the Java Times, to come
across a description of a hotel in the
fittle town of Kunla Lumpur, in the
Federated Malay States. Here are a
few points which our hotel proprietors
might notice: Bedrooms, 27 feet by 24
feet by 20 feet, each with two electric
twenty-five candle power lamps, electric bell and electric fau; a bathroom
30 feet by 12 feet attached to each bedroom and fitted with tops, floored with
colored tiles, walled with white Minorder of the seed of the seed of the colored tiles, continuous corridor 625 feet in length by 12 feed broad,
each electric hell fitted with "return"
ring, so that the visitor knows at once
whether he is being attended to.—London Globe.

Watling's Island.
San Salvador is perhaps the most in teresting historical point on the Amerlean side of the world, as it is the is land upon which Columbus first land od. Yet it has lost its name. In view ed. Yet it has lost its name. In view of the history not only of the Bahamas group, but of the American continents as well, it is far from surprising that the identity of the famous island should have been long lost or that the reffectification should have been delayed until the middle of the last centry, when Captain Becher of the British may by application of the description contained in Columbus' journal to the course from Gomera to the Baha the course from Gomera to the Baha mas determined clearly that Watling'

island alone met all requirements of the case.—Argonaut.

"What do you regard as the most re-markable work in the English lan-

guage?"
"Well," replied Miss Cayenne, "the toost remarkable work in the Englishanguage that I know of is the wascome Englishmen pronounce R."

When Christmas Came Back

It Brought With It Comfort to Two Lonely Persons By MARTHA BURNHAM

Copyright by American Press Association, 1911.

The snow lay level on the plains, but the distant ranges billowed white against a red and purple sunset. Two whiteness, kicking up the snow in little sparkling flurries.

riders, with a side glance at the hand-"And get drunk as a lord by Christmas morning?" returned the other con-temptuously. "I guess I'm pretty des-perate, Dell, but I ain't mean and small enough to do that. I've got

ome self respect left."
"So've I," rejoined Dellmore quickly. "It's darned lonesome at the ranch, and it doesn't seem's if I could sit around all day tomorrer when othsit around all day tomorrer when other folks are keeping Christmas and just hear that chink singing around in that queer Chinese voice of his. It always reminds me of how different things are than they used to be."

"You mean when you were a boy?"

"You mean when you were a boy?"

time. They're all dead now except me. I got used to knowing I was all alone, but whenever Christmas comes aione, but whenever Christmas comes around it seems as if I had to learn it all over again. I'm glad when it's the day after." Dellmore looked away and his strong, gray eyes winked rap-idly.
"Same bore." said Eban gruffy.

"Same here," said Eben gruffly.
"Of course I've had dreams of having a home some day—getting married ing a home some day—getting married and seeing children around—and I've always had the idea of Christmas in mind whenever I thought about that home. I could see the tree and the row of stockings stuffed with things that I—er—we had bought over to the Falls." Dellmore's bronzed cheek reddened to a deeper tint than the vivid sunset.

"Same here," repeated Eben Rowe hoarsely.
Suddenly Dellmore threw out his hand and laughed recklessly. "But

"Mean what?" asked the other steadences too? Of course I know about your being a boy and losing all your folks same as I did—that's a common

folks same as I and characteristic case—but about having dreams of—of—a home and youngsters and Christmas and having it all come to nothing after all!"

"Every word you've said has struck home to me," assured Eben Rowe, his home to me," assured Eben Rowe, his cast eves on his companion's face.

"On the owner, as the owner, as the owner, and the owner, and the owner, as the owne

of two years and knowing so little about each other. Maybe—maybe yours lidn't marry some other feller," he suggested shamefacedly. "She did," said Rowe briefly. "Well, he couldn't have been a pinheaded schoolteacher from the east," insisted Dellmore, as if he were jealous of his own mortification. "He was," came Rowe's astonishing reply.

The suggested was, and the were jealous of his own mortification. The was, and married Graham and gone to Ohlo. He had died a year ago, and she had falled in her efforts to support her two children. A distant backelor cousin had offered them a home on his ranch next to the one on his ranch next to the one

"Name wasn't Graham?" demanded Delimore. "It was." "Not Abel Graham?" "That's it." Eben Rowe's handsome face was bent downward. When he spoke his jaw was set grimly as if to control some emotion that would have sway.

and it? Eden rowe turned to his partner as they rode through the gate into the yard.

The other nodded. "'Tis odd. 1 s'pose if we'd talked like this before

we'd have known."

Between the partners the matter of their mutual love for the same girl was not again referred to. Each had spoken confidentially in a rare moment engendered by the sunset hour and the fact that it was Christmas eve, when hard bearts are softened and old griefs are polgmant.

poignant.

After supper Rowe and Delimore lighted their pipes and sat down to read the week old newspapers they had brought over from the Falls. If there was a hint of approaching Christ there was a hint of approaching Christ-mas in the air it might have emanated from the holly printed calendar Eben had hung on the bare walls or it might have been wafted in from the kitchen, where Wah Lee was chopping a mince-vent compounded from the united rem-hiscences of his employers. There was plenty of meat in it, and juicy apples and prunes, because there were no rai-sins in the house, a whole orange and spoonful of every sort of spice in the

pantry.
A wind sprang up and sent the purple sunset clouds to mask the starry sky. Snowflakes fluttered slowly down in the outer world, fell faster, thicker, raced before the wind and pattered dryly against the windows.
"Play crib?" asked Eben Rowe after awhile.

Delimora read-a-

Delimore nedded and produced the cribbage board and a pack of cards from a drawer.

from a drawer.

All was silence again except for the chop, chop, chop of Wah Lee in the kitchen, and dry patter of snow against the pane and the muttered counting of the two men as they played.

"Fifteen two—four—six—and"— Dell more was counting when suddenly there came a muffled thud against the outer door, followed by a clattering.

"You didn't want to stay all night outer door, followed by a clattering at the Falls, Eben?" asked one of the crash on the veranda and shrill, child-ridars, with a side clause at the hand. Without a word the two men sprane

Without a word the two men sprang to the door and tore it wide open. The scene that met their astonished gaze was a strange one indeed.

Half sprawled on the low veranda was a small horse. Crowded behind him, the front wheels tilting on the steps was a long ton wason. From

steps, was a long top wagon. the gloom of the wagon's interior glow ed a small lantern hung high against the inside, and from the wagon there came the childish cries

always reminds me of now different things are than they used to be."
"You mean when you were a boy?" asked Eben Rowe curiousty.
"Yes. There was a big family of us, and we always had a ripping old us, and we always had a ripping old where the curious the curious the curious than the curious that are the curious than the curious that are the cur shivering with cold and fright, and two little boys. The two children he car ried inside and set down before the ried inside and set down before the stove, and with a brief direction to the woman to draw near and warm herself Eben returned to the veranda and help ed Dellmore to throw a blanket under the prostrate horse and presently to get the animal upon his feet and off on to the ground. One wheel of the wagon was broken beyond repair.

While Eben led horse and vehicle out to the barn and put them up for

the door of the next room. He stood there as though paralyzed, and Eben came and stood beside him.

came and stood beside him.

The woman had removed her wrap
and muffling black veil and disclose
a small, dark eyed, rale face, abov
which rippled soft black hair. Sh
was warming the chubby fingers o very much at home there in this room, and it was all the more strange be-cause she had been living in the hearts of the owners for many years. It was Lucy Farr-Lucy Graham now.

dark eyes on his companion's face.

"It's queer, too—us being partners for two years and knowing so little about each other. Maybe—maybe yours didn't marry some other feller," he suggested shamefacedly.

"She did," said Rowe briefly.

"Well, he couldn't have been a pin headed schoolteacher from the east, insisted Dellmore, as if he were jeal, ous of his own mortification.

reply.

They turned startled questioning eyes upon each other as questions and answers flew fast.

"Name wasn't Graham?" demanded Delimore.

"It was."

"Not Abel Graham?"

"You can't get there until some time.

all over the continent, and especially in the northern part thereof. Prove that a tropical climate prevailed here at a very recent date, geologically speaking. There are, of course, other evidences, but the conclusion to be drawn from the mammoth is enough to convince us that where the temperate (or coldericlimate now is there once prevailed a hot climate, such as the now extinct monsters luxuriated in for centuries. "it's twenty miles farther along. You can't get there until some time tomorrow," said Eben decisively. "You can stay here just as well as not. One of us will ride over to the Falls and get some Christmas for the youngsters in the morning."

Some emotion that would have sway.

"Her name was Lucy Farr," he said between his teeth.

For a long while after that there was no sound save the thud of horses?

Most and 13.46 F. N. decome that would have sway. "Her name was Lucy Farr," he said between his teeth.

For a long while after that there was no sound save the thud of horses? The form the ranch which they were approaching.

"She wasn't to blame." blurted Delimore's knees and went to sleep in his arms. As his check was had against the chubby hands on his shoulder and he felt the pressure of the warf little bodies against his own his heart melted within him and tears ame into his strong gray eyes. A great cententment filled his heart, and the looked upon the evident absorption of the man and woman with indifference. It seemed as though he could look into the future, the could see his partner married to Lucy Graham, but the twins were always close to him, to Delimore. They would be his to adore, to make companions of, to love. The peace of the world filled his heart. "It seems like Christmas again." he whispered to Eben Rowe, and Eben nodded happily.

The remains of the now extinct mam-moth, for instance, which are found all over the continent, and especially in

QUEEN VENUS.

His Liking For the Color Came From His Liking For the Color Came From His Early Homespun Suits. Daniel Webster went to Dartmouth college in a homespun suit of which probably every thread was carded, spun and woven by his mother's hand from the wool of their own sheep. It was a dyed in the wool suit, and the color was indigo blue.

In the south butternut was used; but, Orbit, Mass and Gravity of the Planet Twin of Our World.

Twin of Our World.

Mercury is the nearest of known planets to King Sol, but Venus comes next, and in eccentricity of solar orbit—an eccentricity having an average of about 67,200,000 miles—is the least irregular of the planets. The distance of Venus from our earth also varies, with an average or mean of about 25,700,000 miles at her nearest, the average distance of Venus from our earth being approximately 160,000,000 miles being approximately 160,000,000 miles at her farthest. in the sumac berries and bark of Queen Venus may be called the plan

white maple and were not unacqualitied with the various dyes that root and flower, bark and leaf could be made to yield through the agency of vitriol and alum and copperas to "set" them fast, the universal standby in New England was the blue pot, par excellence the "dye pot," that stood in the chimney corner of every kitchen in that region. So Webster was fitted out in indigoblue from collar to ankle. Before reaching Hanover there came on one of those derenching rains that wet a et twin of our world, since her mean diameter and that of our earth are nearly equni. Nevertheless the differ-ence of some 200 miles in their diamence of some 200 miles in their diameters leaves Venus with about 92-100 of the terrestrial volume. Venus' mass or weight approximates 82-100 in planet, and, dividing 82-100 by 92-100, we get 89-100, which is Venus' density compared with the density of our earth. Venus' gravity approximates 82-100 that of our planet, or, in other words, a terrestrial body weighing 100 pounds would weigh only eighty-two pounds upon the surface of Venus.

en were thrown into prison. Builled in the word in the sepen but kept them awake by their guards by night, who never let them step, but kept them awake by pricking them with plus, these miserable old women were soon induced to confess anything.

The were thrown into prison. Builled in the particular in the town by day and tortured by their guards by night, who never let them step, but the word in the town by day and tortured by their guards by night, who never let them step, but the word in the town by day and tortured by their guards by night, who never let them step, but the word in the town by day and tortured by their guards by night, who never let them step, but the word in the town by day and tortured by their guards by night, who never let them step, but the word in the wo to the skin. The suit held its own, t parted with enough dye to tinge

out it parted with enough dye to tinge Daniel blue from head to foot.

Webster had a liberal stratum of sentiment in his mental makeup, and for some reason the color of his young manhood remained his favorite wear through life. He wore blue coats to his lying day. If any one ever saw him in one of a different color the fact has eighty-two pounds upon the surface of Venus.

Queen Venus exhibits phases like our moon, but possesses no moon herself. She presents a bright and thickly clouded appearance and has an atmosphere which is estimated to be from eand one-half to two times as dense as our own. This beautiful planet was seen, of course, by mankind in pre-historic ages, but the earliest known record respecting her was in 686 B. C., a record engraved upon earthenware how in possession of the British munow in possession of the British museum.-New York Tribune.

MANSARD'S ROOF.

Practically Invisible Themselves, They See, Hear and Breathe.

The crocodiles are thoroughly aquatic in their habits, and their peculiar conformation enables them to attack and seize their prey unawares. Their nestries, which lead by a long canal to the back part of their throats, their eyes and their ears, are placed on the unper part of the head, so that when in By It the Architect Won His Son's Lift
From Louis XIV.
The great hall of the Hotel de Ville
of Arles, designed by Mansard, is the who has seen it on account of the In regard to this a neighboring cafe-

y invisible. When they dive their ils and ears are closed by lids or s, and their eyes are covered by insparent nicitating membrane, are further furnished with an arment which prevents the water getting down their own throats they are holding large animals they are holding large animals. In regard to this a neighboring cafetier tells a somewhat grim story. King Louis XIV, happened to be passing through the city just at the time Mansard was superintending the completion of his creation. The roof was supported by a powerful pillar. The monarch admired the work and congratulated the architect on his design. At that moment the architect was passing through great domestic tribulation. He had a son under sentence of death, so he thought it would be a good opportunity to intercede on behalf of the lad. the water to drown them. dentition of these reptiles is pe-

WITCHCRAFT IN SCOTLAND.

Beatrice Layng's Fate at the Hands of the Mob in 1705.

That belief in witchcraft and brutal freatment of alleged witches one owned large in Scotland is shown in Stewart Dick's "The Pageant of the Forth." In 1705 Pittenween gained orth." In 1705 Pittenweem gained neuviable notoriety from a series of rosecutions of old women, and the amphiereers of the day were kept asy on both sides in defending and tenouncing the action of the magistrates. The author says:

"It seems that a blacksmith, one

en were thrown into prison. Bullied by the magistrates and ministers of the town by day and tortured by their

stuck pins in it.

"After a long period of judicial bullying she was set free or, in other words, handed over to the mob to work their will on her. Hanged on a rope between a ship and the shore, she was pelted with stones till half dead and finally pressed to death under a door. It seems that in those days no one was safe against the wildest accusations which might be wildest accusations which might be

THE ENGLISHMAN'S BATH.

A witness stated before the health commission about the middle of the tunity to intercede on behalf of the lad.

Mansard threw himself at the feet of the king and said: "Your majesty sees in the center that massive column? If you will spare the life of my son I will remove the unsightly pillar, and the roof shall stand without support."
"Mansard," replied the king, "if you accomplish that miracel I will pardon amore our lower classes. "A French to the control of the laboring that the present day our contemporary doubts if dirtier people could be found anywhere in the world than accomplish that miracel I will pardon amore our lower classes. "A French the last century that the only two occasions on which one of the laboring that century that the only two occasions on which one of the laboring that century that the only two occasions on which one of the laboring that century that the only two occasions on which one of the laboring that the only two occasions on which one of the laboring that the only two occasions on which one of the laboring that the only two occasions on which one of the laboring that the only two occasions on which one of the laboring that the only two occasions on which one of the laboring that the only two occasions on which one of the laboring that the only two occasions on which one of the laboring that the only two occasions on which one of the laboring that the present day our was immediately after birth and after death. Even at the present day our contemporary doubts if dirtier people could be found anywhere in the world that the only two occasions on which one of the last century that the only two occasions on which one of the last century that the only two occasions on which one of the last century that the only two occasions on which one of the last century that the only two occasions on which one of the last century that the only two occasions on which one of the last century that the only two occasions on which one of the last century that the only two occasions on which one of the last century that the only two occasions on which one of the laboring Mansard threw himself at the feet of the king and said: "Your majesty sees in the center that massive column? If you will spare the life of my son I will remove the unsightly pillar, and the roof shall stand without support." "Mansard," replied the king, "if you accomplish that miracle I will pardon your son, but if you fail I will hang you with him."

The architect removed the pillar without great difficulty and with the result desired. The cafetier is a philosopher, and he concludes his story with the redection that had not Mansard's son been a scamp the hall at Arles would be just like any other hall.—London Globe.

Probably a Dutch Invention of the Saventeenth Century.

ed the liquor licence question the Massachusetts Nolicense League remarked as follows:

"We are profoundly gratified at the result. To have all four cities—Lynn, Newburyport. Salem

Phases of Woburn History. The Period Between 1857 and 1861 BY WILLIAM R. CUTTER

The Woburn Budget began with the issue of June 11, 1858, with enlarged the result. To have all four cities—Lynn, Newburyport, Salem and Woburn—stay nolicense, is more than we dared hope. * * * Woburn, which prior to 1906 never had two Nolicense years in succession, has now voted 'No' for the fifth successive time.

"Lynn, Newburyport and Wo control the context as an Information of the Company of the Control of the Company of the Control of the Contro

the practical value of Nolicense be adduced? Not one quarter as be adduced? Not one quarter as a under License! Fr. Keegan does not blow his own trumpet of the house.

—We hate mortally to be talking about the weather all the time, but it was 67 degrees above zero at noon last Tuesday in the shade on the north side of the house.

—We hate mortally to be talking about the weather all the time, but it was 67 degrees above zero at noon last Tuesday in the shade on the north side of the house.

—In less than a week, Dec 21, will occur the Winter Solstice at which does not blow his own trumpet of the house.

—In response to a request from Sam and in Woburn in August, 1858, will reach their minimum length and in about 6 days later begin of the High School sent time the following the same of the well-days with the some of us remember well. The bells were rung at sunset, guns of the High School sent time the following the same of the completion of the completion of the same of the now.

In honor of the completion of the washer all the time, but it was 67 degrees above zero at noon last the days will reach their minimum length and in about 6 days later begin of the High School sent time the following the days will reach their minimum length and in about 6 days later begin of the High School sent time the following the days will reach their minimum length and in about 6 days later begin of the High School sent time the following t

The "Open Door" in Business

"No, I wouldn't advise a party-line telephone for you any more than I'd advise you to rent half your store and share your entrance with some other dealer.

"You're growing in business. You need your whole doorway.

"See that your telephone facilities are adequate, not only for present requirements, but for future needs. Don't neglect this feature. There's going to be a tremendous development in selling by telephone, during the next few years, and the man who first attracts customers will have the best chance of holding them. Mark what I tell you about this and don't have your telephone door closed when any customer calls.

Call Fort Hill 7600 and ascertain from the Rate Department how little more it will cost to have a telephone line for your exclusive use. No charge for such a call.

Mortgagee's Sale

REAL ESTATE

By (virtue l of a power of sale contained in a certain mortgage deed, given by Timothy O'Conner of Western in the Conny of Middlesex and Commonwealth of Massachusetts to Thomas Salmon, dated December 24, 1985, recorded with Middlesex South District Deeds, Book 2428, Page 321, new held by Bridger Ct. Salmon, guardian of Thomas W. Held by Bridger Ct. Salmon, guardian of Thomas W. Book 3188, Page 383, own which mortgage, the subscriber is the present holder, for the breach of the condition of sald mortgage deed, and for the purpose of foreclosing the same, will be sold at public auction on the premises thereinfart described, an

condition of said mortgage deed, and for the purpose of the bell, weighing 4200 pounds and hanging in its massive frame of oak, was placed in the open space in trout of the church. The framework was hidden by masses of chrysauthenums.

*Rev. James J. Keegan, the pastor, was Celebrant at the service. He was assisted by Rev Francis Russell and Rev. Walter S. Fegan, both of St. Charles, and Rev. James F. Doherty of St. Mary's, Cambridge, formerly a Curate at St. Charles

*The bell is a fine specimen of the founder's art, and is composed of West Indian copper and Belgian tin. It was made by the Baltimore Bell Foundry, Rev. Fr. Keegan, whose ambition was to have the bell in commission for the church of the bell, as is their custom towards severy good and worthy work.

The tone of the bell is mellow and melodious, and we hope the Sexton will ring it "early and olten."

EYES, BUT SAW NOT.

She Realized What it Really Meant to Se Blind.
Well' you ever blind for an entire cause of your life—blind in the midst a Joly company who were sewing ad conting and didn't in the least cather your plight?" asked a social orner recently. "That was what any ened to me not long ago, and I must say it was a most uncomportable

nust say it was a most uncomfortable percence. I sympathize with per-tence as have lost their sight now as

a blave lost their sight now as a bever and before.

You see, I went to call upon a young girl from my home town who is being educated in a private institution for the billind near here. I had been to see her before, and so I was prepared for the way her companions crowded about me, felt my clothes, my hands and my face and remarked everything I had on, saying. How becoming her hat is—how pretty she looks! and so on. Nor was I surprised when my friend conducted me through the classrooms, pointing out the new work and rooms, pointing out the new work and displaying some fine lace work she had started that morning, quite as though she could see it all.

started that morning, quite as though she could see it all.

"But on this visit, for the first time, I was invited to stay for supper and spend the evening with the girls. I was delighted to accept the invitation and enjoyed the meal, which was served by sighted waitresses in a well lighted dining room. But after that my experience came. We waiked from the dining room into dim halls, and as we mounted the stairs to the sitting room we walked into utter darkness. I began to envy my friend, who tripped lightly by my side, while I could only grope my way awkwardly. Once in the sitting room I felt for a chair and dropped into it, waiting for the lights to be turned on. But the laughter and the chatter went on unconcernedly about me, and after a few rinutes it dawned upon me that lights were not necessary in an institution for the blind at night; that the sitting room was no darker for those girls then than it had been all through the room was no darker for those girls then than it had been all through the then than it had been all through the beautiful, sunny day I had enjoyed so much. As my eyes grew a bit accustomed to the darkness I could perceive that the girls had drawn their chairs up around mine and were busy with embroidery and lace making as they talked.

"And for the rest of the evening I sat these trying not to let my blind.

mess fret me, not to appear stupid when the girls, forgetful of my affliction, held up their work for my inspection. That was the time I realized what it really is to be blind."—New York Press.

Civilization!

A Japanese diplomatist is said to have exclaimed: "For 2,000 years we kept peace with the rest of the world and were known to it but by the marvels of our delicate ethereal art and the finely wrought productions of our ingenious handicrafts, and we were accounted barbarians! But from the day on which we made war on other mations and killed many thousands of our adversaries you at once admit our claim to rank among civilized nations."
On reading the foregoing in the Java Times we are reminded of Professor Kenny's story of the shipwrecked mariner who at dawn came across a gibbet and exclaimed. "Thank God here is a sign of civilization?"—London Globe.

A Clever Phrase.
In a small volume of humorous let-

A Clever Phrase.

In a small volume of humorous letters and poems, one of these the classic "City of Prague," by the late William Jeffrey Prowse, there occurs the following footnote to the prefatory memoir by Tom Hood, the editor of Fun. referring to Prowse's apprentice connection with the Aylesbury News:
"I find among his papers a rough copy of verses for it about 'King Cliquot,' dated 1855, which wind up with this couplet:

couplet: "His courtiers found him out at last be-neath the table sunk."

Problematically plous, but indubitably drunk.

"It is not every lad of twenty who can pen as neat and smart a line as that last."—London Chronicle.

Pope's initials.

Alexander Pope was a victim of his initials. After the publication of the Duncind one of the poet's enemies, who had suffered a severe trouncing in the satire, declared that if you took in the satire, declared that if you took the initial letters of Pope's name and added the final letter of his surname you had his character. The "jest" caught on, and in 1728 appeared a pamphilet entitled "Pope Alexander's Supremacy and Infallibility Examined." The frontispiece to this now forgotten pasquinade represented Pope in the form of an ape, with his bead resting on his hand, and his elbow placed upon a pile of his own works.

placed upon a pile of his own works. Taking Every Precaution.

In a state of convalescence a West
Philadelphia man became hungry.
When his physician visited him the
man said, "Doctor, I'm as hungry as a
bear, but from what you tell me I
mustry est anything."

mustn't eat anything. mustn't eat anything."
"Quite correct," replied the physician, who is inclined to be somewhat absentminded, "and be sure, above expribing, else, to chew it thoroughly."
—Philadelphia Times.

Her idea of it.

"My friend the architect has a hard job on his hands."

"What's that?"

"He has a rich customer who wants him to build an Italian vendetta around her new cottage."—Baltimore American. American.

Different from other nations, we Jap-Different from other nations, we Japanese are accustomed to keep the rooms freely opened in order to facilitate the cool breeze to invade. Thus the blind is generally hanged down from the porch capable to protect those who occasionally peep in. The blind or shade is made of split bamboo or reeds. It is so fixed that one who is in the behind, the blind only could look at one who is in front place, could look at one who is in front place, or, in other words, those who sit in darker side could only recognize one in lighter side, but never vise versa.— Tokyo Life, the International Review.

Which is Which?

Above a certain cafe there are two rooms, the one being occupied by a women's "sewing circle," the other being the dining room of the cafe. Outside the cafe hangs the sign, "Grill Room Upsates."

Room Upstairs."

The German proprietor of the cafe is still wondering why the president of the sewing circle denounces the sign as libelous and demands its removal.—Judge's Library.

A THRILLING RIDE.

Flight of a Fast Mail Train to Make Up When the first really fast mail between Omaha and San Francisco reached Evanston. Wyo., at the foot of the Wasatch mountains, it was fifty minutes late. There it was met by a powerful engine in charge of a reckless engineer, Bill Downing by name. Captain James E. White, ex-superintendent of the railway mail service, tells in his reminiscences how Bill made up the fifty minutes.

The distance to Ogden is seventy-six miles. "I shall not be happy," said

miles. "I shall not be happy," said Downing to one of the newspaper re-porters who were to make the run on this first fast mail, "until I have dor that seventy-six miles in seventy-two

When he threw the lever and opened the throttle the train made a start that

ed:
"Pull the bell rope, quick, Brown, and run forward and tell Downing to stop this if he wants us to reach Ogden alive."
Then, not to risk another such second, the general manager sprang to the rear platform and twisted up the brake with all his might.
The seventy-six miles of intricately curved track were covered in sixty-five minutes. It was a hair raising record, and several passengers who record, and several passengers who went through the experience did not

recover from the shock for a long time.

Where the Fruit Grows.

A politician in San Francisco who has been in office and on the city pay roll for many years was addressing a meeting of his fellow citizens. It was a labor meeting.

"You men must know," spouted the orator, "that you are the great body politic in this city. You are the roots and trunk of our great municipal tree, while we who represent you in office are merely branches on that magnificent tree."

"True for you," piped a man in the back of the hall. "But did ye ever notice all the fruit grows on the branches."—Saturday Evening Post.

WOBURN NATIONAL BANK

Savings Department.

The beginning of successful operation of UNITED STATES POSTAL SAVINGS BANKS, and the possibility of legislation, by Congress, looking to the establishment of NATIONAL SAVINGS BANKS, as outlined by Senator Aldrich, in his tentative plan for a new banking law, seems to indicate a popular demand for places of savings under the control and supervision of the UNITED STATES GOVERNMENT

GOVERNMENT. To meet this legitimate demand and to extend increased banking facilities to the people of Woburn and vicinity, the WOBURN NATIONAL BANK has opened a new department to be known as its SAVINGS DEPARTMENT, and will receive deposits of money to bear interest FROM DATE OFDEPOSIT at the rate of three per centum per annum on sums not less than \$100. These deposits however will not be subject to check.

All deposits in this bank are GUARANTEED by its capital stock of \$100,000, its surplus and undivided profits December 31, 1910, of \$68,860.34, and by the personal liability of its responsible stockholders to the extent of an additional \$100,000.

These directors give its affairs their personal attention:

Daniel R. Beggs of Beggs & Cobb, leather manufacturers. William E. Blodgett, Treasurer of R.Guastavino Co John C. Buck, Cashier.

Robert Chalmers, Physician Everett P. Fox of W. P. Fox & Sons, leather manufacturers. John W. Johnson, President. Edward F. Johnson, Judge of District Court.

And Santa Claus Came In at the Door

By F. A. MITCHEL

Copyright by American Press Asso-ciation, 1911.

mas day, 5 o'clock in the afternoon and so near Christmas eve as to be appalling to Joe Tooker, before whom was the prospect of spending Christmas Joe occupied rooms in a tenement building, and next door on the same floor lived a widow with three children, the oldest being a very pretty children, the oldest being a very pretty girl of nineteen. Joe had caught several glimpses of the girl and many an evening when in his room alone had wished that he might go in next door and sit with the family, but he had no one to introduce him. The partition that separated him from their apartments was thin and now as a sentence. ments was thin, and now and again when the family were in the room ad-joining his he could catch bits of their

He judged from these that they wer would hear some complaint from the mother, always to be followed by a comforting word from the daughter, and in a very sweet voice. Then one of the children would be disgruntled,

to be soothed by the sister.
"That girl is an angel," said Joe to

"That girl is an angel," said Joe to himself.

As I was saying, it was about an hour before Christmas eve when Joe entered his lonely room and sat down to read an evening paper before going out to got his dinner at a restaurant. His folks lived too far away for him to come to him. He knew few people in the place and none so intimately as to secure an invitation for even a Christmas dinner. The consequence was that he dreaded Christmas eve and Christmas day and Christmas night. He wished he could go to sleep and remain asleep until the morning after Christmas. While he was thinking of his lonely lot he heard a voice on the other side of the partition, the voice of a complaining child.

"Whe went we heard device of the day of the partition, the voice of a complaining child.
"Whe went we heard a voice on the while he was mentally repeating what he had heard Jennie say of him—that was a prefectly lovely."

a complaining child.
"Why can't we have a turkey tomor-

ow, mamma?"
"Turkeys are very expensive this season, dearle. We can't afford one. We're going to have a nice hamburger steak instead. You know how fond you are of that."
"I don't want hamburger steak on Christmas. I want turkey. We're not going to have any Christmas at all this year. Jennie says we musthy expect.

At 2 o'clock to the second he knocked at the next door, and when it was opened by Jennie, her face beaming, he said that his friend Santa Claus had transmitted to him an invitation to dinner. He told them he roomed next door and his name was Joseph Tooker. Mamma received him graciously, and the children climbed up on him and asked him to tell them all about his friend Santa Claus, since he must know just how Santa lived, where he got his toys and how he could visit so many children all in one night.

The turkey Joe had sent was done to a turn, and the celery and the cranberry sauce and the other things were all on the table, and mamma said that, since the dinner had been left by his friend Santa Claus, he must carve in place of Santa. So Joe, after, whetting the carving knife on the steel, went at the turkey unmercifully, and in a few minutes it was lying in a heap on the dish. Jennie says we mustn't expect Santa Claus has sent a note that he is going to pass us over. I'm going to hang up my stocking anyway, and if he doesn't put anything in it I'll write him a letter telling him how mean I

"So will I," came another little voice. Then the speakers went into another

idea popped into Joe Tooker's. It was the biggest, most original, most daring idea that the modest stunned by it, for some time, revolving in his mind various features concerning it; then, suddenly getting up from his chair, he hustled on his overcoat and hat, rushed out, slammed the door behind him and ran downstairs two steps at a time. steps at a time.

The first place Joe stopped at was a

in a few minutes it was lying in a heap on the dish.

That was a dinner. After it was finished mamma "did" the dishes while Joe and Jennie amused the children, and when mamma had finished her work she took the little ones into her room to read Christmas stories to them, leaving Jennie to entertain Joe.

And you may be sure this was the best part of the day for Joe, since Jennie kept all the time telling him that he was a "noble, good man" and a wfully clever to think of personating Santa Claus, and—well, they were both as happy as they could be.

That was the beginning of Joe Tookmeat market, where he bought a tur-key and celery and cranberries and key and celery and cranberries and opsters for the dressing and other things good to eat. Then he went to a toy shop and gathered in such triffes as children prize. He dare not trust to having them sent home, the hour being late, and took everything he bought with him. But he was big and strong and could have carried three times as much Lastly be locked to imes as much. Lastly, he looked in a irectory for the address of a costume and finally found one. Going to the place, he told the proprietor to fit him

place, he told the proprietor to fit him out at once as Santa Claus.

Returning to his room, he deposited his purchases and went out again to get his dinner. About 9 o'clock he went back, taking more toys and two bouquets of flowers with him and spent the evening arranging for putting this wonderful idea of his into practice. He had beard at various practice. He had heard at various times enough through the partition to know the names of those on the other side, so he marked the toys, some "Billy" and some "Lucy." On one of the bouquets he tied a card on which he wrote, "To Mamma From Santa Claus." and on the other, "To Jennie From Santa Claus."

That wasn't a lonely Christmas everor joe Tooker at all, though he was He had heard at various

breath at what he considered the daring deed he was about to perform then he would brace up and say, "Non-sense! Bosh! Pooh! Pooh! I'm not afraid!" and in another half hour would have to brace up all over again. That night Joe didn't sleep more than four hours at most. He awoke long before daylight and watted till be beard a tiny voice say in a disap.

he heard a tiny voice say in a disap-bointed tone, "Oh. mamma, Santa hasn't been here at all." Then he got up, put on his hired suit and gave three loud raps on the partition. He heard some one say "What's that?" and rapped again. Then he

said in a sonorous voice:

"I'm Kriss Kringle. Your chimney
is stopped, and I couldn't get down to
bring your gifts. If you will let me in
at your door you shail have them."

Pretty soon a child's voice cried out:
"In a few minutes Mr. Sante Cours...

just as soon as mamma and Jennie are

dressed."
When the toilets were made there came a rap from the other side, and a child's voice said, "All right, Mr. Santy; you may come in now."
Then Joe, gathering up the turkey and the other entables and the toys and all rigged out as Santa Claus, his mask having a very red nose and a white heard and wasting a Ur coat.

white beard, and wearing a fur coat, went into the hall and found the next door standing open, with mamma and Jennie and Billy and Lucy all looking with eyes wide open to see what was going to happen.

to mamma and one to Jennie. Theu, insting the turkey and the other eatables on a table, he began to hand toys to Billy and Lucy alternately. He gave a jumping jack to Billy and a doll to Lucy, then a ball to Billy and a set of dishes to Lucy. And never in his life did he enjoy anything so much us watching the big eyes of the young sters, eager to see what was coming next. He kept it up till his stock was exhausted, then turning, said:

exhausted, then turning, said:
"Goodby. This is my last visit. Be

sure to have your chimney fixed be-fore next Christmas."

fore next Christmas."
"Won't you breakfast with us, Santa Claus?" said mamma.
"Not this morning. It is too late. I must take my reindeers back to where I can give them their breakfast. Besides, the children are awaking, and I don't like to have them see me."

Sad Feelings.

LEGALIZED NICKNAMES.

They Appeared in Official Records In Colonial Times.

Nicknames are not likely to go out of fashion so long as human nature remains what it is. Schoolboys will nickname each other, collegians will nickname their professors, and soldiers will speak of their commanders as "Hell Fire Bill," "Fighting Joe," or what not. In these days, however, it

is not customary to spread such titles upon official records, as was formerly the habit, according to the archives of several of our states.

In the Dutch records in 1644 we have John Pietersen, alias Friend John. In the Newtown purchase from the Indians, dated in 1656, one of the boundaries is "by a Dutchman's land the indians, dated in 1656, one of the boundaries is "by a Dutchman's land called Hans the Boore," and in the Bushwick patent, dated Oct. 12, 1667, one of the boundaries is "John the Swede's mendow." In 1605, in the Kings county records, a man is named living at Gowanus as "Tunis the Fish-er." The common council of New York In 1691 ordered fish to be brought into the dock "over against the city hall or the house that Long Mary former-ly lived in," and in the same year an

HIRED NEWSPAPERS.

Custom In London In the Days When

Prices Were High.

A London newspaper, the Daily
News, has unearthed an interesting document which goes back to the days of dear newspapers, when these papers were taken around to houses and hired for so many hours at so much an hour. Tucked away, it says, in the leaves of an old guidebook to the Crystal palace, dated 1854, has been found a little printed leaflet, issued from Westerton's library and newspaper office, 20 St. George's place. Hyde Park Corner, making the following announcement: "Can be had from the office by 8 ent which goes back to the days

making the following announcement:
"Can be had from the office by 8 o'clock in the morning, to keep at 10 cents per copy, or lent to read for three hours at 25 cents or two hours for 18 cents per week. It can also be supplied at 5 o'clock in the afternoon at the reduced price of 6 cents per copy or posted into the country at \$5 per quarter, payable in advance."

In those days the Daily News had been started only eight years under the original editorship of Charles Dickens and was still published at 10 cents ens and was still published at 10 cents ı copy. Its editor at the time was William Weir, and Harriet Martineau, perhaps the first woman in England to undertake regular journalistic work, was one of the writers of its leading articles.

articles.

The system of hiring did not disappear quickly. Certainly down to the year 1880 there were many households in which the Times was still left on the same terms, and it would be difficult to say when the system finally died out.—Christian Science Monitor.

The temple being finished and also

he wall around the city (chapter vi

15; Ez. vi. 14, 15), they are better pre pared to hear the word of God in or der to do it. The Lord Jesus said one day when some one said what a bless ed woman His mother was, "Yea, rath er blessed are they that hear the word of God and keep it." On another oc-casion He said, "My mother and My brethren are these which hear the word of God and do it" (Luke xi, 28: viii, 21). Ezra was a priest and a ready scribe in the law of Moses and It lived in," and in the same year an order was passed "that Topknot Betty and her children be provided for as objects of charity."

The explanation of this custom in many cases was that the persons in question either had no family names or had forgotten them, so that the us af their generally accepted nicknames became a necessity. So numerous were the Smiths living upon Long Island that it was thought necessary to distinguish the various original families by some peculiar name. Thus we have the Rock Smiths, the Blue Smiths, and the Weight Smiths.—Harper's Weekly. had prepared his heart to seek the law at the water gate (verses 1, 3), or, as in xil, 37, the fountain gate. In Jer il, 13, the Lord calls Himself the fountain of living waters, and in Eph v, 26, he is said to sanctify and cleans. v, 26, he is said to sanctify and cleanse His people with the washing of water by the word. Compare also Ps, cxix, 9. It was a long session from morning until midday (verse 3), and they kept it up from the first day unto the last day of the feast (verse 18), and there was very great gladness, with confession of sin and separation from the world (viii, 17; ix, 1-3). It is interesting to notice just thirteen men associated with Ezra in verses 2 and 7, and Dr. Buillinger calls attention to 7, and Dr. Bullinger calls attention to the first use of thirteen as associated with rebellion (Gen. xiv, 4). It was from the results of persistent rebe

from the results of persistent rebellion that Ezra was seeking to lead the people back to God. It was at the thirteenth march around Jericho that the walls fell, and this coming back to God from all their wanderings was like the overthrow of a spiritual Jericho. There were just fourteen with Ezra, a twice seven, suggesting the perfection of God's dealings with His becole. There was one with Ezra inbecole. eople. There was one with Ezra in-isible to ordinary eyes, the only one vorth considering, and His great word of encouragement is always, "I am with you" (Ex. iii, 12; Josh. i, 5; Judg.

of encouragement is always, "I am with you" (Ex. iii, 12; Josh. 1, 5; Judg. vl. 10; Isa. xli, 10; Hag. 1, 13; ii. 4). The response of the people and their attitude before God seem to indicate that their hearts were right with Him, and the heart is everything (II Chron. xvi, 9; I Sam. xvi, 7).

Reading and exposition of the word of God are the great need of souls everywhere, and verse 8 seems to cover it simply and fully, "They read in the book in the law of God distinctly and gave the sense and caused them to understand the reading." In Deut xxvii. 8; Hab. ii, 2, the instructions were to write plainly that those reading might run and tell. The way of Baruch in Jer. xxxvi, 8, is a good way, "Reading in the book the words of the Lord in the Lord's house." Just the word of God without note or comment or explanation has often wrought the salvation of a soul by the power of the Holy Spirit. Sometimes the Lord uses the human instrument to open up the word more fully, as in the case of Philip and the Ethiopian who said to him, "How can I understand except some man should guideme?" (Acts vilii, 30, 31). On the resurtand except some man should guide ne?" (Acts viii, 30, 31). On the resur-ection day the Lord Jesus expounded rection day the Lord Jesus expounded or interpreted the Scriptures to the two men with whom He walked to Emmaus and the same evening opened the understanding of the disciples that they might understand the Scriptures (Luke xxiv, 27, 44, 45). The words of the Lord, in the power of the Spirit, as Ezra and the Levites taught the people, convinced them of sin, and they wept, but the same spirit who convinces of sin also convinces of righteouness (John xvi, 8-10) and

st, and they wept, but the same spirit who convinces of sin also convinces
of righteousness (John xxi, S-10) and
shows that where there is true penitence there are the blotting out of sin
and the imparting of perfect rightcousness, so that one can say. "In
the Lord have I righteousness and
strength" (Isa. xliii. 25; xliv. 10.5) the Lord have 1 righteousness and strength" (Isa. xilli, 25; xiv, 24). Com-pare II Cor. v, 21; Rom. x, 4. Our lesson chapter is a seventh month chapter (verses 2, 14), beginning with the feast of trumpets and ending with the feast of tabernacles, but between the feast of tabernacles, but between the two came the great day of atone-ment (Lev. xxiii, 24, 27, 34), the only true ground of all real joy (Lev. xvii, 11; Gal. iii, 13). "Mourn not nor weep! 11; Gal. iii, 13). "Mourn not nor weep; heither be ye grieved; neither be ye borry" (verses 9, 10, 11); reminds us of the words of the Lord Jesus to penitent sinners, "Son, be of good cheer; daughter, be of good cheer; (Matt. ix, 2, 22, R. V.). We think also of the Ethiopian who went on his way rejoicing, of the jaller and his household who rejoiced, believing in God; of the great joy in Samaria, of the joy in heaven over one sinner that repenteth heaven over one sinner that repenteth and of the joy and peace, the unspeak-able joy, which is the privilege of every believer (Acts vill, 8, 39; xv1, 34; Lu. xv, 7, 10; Rom. xv, 13; I Pet. 1, 8).

ter, known as Barry Cornwall, who wrote the well known poem— I'm on the sea! I'm on the sea! I am where I would ever be!

I am where I would ever be! was the very worst of sailors. When we read that he was so seasick that he could scarcely bear the sound of a human voice it becomes apparent that his wife's conduct during his affliction could reachly bear the seasons bear the seasons. could scarcely have been reassuring.

As he lay on the deck of a channel boat, covered with shawls and a tarboat, covered with shawls and a tar-paulin, she had the pleasing habit of humming a strain of his jovial sea song. The poet who loved the sea, but loved it best at a distance, had very little life just then, but what force he had was used in the extreaty: "Don't, my dear! Oh, don't." Yet no doubt he loved the see

The Popular Tailor

Announces the Spring Styles on exhibition at his TALLORING CHAMBERS Nos. 1 to 2 Mechanics Building at 415 Main St., Woburn, where he carries the largest line of samples of the latest designs in both Foreign and Domestic Woolens of any tailoring establishment in the County. "All fresh from the Loums," and is prepared to take orders for Suits, Overconts and Thronsers at popular prices. Repairing, Cleaning and Pressing done at short notice and best workmanship. Don't forget the name and number, as it guarantees the best results for your money.

Chambers 1 to 2.

WASHINGTON'S ETIQUETTE.

It Didn't Do to Take Liberties With Our First President. President Washington never went to congress on public bushness except in a stagecoach drawn by six cream colored. horses. The coach was an object which would excite the admiration of the throngs even now in our streets. It was built in the shape of a hemisphere, was built in the snape of a nemisphere, and its panels were adorned with Cupids surrounded with flowers and fruits. The coachman and postilions were arrayed in gorgeous liveries of white and scarlet.

The Philadelphia Gazette, a government over regularly gaze out court

ment organ, regularly gave out court news for the edification of the citizens. From this journal the people were per-mitted to learn as much as it was deemed proper they should know about deemed proper they should know about the president's movements, and a fair amount of space was also devoted to Mrs. Washington, who was, however, not referred to as Mrs. Washington, but as "the amiable consort of our beloved president." When the president made his appearance at a ball or a public reception a dats was erected for him, upon which he might stand apart from the throng, and the guests or visitors bowed to him in solemn silence. "Republican simplicity" has only

"Republican simplicity" has only come in later times. Very few person

"Republican simplicity" has only come in later times. Very few persons presumed to shake hands with General Washington. One of his friends, Gouverneur Morris, rashly undertook for a foolish wager to go up to him and slap him on the shoulder, saying, "My dear general, I am happy to see you so well." At least there is a tradition to that effect.

The moment fixed upon arrived, and Mr. Morris, already half repenting of his wager, went up to Washington, placed his hand upon his shoulder and uttered the prescribed words. Washington, as the story has it, stepped suddenly back, fixed his gaze upon Morris for several moments with an angry frown until the latter retreated abashed and sought refuge in the crowd. No one else ever tried a similar experiment. No royal levees were more punctiliously arranged than those of our first president.—New York Press.

Restaurant Etiquette.
When a man escorts a lady to a restaurant he pauses at the entrance with her until the head waiter indicates the seats they are to occupy. The head waiter precedes the woman to the table, the man following. The waiter may remay the lady's cost if she has up her chair. If he leaves this service to the waiter he should under no circumstances take his seat until the lady is comfortably settled. The same rule applies when leaving the restaurant.—Baltimore American.

SMALLEST OF SCREWS.

They Look Like Specks of Dust and Are Used in Watches. The smallest screws in the world are made in a watch factory. They are cut from a steel wire by a machine, but as the chips fall from the knife it seems as though the operator were simply cutting up the wire for his own amusement. No screws can be seen, and yet a screw is made at every third

and yet a screw is made at every third operation. The fourth jewel screw is next to in-yisible, and to the naked eye it looks like a grain of dust. With a magnify-ing glass, however, it is seen to be a screw with 260 threads to the inch, and with a very fine glass the threads may be seen quite clearly.

may be seen quite clearly.

These little screws are four one-thousandths of an inch in diameter. It is estimated that an ordinary thimbl would hold 100,000 of them. million are made in a month, but n attempt is ever made to count them. In determining the number 100 c . In determining the number 100 of them are placed on a very delicate balance, and the number of the whole amount is calculated from the weight. All the small parts of the watch are counted in this way, probably 50 out of the 120.

After being cut the screws are hardened and put in frames, about 100 to the frame, heads up. This is done very rapidly, but entirely by the sense of

Transporting a Treasure

Every Effort to Possess It Was Made by Robbers

By ELMER GRANTBY

China dwelt a cobbler called Wu Tung. and the first thing he did after reach ing it was to touch a concealed spring in the wall, a tiny door flew open, and in a space not two inches square was a

man, Ching Fang, so poor that he and his family were starving. One day this poor fellow told Wu Tung that his

would support his family during his absence.

Ching Fang said he would try to think of some method of outwiiting the thugs and, going to his house, laid the matter before his wife. Wee Sing Ching Fang was not a bright man at all, but Wee Sing was a very ingenious little woman. Besides, here was a chance to save her husband from the necessity of being beheaded. Never theless fit took her a week to hit upon a plan that promised success. As soon as she had proposed it Ching Fang went to the cobbler and told him he would undertake to deliver the diamond in Peking, but that he would his majesty's jewels. The letter had a made an incision, placed the diamond in it and treated the heal-diamond in land treated the diamond in land treated the diamond in land treated the heal-diamond in land treated the heal-diamond in land treated the heal-diamond in land treated the diamond in land treated the fall the diamond in land treated the diamond in land treated the diamond her belief the diamond was to be been treated the dia

Three months from that day Ching Fang, after executing papers that would put his family at Wu Tung's mercy in case he proved dishonest with nothing but the clothes he ware, set out upon his journey. He had been very secret as to his interviews with his principal, but knew full well that he had been observed. He was walking on a road not far from his starting point when a man caught up with him and entered into conversation. Ching Fang felt assured that he was after the diamond, but chatted with him freely. The man said he had means with which to sleep at an inn and in the dish ellow traveler to share his bed with him. Ching Fang assented with evident thankfulness since he carried no money for his journey and would otherwise have been obliged to sleep in the open air. So the two stopped at an inn, and the stranger ordered some supper, of which they both partook, then went to bed.

Ching Fang slept soundly, and when he awoke the next morning the stranger processed of a quarter of a million of dollars. Three months from that day Ching again.

Ching Fang slept soundly, and when he awoke the next morning the strain ger had disappeared. Ching Fang's ciothes were scattered about, giving dollars.

evidence that the man had gone through them.

Though Ching Fang bore a diamond worth many thousands of dollars, he had not the wherewithal to buy food, for money would have been taken from him. He begged, he stole, he used every conceivable means to satisfy his hunger and keep enough strength to travel. Now he would get a vegetable from a garden, now would steal a mouse, a rat or a kitten, for on these animals the lower grade of Chinese subsist, but he managed to oget rice enough to keep his strength without the other tuxuries.

On the third day after he had set out he was stopped by a band of robbers, the leader of whom said to him: "A runner has brought us word that you are the bearer of a valuable diamond. Deliver it to me or die?" "What absurdity is this?" cried Ching Fang. "My family are starving, I could not bear to see them die, so I left them and am going through the country, begging my way."

But the robbers paid no attention to

so I left them and am going through the country, begging my way."

But the robbers paid no attention to his words. They took him into a wood and, beginning at his hair, examined every part of his body and clothing. Stripping him, they held up his clothes, feeling every part and ripping open any seams that might contain the gem. The thick soles of his shees they cut into bits. No diamond was found. Not satisfied with their search, they told him that if he would not reveal the place where he had hidden it they would kill him. They even forced him to kneel with his hands tied behind his back, and one of them raised a sword over him. But he submitted to all this without a word, and the robbers, convinced that he did not the robbers, convinced that he did not have the diamond, desisted and let

nim go.

Though the poor man was left with his clothes badly torn and his shoes destroyed, he went on with a light heart, for he felt that no worse test than this could be put apon him. He had feared most to be followed from Karakash and next to be stopped by those to whom information of his movements had been forwarded. He now hoped that both these dangers and been passed, indeed, he was waylayed by only one more party, who in the wail, a they door flew open, and in a space not two inches square was a diamond the size of a hickory nut. The cobbler took the stone in his hand, examined it carefully, put it back in its place and closed the door. The next morning before going to his shop he repeated this process, his examinations being made for the purpose of making sure that the stone had not been stoten. Now, Wa Tung was not a cobbler at all, but a diamond merchant. He had purchased the diamond from a rajah in India for a third of its real value, the rajah being in aced of ready cash, and had crossed the border into China intending to take it to leking with a view to selling it to the emperor. But he well knew that the transportation of such a valuable article across the whole of that vast territory would be well airh impossible. Both the Indiams and the Chinese are very cunning, and if it were known that he was travelling with so great a treasure he was sure to lose it by the way.

Wu Tung was as subtle as his enemies. He sent a man out bearing a chrystal instead of the diamond with the stone so carefully concealed that the thought no one would find it. If it beking be most to be followed from Karakash and next to be stopped by those to whom information of his wore more merchand been forwarded. He now boped that both these dangers had been passed. Indeed, he was way had been passed. Indeed, he was way had received information concerning him, and being the been passed. Indeed, he was way, and been passed. Indeed, he was way,

ported to him, and he started in his real character of merchant by fre-quented routes, for he feared that he might be stopped by persons suspect ing that he bore the diamond. When he reached Peking he mer Ching Fang at a piace that had been agreed upon before the latter started, and they pro-ceeded to the disposition of the dia-mond.

The first thing necessary was to re move it from its hiding place. They called on an American surgeon who treated the family of the American place, and he was about to accept the offer. Wu Tung, thinking that a man so desperate would, if any one could, carry his diamond through to Peking made a confidant of him, telling him that if he succeeded in doing so be would give him a quarter of his profit, which would enable him to live like a nabob for the rest of his life. Tung would support his family during his absence.

Ching Fang left Karakash a surgeon made an incision, placed the surgeon made an incision minister and other foreign residents at the capital and imparted to him their screen. They were conducted to an operating room, where Ching Fang and the capital and imparted to him their screen. They were conducted to an operating room, where Ching Fang room, where Ching Fang and the capital and imparted to him their screen.

he would undertake to deliver the diamond in Peking, but that he would mont be ready to start for several months and that meanwhile Wu Tung must keep his family from starving Wu Tung agreed, provided Ching Fang would commit his plan to him, where monthe latter placed his lips against the former's enr and whispered the secret.

"Done," said Wu Tung and handed him a hundred taels to bind the bar gain.

Three months from that day Ching Tagain.

FALCONRY IN JAPAN.

An Expensive Sport, Requiring a Serving Man to Every Bird.
In the east falconry is still the sport of kings. Talko Sama, the most ingenious of warriors, brought the sport

the art in the eastern world which fills a hundred volumes and the hawking establishment entails heavy outlays.

There is a serving man to every hawk and a number of others who aspire to enter the service of the imperial bird. One gets an idea how carefully these men are trained by seeing the aspirant servants stand for hours at a time with outstretched hand, hold have a class of mates filled to the large at a time with outstretched hand, hold ing a glass of water filled to the brim. It is only when they can do this, with out fatigue and without spilling a drop of the water, that they are intrusted with one of the precious birds, for if the wrist should give ever so little under the hawk he is startled and sprends his whore which according to under the hawk he is startled and spreads his wings, which, according to Japanese ideas, is very unsightly and interrupts his training as well as ends the career of the aspirant serving man. But, though the wild ducks never escape, what is still more remarkable is that they are never maimed or man gled. The hawks, whose claws and talous are kept wonderfully manicured and inspected every day by the chief.

and inspected every day by the chief hawker, strike their quarry a stunning blow and invariably bring them down to be retrieved, but not a drop of blood is shed.—Metropolitan Magazine.

LAYING THE TABLECLOTH.

It Was Almost a Work of Art In the Sixteenth Century. In the twelfth century tablecloths were very large and were always laid on the table double. For a long time they were called "doubllers" for that they were called "doubllers" for that reason. The cloth was first placed so as to touch the floor on the side at which the guests sat; then all that re-mained was folded so that it just cov-ered the table. Charles V. had sixty-seven table-cloths which were from fifteen to twen-ty yards long and two yards wide. He had one cloth thirty-two yards long.

In the sixteenth century "doubliers" were replaced by two tablecloths, one of which was small and was laid just as we lay ours today. The other, which was put on over it, was large and of beautifully figured linen. It was skillfully folded in such a way that, as one chonicler tells, "it resembled a winding river, gently rufled by a little breeze, for among very many little folds were here and there great bub-In the sixteenth century "doubliers" breeze, for among very many little folds were here and there great bub-

care to make dishes, plates, saltcel-lars, sauce dishes and glasses stand steadily in the midst of this undular all sides of the table came into genera use.—New York Tribune.

Stepmothers.

The statement was made by a physician at an inquest in London that all stepmothers are instinctively cruel to stepchildren.

A false accusation!

The American who reads it will recall at once the boyhood of Abraham Lincoln. He had a stepmother. Night after night she used to take him upon her knee in the rude frontier cabin and teach him to read by the flickering light of a fire log. She it was who, in spite of the opposition of the father, scrimped and saved that Abe might go to school. No natural mother ever surpassed her as the guardian angel of a

The Pessimist.
Tommy-Pop, what is a pessimist?
Tommy's Pop—A pessimist, my son, is a man who loves himself for the enemies he has made.—Philadelphis

POEMS WE MISS.

Epics of the Great Events In Our Na-tional History, We have many volumes of commem-

genious of warriors, brought the sport to Japan with him from Korea and some of the imperial hawks of today, they say, are descended from his fledglings.

It is a costly sport, perhaps the emperor's greatest extravagance. At his orders and at his expense men learned in falcoury have compiled a history of the art in the eastern world which fills a hundred volumes and the hawking establishment entails heavy outlays. Aenelds those wonderful expeditions across this continent—the travels of Lewis and Clark, the settlement of the forty-niners, the opening up of Alaska, the rectamation of the deserts and the founding of Texas. How otherwise than through poetry are our children to possess the beauty and the glory and the spiritual grandeur of the saga figures who founded this marvelous union of states, of those heroes who "highly resolved" and so highly achieved? It is true Walt Whitman chanted the song of democracy, but chanted the song of democracy, but his chant is a magnificent prophecy of

London Have Suffered.

It is a difficult thing to kill a city, and there are some well known places that have so much vitality that they will survive any number of disasters. Take Rome as a first example. No fewer than ten times has she been swept by pestilence. She has been burned twice and starved out on six occasions. Seven times she has been besieged or bombarded. But she still fourishes. Parknays that is why she

besieged or bombarded. But she still flourishes. Perhaps that is why she is called the Eternal City.

Paris has had eight sieges, ten famines, two plagues and one fire which devastated it. We make no reference to the number of revolutions, as they are the authorists to wention.

Constantinople has been burned out nine times and has suffered from four plagues and five sieges. There are some people who think that many of the sultans have been as bad for the city as any pestilence. And yet she

lis. London began as a kind of mound in a swamp. In her early history she was sacked, burned and all her inhabitants butchered. She has been deci-mated by plague five times, exclusive of typhus, cholera and such maladies,

says the Scientific American, is so elastic that it may be compressed laterally in diameter by a blow or by pressure, applied at the center of area, at right angles to the surface at that point, by one and a half centimeters or when the structure of the surface at that point, by one and a half centimeters or veck or railway accident, is a more about structure of a nucle recovering or less natural or reasonable fear, as its original diameter and form without

The material of which our bones is made is so highly resistant that a cylindrical piece thereof only one square millimeter or 0.041 inch in diameter) has a tensic respect to fifteen the first and the square of th strength of fifteen kilograms or thirty-

hygienic exhibition. Dresden, support-

was constructed by the Hon. C. A. Parsons at his works at Newcastle-on-Tyne. The Turbinia, a small vessel, as hundred feet in length, made her trial trip Nov. 4, 1894. The system rapidly developed owing to increased speed of a the vessels fitted with turbine engines and the economy effected in coal. Improvements were made in their construction, and today the turbine ship is popular the world over.

Cheering Her Up.
"My dear, congratulate me."
"What has happened?"
"Jack Darlington has asked me to be his wife."
"Oh, I'm not going to congratulate you on that account. He was almost the worst husband I ever had."—Chicago Record-Herald.

Future Possibility.

"I shall never shake hands with posterity," sighed the poet.
"Nonsense," said the comforting critic. "It will give you the 'shake,' all right."—Atlanta Constitution.

"Was constructed by the Hon. C. A. Parsons at his workers at Newcastle-on-Tyne. The hunters who have been through an Irish fam to plot the skin and the eighth of an inch of the spud next to othe peel is the best part of a baked murphy," said the proprietor of the best and most popular restaurant uptown. "But I'm one of the few, and every potato before it goes into the veen in my kitchen its scrubbed with a brush so that not a speck of sand remains. Besides, we bake none but the big, smooth potatoes. I seel more baked potatoes than any two restaurant uptors and the veen in my kitchen its scrubbed with a brush so that not a speck of sand remains. Besides, we bake none to the big, smooth potatoes. I seel more baked potatoes than any two restaurant into the big, smooth potatoes. I seel more baked potatoe with no seasoning but sait has a fine flavor, a more truly potato flavor, than can be got with out the best of vegetables."—New York Sun.

Future Possibility.
"I shall never shake hands with posterity," sighed the poet.

FEAR AS A MALADY

Physicians Now Recognize Many and Strange Phobias.

PHASES OF MORBID FRIGHT.

ersons Otherwise Strong Mentally May Develop a Dread of Open or Closed Places, of Crowds, of Solitude and, In Fact, of Anything.

Fear as a disease had not received serious attention until recent years. Now it is recognized by the medical profession that there is a whole list of phobias, as they are called, which are quite distinct from a normal and legiti-

acts which may be occasioned by these persistent ideas of fear. Those that possess the fear of riding on

that possess the fear of riding on a train find no pleasure in traveling; those that have fear of closed places do not enjoy going to church and generally always sit near the door ready to fly at the first sign of danger.

Various fears may also develop in connection with the occupation of the patient—for instance, barbers sometimes suffer these attacks whenever they see a rayor or telegraphers when they catch sight of their instru which finally necessitates giving up

that the glass might break and cut them.

The intellect in these cases is not only undisturbed, but may be unusual-ly good. Patients exhibit throughout a prononced feeling of mental illness and frequently a clear insight into the morbidity of the individual symptoms.

The more common of the various

thanatophobia, fear of death THE HUMAN SKULL.

Many a Fracture is Averted by its Great Elasticity.

Fortunately the human skull, although composed of bones, is elastic, much more so than one would think. The average male adult skull, in fact, sare the Scientific American is so

The Woburn Journal

Telephone 55 Residence 280.

P FRIDAY, DEC. 28 1911

A FAMILY REUNION. Clarigold Hall in Reading, just across the Woburn line, was the scene of a notable family reunion last Monday, Dec. 18, which was participated in and greatly enjoyed by several scores of ladies and gentlemen of Reading, Woburn and other neighboring towns and cities.

Chicago next June, is weakening, the office successfully several years.

Lovers of good music should attend the church meetings and Sunday be four through the West, which some construe as meaning that he has thown up the sponge.

Meanwhile, the Roosevelt stock

Meanwhile, the Roosevelt stock

Meanwhile, the Roosevelt stock

Meanwhile, the Roosevelt stock is sixing in the market, which felt by the ice dealers in this city con.

nand otner neighboring towns and cities.

The reunion was the coming together of the Clarke family—Professor William H. Clarke, the famous organist, composer, and writer on music and kindred themes; his wife, a member of the old Richardson family of Woburn; and their five sons, Willard, Edming of the Woburn; and their five sons, Willard, Edming of the Woburn; and their five sons, Willard, Edming of the Woburn; and their five sons, Willard, Edming of the Woburn; and their five sons, Willard, Edming of the Woburn; and their five sons, Willard, Edming of the Roosevelt.

House, says he don't care who the thouse, says he don't care who the trials for the Christmas dinners cheap the results of the cheap the results of the the results of the the results of the manufacture of the ice to prove the title by the ice dealers in this city concerning a failure of the ice to put the field by the ice dealers in this city concerning a failure of the ice to put the field by the ice dealers in this city concerning a failure of the ice transfer to the field by the ice dealers in this city concerning a failure of the ice to put the field by the ice dealers in this city concerning a failure of the ice to put the field by the ice dealers in this city concerning a failure of the ice to put the field by the ice dealers in this city concerning a failure of the ice to put the field by the ice dealers in this city concerning a failure of the ice to put the field by the ice dealers in this c and their five sons, Willard, Edwin G., Ernest T., Herbert L. and Lynn, with their wives and children, at Clarigold Hall, the

Need a Receiving Line?

"A receiving line? Why, that's an additional telephone at about half price.

"It was this way: I had reached the point where my regular telephone could'nt take care of all the calls for my number. When I found I was losing trade, I decided that it was time to do something. I told the telephone people I didn't want to go to the expense of another full service telephone if I could avoid it, and they suggested a telephone for incoming calls only.

"It works to perfection. I list the receiving line in my book and hold my regular telephone for outward calls and for the overflow of incoming calls that cannot be cared for on the receiving line.

"Costs me \$3 a month and is just as good for my use as a line giving inward and outward service.'

Interested? Call the Rate Department, Fort Hill 7600. (No charge.)

Pleases of Woburn History.

BY WILLIAM R. CUTTER

The Phalaux, accompanied by Gil nore's Salem Brass Band, had a parade more's Salem Brass Band, had a parade and target excursion to the McLellan place at Cummingsville, Oct. 1858, tormarly the old Walker Farm (near Mount Plainum) "It must be a pleasure to our citizens to see the Phalaux—in which the sires and grandsires of many of the active citizens have drilled and done faithful duty for the Sittle—company na again, ster age. the State—coming up again, after several months of inactivity." (Middlesex Journal, Oct. 10, 1858) The celebrated caterer, T. B. Smith, furnished the refreshments. In the evening a "brilliant" ball took place in Lyccum

Hall, as a conclusion to the occasion.

Miss Hardinge (Spiritualist) gave a series of lectures in Lyceum Hall at this period. The Journal citics commented on her ability thus: "She is mented on her ability (mis: "She is one of the most graceful, emphatic and powerful public speakers, male or fe-male, we ever listened to." He would not offer any opinion on the value of her theories, but would commend her

splendid oratory."

The Myers Sisters, a number of ittle girls, between the ages of eleven and nine years, gave a concert in Ly-ceum Hall, Oct 25, 1858

Father Kemp's "Old Folks" (of Reading) made their third appearance in Woburn, Oct, 25, 1858, and the audience filled Lyceum Hall to overaudience filled Lyceum Hall to over-flowing. Their costume was in bur-lesque, but represented the age when their music was in vogue. The editor of the local paper favored the style of dress, and preferred it to prevalent fashions. 'The large bounets and calashes were not half so rediculous as the half of-a-clam shell style now stuck upon the back side of the head.'

upon the back side of the head," etc.

The following notice is worthy of presentation for historical purposes.

Budget, Nov. 12, 1858.

"Woburn in 1820. Some months

"Woburn in 1820. Some months since we had the pleasure of examining a view of Woburn, sketched in 1820, by our townsman, Bowen Buck man, Esq., and the truthfulness of the drawing is a testimony to the artistic skill of that gentleman. The drawing has been recently copied by Mr. M Tidd, in India ink, and makes a very nice picture. We learn that Mr. I design, drawing it perfect it. very nice picture. We learn that Mr. T. designs drawing it on stone, if a sufficient number of subscribers can be obtained. A copy of this and the view taken by Mr. Tidd some three years since, should hang in every parlor in

town."

Rev. Lawrence Carroll, pastor of the Catholic Church in Woburn, died at his residence in East Cambridge, Nov 23, 1858. The funeral service took place in East Cambridge, on the 26th inst., at the St John's church of which he was also Pastor.

A new article known as Franklin Coal was introduced in Woburn in December, 1858, and proved to be superior to any coal hitherto nsed. A

perior to any coal hitherto used. A cargo had been received by Mr. A. H. Hayward.

One of the advertisers in the Budget One of the advertisers in the Buages for Dec. 17, 1858, is alive in 1911:—
B. T. H. Porter, successor to E. Hinckley, insurance, Bank Block: Woburn. He had recently purchased the interest of Mr. Hinckley, and had en-

arged the business.
The talented T. Starr King lectured in Woburn Dec. 16, 1858. The hall

in Woburn Dec. 16, 1858. The hall was "crowded to overflowing, as it always is when this prince of lecturers is announced." This eminent gentleman preached his first sermon, the first he ever preached, before the Unitarian Church in Woburn, in 1848.

Miss Abby W. Horne (later the wife of Charles A. Sweetser) presented, in December, 1858, as the speaker for a number of ladies, a case for the Bible, presented to the Niagara Engine Company some time before. In this month also, an ice train from the Horn Pond Railroad collided with a passenger train from Woburn on the branch line. No person was seriously injured, but business. person was seriously injured, but business was stopped for a time on the road. At this time, also, an organiz

ation for debating was formed called the Woburn Institute.

Hulled corn was an article on sale in Woburn by R. P. Crosby in December, 1858, carried around from house house, with milk. The words of popular song of that day began:

"Come buy, come buy hulled corn!" The Woburn Five Cents Savings Bank hereby consent that public notice be given of this application of the successive weeks in the Wontun Johnson A. HERBERT HOLLAND, Treasurer.

ROUTED THE "ROGUE."

The Period Between 1857 and 1861

A Bad Elephant, a Lighted Lamp and a Lucky Blow.

An odd experience fell to the lot of three men who were on a tiger hunting expedition in India,

To prevent the invasion of mosquitoes and other insects that would be attracted by the light in their quariers the heavy cotton curtain which formed the door of the tent was closed, and the three friends were chatting across the table when suddenly the whole tent shook, and as they looked round to see the cause the heavy curtain was roughly snatched away, and in the open doorway appeared the head of a big elephant.

The men had no time to catch up

head of a big elephant.

The men had no time to catch up their rifles. They knew by the appearance of the animal that he ment mischief. Lifting up the roof of the tent with his head he threateningly swing out his trunk at the man near-

est him.

At this the bunter sprang to his feet and, seizing the lighted lamp from the table, burled it with all his strength against the animal's forehead. The glass broke at the blow, and the blazing oil covered the animal's trunk with a sheet of fame.

With a cry of terror the beast drew frantically back, shook off the curtain and fled across the country, vanquished by a single blow from an oil lamp. It was a fortunate act, for the animal It was a fortunate act, for the anima was no doubt a "rogue" and would probably have killed one or more of

MODES OF TRAVEL.

From the Jaunting Car to the Modern Electric Railway.

The first Jaunting car was establish ed in Ireland in 1815 by a Milanese Carlo Bianconi, who settled in Dublic and drove every day to Caher an back, charging twopence a mile. this small beginning in 1837 he had established sixty-seven conveyances

lrawn by 900 horses. The extension of modern manufac turing towns and cities demanded sti greater conveniences, which were sup plied at first by the omnibus lines plied at first by the omnibus lines, which up to 1800 were the chief means of urban and interurban transportation. To these succeeded the street railroad, fraversed by cars drawn by one or more horses, and these in turn became wholly inadequate to meet the demand of the suburban districts.

The cable car, drawn by underground cable, was the next innovation, but this about 1880 to 1890 was supplanted by the electric trolley lines, and these again were supplemented in many cit-

by the electric trolley lines, and these again were supplemented in many cities by elevated and subway lines in which the cars were propelled by electricity supplied by a third rail. This latter device has already been applied to extended lines of railroads, and it is not unlikely that the present century will witness the electrification of most of the railroad lines in thickly settled countries.—National Magazine.

Envy always implies conscious in feriority wherever it resides.—Pliny.

A Charming Woman is one who is lovely in face, form, mind and temper. But its hard for a woman to be charming without health. A weak sickly women will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, heauty and fronds. They regulate Stomach, Liver of the standard of

COROT SAVED THE TILE.

a beautiful sky of summer reflected in the peaceful water below. Upon the bank are three trees and a picturesque Saracen tower, while white clouds among the blue complete the scene. Readers must not jump to the conclusion that this hat landscape is an example of the eccentricity of genius. It is the result of what appeared to be the tragedy of a "white" hat which belonged to a friend of the master. The friend, calling on Corot, bappened to place his brand new hat near the casel. In extending the hand Corot's brush fell into the hat, leaving an indelible mark.

A cry of despair followed, not exactly that which a high authority has told us is uttered when husbands or lap dogs breathe their last, but nevertheless it was a despairing cry, "My lat is spoiled!"

"Not at all," said Corot, bursting into a hearty laugh. "I will soon put that all right." The patter brushes awar.

"Not at all," said Corot, bursting into a hearty laugh. "I will soon put that all right." The painter brushed away the daub caused by the accident, and in a few minutes the picture was complete, and the owner of the hat left the studio with a much more valuable chapeau than that with which he entered.—London Globe.

CORAL REEFS.

They Cannot Form in the Line of a Fresh Water Flow.

Coral reefs surround many of the islands in the Pacific. They protect the lowlands from the washing of the waves, and the still waters inclosed by hem are the only harbors of refuge for ships. The reefs themselves furfor ships. The reefs themselves fur-nish the greatest peril to navigation, and if there were no inlet through which a vessel could enter their pro-tected circle they would be a danger and nothing else.

But almost every reef has such an in-let, it is a necessary result of the laws

let. It is a necessary result of the laws under which the forces of nature work. To understand this we must see ho

hese reefs are formed. these reefs are formed.
Chemically the reef corals are almost pure carbonate of lime, the substance of ordinary limestone and marble. The reef grows as the shell of the obster or of any other shell of the obster or of any other shellfish grows. It is itself the common and undivided shell of innumerable polypl, or minute insects, which are being reproduced and are dying in successive generations.

are dying in successive generations.

These thy beings get all their living from the waters of the sea. M is from this source also that they derive the saits of lime from which they secrete the bony structure that remains after the animal is dead.

the animal is dead.

The coral polypi cannot live in fresh water. Their food supply is brought to them by the waves and currents of the sea. As a result, it is found that directly opposite the mouth of a stream from the island the reef does not grow. There will be the inlet to the inclosed waters.—Harper's Weekly.

The Matches We Burn.
It has been estimated that for each minute of time the civilized nations of the world strike 3,000,000 matches. This is said to be the average for every minute of the twenty-four hours of the day. Fifteen hundred billion is the number for the entire year, and those persons who live under the American dag are charged with the consumption of one-half of this amount. Small and insignificant as it is, the match demands as much attention in the choice of woods involved as any other forest product. Only the choicest portions of the best trees are suitable. Sapwood and knotty or cross grained wood will not do. Instead of being a byproduct the little match is turned out in mills where the byproducts are bulky obthe world strike 3,000,000 matche where the hyproducts are bulky objects like doors, sash, shingles, sidings, posts and cordwood. The pines, linen, aspen, white cedar, poplar, birch and willow are the most suitable match

mbers.-Chicago News Preparing His Speech.
A reply very characteristic of the statesman and diplomat who made it is given in the "Autoglography of Alfred Austin." Lord and Lady Salisoury were among the guests at Hewell Grange. Lord Salisbury had come to speak at a public meeting. On the morning of the day when the speech was to be delivered, seeing Lord Salis-bury passing into the study, I said to

"I suppose you are going to think ever what you will say tonight?" "No," he said in his tronical way; rather to think over what I must not

"Madam, nave you any old clothes to give away?"

"I have a suit belonging to my husband, but I fear it is too big for you."

"Oh, that will be all right! You just set me out a square meal and watch the cat enough so that I can fill it."—Washington Times.

Six of One, Half Dozen of the Other. One of the most discouraging fer-tures of life in Tripoil, as in other Mohammedan countries, is the condi-tion of the veiled, fatalistic women tion of the veiled, fatalistic women. Those of the richer classes live in untotored idleness, the poor in even more ignorance and constant, ill directed drudgery. A missionary for whom the wife of a muleteer was preparing supper noticed that she set aside in a furtive way a small part of the tea and sugar.

furtive way a small part of the ten and sugar.

"Why do you do that?" was asked.

"Oh." said the womin, "I must provide against the day when my husband may divorco me."

She then made the startling an houncement that she was her husband's sixth wife and that he was her sixth husband.—Christian Herald.

Courage in Elephants.

An elephant with a good mahout gives perhaps the best instance of disciplined courage—courage, that is, which persists in the face of knowledge and disincilination—to be seen in the animal world. They will submit day after day to have painful wounds dressed in obedience to their keeper and meet danger in obedience to orders, though their intelligence is sufficient to understand the peril and far too great for man to trick them into a beitef that it is nonexistent. No animal will face danger more readily at man's bidding.—London Spe tator.

AN UNFOUGHT DUEL.

He Turned a High Hat Tragedy into a Work of Art.

An interesting relic of Corot is to be seen in the gailery of a picture dealer in the Champs Eiysses. It takes the form of a wooden frame inclosing a gray high hat of a style "now forgotten quite." A card explains that "this landscape in the crown of the hat is guaranteed to be a genuine work of Corot."

One sees in the hat a rapid study of the art. The artist has utilized the blue slik lining of the hat to improvise a beautiful sky of summer reflected in the peaceful water below. Upon the peaceful water below. Upon the transport of a Bookworm." It the peaceful water below. Upon the transport of a Bookworm." It work of the challenge of a letter of the challenge had prepared a letter to send in reply. This letter J. Roger Rees quotes in the peaceful water below. Upon the prepared a letter to send in reply. This letter J. Roger Rees quotes in "The Pleasures of a Bookworm." It

PAPER BOXES.

Cne industry Alone Uses 4,000 Different Sizes and Shapes.

A thousand machines of many types and sizes and designed for many purposes are used today in the manufacture of paper boxes. This assortment of machines is absolutely necessary, for the number of styles of cardboard for the number of styles of cardboard

boxes used for packing all sorts of articles is without limit. According to the Edison Monthly, on

According to the Edison Monthly, one industry alone, the making of pens, spencils and erasers, requires boxes of 4,000 different sizes and shapes.

Paper box making, one of the new but important industries of this country, has made its greatest progress during the last half century and particularly within the last twenty years, after modern machinery had been introduced. The business has assumed wonderful proportions in New York city, where the capital invested exceeds \$5,000,000.

One hundred years ago there was no such thing as a paper box. The container of those days consisted of nothing more than a heavy sheet of paper wrapped around the article to be carried. In time some progressive person conceived the idea of cutting part way through the paper in order to make it

through the paper in order to make it fold more readily. With this four sided wrapper it became the custom to tuck the loose ends in to prevent the

tuck the loose ends in 'o prevent the contents slipping out.

From this was evolved the idea of scoring the paper so both the sides and ends folded up and then gluing the ends together. That was the way the first paper boxes were made, and it was years before any marked improvement was made. In those days a knife, a pair of shears, a kettle of paste and a straightedge, with a supply of bos board were sufficient equipment to start a man in business.

Moral-Don't Be a Goat. Moral—Don't Be a Goat.
The goat while out browsing thought-lessly stopped and rubbed his head— in the way that goats have—against the side of the house of the wolf. Out rushed the tenant and flercely upbraid-ed the hairy butter.

"But I'm quite sure," said the latter, "that I've done your house no harm. Besides, I saw the elephant stop here Besides, I saw the elephant stop here only yesterday and scratch his back against your dwelling in a way that almost overturned it. And you didn't say a word to him. Why should there be any difference in your treatment of

"There is a marked difference," he aid, "even if it is only a simple one. can eat a goat, but I can't eat an ele-

plant."

Whereupon he fell to and made a quick and satisfying meal of the unhappy creature.—Cleveland Plain Deal-

Gold Filled.

A gold filled tooth and your gold filled watch case may be said to be inversely analogous—that is to say, your gold filled tooth has more or less of the gold filled tooth has more or less of the tooth structure of enamel on the outside with gold on a core filling the center. Your gold filled watch case consists of two sheets of gold, having be tween each sheet some baser metal to which the gold is soldered. As to the gold in the case, it may be of any fineness and any thickness commensurate with the term "gold filled." A jeweler will tell you that 10 carat gold is not gold, having too great an admixture of baser metals. Many persons have the idea that the gold filled case is an amalgam of the kind instead of a "sandwich" of gold treated in the inside with the base metals.

Do I need one?"
"Well, now, y' are the most innocent kid I ever seen. Need a gun?
''ll go with y'. It would be a pity to
leave a little feller like y' to wander about with not even a toy pistol."

Turning her horse's head, she rode

back with Professor Tipton. There was something odd in the defenseless was something odd in the defenseless man being under the protection of this armed girl. He found her especially useful as a guide, for she knew the region perfectly and took him to the point he wished to find. There was no one on the ground to locate the exact spot, but the girl told him she had seen some men discript and landed him. seen some men digging and landed him where they had begun to bore the well. The moment the professor caught sight The moment the professor caught sight of a few mammoth vertebrae that had been exposed he clasped his hands, raised his mild eyes to heaven, and his lips moved in thanks.

"It's a dinosaur," said the professor.

"Y' don't mean it!"

"Judging from these few vertebrae, it must be sixt or seventy feet long."

it must be sixty or seventy feet long.

"And, judging from the horizontal osition of what is exposed, there will be little cost in getting it out."
"Will it pay?"

The professor did not hear this ques-tion. He had picked up a stick lying near and was scraping away the dirt. "How long has it been there?" asked

party of men were seen galloping to-ward them.

At that moment there was a clare of books in the distance, and a small party of men were seen galloping toward them.

"By gum," exclaimed the girl, "it's Sheriff Clem Barker! I wonder what he's after!"

"Hello, Kate!" exclaimed Barker as he rode up. "What y' doin' cavortin around with a hoss thief?"

Now, it is time to explain that the professor, after having left the settlement, stopped at a firmhouse for a drink of buttermilk. He had ridden a gray horse thus far, but when he left the house mounted a roan without noticing the change in color. A man who had stolen the roan, being hard pressed by the sheriff and a posse, seeing a comparatively fresh mount hitched to a post, changed horses.

"He ain't no hoss thief," replied the girl. "He's a — What air y' anyway?"

"I am a"—
"See here," interrupted one of the

girl. "He's a— What a..."
"I am a"—
"See here." interrupted one of the party, "y' may be anything y' like, but that's my boss y' been ridin'."

that's my hoss y' been ridin'."

The professor looked at his borse and, not knowing what the man was talking about, just smiled. He couldn't think of anything else to do.

"Y' ain't been stealin' that hoss, have y'?" asked the girl.
"I don't know what you people are all talking about," said the professor. "I came out here to learn if this fossil is of value, and I find it very valuable indeed. As I have said, it's a dinosaur, must be skty feet long and doublies. indeed. As I have said, it's a dinosaur, must be sixty feet long and doubtless between 10,000 and 20,000 years old."

The sheriff, the owner of the horse

The sheriff, the owner of the horse and the posse all looked at one another in astonishment. An idea popped into Kate's head. She gave the men a meaning look and drew them away from the professor, who, being more interested in the dinosaur than their talk, forgot all about them in rummaging among the big stone vertebrae. "Gents," said Kate, "he's a lunatic." "What makes y' think so?" asked the sheriff.

"Didn't y' bear what he said about them stones? He's got an idee into his head that 10,000 years ago some var-mint or other, a dragon mebbe, seven-

ty feet long tell down a wen. what more do y want for to make him out a crazy man?"

"Oh, Kate!" exclaimed the owner of the horse. "It's you that's gone daft or you're trying to save his neck, I don't know which. He's been caught in the act and is playing it on us."

"Where did he get the talk about dinosaurs?" asked one man, who, being better educated than the rest, had read of extinct mammoths. "Horse thieves don't know anything about fossils."

"Come on, Clem," said the owner of the stolen horse. "I call upon you as sheriff to arrest the man and take him in for trial."

"Y won't have much trouble doin'that."

Copyright by American Press Assistance - "Cail upon you as the second of the definition of the definition of the stolen horse." I cail upon you as the control of the stolen horse. FONDLING BABIES.

How the Growth of Ice Crystals May
Be Made Plainly Visible.
It is not commonly known that fresh
water may sometimes be "colder than
ice" and that the growth of ice cryst
tals may be made plainly visible. An
interesting experiment to show this
may easily be made.
Fill a clean pint bottle with distilled
water. Make a hole in the stopper
large enough to let a thermometer
pass through it. The kind of thermometer used in physical laboratories
is most convenient. Insert the stopper
in the bottle and let the thermometer
reach nearly to the bottom. Pack
snow or ice and salt round the bottle
as you would pack an ice cream

COFFEE BERRIES.

Round Kernels Are Stronger and Richer Than Flat Ones.

Everybody is more or less familiar with the term "male berry" applied to coffee. The term refers to the form

offee. The term refers to the form and style, not the sex.

An examination of any kind of coffee will show that about one kernel in every twenty-five is quite round, like a bean, while all the others are flat on one side, like the half of a split bean. These round or male berries are always found on the young, vigorous, new wood of the previous year's growth at the end of the branches.

The old wood produces flat berries only. Each "pod" or fruit of the coffee tree contains either two common flat berries or but one round one. The substance of the fruit in the one case all goes into the single male berry, and in the other it is divided among two flat ones.

in the other it is divided among two flat ones.

This undoubtedly accounts for the greater strength and richness of the male berry. In private plantations, where the trees are carefully pruned and cared for and the ground well culturated and fertilized the coffee is all threated and fertilized the coffee is all.

ways of finer quality and the proportion of male berries is larger. tion of male betries is larger.

ivated and fertilized, the coffee is a

A Scheme That Enabled Two to Ride on One Ticket.

There were two comedians who had been stuck in a village near Canton. with Cleveland many a mile away. And the first comedian, being the more witty of the two and being, furthermore, what they call the "feeder" of the team, says be:

"What'll we do next?"

"I'll tell you—let's count the house."

They emptied their pockets and found that by squeezing a cent or two they could manage to buy a ticket to Cleveland—one ticket. They did it and started forth, the two grown men, on a single piece of pasteboard. Of course

the conductor didn't come back. As a matter of fact, he never appeared until just before Cleveland was reached.
"I think somebody's a grafter," he remarked in passing, "but my orders are to take the safe side when there's a possibility of mistake. Good night. I can lick either one of you if I ever see you again!"—Cleveland Plain Dealer. The Small Boy and His Hat.

He flings his hat across the dining room when he comes in from school or leaves it in all manner of places in the house, in the coal bin or on sister's bureau. He loses it just at church time and spoils the spirit of family reverence and piety. As the family enters the church the anthem is being sung, and the disgrace of being late

The Rocker Rebelled.

In the early days of missions in Persia the people were naturally suspicions of the missionaries and were constantly on the lookout for something in their houses which would exert a baleful influence upon native visitors. A Persian lady, calling one day on an American missionary lady, wished to sit in a rocking chair, which was something she had never seen before. She got up into it with her feet and attempted to squat upon her heels, as she would have done upon the floor, with the result that she and the chair both took a tumble backward. Hence there went abroad a report that the missionaries kept in their houses a machine for converting people to Christianity.—Los Angeles Times.

God concerning this world that it in the wicked one and is awaiting judgment and must pass through the fire of God's wrath before them, we had not be any real betterment. What is needed is that His own people should reach that His own people should reach the fire and talent and money, to make known everywhere the glad tidings of His reat salvation. I have offen been the before Joseph and Mary were sent to Egypt with the Child (verse 13) the money was on hand to go with, and I have long before them, we have no right to begin whether the putteth forth His sheep He goeth her for them. We need to remember also that the money they journeyed on was the Child's money.

Nething Forgetter.

Nothing Forgotten.

Nothing Forgotten.

There is nothing—no nothing—innocent or good, that dies and is forgotten. Let us hold to that faith or none. An infant, a prattling child, dying in the cradle, will live again in the better thoughts of those that loved it and play its part through them in the redeeming actions of the world, though its body be burnt to ashes, or drowned in the deen sea. Forgotten! Oh, if its body be burnt to ashes, or drowned in the deep sea. Forgotten! Oh, if "No. sir; we hain't got any vacuums the deeds of human creatures could be traced to their source, how beautiful Exchange. would even death appear! Setting Him Right. Sapleigh—Would you—er—advise me to—er—marry a beautiful girl or a sensible girl? Hammersley—I'm afraid

Raynor—Think you could improve on the works of nature, do you? Shyne—I know I could if I had the power. I'd make some kind of seed that could be planted on a hald head and grow into a crop of hair.—Chicago Tribune.

SUNDAY SCHOOL. IT IS NOT TOO LATE

Lesson XIII. - Fourth Quarter. For Dec. 24, 1911.

THE INTERNATIONAL SERIES

ext of the Lesson, Matt. ii, 1-12 Memory Verses, 11, 12—Golden Text, Luke ii, 11—Commentary Prepared by Rev. D. M. Stearns.

We choose the Christmas lesson for oday and will take up the study in today and will take up the study in Malachi next week instead of the quarterly review. Malachi tells of the great King whose name is to be great among all natious from the rising of the sun unto the going down of the same, even of Him who is King of kings and Lord of lords (Mal. 1, 11-14; Rey. xvii. 14; xiv. 16). The New Tos. Rev. xvii, 14; xix, 16). The New Te tament opens with His record as So of David, Son of Abraham, and close or David, Son of Abraham, and closes with His title as the root and off spring of David (Matt. I, 1; Rev. xxii 16). Among all the kings mentioned in Matt. i, 1-11, David is the only one who is called king, because the The round berries is larger.

The round berries may be seen in all kinds of coffee, Rio, Ceylon, Maracaibo, Mocha and other varieties contain them as well as the Jaya.—Exchange, CALIFORNIA'S BIG TREES.

They Were First Seen by a White Man, John Bidwell, in 1841.

It was on June 20, 1841, that John Bidwell discovered the "big trees" of California. He was the first white man, so far as we know, who ever beield those monarchs of the forest. Nine years later a hunter named Dowd was led into the company of the forest kings by a bear that he was chasing, and it was by Dowd that the knowledge of the monster trees was spread abroad, but to Bidwell belongs the distinction of having been the first civilized man to gaze upon the wonderful trees.

The "big trees," as the mighty set wonderful trees."

The Squinting Rajah

"Miss Telham." said the captain turning his twinkling eye upon me "fiction ain't no word to use in conne "fiction ain't no word to use in connection with my old messmate Ananias Sline. He's just a plain and simple liar, but every once in awhile, like most liars, he swings the pendulum so far to leeward that back she comes and runs afoul of the truth. At such times Ananias gets into heaps of trouble.

about the time Ananias got into trou-ble with the rajah of Raddubah, out in India. You wouldn't think the mate of a peaceful trading ship like the old when Ananias got started on an adventure there was no by

"Well, we had left Calcutta and was "Well, we had left Calcutta and was Uning along down the coast with the Jaipur hills in the background when Ananias came aft and told me that the water butts had sprung a leak and that we would have to put ashore and get another supply of water. "I won't go into the details of how this happened, ma'am, for it was all most unseamanlike, and it had never happened to me before. Our ship's carpenter repaired the damages, and all we had to do was to tie up at the right place and try and find some pure

right place and try and find some pure water, and in India, ma'am, that's no

lage where the natives didn't seem any more than naturally curious at sight of us, and Ananias went ashore with

some men to make a particular theadman.

"'How could you talk to that headman, Ananias?' I asked him. 'I didn't know you could speak Hindustani.'

"'I don't wear all my accomplishing skinner! he savs ments on my sleves, skipper,' he says

'S'pose you talk a little Hindustan

Then Ananias rattled off a lot of queer gibberish that sounded as if he had swallowed all his teeth and was aughing about it. 'You savee?' he ended up just like a Chinee laundry-

man.
"'l understand,' I says to him grimly. 'I understand from what you say.
Ananias Sline, that you're throwing
me a game of bluff about talking to the headman. He looks too intelligent to headman. He looks too intelligent to converse in any langwitch like that. Whatever he told you about the water you go and do it. I can stand anything except water from the Ganges. If you're going through the jungle you better take guns.' "Ananias didn't say a word, but he and the men he picked out hustled around and got the water casks and provisions and some guns and ammu-

provisions and some guns and ammu-nition, and away they went in the bul-lock cart, with the headman of the village lashing a long whip and yelling at the bullocks in a langwitch that

"It was the next morning before Ananias and his party came back, and they were hurrying some, ma'm, I can tell you. Ananias was in the lead, running for his life, and behind him came his four seamen, and back of them were three of the tallest, longest them were three of the tallest, longest legged Hindus I ever set eyes upon, and I've seen a sight of 'em in my

day.
"I had a boat at the jetty to meet
'em, but I declare if the three Hindus
didn't get there at the same time, and
all tumbled in with our men, and so
they were all brought aboard and
came before me.
"What's all this? I demanded of
Ananias.

all tumbled in with our men, and so they were all brought aboard and came before me.

"What's all this?" I demanded of Ananias.

"Til explain, skipper, if you'll send my men below for a bite to eat and a little rest.' he says skyly. And so I sent the four seamen below, and that left Ananias standing there, looking scared and mad at the same time, while the three Hindus stood just behind him, staring sadly at me.

"Explain, then," I snapped out.
"Ananias took a chew of tobacco and folded his arms. "It happened this my, skipper," he began. And then he launched out in a wonderful tale of

how they had reached the shore of the lake where the rajah's palace was situated when the rajah was taking his pleasure in a boat on the lake.

"It seems he didn't understand the dialect that Annias used. Of course Annalas told me he had a personal interview with the big man, and he or dered Annalas to be brought before him the next morning for examination. So that night the men from the Indus camped on the shore of the lake, and camped on the shore of the lake, and the rajah's servants made a prisoner

of Ananias Sline and carried him across the lake to a dungeon in the palace, where they kept him until the

palace, where they kept him until the next morning.

"Then he says he was brought before the rajah with other prisoners and examined, and he said it would have made your blood run cold to see the offhand way in which that despot — desperate despot was what Ananias called him—would just listen to what

leased.

"Ananias said that the rajah was the most awful looking critter he ever set eyes upon—a giant in size with wookly hair and squint eyes, and it was the squint eyes that caused all the trou-A Tale of the Far East

By CLARISSA MACKIE

Copyright by American Fress Association, 191.

"This is a story that Ananias Sline told me," warned Captain Barnabas Fish as he skillfully mended a net on the silver sands of Quince harbor; and he could have all the water between the silver sands of Quince harbor; and he could have all the water between the silver sands of Quince harbor; and he could have all the water for sands of the definition of a watt.

This leads to the Goldman was so cross eyed that the jailors would get all mixed up on the sentences and half indicative mixed up on the sentences and half the eminent scientists who first adopted these accurate and to them convenient terms had been willing to show the rest of the world how to compute electric quantity in feet and inches or barrels and quarts. Lacking this, people are left to struggle with their mysterious method of measurements.

The kilo is an old friend (or ancient emery, if you will) borrowed from the metric system.

This leads to the definition of a watt. It seems the rainh was so cross silver sands of Ouince harbor; and he could have all the water he the silver sands of Quince harbor; and he could have all the water he wherefulls last for its veracity."

"Never mind," I assured him eagerly, "Of course I know they can't be true. Nevertheless they are interesting if one can separate the truth from the fiction."

"Miss Telham," said the captain, "Miss Telham," said the captain, "Mess Telham," said the captain,

"He says he got away and swum ashore and roused our four men, and they all cut and run for the Indus with they all cut and run for the Indus with three of the rajah's men chasing after them, and here was Ananias and here was the three men, staring horrow struck just as if they had understood every word of what my first mate had said, and they didn't believe a word of

have flabbergasted you, ma'am, for he spoke in English, Says he: captain, this man speaks lies whenever

his mouth opens and he has called our prince by evil names and with a false tongue. We have been ordered to bring him back to the palace that our prince may examine him."
"Of course I wasn't surprised to hear that Ananias had been drawing the long bow as I could see that he was pretty much chapfallen to think he'd been wasting all that breath before these Hindus who could speak his langwitch better than he could. I just called the second mate to command the Indus, and, taking a fresh supply of ed the second mate to command the Indus, and, taking a fresh supply of men, I started with the whole lot for

men. I started with the whole lot for the rajah's palace.
"At last we arrived at the palace, and Ananias was right about that part of it. He always did mix a little truth in with his falsifying. It was on an island in the middle of a lake, and I could see waterfalls here and there among the hills.
"We all got into a big barge and "We all got into a big barge and

ace and hustled into the audience room where the rajah appeared in all his

"When he smiled at Ananias that cheerful prevaricator just hauled in his tops'is and looked down at the floor and I don't wonder, for that rajah turned out to be one of the handsomest men I ever saw in all my days, and his eyes were as straight as yours. ma'am. That part about his being is, a mechanical horsepower—that soults even was all a varn of my first. (A watts of energy Lighting eigenits.)

Units of Measurement and What They Mean.

AMPERES, VOLTS AND WATTS.

Volume, Volts Measure Pressure and Watts Show the Resulting Quantity. The Kilowatt Hour. It has been estimated that the time

their customers understand a kilowatt would suffice to build a string of pyramids from New York to San Francisco, writes Allen Hollis. The discouraging t feature of the task is that after all this effort the customer still remains ignormat and cheirshes the delusion that the method of electric measurement is a devious device for concealing nefarious practices by the electric light companies.

The average American is perfectly satisfied to buy gas by the foot, transportation by the mile and telephones by the month, but watts look suspicious and kilowatts totally depraved. This difficulty might have been avoided if the eminent scientists who first adopt-

terious method of mensurements.

The kilo is an old friend (or ancient enemy, if you will) borrowed from the metric system.

This leads to the definition of a watt. But in order to know watts one must first learn about the two other members of the family, amperes and voits. Broadly speaking, amperes measure volume, voits pressure and watts the resulting quantity. resulting quantity

In order to get a tangible idea of the ampere, electricity may be com-pared with water flowing through a pared with water flowing through a pipe. In this illustration the ampere will represent the volume of water, which is determined by the size of the pipe, but this should not be confused with the size of the electric wire, which has nothing to do with the present problem. The appear the property of the ent problem. The ampere then meas-ures the volume of current flowing in the wire at a given time. The quantity of energy flowing will depend upon the other factor, which is expressed

electric energy the same idea is ex-pressed in volts. It is evident that the quantity of water flowing in a pipe of quantity of water nowing in a pipe of a given size will increase as the pressure increases. In a similar way the quantity of electricity increases in exact proportion to the electric pressure of voltage, and this quantity is measured by watts.

The quantity (watts) of electricity

The quantity (watts) of electricity delivered over a single circuit is the direct product of the volume (amperes) multiplied by the pressure (volts). In other words, amperes multiplied by

other words, amperes multiplied by volts equals watts.

The illustration serves to indicate the theory of electric measurement. It is likely, however, to be misleading un-less the fact is kept in mind that water is material, while electricity manifests itself only through its capacity of affecting visible things. It heats the filament in an incandescent lamp

men I ever saw in all my days, and his eyes were as straight as yours, ma'am. That part about his being squint eyed was all a yarn of my first mate's.

"It seems that the rajah of Raddabar had been educated in England, and he talked with me quite a spell in a free and easy manner. He told me that his men had found Annnias and his four mates stealing fruit from the palace gardens, and for that reason he had arrested him. He escaped all right, and the rajah's servants had given chase and caught him on board the Indus.

"The rajah of Raddabar was a gentleman after all, and he laughed and made a joke of Ananias and his story of the 'squint eyed rajah.' He pretended he wanted to buy Ananias for his chief story teller, kind of a court fool, he explained, with a twinkle in those straight, handsome eyes of his and poor Ananias hung his head and fool, he explained, with a twinkle in those straight, handsome eyes of his, and poor Ananias hung his head and looked mighty scared, for the rajab pretended to offer me all kinds of rich jewels in exchange for the critter, and I pretended to bargain for him and then put the matter off until the next time Ananias told a big yarn.

"So I insisted on Ananias paying for the fruit he had stolen, and he apolothe fruit he had stolen, and he apolo-

The fruit he had stolen, and he apologized to the rajah as decently as his kind can apologize to somebody who has done them a good turn, and then as the rajah had made us welcome to all the water we wanted, we all fell to and filled up our casks and away we went back to the Indus with some presents that 'desperate despot' had showered on us.

"Of course I sent a special messen-"Of course I sent a special messenshowered on us.

"Of course I sent a special messenger back to the rajah with some presents from the Indus' stores, and then we h'isted sail and away we went homeward bound."

IMPROVEMENT

SOCIETY.

A scheme is on foot in this city for the organization of a large and permanent Society the object of which is to inaugurate and maintain a system of internal improvemants, which already has developed encouraging indications of success.

Men of wealth and standing have entered heartily into the

tion of the interests of towns and cities are getting to be common in the Metropolitan District, the most prominent leader in them at the present time being the City of Boston. The Chamber of Commerce there is, to all intents and purposes, a great and powerful internal Improvement Society. Society Soc Improvement

beautiful aud prosperous of Boston's suburbs, owes its present enviable condition to the organization of a "Village Improvement Society" started 35 years ago and pushed by a few men who were able to see further into the future than the masses. Responsive to their calls for money thousands and thousands of dollars have been contributed and spent in beautifying the town. The prediction of the founders of the Winchester "Village Improvement Society" have been more than verified, and the present generation are enjeying the abundant fruits of their ing the abundant fruits of thei wisdom and labor.

The Woburn scheme deseave liberal encouragement.

In an article published in week's Winchester Star on "Old Mill Sites" written by "Montague," the pen name of a former prominent and esteemed resident of Woburn's fair and prosperous suburb, we clip the following paragraph concering a former citizen of Woburn, Charles Goodyear, who became famous as — Great rain again last Wednesday the discoverer of the great art, or Lots of moisture fell. science, of the vulcanization of science, of the vulcanization of rubber from which so many huge fortunes have been accumulated. His home was in that part of Wobburn known as Montvale where the fortunes have been accumulated. The days have increased in length just 2 minutes to a tick.

We were kindly remembered by Rev. Dr. and Mrs Norton of First church. his former dwellinghouse still stands, and is also the location of the Goodycar (Woburn) public school. The paragraph is as

sixth mill, which perhaps "The sixth mill, which perhaps is in Winchester, is the saw factory and rubber factory which were practically on the same water in 1842, in the southeast part of whit was once the "silk farm."
Here Charles Goodyear, a man of high character and patient persistence, so poor that he applied for public aid in Woburn in 1840, made his great discovery of the vulcanization of rubber, and out of his success have come various forms or qualities of rubber that have blessed and enriched mankind. Mr. Goodyear had trouble in maintaining his rights to his discoveries, and it has been claimed that he received small relations of the control of

With its handsome maga-A scheme is on foot in this city ance with the beginning of the

Men of wealth and standing have entered heartily into the scheme and quite a large number of people have become 5-years subscribers to and liberal financial supporters of it.

OUR MOTHER TONGUE.

An Expressive Sentence in Which it
Was Badly Twisted.
The professor of English, who was
taking a vacation trip on horseback
through the hills, had occasion to make
notes of a good many quaint and interesting expressions employed by the sturdy mountaineers. The one that pleased him most was a striking use of the little word "but."

the little word "but."

The party had ridden for hours and had not found a single inn. They were hungry, and one of the guides suggested that it might be possible to get a bite to eat at one of the mountaineers' hurs.

huts.

"I know you can get corn bread there," he said.

The professor volunteered to go with the guide to a hut high upon the mountain side in quest of the corn bread. A dilapidated garden fence surrounded the hut, and when the gate squeaked on its hinges a dog began barking. Simultaneously a fat woman edged her way through the door and approached the men at the gate.

the men at the gate.
"What d' yo'-all want?" she called.
"Madam," said the professor, "would
you be so kind as to tell us whether we an get any corn bread bere?

'Yes, corn bread," he repeated, "We'd like to buy some of you if you have

any."

The Impecunious—It is just as easy to love a girl with money as to love one without it. The Helress-But it isn't so easy to get her.-London Tit-

In the Philippine portion of his book "The Memories of Two Wars" General Funston tells of a unique instance at the stege of Malabon: "Company I, was siring a few volleys, and one of the men, having just discharged his piece, felt a second blow against his shoulder, it helps almost as hard as the vick of men, naving just discharged his piece, felt a second blow against his shoulder, it being almost as hard as the kick of the gun. Upon trying to reload it was found that the breech of the piece could not be opened, and it was laid aside to be examined by daylight, which was done in the presence of a number of us officers. Upon forcing the breech open it was found that the base of the copper shell of the cartridge that had been fired just before the weapon had been disabled had been shot away, while mixed all up in the breech mechanism we found the remains of the steel jacket and the lead filling of a Mauser builet. There was a very pronounced dent on the muzzle of the piece. What had happened was that while the man that the gun extended in the firing position a bullet had gone down the muzzle. This weapon is now in the Army Ordnance museum in Washington."

The "Open Door" in Business

"No, I wouldn't advise a party-line telephone for you any more than I'd advise you to rent half your store and share your entrance with some other dealer.

"You're growing in business. You need your whole doorway.

"See that your telephone facilities are adequate, not only for present requirements, but for future needs. Don't neglect this feature. There's going to be a tremendous development in selling by telephone, during the next few years, and the man who first attracts customers will have the best chance of holding them. Mark what I tell you about this and don't have your telephone door closed when any customer calls.

Call Fort Hill 7600 and ascertain from the Rate Department how little more it will cost to have a telephone line for your exclusive use. No charge for such a call.

BRETON PEASANTS.

nimself decreed that no unbeliever should set foot.

Of the 225,000,000 Moslems in the world only 15,500,000 live under the world only 15,500,000 live under the Turkish flag, yet most of them acknowledge the sultan of Turkey as their calliph, the successor of the prophet. As Mohammed shrewdly foresaw, the Mecen pilgrimage binds together his disciples into a unity which could be effected in no other way.

"Mecen, 'says Dr. Samuel M. Zwemer of Arabia, 'bas become the religious capital and the center of universal pilgrimage for one-seventh of the human race,'—Harper's Magazine.

WONDERFUL ECHOES. Effect Produced by a Pistol Shot at a

Effect Produced by a Pistol Shot at a Lake In Bavaria.

Probably the finest echo which the world knows is in the cathedral at Pisa, where the leaning tower is. Sing two notes and there is no reverberation. Sing three and they are at once taken up by the walls of the edifice, swelled, prolonged and varied till they seem as a divine harmony from some majestic organ. najestic organ.

There is a cavern in Finland in which, if you test your lungs to the top of their capacity, there will answer you such horrible roarings, monnings and mutterings that you will be glad to rush out in absolute terror.

to rush out in absolute terror.

The cutting down of trees in a certain locality on the Hudson river spoiled a splendid echo. A word shouted there was repeated forty-two times.

Undoubtedly the most extraordinary natural echo in the world is to be heard by the side of a small lake in Bavaria. On one hand rises a perpendicular cliff several thousand feet high. dleular cliff several thousand feet high, while on the other side is a dense forest. If a pistol is fired on the lake the woods send back a faint echo that gradually dies away, but presently it is heard from the cliff, continually increasing in power till it bursts over one's head like a deafening peal of thunder.—Pearson's Weekly.

Making Up His Mind. Deliberateness, a quality generally scribed to the Scots, must reach a aind of quintessence among the Shet

landers, if this story from the Chris-tian World may be held to represent The Rev. James Hamilton, minister of the Church of Scotland, Rodney street, Liverpool, while on holiday in Shetland and a narrow escape from drowning. Accompanied by a boy Mr. Hamilton was tishing for sea trout, when he slipped on a stone, lost his balance and, being incumbered with heavy wading boots, had great difficulty in keeping his head above water. Finally be maininged to get back to the shore, although in a very exhausted state, and said to the boy:

"I noticed that you never tried to help me."

"Na," was the response, "but I was it thinkin' o't." The Rev. James Hamilton, minister

Craft of the Gypsies.

Gypsies introduced the practice of palmistry into England. This appears from a statute of 1531 called an "acte concerning Egypsyans," which recites that "afore this tyme dyverse and many outlandysshe People, callying them selfes Egyptians, using no crafte nor faicte of marchaundyse, have comen into this Realme and gone from Shire to Shire and Place to Place, and used greate subtyll and crafty meanes to deceyve the people that they by palmestre could tell menne and womens fortunes, and have by crafte and subtyltie deceyved the people of their money."

As "Home Sweet Home" is Sung. She had a voice like a siren, and when she sang "Mid play sures, sand palaces, the heam a roame, be it averse on hum built, there snow play six comb," and so on to the conclusion, there wasn't a dry eye in the room.—
United Prestyterian. United Presbyterian.

Misleading.
"Well, well," exclaimed Nagget over his paper, "that's a queer heading for this article. It says 'Woman's Talk.' " "What's so queer about that?" de-manded his wife.

"Why, there's only about half a col-mn of it." Unless the habit leads to happiness he best habit is to contract none.—
Eliminerman.

Nothing more completely baffles one who is full of trick and duplicity than straightforward and simple integrity in another.—Cotton.

Real Estate Enterprise Here is one way a piece of land may be made profitable:

The regular Annual Meeting of the Shareholders of the Woburn National Bank for the election of Directors, and the transaction of such other business as may legally come before the meeting, will be held at its Banking House, 397 Main street, Woburn, on TUESDAY, JANUARY 9, 1912, at 5 o'clock, P. M.

JOHN C. BUCK, Cashier.

Woburn, Dec. 7, 1911. 8-5-22-29-5

pay.

1 left an offering of silver upon the window sill among the balls of woolen yarn. I noticed that the act was not lost upon the old Bretonne, who when she caught my eye gave me a charm-ing courtesy and a smiling "Merci.

THE ROCK PTARMIGAN.

Bird of Storms and Ice, Raw Mists and Bleak Winds. In order to make the acquaintance In order to make the acquaintrance of the prarmigan it is necessary either to journey into the snows and ice of the far north or to climb up to the very highest glucier valleys among the frozen peaks of the Rockies or Cascades, where circumpolar conditions are reproduced. While this curious bird is essentially a subarctic type, it is occasionally found among the isolated fields of eternal snow as far south as Colorado and northern New Mexico.

Mexico.

The rock ptarmigan is a bird of storms and ice and raw mists and bleak winds, in the summer gray as the rocks among which he lives, in winter white as the whirling snows in the midst of which he survives after every other feathered living thing, save only the fearless eagle, has fied to the lower reliance. Mexico.

to the lower valleys.

His brother, the willow ptarmigan, lives lower down by 500 or 1,000 feet, among the dwarfed shrubs which mark the upper edges of tree life, and, while similar in size and structure, is of a less somber plumage and more friendly disposition than the ghostly gray specter of the upper world, the rock ptarmigan. The males of the willow ptarmigan especially are o the lower valleys. of the willow ptarmigan especially are beautiful birds, brownish gray upon the backs and wings, with rich red-dish brown throats almost chestnut in color and dazzling white breasts.—

Country Life In America.

Vielins Old and New.

There is a general impression that very old violins and violoncellos are much superior in tone to similar instruments of modern construction. The point was debated by a number of Paris musicians, who decided in favor of the modern instrument. Six ancient violoncellos were chosen, including a Stradivarius, a Theekler, a Cappa, a Pressenda and a Guarnerius, together with six modern instruments. These were played alternately by Senor Casals, who was hidden from sight, the instruments being indicated to the jury by a number and marks awarded according to beacty of tone. The modern instruments aggregated 1.484 marks and the ancient instruments only 883, although the six ancient 'cellos represented a value of £6,000 and the modern ones £160.—London Express.

A Chinese Columbus. A Chinese Columbus.

According to a Chinese chronicler,
Hul Sen, who lived in the sixth century of the Christian era, North Amerlen was known to the Chinese under
the name of Fusang or Fusu. It was
said to be a continent lying 6.500 miles
b) the east of Asia. The chronicle states
that in the year 453 five Buddhist
priests sailed from China for Fusu.
landing in Mexico, where they taught The Giant Petrel.

The giant petrel of the arctic regions will feed on offal until it is so absolute by gorged as to be unable to rise off the ice in flight. Then it runs along the ice if chased, spreading its wings out as sails. Before being captured, however, the petrel will suddenly stop and disgorge a quantity of semidigested food and then go off on a run again. If overtaken a second time it will repeat the performance and when once it has got rid of its dinner flies away.

Said to be a continue.

In the year 453 five Buddhist priests sailed from China for Fusu. I anding in Mexico, where they taught their religion to the natives, built temples and set up enormous statues of a their gods all over the country. Traces of a Mongolian civilization have been found in Mexico. There exists in particular a statue of a god resembling to the Aztec god, but one of the grotesta for the Chinese.—Harper's.

'Tis a cowardly and servile humor to

hide and disguise a man's self under a visor and not to dare to show himself what he is. By that our followers are

A Pen Pun.
Assistant Editor—Here is an article admitted by a convict in the peniteriary who signs merely with his prison number. Editor—Doubtless that's his "pen" name—Kansas City Star.

Economics.

Mr. Nubride—Why do you do all your shopping at this store? Mrs. Nubride—It's the grandest place I ever found. They sell all their goods by the foot instead of by the yard, and the price is only a third as much.—Philadelphia Bulletin.

Suffering.

There is no finer chemistry than that by which the element of suffering is so compounded with spiritual forces that it issues to the world in gentleness and strength.—George S. Merriam.

The Natural One.
"Do you know of any good remedy for a deadlock?"
"I should suggest a key to the situation."—Baitimore American.

BOSTON HARBOR FROZE.

But That Didn't Keep the Britannia From Sailing on Time. Boston harbor froze over in January of 1834, and the advertised sailing of

the Britannia, then in dock, seemed surely to be impossible. But the mer-chants of Boston would not have it so They met and voted to cut a way, at their own expense, through the ice that the steamer might sail practically

that the steamer might sail practically on time.

The contract for cutting the necessary channels was given to merchants engaged, like Frederick Tudor, in the export of ice, but not ice cut from the harbor. Their insk was to cut within the space of three days a channel about ten miles long. For tools they had the best machinery used in cutting fresh water ice, and horsepower was employed. The ice was from six to twelve inches in thickness.

As the Advertiser of Feb. 2, 1844, described the scene: "A great many persecribed the scene: "A great many persecribed the scene: "A great many per-

As the Advertiser of Feb. 2, 1844, described the scene: "A great many persons have been attracted to our wharfs to witness the operations and the curious spectucle of the whole harbor frozen over, and the ice has been covered by skaters, sieds and even sleighs. Tents and booths were erected upon the Ice, and some parts of the harbor bore the appearance of a Russian holiday scene."

On Feb. 3 the work was done, and the Britannia, steaming slowly through

the Britannia, steaming slowly through the lane of open water, lined on either side by thousands of cheering spectators, made her way to the sea

THE HOUSE OF COMMONS.

It Has Frequently Expelled Members Legally Qualified to Sit.

The assumption made in more than one daily journal that the house of commons cannot expel a member who is "legally" qualified to sit is not warranted by precedent, the only authority to which the commons bow, says an English writer.

English writer.

In the eighteenth century the south sea bubble caused many expulsions, al-though the members' defense had not been heard in the law courts. One of the victims was Chancellor of the Exthe victims was Chancellor of the Exchequer Alsiable, credited with having bagged £250,000 from the public. In addition to expulsion, he was sent to the Tower and ordered to refund his booty. An Irish peer was expelled for directing a lottery, while for organizing a "charitable association" of shady habits Sir Robert Sutton and two others were shut out in 1730. Steele of the Tatter was prohibited the house for "maliciously inslauating that the Protestant succession in the house of Hanover is in danger under her majesty's administration."

But perhaps the oddest reason for closing the doors of the house of commons upon a man is to be found in the case of Mr. Asgill, whose sin was that of writing a treatise "On the Possibility of Avoiding Death."—Philadelphia Ledger.

"We find in the letters we receive said the correspondence clerk, "son marvelous examples of simplified spel ing, some of these unconsciously pho-netic, some evidently deliberately in-

nette, some evidently deliberately in-tended, some that, though they serve their purpose wonderfully, verge on the comic. For instance, we received yesterday a letter from a man who starts off in this way: "'What fx would follow'— and so on. "Of course the meaning of that was perfectly plain, but the bookkeeper and I had to smile over it for a moment, and when we showed it to the stenog-rapher he said that the man who could write words:'like that ought not to stop at simplified spelling—he ought to go at simplified spelling—he ought to go right ahead and invent a new short-hand system."—New York Sun.

Chinese Idioms.

When a Chinese writer wishes to express that the wealthy parent of the heroine has set his affairs in order in her favor before dying his idiom is. "He has settled his piums." "To have plucked the kwei cassian tower" signifese gaining the master's degree at the fies gaining the master's degree at the triennial examinations. Their idiom for "Let there be no backsliding" is, "Let there be no absorption of sweat." A runaway wife is said by Liu Chia Chu to "carry her guitar to another door." When you wish to say that you have secured a vindication, you express it, "My adversary has been forced to paint my front door." When a great man dies they say, "A corner of the city wall has fallen" — J. S. Thompson's "The Chinese." ies gaining the master's degree at the

Green Turtles.

The green turtle finds its home in the coral reefs lying to the north of Jamaica, though it is found in other parts of the West Indies. The creature is caught by the employment of extremely strong nets, which are Interlaced between the rocks. Once caught laced between the rocks. Once caught the turtle is taken to Kingston, where it is kept in special sea water pens on the seashore. When in the pens the turtle is provided with a peculiar kind of sea grass, which it likes very much Curiously enough, when it is taken away from the West Indies it refuses to eat this grass. Indeed, it will die of starvation sooner than touch the grass, however carefully preserved. It takes eight pounds of flesh to make a

single quart of soup. The Wettins of England.
If the king of England

The Wettins of England.

If the king of England were to renounce the throne and resolve to become an ordinary citizen he would be called George Wettin. How does the name Wettin come to be the king's surname? This is the answer:

Queen Victoria married Albert, duke of Saxe-Coburg-Gotha, of the senior branch of the house of Saxony. The family name by which this house, dating from the middle of the tenth century, came to be known afterward was Wettin, and this was and is the surname of both branches—the Ernestine and Albertine—of the house of Saxony. The name comes from the castle of Wettin, near Magdeburg, which claimed Wittekind as the founder of the lace.—London Answers.

Preaching and Practice.

The college instructor should take pains to practice what he preaches. One member of a class in English composition brought his theme to the professor after recitation bour in order that the professor might read a marginal correction which he had written and which the pupil had been entirely unable to make out.

"Why." explained the professor. "that says, 'Write more plainly!"—Youth's Companion.

He Got the Limit.

Science Versus

Fraud

A Vast Fortune Was Sevet by Recently Discovered Science of the desth of the men on whose litres depended an immer fortune. This the Soglish doctor agreed to, and the representation to the Marketine with the Men Parketine of the Marketine with the Men Parketine with the

The expedient did not long delay trade from entering the neighborhood the framers of the trust gradually moving away or dying, and at the beginning of the present century the Hinchelwood extate. surrounded as it was by business property, was valued at \$1.000,000. Two of the nominees were living. Nicholans Baxter, aged ninety-two years, and Timothy Ogilsby, aged ninety-two years and six months.

two years, and Timothy Oglisby, aged ninely-two years and six months.

Here was \$5,000,000 dependent upon two lives that were sure soon to go out. It was to be expected that those who were heirs to these persons should take a marked interest in their longevity. If Baxter outlived Oglisby the estate would go to a great-great-grandniece living in America. If Oglisby lived the longer he had willed the whole property to a grandnephew living in London. The American candidate was Miss Gladys Hinchelwood, aged twenty, a descendant of the family who had originally owned the property, whose parents had emigrated to the new hemisphere before her birth. Both the aged men lived in London in houses situated on the Hinchelwood estate and across the street from each other.

One morning When Hispelwood was differed in the care of his nurse and Wrs. Hinchelwood had not yet regalaed the blood she had lost. It must be confessed that this patching up an old man with new kidneys and new windpipe did not make a new one of him. Besides, the operations could not have been performed tons could not have been p

One morning Miss Hinchelwood called at the Institute For Experimental Research and asked for Dr. Willard Searle, one of the staff. Dr. Searle was at the time substituting a death had occurred but a few minutes before for a diseased liver in an otherwise healthy man. As soon as the operation had been completed he went to the reception room, where he met Miss Hinchelwood. Since Dr. Searle was a bachelor of little more than thirty, a call from a young lady who possessed a remarkably intelligent if not beautiful face was not displeasing to him. The young lady announced the object of her call by giving an account of the formation of the Hinchelwood trust and her present interest in

It. Then she continued:
"Many of our vast American estates
have passed into the hands of British men by their marriage with our
heiresses. Here is a property which
hangs in the balance between an Englishman and an American girl, myself. Mr. Baxter and Mr. Oglisby are
ill in London. If my great-greatill in London. If my great-great-granduncle, Mr. Oglisby, lives the longer I shall inherit \$5,000,000. If Mr. Baxter survives him I shall get

Dr. Searle's interest was excited. Hinchelwood, "in magazines and other places of the wonderful work you are doing here in this institute. I underplaces of the wonderful work you are doing here in this institute. I understand that you are studying the very source of life. I have come to you to ask if you know of any method of prolonging a life that must soon pass from the body."

Dr. Searle leaned back in his chair, looked at the ceiling, then at the speaker, and said: "Well, go on."

"These two old men are likely to die within a few days, hours, minutes or even seconds of each other. Whoever survives the other owns the estate, which he may transmit to his helrs or, rather, has already willed. One in my interest in London has informed me that unfair means will be used to keep Mr. Baxter's death a secret in case he dies before Mr. Ogilsby, I desire to meet these unfair methods by scientific methods. I mean by this I would prolong Mr. Ogilsby's Mr. Ogilsby

rest."
"You would get that on the ocean."
In one week from that day Miss
Hinchelwood, accompanied by her
mother, met Dr. Searle in London, and
the three drove to the residence of Mr.
Ogilsby. He was in the care of a woman who had been his housekeeper for
many years, his wife having died some
forty years before, and he had never
begotten any children. Mrs. and Miss
Hinchelwood at once assumed charge
of the old man, dismissed his physician and placed him under Dr. Searle's
care. That he might not be obliged to care. That he might not be obliged to rely on any medical assistance in a foreign land, thus revealing any scien-

Science Versus
Fraud

A Vast Fortune Was Saved by Recently Discovered Scientific Treatment

By F. A. MITCHEL
Copyright by American Press Association, 1911.

Something over a century ago a maiden lady named Hinchelwood, the last of her line, died on her estate in the environs of London. The property was put on the market for sale, and, since the neighborhood was an aristocratic one in which a few old families of Assoon as Dr. Searle took charge of the sales of the fact that in the could cause his patient to remain alive a little longer than Mr. Baster he would be fully justified in meeting fraud by this menns.

A Vast Fortune Was Saved by Recently Discovered Scientific Treatment

These persons were to be cause in the card in the death and the hoûr, minute and second of the death of the mens to entire the certify to the death and the hoûr, minute and second of the death of the men whose lives depended an immense fortune. This the English doctor agreed to, and the representatives were appointed and admitted.

Miss Hinchelwood continued to be informed of the fact that the heirs on the opposite side of the street were hatching all kinds of devices to conceal the exact time of Mr. Baxter's death and that a living person would be placed in his bed if necessary to represent him. Upon this Dr. Searle stipulated with the physician in charge of the Baxter interests that the representatives should not only see the patient. The case had resolved itself to one between rascality and science. Dr. Searle felt that if he could cause his patient to remain alive a little longer than Mr. Baxter he would be fully justified in meeting fraud by this menns.

rowerer, was evicent from many festations opposite that Mr. Baxter was in the same condition. Oxygen tanks were seen being carried into the house, and this was in itself a bad sign for the life of the patient. Finally matters quieted down, and Dr. Searle, believing that Baxter was dead,

ly matters quieted down, and Dr. Searle, believing that Baxter was dead, started one of the servants out into the street with a report that Mr. Oglisby had died early in the morning. The announcement was immediately made that Mr. Baxter had just breathed his last, and the Oglisby representative was admitted to the room where he lay, finding him stiff and stark.

As soon as Dr. Searle knew that Baxter had passed away he summoned the representative in the Baxter interests into the room where Oglisby lay.

Now, the deaths of the two men, though Dr. Searle did not know it, occurred within half an hour of each other. But there was no reliable evidence which had died first. When the Baxter representative was called into the sick chamber, or, rather, the death chamber, Mr. Oglisby had expired forty minutes before. Just before he entered the room Dr. Searle made an incision over the dead man's heart, inserted his hand and clasped the organ. Then he began to squeeze it gently at interests, representing the heartheats.

yes opened.
Withdrawing his hand and covering Withdrawing his hand and covering the body to the chin, the doctor direct-ed that the Baxter representative be admitted. "Speak to me," said Searle. "Are you still living?"

"I am dying," was the response.
The doctor held up his watch to all present and asked them to note the time.

groaned that night. 'I'm very sorry for you. You are to marry my daughter—you were to have had \$35,000 a year—but the crash has come. I'm ruined now. How sorry I am. count!

"But Count Beau de Beau gave the New York—man a reassuring slap on the back."

"Oh, don't you worry about me, sir,' he said, with an easy laugh. 'With a title like mine, you know, I can flad another helress tomorrow.'"—Exchange.

"Overhang" Houses.

By the year 1670 wooden chimneys and log houses of the Plymouth and Bay colonies were replaced by more sightly houses of two stories, which rely on any medical assistance in a foreign land, thus revealing any scientific methods he might use, he brought with him one of the younger members of the staff of the — institute.

The Americans found the situation about as it had been described. Both men were on their "last legs." When the party drove up to the Oglisby restence it was evident that a commotion had been caused in the Baxter house opposite by the heads that appeared at the windows. The heir in case Baxter survived Oglisby was a Colonel Drummond of the British array, an old man, who would soon turn the property inherited over to a host of grandnephews and nieces, who had descended upon the house like vultures on a dying horse.

No sooner had Mr. Oglisby's case passed into the hands of the girl who would inherit in case of his survival beyond his rival for the property than every movement in and about the house was eagerly watched from across the street. Dr. Searie wrote to the physician in charge of Mr. Baxter suggesting that a person representing the Baxter isterest be admitted to the Oglishy residence. and vice versa.

SOCIAL LIFE IN FRANCE.

Indifference Plays Havoc With Happiness is in attention. The real wrong to the wife, the real failure of the husband, is when he becomes unconscious of what she is doing for him and what she is in herself. At first her ministries and her affection are delightful to him. Then perhaps they become a thing of course—received, enjoyed in a fashion but hardly thought of. And some times, though not so frequently, the wife becomes unthoughtful of her husband.

Perhaps into most marriages there creeps on one side or on both something of this indifference. Husband and wife live together in the chiefly external relation. He is the breadwin her; she is the housekeeper. They accept each other's good qualities as mer wear easy fitting clothes, without noticing. They put up with each other's defects as with a smoky chimney any other annoyance.

They would confess to no alienation. They have only got used to each other's defects as with a smoky chimney any other annoyance.

They would confess to no alienation. They have only got used to each other's it is the same "getting used" that robs life of its brightness; that makes us blind to the stars and the clouds and the bright procession of the day and year, because we have seen them so often; that keeps us mostly in a numbhalf allive state, from which only occasionally are we roused to feel that we are living in a divine universe and are ourselves divine.—George S. Merriam in "The Man of Today."

Orstory No Longer Soars.

ourselves divine.—George S. Merriam in "The Man of Today."

Knighthood For Women.

It is not at all well known that knighthood has constantly been conferred upon women. Many English ladies received the accolade, and many more were members of such knightly orders as the Garter and St. John. When Mary Cholmondeley, "the bold lady of Cheshire," was knighted by Elizabeth for "her valiant address" on the queen taking command at the threatened invasion by Spain, did she know that a whole city of Spanish women, the gallant women of Tortosa, had been knighted for saving that city from the Moors? Mary and Elizabeth from the Moors? Mary and Elizabeth had both been knighted at their core Then he began to squeeze it gently at intervals, representing the heartbeats, at first some tweety, then thirty, then sixty to the uniante. Presently color began to come in the cheeks, and the eyes opened.

Withdrawing his hand and covering the body to the chin, the doctor direct-

The Volcano of Kilauea.

Kilauea, on the Island of Hawaii, as high as Vesuvius and twice as wide, lies thirty miles from the sea in a mountain range. There have been sevaral outbreaks of Kilauea in the last hundred years. In 1840 there was a brilliant eruption of lava, the light of which, it was reported, could be seen a hundred miles away. Where the lava flowed through the forest it left curtous relics in the shape of lava arches, bridges and great vases. These vases were formed by the lava piling itself by. I desire to meet these unfair methods by selentific methods. I mean by this I would prolong Mr. Oglisby's life."

Dr. Searle arose from his char, paced the floor meditatively for several minutes, then said:

"Of course I should have to go to London."

"That you know better than I."

"I have been thinking of taking seed."

"The count and the shape of lava arches, and great vases. These vases were formed by the lava piling itself about some lofty tree trunk, burning away the wood within and killing the upper part of the tree. In the course of time seeds were deposited in the open top, filled with decaying bark. It is that time, but they lost the Hinchelwood estate.

"There's a New York man," said a ghout loss me lofty tree trunk, burning away the wood within and killing the upper part of the tree. In the course of time seeds were deposited in the open top, filled with decaying bark. It is that time, but they lost the Hinchelwood estate.

"There's a New York man," said a ghout some lofty tree trunk, burning away the wood within and killing the upper part of the tree. In the course of time seeds were deposited in the open top, filled with decaying bark. It is the weeks before the date set for the wedding he went to smash.

"My dear Count Beau de Beau." he groaned that nights."

PAPER MONEY.

It Was First Issued by Count de Ten-dilla at Alhambra. The Count de Tendilla, while besieg ed by the Moors in the fortress of Al hambra, was destitute of gold and sil

hambra, was destitute of gold and silver wherewith to pay his soldiers, who began to murmur, as they had not the means of purchasing the necessaries of life from the people of the town. "In this dilemma," says the historian, what does this most sagacious commander? He takes a number of little morsels of paper on which he inscribes various sums, large and small, and signs them with his own hand and name. These did he give to the soldiery in earnest of their pay. 'How,' you will say, 'are soldiers to be paid with scraps of paper?' Even so, and well said, too, as I will presently make manifest, for the good count issued a proclamation ordering the inhabitants to take these morsels of paper for the full amount inscribed, promising to redeem them at a future time with gold and silver. Thus by subtle and most deem them at a future time with gold and silver. Thus by subtle and most miraculous alchemy did this cavalier turn worthless paper into precious gold and silver and make his late impoverished army abound in money."

The historian adds, "The Count de Tendilla redeemed his promises like a loyal knight, and this miracle, as it appeared in the extending the property of the property o

peared in the eyes of the worthy Aga-pida, is the first instance on record of

GETTING UP STEAM.

He Was Prepared.

An honest old Philadelphia Quaker was refused a vote because he could hot show the necessary papers. He attempted to cast his ballot, but was turned down by an inspector.

"Why, my friend, thee knows me. Thee knows that I live in thy ward." said the Quaker.

"I know you by sight, but I must see your papers," was the reply.

"I would not tell thee a falsehood. I have the papers at home, and I will go and bring them to thee."

"Get the necessary papers and you can vote."

The old gentleman went home and got the papers and cast his ballot. The next year he again appeared at the polls and the same inspector challenged his vote.

brought them with me this time. Thee will not have the pleasure of having me walk a mile for them. I will bring them next year, too."—Washington Star.

Wall Street's Name.

Wall Street's Name.

Wall street for its name from a military wall or earthworks that was thrown up by the Dutch in 1654. The English colonists in Connecticut, laying claim to all the land "as far as the ocean," moved down and settled on Mestchester creek in what is now Bronx borough. The Dutch of New Amsterdam were in great fear of a bostile move down on them and sent they hastly built the wall from ivert to river to make sure of effective resistance if the enemy should decide to make a hostile move against New Amsterdam. For a time a regular patrol of soldiers was distributed along the military wall, detachments being a "signed to keep close guard over the two gates in the wall, from a the wall marked the northern boundary of the town of New Amsterdam.—New York Times.

The Ancient Dragon.

The pterodactyl, whose fossil remains have been found in the chalk at Cambridge. England, and elsewhere, at Cambridge. England, and elsewhere, with a very varied spread of wings, which in the largest specimens must have reached twenty-five feet, is almost identical with the dragon of fable. A batilike creature, with an elevated body and long neck ending in an absurdly small head with a portentous beak, it could run very swiftly, was a fish eater and could swim, or it flew by means of huge membranous wings, which connected its long fore quarters with its hind legs. The pterodactyl evidently existed down to a comparatively recent geological peria comparatively recent geological peri-ed, and it is not at all improbable that the traditional dragon is described from the last living specimens as met with by primitive man.

Lesson XIV. -- Fourth Quarter, For Dec. 31, 1911.

THE INTERNATIONAL SERIES.

(Instead of Review)—Memory Verses, iii, 16, 17—Golden Text, Mal. iii, 7. Commentary Prepared by Rev. D. M. Although a portion of this prophecy

has been assigned as our lesson, the lesson suggests a study of the whole has been assigned as our lesson, the lesson suggests a study of the whole prophecy. The words "my messenger" of ili, 1, are just a translation of the word "Malachi" of 1, 1, and through the messenger we learn "the burden of the word of the Lord," which is, "I have loved you" (1, 2). We are reminded of Deut, vil, 6-8, where the only reason given why the Lord chose them for a special people unto Himself is "because the Lord loved you." Compare Jer. xxxi, 3; John ili, 16; xili, 1; xv, 9; 1
John ili, 16. Who is this that so loves unlovely people? Even He who says: John III, 16. Who is this that so loves unlovely people? Even He who says: "I am a great King. My name shall be great among the nations. I am the Lord. I change not" (i, 11, 14; III, 6). What does He ask in return for such love? Simply that they hear His message, lay it to heart and give glory to His name, walking with Him in peace and equity, even as Levi did (il, 2, 5, 6), bringing in all the tithes and proving bringing in all the tithes and proving bringing in all the tithes and proving Him as ready to pour upon them more blessing than they could receive (ili, 10), for He is able to do exceeding abundantly above all we ask or think (Eph, ili, 20). How did they requite such love? They despised His name by offering polluted bread upon His altar, by offering the blind, the lame and the sick for sacrifice; by offering to the Lord what they would not offer their earthly ruler and by calling all their earthly ruler and by calling all their

They control the sight of the Lord with their words, saying, "Every one that does the vill is good in the sight of the Lord with their words, saying, "Every one that does the vill is good in the sight of the Lord with their words, saying, "Every one that does the vill is good in the sight of the Lord, and he delighteth in them" (ii. 17). They control the sight of the Lord, and he delighteth in them" (ii. 17). They obbed the Lord of hosts in tithes and offerings and yet said, "Wherein have we robbed thee? The said, "They benefit is it that we have kept lists of the lord of hosts in tithes and offerings and yet said, "Wherein have we robbed thee? The said, "They benefit is the said, "It is vain to serve God, and what profit is it that we have kept lists of the said," "Return unto Me, and I will return unto you. I will reduct the devourer, and all nations shall call you blessed, for ye shall be a delight to some land, saith the Lord of hosts" (ii. 7, 12). He is the same as when I be possesses on either the personal tractions of the butterfly, the terrification of the blue bottle. Under the possesses of the possesses of the presence of the spider nor the glaring imperfections of the blue bottle. Under the possesses of the possesses of the possesses of the presence of the spider nor the glaring imperfections of the blue bottle. The best of the spider is the possesses of the possesses of the presence of the spider nor the glaring imperfections of the blue bottle. The best of the spider is the possesses of the possesses of the presence of the spider of the glaring imperfections of the blue bottle. The possesses of the presence of the spider of the glaring imperfections of the blue bottle. The possesses of the possesses of the possesses of the possesses of the present of the possesses of the grant possesses of the possesses of the poss

ing of Christ with His saints of Zech. xiv, 5; I Thess. iii, 13, and the former passages just quoted when with His redeemed ones He will execute His can vote."

The old gentleman went home and got the papers and cast his ballot. The next year be again appeared at the polis and the same inspector challenged his vote.

"Surely thee would not have me got and well to get thee my papers?" asked the Quaker. "Thee must know that I have a vote."

"I thought the empty to exist the mission with the libror same inspector with the difference on the will not he ungodly and show merey to His land and His people. It the libror the time of redemption for the same inspector. That hangs on its hook, cracked, but still alive to mock you with

Touching.

Jennie-Everything he touches seems to turn to gold. Jim-Yes; he touched me foday for a sovereign.-London Opinion.

SUNDAY SCHOOL. IT IS NOT TOO LATE

in the season to have your old or defective heating apparatus changed You wont have to shiver while the work is being done. The fire can be lighted in the new plant the same day that it is put out in the old one.

EDWARD E. PARKER, Steam & Hot Water Heating

A, GRANT

The Popular Tailor

itemanded.

"A gentleman, madam!" young Mrs.
Plerce haughtily replied.

"Go to your room, madam," commanded Mrs. Fenwick severely, "and stay the rest of the day!"

And the little bride meekly obeyed.—
Youth's Companion.

The "Tawdry Saint."

The truest wisdom is a resolute determination.—Napoleon I.

Carefur.

He would have gathered her in a warm embrace, but she waved him back.

"No!" she said imperiously.

"You crush my heart." she answered, "than my gown."—London Tit-Bits.

Skin of the Turbot.
The skin of the turbot, cleaned, stretched and dried, is used by the Siberian peasants to form window names.
